INTRODUCTION

About This Report

This report, *Native Hawaiian Population by County, Island and Census Tract in the State of Hawaii: 2010*, was produced by the Hawaii State Data Center which is part of the Hawaii State Department of Business, Economic Development & Tourism (DBEDT) . The data included here were obtained from the U.S. Census Bureau, 2010 Census Summary File 1. The thematic maps were produced by the Hawaii State Office of Planning's GIS Program.

The category of "race alone" consisted of individuals who chose only that one race. "Race alone or in combination" referred to the number of responses in which an individual chose either that one race or that same race in combination with another race or races. For example, if an individual chose the race groups of both Native Hawaiian and Chinese, that individual's response would be counted in both the Native Hawaiian "race alone or in combination" column as well as the Chinese "race alone or in combination" column. For the Native Hawaiian group, this count represented all persons saying they were, for example, either a full or part "Native Hawaiian". It should be noted that "race alone or in combination" figures refer to number of "responses" and not individuals, so their sum would exceed the total population.

The small areas used in this report were based on the U.S. Census Bureau's geographic level of census tracts. In 2010, there were 321 census tracts in our state which contained population. Populations in the census tracts ranged from 1 to 11,012 people.

The following tables and maps show the distribution of "race alone" and "race alone or in combination" populations. The tables and maps show the actual number as well as the percentage of the total population that number represents in each geographic area. Data on the number of people in a racial group are useful, especially when searching for large numbers of that specific group. The percentage of the area's population composed of a certain racial group is a good indicator of population concentration.

Having statistical information locating where clusters of racial groups currently live in Hawaii may be beneficial to businesses as well as to other organizations.

Businesses will be able to make more knowledgeable decisions based on where their target population is located or knowing who their customers are in a specific location. Some crucial questions regarding the area may be answered by knowing its demographic characteristics. For example, a certain type of ethnic food may sell much better in one place versus another. Familiarity of cultural practices and sensitivities might add to the success of a business, too.

Other types of organizations may use this data in deciding where they should open an office or how to best serve the majority of their clientele in a particular area. If an area has a significant number of people in a specific racial group, having people who speak their language on the organization's staff may be helpful. Careful consideration of interactions and customs of families of that racial group may also add to the effectiveness of their staff in delivering services.

It should be noted, though, that other factors influence the needs and characteristics of racial groups. For example, was the person born here or did they come from another country? If they are from another country, when did they migrate here? This report provides some basic data. Researchers who are interested in more in-depth analyses of detailed race groups by small areas will be able to use additional census data being released by the Census Bureau's American Community Survey.

The present report is a part of the 2010 Census racial group report series being released by DBEDT.

Statewide, there were 80,337 people in the Native Hawaiian “race alone” group. The Native Hawaiians were the 4th largest “race alone” group in Hawaii and comprised about 6 percent of our resident population in 2010.

There were 289,970 responses in the Native Hawaiian “race alone or in combination” group. This group was the 4th largest “race alone or in combination” group and made up about 21 percent of Hawaii’s population.

They had Native Hawaiian “race alone” populations of 2,836 and 1,838 respectively. Other top areas on Oahu were in the Waianae area. The neighbor island areas of the Big Island (Hilo: Keaukaha-Pana'ewa and Waimea-Pu'u Anahulu) and Molokai (East Molokai) had significant numbers of Native Hawaiians and were ranked #3, #8 and #10, respectively.

10	97.03	Oahu	Lualualei-Camp Waianae	6,227	24.9

A look at census tracts with the highest percentage of the Native Hawaiian “race alone” group revealed that half were on a neighbor island. Ni'ihau-Kaula was first with 86 percent of its people in this category. Two Molokai Island areas were among those with the highest percentages – Kalawao (41 percent) and West Molokai (27 percent), while Maui Island's Hana also had 27 percent of its population in this race group. Another neighbor island area was Hilo: Keaukaha-Pana'ewa on the island of Hawaii with 30 percent of its population in the Native Hawaiian “race alone” group. The following areas on Oahu with high percentages and populations of over 100 rounded off the listing: Waimanalo Beach-Homestead, Nanakuli and Lualualei-Camp Waianae.

10	96.08	Oahu	Lualualei Transmitter	5,682	3,299

Almost all of the top areas with the largest population of Native Hawaiian “race alone or in combination” that were located on Oahu were in the Waianae portion of the island. The only exception was the area of Waimanalo-Beach Homestead which was in the Koolaupoko area of the island. Three Big Island locations had large Native Hawaiian population. They were Waimea-Pu'u Anahulu, Hawaiian Paradise Park, and Hilo:Keaukaha-Pana'ewa.

The census tract with the highest percentage of the Native Hawaiian “race alone or in combination” group was Ni'ihau-Kaula with 88 percent of its people in this category. Half of the top ten census tracts were on the neighbor islands. It included two Molokai Island areas (West Molokai with 68 percent and East Molokai with 58 percent); the Big Island area of Hilo: Keaukaha-Pana'ewa with 65 percent; and Hana on Maui Island with 57 percent. Ranked #2 was Waimanalo Beach-Homesteads located in the Koolaupoko portion of Oahu. The following Waianae areas on Oahu completed the listing: Nanakuli, Lualualei-Camp Waianae, Lualualei Transmitter area, and Makaha.
