Introduction

Occupational Employment and Wages in Hawaii, 2021 is published annually through a federal/state cooperative agreement between the U.S. Department of Labor, Bureau of Labor Statistics (BLS) and the Hawaii State Department of Business, Economic Development & Tourism. It contains employment and wage estimates for occupations derived from the Occupational Employment & Wage Statistics (OEWS) survey.

The OEWS survey solicited information from a sample of approximately 6,000 establishments throughout Hawaii in six consecutive semi-annual panels:

- May 2021
- November 2020, May 2020
- November 2019, May 2019
- November 2018

For more information about the OEWS survey, refer to the technical notes section of this report. The survey definitions and concepts are included at the end of this publication.

Every state conducts the OEWS survey following the same guidelines and BLS produces national employment and wage estimates. Therefore, data can be compared to the U.S. as well as other states. This report includes estimates for the State of Hawaii, Honolulu MSA, Maui MSA, Hawaii County, and Kauai County. BLS also publishes State and MSA data, but they do not publish County data. States use the Local Employment and Wage Information System (LEWIS) to produce employment and wage estimates for the counties. LEWIS was developed in North Carolina in cooperation with BLS and is currently maintained in Utah.

Wage data is one of the most frequently requested information and can be used in different ways. Jobseekers, employers, educational planners, workforce analysts, economists, and others use the information to formulate business economic policy, identify types of skilled workers needed, and structure training programs and vocational curriculum. The employment staffing patterns are used to project occupational employment. In addition, OEWS data are used to compute wages for the Foreign Labor Certification (FLC) program. However, employers should not use data in this publication as the prevailing wage for any FLC applications. For more information about this program, see www.foreignlaborcert.doleta.gov/

Highlights

- In May 2021, Hawaii's hourly median wage was $22.93. All areas of Hawaii have remained over the national median ($22.00) except for Hawaii County ($21.96).

- The largest major occupational group in Hawaii was office and administrative services ($22.04) with 13.1 percent of total employment, followed by food preparation and serving related occupations ($14.49) with 10.5 percent.

- Fast food and counter workers had the highest employment in Hawaii (17,560), accounting for 3.2 percent of total employment. Retail salespersons were next with 17,040 or 3.1 percent of the total.

- Management ($47.71) and healthcare practitioners ($47.12) remained the highest paid occupational groups in Hawaii, while the lowest-earning occupations fell under sales ($17.08), personal care ($14.69), and food preparation and serving ($14.49).

- The highest paid occupation in Hawaii was astronomers with a median hourly wage of $87.47, followed by dentists with $80.19

- The building and grounds cleaning and maintenance group still held the highest location quotient for the State (1.69) indicating a higher concentration of employment in Hawaii compared to the nation. Conversely, the production group had the lowest (0.36) location quotient.

Occupational Employment & Wages in Hawaii

Hawaii's estimated employment in May 2021 was 548,410 with a median hourly wage of $22.93.

Figure 1. Employment and Wage by Major Occupational Group, State of Hawaii, May 2021

Occupational Group	Emp	Median Hourly Wage
TOTAL, ALL OCCUPATIONS	548,410	$22.93
Office & Administrative Support	72,080	$22.04

Legal	4,190	$37.16
Farming, Fishing, & Forestry	1,690	$18.29

Major Occupational Groups

Hawaii's estimated employment in May 2021 was 548,410, with a median hourly wage of $22.93 (Figure 1).

Office and administrative support occupations topped the 22 major occupational groups with 13.1 percent (or 72,080) of Hawaii's jobs and had a median hourly wage of $22.04. The largest detailed occupation was general office clerks with 15,680 employees, followed by supervisors of office and administrative workers (7,500), then customer service representatives (7,340). The occupations with the highest hourly median wage within the office and administrative support group were executive secretaries ($36.95), postal service clerks ($30.87), and legal secretaries and administrative assistants ($29.16).

The second largest occupational group was food preparation and serving related occupations with 57,620 employees who earned a median hourly wage of $14.49. Within this group, fast food and counter workers had the largest total employment of 17,560, followed by waiters and waitresses (13,590) and food preparation workers (7,920). The jobs with the highest median pay were chefs and head cooks ($32.00), bartenders ($28.56), and waiters and waitresses ($28.43). At the lower end of the wage scale were fast food and counter workers ($12.45) and all other food preparation and serving related workers ($12.06).

