A Report to the Legislature of the State of Hawaii
as Required by Act 150, SLH 2006

HAWAII'S SISTER-STATE PROGRAM

The Department of Business, Economic Development and Tourism (DBEDT) has established close working relationships with foreign governments and non-governmental organizations, federal agencies and national organizations. These relationships serve to raise Hawaii's profile internationally, attract dynamic cooperative programs and stimulate Hawaii's economy. Many of these projects fall under DBEDT's Sister-State program.

In 1993, DBEDT recognized in a report that in establishing sister relationships, economic benefit should be co-equal to the "historic purposes of friendship, cultural ties, and goodwill." Consequently, any Sister-State relationship must provide for clear economic benefits. Hawaii's Sister-State Policy was based on the following criteria:

- Strong evidence of interest by the potential Sister-State.
- Clear prospects for mutual economic advantage.
- Substantial grassroots support for the relationship.
- A strong record of activities.
- Potential for expanded cultural, educational and government exchanges.

The report went on to state that:

- Sister-State relationships are partnerships between governments, but require active and ongoing participation by the private sector to sustain the relationship.
- Because the State's capacity to manage Sister-State relationships is finite, a means of terminating moribund or defunct relationships should be provided.

SISTER-STATES PROCESS

The following is the process for establishing a Sister-State relationship:

- A detailed application form will be provided after initial consultation with DBEDT regarding a proposed relationship. The form to be filled out by proposer will include questions on such areas of possible linkages such as geography, economic structure, cultural resources, primary industries, foreign trade and business, and sports.
- DBEDT will make a preliminary review and develop a recommendation to the Governor.
- The Governor will review the recommendation and either hold the recommendation or forward it to the Legislature.

- The Legislature will then adopt a concurrent resolution which authorizes the Governor to enter into an agreement with the prospective Sister-State.
- DBEDT and the prospective sister develop the mechanics and language of the agreement and subsequent program of cooperation.

SISTER-STATE COMMITTEE

The Sister-State Program is governed by Hawaii Revised Statutes, Chapter 229 – Sister-State and Province Relationships. As part of this statute from 2006, a Hawaii Sister-State Committee was created (see Hawaii Revised Statutes 229-2 – Hawaii Sister-State Committee) within DBEDT in order to, “advise the Governor and the legislature on matters relating to Sister-State or province relations and relations, in general, between the State and the states or provinces of foreign countries.”

The Governor appoints five members, one member from each of five lists of nominees submitted respectively by the following: (1) Speaker of the House of Representatives; (2) President of the Senate; (3) Native Hawaiian cultural organization; (4) East-West Center; and (5) Hawaii State Association of Counties.

The Sister-State Committee periodically meets to consider Sister-State applications and other related business.

As of 2017, the Hawaii Sister-State Committee had four active members and awaits the nomination and appointment of one additional member representing the Hawaii State Association of Counties. With three committee members constituting a quorum, the Committee is still able to meet and continue its focus on the following goals and objectives:

- 1. The Committee takes an active role in evaluating prospective and current sister relationships, for both cultural and economic development reasons, with attention to fostering the most productive ties.**

There is agreement that most successful sister relationships occur when:

- a. There is commonality between Hawaii and the sister, primarily from geographical, historical, cultural or economic standpoints.
 - b. There are active and interested support groups, such as Chambers of Commerce, cultural and civic associations.
 - c. There are economic benefits for both sisters, such as increased numbers of visitors, or enhanced investment or marketing opportunities.
 - d. Close ties have been established between educational institutions of the two potential sisters, including both student and faculty exchanges.
 - e. There is a clear, strong governmental interest in not only forming, but maintaining the relationship.
- 2. To ensure the productivity and viability of a sister relationship, the Committee has further reviewed and revised the sister-state application form. Last year the Committee also reviewed and revised the Policies and Procedures Manual which governs the process of nominating and evaluating prospective and existing sister-states.**

In addition to completing the revised application form, additional requirements include:

