

A look at the Los Angeles website

<http://www.census.gov/rolax/www/>

The screenshot shows a Netscape browser window displaying the U.S. Census Bureau website for the Los Angeles region. The browser's address bar shows the URL <http://www.census.gov/rolax/www/>. The website header includes the U.S. Census Bureau logo and a navigation bar with links like "Find Out What's Happening". A red sidebar on the left contains a menu with items such as "Welcome", "Resources and Services", "Programs and Surveys" (circled in red), "Partners", "Information", "Regional Fun Facts", "Regional Employment", "About the Region", "Contact Los Angeles", "Find Other Regions", and "Census Home". The main content area is titled "The Los Angeles Region" and features a blue box with the text "Helping you make informed decisions". Below this is a map of Southern California and Hawaii, with a mission statement: "Our mission is to be the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States." To the right of the map is a photograph of three children. Contact information for the Los Angeles Regional Office is provided, including the address, phone number, fax number, and email address. At the bottom of the page, there is a navigation bar with links for "Census 2000", "Subjects A to Z", "Search", "Product Catalog", "Data Tools", "FOIA", "Quality", "Privacy Policies", "Contact Us", and "Home". The footer of the website reads "USCENSUSBUREAU" and "Helping You Make Informed Decisions • 1902-2002".

Resources and Services

[Workshops/Presentations](#) - request or attend a workshop or presentation by census staff to learn more about census data and how to use it.

[State Data Centers](#) - provide training and technical assistance in accessing and using Census Bureau data for state, regional, local, and tribal governments, and non-governmental data users, at no charge or a small fee.

[Census Information Center Program](#) - a cooperative program between the census Bureau and 57 nonprofit organizations that make census information and data available to the public and communities they serve.

[Genealogy](#) - learn what information can and can't be obtained from past census records.

[Federal Statistics](#) - official statistical information available to the public from the federal government. Obtain information on economic and population trends, health care costs, aviation safety, foreign trade, energy use, farm production, and more.

[American Factfinder](#) - access the information you need from the wealth of social, demographic, and economic statistics available from the Census Bureau.

[Depository Libraries](#) - a list of Federal Depository Libraries in California and Hawaii.

[Los Angeles Region Geography](#) - access information on geographic programs, products, and services.

[Minority Links](#) - quick and easy links to the latest data on racial and ethnic populations in the United States.

[Statistical Abstract](#) - selected features from the National Data Book and order information.

Map Products

[Census 2000 Geographic Product Highlights](#) - a printable flyer that describes many Census 2000 geographic products and their availability.

[American Factfinder](#) - click on Reference Map and follow the instructions. Census blocks and tracts can be viewed, as well as street features. This is adequate for fairly small levels of geography, like a small community, but would probably not be desirable for a larger level of geography.

Census 2000 Redistricting Maps in Portable Document format
(Block, Tract and Voting District level maps)
Map images of the maps that were sent to the Redistricting Data officials can be viewed and printed. The maps were created as 33"x36" sheets, however, the Adobe Reader allows one to pan and zoom within the image on your computer screen. This is probably the best format for most data users.

[Download block level maps for California](#)

[Download block level maps for Hawaii](#)
(The State of California did not participate in the Voting District Program.)