Comparison to United States

Hawaii's median wage of $22.93 per hour continued to top the United States median of $22.00 per hour by an 4.2 percent difference. Wages in Hawaii were higher than their respective national averages in 16 out of the 22 major occupational groups. Table 1 lists all major groups with the wages for Hawaii and the U.S. sorted by Hawaii's median wage in descending order.

The top paid groups in Hawaii were management with a median hourly wage of $47.71, healthcare practitioners/technical earned $47.12, and architecture and engineering occupations received $39.72 an hour. On the opposite end of the scale, sales ($17.08), personal care ($14.69), and food preparation and serving ($14.49) were the lower paying groups.

Construction trade workers earned $35.76 locally compared to $23.18 nationally, which had the largest numerical difference of $12.58 and the greatest percent difference of 54.3 percent.

The wage for Hawaii's healthcare practitioners and technical workers ($47.12) surpassed the nation's ($36.08) with a $11.04 difference and 30.6 percent gap.

The farming, fishing and forestry industry had the third largest percent difference of 27.4 percent. Workers locally earned $18.29 per hour as-to $14.36 nationally, a $3.93 difference. This may be due to Hawaii's large farming and agricultural presence.

Although computer and mathematical workers in the State earn relatively high pay at $38.93 an hour, the national median of $46.90 far surpassed Hawaii. This group had the greatest numerical and percentage difference of -$7.97 or -17 percent, followed by business and financial occupations (-$4.77 or -13 percent).

Table 1. Wages by Major Occupational Group, Hawaii vs. United States, May 2021

		Median Hourly Wage		Difference in Wage	
SOC Code	Major Occupational Group	Hawaii*	U.S.	$	%
11-0000	Management	$47.71	$49.25	-$1.54	-3.1%

31-0000	Healthcare Support	$17.76	$14.37	$3.39	23.6%
41-0000	Sales and Related	$17.08	$14.71	$2.37	16.1%
39-0000	Personal Care and Service	$14.69	$14.16	$0.53	3.7%
35-0000	Food Preparation and Serving Related	$14.49	$13.65	$0.84	6.2%

Location Quotient

The location quotients for the major occupational groups in Hawaii as compared to the nation are displayed in Figure 2. If this ratio is greater than one, it indicates the occupation has a higher share of employment than the U.S. A location quotient less than one means the occupation is less porevalent in Hawaii than the nation.

In Hawaii, the following occupational groups had the highest location quotients: building, grounds cleaning, and maintenance group (1.69); protective service (1.48); community and social service (1.40) and life, physical and social science (1.36).

The occupational groups with the lowest location quotients were: business and financial operations (0.77); computer and mathematical (0.63); and production (0.36).

Figure 2. Location Quotient by Occupational Group, Hawaii compared to United States, May 2021

Occupational Group	Emp	Location Quotient
Building/Grounds Cleaning & Maint.	27,050	1.69
Protective Service	19,480	1.48

Production	11,870	0.36

Largest Occupations

Hawaii's top 20 detailed occupations with the largest estimated employment in 2021 are shown in Table 2. Hawaii's largest occupation was fast food and counter workers which provided jobs to an estimated 17,560 workers and accounted for 3.2 percent share of total employment. Retail salespersons and cashiers, both sales jobs ranked second and fourth largest, earned $14.36 and $13.98, respectively. General office clerks held the third highest employment of 15,680 or 2.9 percent of total employment.

Food preparation and serving and office and administrative support groups accounted for eight of the largest occupations.

Of the top 20 largest detailed occupations, only four had median hourly wages above the statewide average of $22.93: general and operations managers ($46.18); registered nurses ($53.40); supervisors of office and administrative support workers ($29.02); and general maintenance and repair workers ($22.96). This shows that many of Hawaii's workers are employed in below-average paying jobs. However, Hawaii's median hourly wages exceeded national earnings in all occupations except general and operations managers and supervisors of office and administrative support workers.

Table 2. Hawaii's Top 20 Occupations with the Largest Employment, May 2021

			% of Total		Median Hourly Wage	
SOC Code	Detailed Occupation	Emp	Emp	LocQ	Hawaii	U.S.
35-3023	Fast Food and Counter Workers	17,560	3.2%	1.46	$13.75	$12.07

Highest Paid Occupations

The top 20 occupations with the highest pay in Hawaii are shown in Table 3. Most occupations fell under the healthcare practitioners and management major groups. Healthcare practitioners accounted for eight occupations on the list, and there were six management occupations. Hawaii reported higher median hourly wages in 14 of the 20 occupations compared to the United States, which is very favorable.