- a. A letter from the Governor of the proposed sister.
 - b. A designated point-of-contact person.
 - c. Recent activity reports between Hawaii and the proposed sister.
 - d. Recommendations for future activities.
- 3. The Committee periodically reviews the activities of each sister relation to determine which ties should be strengthened and which should be severed. The State has 17 sister relationships, dating back to 1981.**

INDONESIA

Bali, Indonesia (2014)

The watershed village project remains active, and the Hawaii Indonesia Chamber of Commerce (HICHAM) has informally partnered with another organization to seek federal/international funding, which has been diligently pursued throughout 2016. The Bali village project essentially mirrors an Ala Wai watershed cleanup/mitigation project, which is likely to receive funding first as a means of proof of the systems approach concept here on Oahu before it is carried to Bali. HICHAM is looking to transition into the initial assessment work and preliminary feasibility studies for the Bali village watershed project in late 2017.

In addition to the substantial efforts involved in developing the funding sources above, HICHAM coordinated with the Consulate General of Indonesia in Los Angeles to recruit Indonesian firms to participate in the annual Hawaii Lodging, Hospitality and Foodservice Expo. During the expo, HICHAM served as the coordinating organization for a cordial visit. Conversations on the status of the Hawaii-Bali sister-state relationship, as well as the potential for developing other relationships, and business between Hawaii and Indonesia took place with Governor Ige.

In Mid-November 2016, HICHAM's Chairman David Day conducted a lengthy briefing for an economic team from the Indonesia Embassy in Washington, D.C. The Embassy was interested to learn more about Hawaii's potential business with Indonesia and about the sister-state relationship. The Embassy is currently undertaking the development of a white paper to detail how Indonesia might work to improve its 2-way business with the State of Hawaii.

In September 2017, four prefectural officials from Ehime met with DBEDT staff to discuss their plans for a bicycling event to be held in Ehime. During the visit, they also participated in the Honolulu Century Ride bicycling event organized by the Hawaii Bicycling League. They promoted the 2018 Ehime bicycling event by distributing flyers and other promotional items.

Hokkaido (2017)

On Tuesday, November 21, 2017, DBEDT assisted a delegation of seven legislative members and administrators from the Tomakomai (Hokkaido) Port Authority with arranging a courtesy visit with Hawaii state legislators and port administrators. This delegation, led by Noriomi Kambe, speaker of the Tomakomai Port Authority Assembly, is a result of the recent Hawaii-Hokkaido sister-state agreement signed May 8, 2017, and a follow-up to the Japan External Trade Organization (JETRO) sponsored Hawaii Investment Seminar held on September, 11, 2017, in Sapporo.

Driven by the desire of Hokkaido to increase trade activity with Hawaii, the focus of the discussion was about increasing the amount of shipping from Tomakomai Port to Honolulu and other ports, thereby increasing the trade of products. An outline presentation was given by Port Authority Executive Vice President Hideo Sasaki, explaining the volume of traffic, containers, and trade conducted through the port. A lively question and answer session followed where Hawaii and Tomakomai shared information about their respective areas to compare and contrast their respective positions.

The delegation was later hosted by the State Department of Transportation (DOT) Harbors Division, who delivered a presentation on the current initiatives of renovating and expanding Honolulu Harbor as well as other key harbors around the state. The visit concluded with a tour from the vantage point high up Aloha Tower, where the delegation could view the entire Honolulu Harbor operations, as well as planned areas of expansion.

The evening of Monday, May 8, 2017, marked the culmination of several months of long discussions, meetings and planning, when the sister-state relationship between the State of Hawaii and Hokkaido Prefecture was officially realized.

Over 400 guests were greeted by the extremely energetic Hokkaido Intercultural and Technology High School Brass Band performing Bruno Mars, then the Star-Spangled Banner, and finally Kimi Ga Yo, the Japanese national anthem.

Agreements in English and Japanese were signed by Hawaii Governor David Ige, Hokkaido Governor Harumi Takahashi, House Speaker Scott Saiki, Senate President Ronald Kouchi, and Hokkaido Assembly Speaker Ren Endou.

In addition to a buffet of delicious Hawaiian food, guests were treated to samples of Hokkaido specialties supplied by various restaurants in Honolulu that offer Hokkaido tastes.