Astronomer job holders were employed at 15.14 times the national rate in Hawaii, where they made $87.47 per hour and showed the greatest difference in pay of $25.85 when compared nationally.

Between the first (astronomers, $87.47) and the last (registered nurses, $53.40) job titles listed, there was a $34.07 difference in pay.

Table 3. Hawaii's Top 20 Occupations with the Highest Pay, May 2021

		Median Hourly Wage			
SOC Code	**Detailed Occupation**	**Hawaii**	**U.S.**	**Emp**	**LocQ**
19-2011	Astronomers	$87.47	$61.62	110	15.14

MSA and County Employment and Wages

Honolulu MSA's median wage of $23.17 continued to exceed the state hourly rate (Figure 3). Workers in Maui MSA received the next highest hourly rate of $22.70, followed by Kauai County earning $22.37, and Hawaii County taking home the lowest wage of $21.96. All areas of Hawaii have remained over the national median of $22.00 except for Hawaii County.

Table 4 displays the employment for each MSA and County by major occupational group.

Occupational Employment and Wage Data, May 2021 - State of Hawaii

SOC Code	Occupational Title	Employment	Mean Hourly	Mean Annual	Median Hourly	Median Annual
53-7081	Refuse and Recyclable Material Collectors	660	$24.03	$49,980	$23.12	$48,090

Data is prepared by Dept. of Business, Economic Development & Tourism, Labor Research Branch (OEWS) in cooperation with BLS.
N/A = Estimate is not available.
**This wage is equal to or greater than $100.00 per hour or $208,000 per year.*
Notes: Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.
Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been dirctly calculated from the reported survey data.
Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

Data is prepared by Dept. of Business, Economic Development & Tourism, Labor Research Branch (OEWS) in cooperation with BLS.

N/A = Estimate is not available.

**This wage is equal to or greater than $100.00 per hour or $208,000 per year.*

Notes: Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been dirctly calculated from the reported survey data.

Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

Data is prepared by Dept. of Business, Economic Development & Tourism, Labor Research Branch (OEWS) in cooperation with BLS.

N/A = Estimate is not available.

**This wage is equal to or greater than $100.00 per hour or $208,000 per year.*

Notes: Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been dirctly calculated from the reported survey data.

Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

Occupational Employment and Wage Data, May 2021 - Hawaii County

Data is prepared by Dept. of Business, Economic Development & Tourism, Labor Research Branch (OEWS) in cooperation with BLS.

N/A = Estimate is not available.

**This wage is equal to or greater than $100.00 per hour or $208,000 per year.*

Notes: Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been dirctly calculated from the reported survey data.

Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

53-1047	First-Line Supervisors of Transportation and Material Moving Workers, Except Aircraft Cargo Handling Supervisors	80	$26.01	$54,100	$23.47	$48,810
53-2012	Commercial Pilots	30	N/A	$108,730	N/A	$98,820
53-3031	Driver/Sales Workers	N/A	$15.91	$33,090	$13.59	$28,270
53-3032	Heavy and Tractor-Trailer Truck Drivers	170	$25.94	$53,960	$23.51	$48,900
53-3033	Light Truck Drivers	190	$20.07	$41,740	$17.62	$36,650
53-3051	Bus Drivers, School	70	$21.98	$45,720	$22.78	$47,390
53-3053	Shuttle Drivers and Chauffeurs	50	$19.50	$40,570	$14.40	$29,950
53-5021	Captains, Mates, and Pilots of Water Vessels	50	$25.31	$52,640	$23.69	$49,270
53-6021	Parking Attendants	30	$14.61	$30,390	$14.44	$30,050
53-7061	Cleaners of Vehicles and Equipment	50	$14.94	$31,080	$14.11	$29,360
53-7062	Laborers and Freight, Stock, and Material Movers, Hand	260	$21.22	$44,130	$20.38	$42,390
53-7064	Packers and Packagers, Hand	80	$16.03	$33,350	$14.42	$29,990
53-7065	Stockers and Order Fillers	380	$16.17	$33,640	$14.39	$29,940
53-7081	Refuse and Recyclable Material Collectors	N/A	$22.95	$47,730	$23.34	$48,550

Data is prepared by Dept. of Business, Economic Development & Tourism, Labor Research Branch (OEWS) in cooperation with BLS.

N/A = Estimate is not available.

**This wage is equal to or greater than $100.00 per hour or $208,000 per year.*

Notes: Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been dirctly calculated from the reported survey data.

Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

Technical Notes

Scope of Survey

The OEWS survey is a semiannual survey measuring occupational employment and wage rates for all full- and part-time wage and salary workers in nonfarm establishments. The OEWS survey is funded by the Bureau of Labor Statistics (BLS) and the State of Hawaii. BLS provides the procedures and technical support, while the State Workforce Agencies (SWAs) collect most of the data. Cross-industry estimates for the nation, states, metropolitan statistical areas (MSAs), and nonmetropolitan area levels are produced. BLS releases cross-industry estimates at all levels. The OEWS survey samples and contacts approximately 1,000 establishments in May and November of each year. Responses are obtained by Internet or other electronic means, mail, email, telephone or personal visit. In the course of a three-year survey cycle, over 6,000 establishments are contacted with a minimum 75 percent response rate. While estimates can be made from one or two years of data, the three-year sample allows the production of estimates at finer levels of geographic, industrial, and occupational detail.

The Occupational Coding System

The OEWS survey categorizes workers into approximately 830 detailed occupations based on the Office of Management and Budget's Standard Occupational Classification (SOC) system, which is used by all federal statistical agencies for reporting occupational data. These detailed occupations make up 22 of the 23 major occupational groups. Major group 55, Military-Specific Occupations, is not included. For more information about the SOC, see the Bureau of Labor Statistics web site at https://www.bls.gov/soc/.

The Industry Coding System

The May 2021 OEWS estimates use the 2017 North American Industry Classification System (NAICS). The OEWS survey does not cover the self-employed, owners and partners in unincorporated firms, private household workers, or unpaid family workers. It also excludes the majority of the agricultural sector, with the exception of logging (NAICS 113310), support activities for crop production (NAICS 1151), and support activities for animal production (NAICS 1152). OEWS federal government data include the U.S. Postal Service and the federal executive branch only. All other industries, including state and local government, are covered by the survey. For more information about NAICS, visit the BLS website at https://www.bls.gov/bls/naics.htm.

Survey Sample

The OEWS survey draws its sample from the State Unemployment Insurance (UI) files. Supplemental sources are used for rail transportation (NAICS 4821) because they do not report to the UI program. The OEWS survey sample is stratified by metropolitan and nonmetropolitan area, industry

and size.

To provide the most occupational coverage, larger employers are more likely to be selected than smaller employers. A census is taken of the executive branch of the federal government, the U.S. Postal Service and the state government.

Estimation Methodology

The May 2021 estimates were produced by a model-based estimation method using three years of OEWS data (MB3). Under MB3, data provided by survey respondents are used to model occupational staffing patterns and wages for all unobserved establishments in the population, including establishments that were not sampled, sampled establishments that did not respond, and respondents that did not meet stability criteria.

A donor pool typically consisting of 10 nearest neighbor responding establishments is used to predict data for each unobserved establishment; if 10 donors are not available, then as few as 5 can be used. Donors are matched to recipients based on detailed industry, geographic area, ownership, size and survey panel. Within a given donor pool, donors that are more similar to the unobserved establishment are given more weight in determining the modeled data.

Each establishment's population employment is set as the average of its May 2021 and November 2020 employment from the Quarterly Census of Employment and Wages, the UI database from which the OEWS sample is drawn. Using adjustment factors derived from the OEWS survey data, wages collected in earlier survey panels are adjusted to the reference data of the estimates and donor wages are adjusted for differences between donor and recipient characteristics such as geographic area and industry.

Changes and Special Procedures in the May 2021 Estimates

With the May 2021 estimates, the OEWS program has implemented a new estimation method. This new model-based mthod, called MB3, has advantages over the previous estimation method, as described in the Monthly Labor Review article at www.bls.gov/opub/mlr/2019/article/model-based-estimates-for-the-occupational-employment-statistics-program.htm. For more information, see the May 2021 Survey Methods and Reliability Statement at www.bls.gov/oes/methods_21.pdf.

The May 2021 estimates are the first OEWS estimates based entirely on survey data collected using the 2018 SOC. The May 2019 and May 2020 estimates were based on a combination of survey data collected using the 2010 SOC and survey data collected using the 2018 SOC and used a hybrid of the two classification systems. See www.bls.gov/soc/2018 for more information.

May 2021 OEWS data are available for most 2018 SOC detailed occupations. To improve data quality, the OEWS program has replaced some 2018 SOC

detailed occupations with SOC broad occupations or OEWS-special aggregations.

Response rates for the May 2021 estimates were negatively affected by the difficulty of collecting data from employers during the COVID-19 pandemic. Lower response rates may negatively affect data availability and data quality.

For More Information

Answers to frequently asked questions about the OEWS data are available at www.bls.gov/oes/oes_ques.htm.

Published Data

This report provides occupational employment and wages for approximately 584 occupations in the State of Hawaiʻi, over 516 occupations in Honolulu MSA, and roughly 222 occupations in Maui County. The data in this report are also available on the internet at the BLS website https://www.bls.gov/oes/current/oes_hi.htm. National data, more technical information on the survey, and occupational descriptions can be obtained at www.bls.gov/oes/.

County Wages

OEWS data for Hawaii and Kauai County are not published by BLS. Although the data are collected as part of the BLS OEWS survey guidelines, they are combined and released as 'Balance of State'. In order to produce estimates for these counties, the Local Employment and Wages Information System (LEWIS), developed by the North Carolina Department of Commerce in cooperation with the BLS and the OEWS Policy Council was used. Currently, LEWIS is maintained by the State of Utah Department of Technology Services.

Survey Definitions and Concepts

The following concepts and definitions are used in the OEWS Survey.

Employment is the number of persons employed in an occupation. It includes full-time or part-time employees; workers on paid vacations or other types of paid leave; salaried officers, executives, and staff members of incorporated firms; employees temporarily assigned to other units; and employees for whom the reporting unit is their permanent duty station regardless of whether that unit prepares their paycheck. Excluded are the self-employed, owners/partners of unincorporated firms, and unpaid family workers. Employees are reported in the occupation in which they are working, not necessarily for which they were trained.

Occupational employment represents an estimate of total wage and salary employment in an occupation across the industries in which it was surveyed. The data for specific occupations are collected from establishments within industries that are the predominant employers of labor in those occupations.

Metropolitan Statistical Area (MSA) is an area consisting of a group of contiguous cities and towns, which contains at least one central city of 50,000 inhabitants or more, or a Census Bureau-defined urbanized area (of at least 50,000 inhabitants).

SOC Code: a six-digit Standard Occupational Classification code. Each of the 800+ detailed occupations used in the OEWS survey is categorized into one of 22 major occupational groups, designated by the first two digits of its SOC code:

11 Management
13 Business and Financial Operations
15 Computer and Mathematical
17 Architecture and Engineering
19 Life, Physical, and Social Science
21 Community and Social Services
23 Legal
25 Education, Training, and Library
27 Arts, Design, Entertainment, Sports, Media
29 Healthcare Practitioner and Technical
31 Healthcare Support
33 Protective Service
35 Food Preparation and Serving
37 Building & Grounds Cleaning & Maintenance
39 Personal Care and Service
41 Sales
43 Office and Administrative Support
45 Farming, Fishing, and Forestry
47 Construction and Extraction
49 Installation, Maintenance, and Repair
51 Production
53 Transportation and Material Moving

Wages for the OEWS survey are straight-time, gross pay, exclusive of premium pay. Included are base rate, cost-of-living allowances, guaranteed pay, hazardous-duty pay, incentive pay including commissions and production bonuses, tips, and on-call pay. Excluded are overtime pay, severance pay, shift differentials, non-production bonuses, employer cost for supplementary benefits, and tuition reimbursements.

Annual Wage estimates for most occupations in this release are calculated by multiplying the mean wage by a "year-round, full-time" hours figure of 2,080 hours per year (52 weeks by 40 hours). Thus, the annual wage estimates may not represent the actual annual pay received by the employee. Some workers typically work less than 40 hours per week, year round. For these occupations, the OEWS survey collects and reports either the annual salary or the hourly wage rate, depending on how the occupation is typically paid, but not both. For example, teachers, flight attendants, and pilots may be paid an annual salary, but do not work the usual 2,080 hours per year. In this case, an annual salary is reported. Other workers, such as entertainment workers, are paid hourly rates, but generally do not work 40 hours per week, year round. For these workers, only an hourly wage is reported.

Mean Hourly Wage is the total wages that all workers in the occupation earn in an hour divided by the total employment of the occupation. To calculate the mean hourly wage of each occupation, total weighted hourly wages are summed across all intervals and divided by the occupation's weighted survey employment.

Median Wage is the estimated 50th percentile of the distribution of wages based on data collected from employers in all industries; 50 percent of workers in an occupation earn wages below, and 50 percent earn wages above the median wage.
