

2006 ACS Combined Race Grouping Tables

Selected Population Profiles

[Race Alone \(for major race groups\)](#)

(includes Total population; White race alone; Asian race alone; and Native Hawaiian and Other Pacific Islander race alone)

[Race Alone or in Combination \(for major race groups\)](#)

(includes Total population; White race alone or in combination with one or more other races; Asian race alone or in combination with one or more other races; and Native Hawaiian and Other Pacific Islander race alone or in combination with one or more other races)

[Asian Race Alone \(for detailed Asian race groups\)](#)

(includes Total population; Asian race alone; Filipino race alone; and Japanese race alone)

[Asian Race Alone or in Combination \(for detailed Asian race groups\)](#)

(includes Total population; Asian race alone or in combination with one or more other races; Chinese race alone or in any combination; Filipino race alone or in any combination; and Japanese race alone or in any combination)

[Native Hawaiian and Other Pacific Islander Race Alone \(for detailed Native Hawaiian and Other Pacific Islander race groups\)](#)

(includes Total population; Native Hawaiian and Other Pacific Islander race alone; Polynesian race alone; and Native Hawaiian race alone)

[Native Hawaiian and Other Pacific Islander Race Alone or in Combination \(for detailed Native Hawaiian and Other Pacific Islander race groups\)](#)

(includes Total population; Native Hawaiian and Other Pacific Islander race alone or in combination with one or more other races; Polynesian race alone and in any combination; and Native Hawaiian race alone and in any combination)

[Race Grouping Comparisons](#)

(includes Total population; Two or more races; and Three or more races)

Hawaii

Race alone

[Estimated value. Margin of errors for these estimates are found in the individual selected population profile tables from the U.S. Census Bureau]

	Total Population	White alone	Asian alone	Native Hawaiian and Other Pacific Islander alone
Total population	1,285,498	337,507	512,995	111,488
SEX AND AGE				
Male	50.0	52.8	47.0	50.7
Female	50.0	47.2	53.0	49.3
Under 5 years	6.8	4.4	4.6	6.4
5 to 17 years	16.3	12.5	11.7	21.6
18 to 24 years	9.7	10.6	7.3	12.4

Male householder	14.3	19.7	10.1	8.6
Living alone	11.2	14.4	8.6	5.9
Not living alone	3.1	5.2	1.5	2.7
Female householder	16.1	18.4	16.3	8.6
Living alone	13.3	14.1	14.7	6.9
Not living alone	2.8	4.4	1.6	1.7
Average household size	2.88	2.50	2.96	3.75
Average family size	3.45	3.11	3.47	4.01
MARITAL STATUS				
Population 15 years and over	1,039,527	290,555	444,949	86,334
Now married, except separated	51.2	53.1	55.4	47.1
Widowed	6.3	4.6	8.8	5.4
Divorced	9.4	11.7	7.2	9.0
Separated	1.2	1.3	1.1	1.5
Never married	32.0	29.3	27.5	37.0
Male 15 years and over	516,879	153,987	207,998	43,440
Now married, except separated	52.3	54.1	57.6	48.5
Widowed	2.5	2.0	3.4	2.4
Divorced	8.2	10.1	6.0	7.3
Separated	0.9	1.1	0.6	1.0
Never married	36.2	32.7	32.4	40.7
Female 15 years and over	522,648	136,568	236,951	42,894
Now married, except separated	50.1	52.0	53.4	45.7
Widowed	10.0	7.5	13.4	8.4
Divorced	10.6	13.5	8.4	10.7
Separated	1.5	1.6	1.6	2.0
Never married	27.8	25.4	23.2	33.2
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	315,873	69,395	100,473	31,674
Nursery school, preschool	6.8	5.0	6.1	3.6
Kindergarten	4.9	3.8	4.4	5.6
Elementary school (grades 1-8)	40.3	37.1	36.4	44.2
High school (grades 9-12)	22.4	18.3	22.3	29.0
College or graduate school	25.6	35.8	30.8	17.5
Male 3 years and over enrolled in school	157,860	34,120	50,194	15,800
Percent enrolled in kindergarten to grade 12	70.5	64.6	65.8	80.9
Percent enrolled in college or graduate school	22.4	29.9	28.3	15.5
Female 3 years and over enrolled in school	158,013	35,275	50,279	15,874
Percent enrolled in kindergarten to grade 12	64.7	54.0	60.5	76.7
Percent enrolled in college or graduate school	28.8	41.4	33.3	19.6

	Total Population	White alone	Asian alone	Native Hawaiian and Other Pacific Islander alone
EDUCATIONAL ATTAINMENT				
Population 25 years and over	863,019	244,497	391,638	66,516
Less than high school diploma	11.0	5.8	14.8	14.8
High school graduate (includes equivalency)	29.5	20.7	27.2	48.0
Some college or associate's degree	29.9	32.6	27.9	25.4
Bachelor's degree	19.9	24.9	21.5	8.4
Graduate or professional degree	9.8	16.0	8.6	3.4
High school graduate or higher	89.0	94.2	85.2	85.2
Male, high school graduate or higher	89.8	94.3	86.8	84.2
Female, high school graduate or higher	88.3	94.0	83.9	86.1
Bachelor's degree or higher	29.7	40.9	30.2	11.8
Male, bachelor's degree or higher	29.4	41.2	30.5	10.6
Female, bachelor's degree or higher	29.9	40.7	29.9	12.9
FERTILITY				
Women 15 to 50 years	313,915	82,021	120,353	29,705
Women 15 to 50 years who had a birth in the past 12 months	16,882	3,301	6,029	1,672
Unmarried women 15 to 50 years who had a birth in the past 12 months	5,743	765	1,402	830
As a percent of all women with a birth in the pas	34.0	23.2	23.3	49.6
RESPONSIBILITY FOR GRANDCHILDREN UNDER 18 YEARS				
Population 30 years and over	772,393	216,393	363,971	58,091
Living with grandchild(ren)	6.6	3.1	7.0	13.1
Responsible for grandchild(ren)	25.2	24.3	16.9	38.3
VETERAN STATUS				
Civilian population 18 years and over	950,715	256,040	426,515	79,443
Civilian veteran	12.4	17.4	9.8	8.5
DISABILITY STATUS				
Civilian population 5 years and over	1,151,598	295,652	483,967	102,503
With any disability	13.2	13.7	13.6	14.1
Civilian population 5 to 15 years	174,651	34,322	49,204	20,206
With any disability	4.9	5.1	3.6	6.9
Civilian population 16 to 64 years	801,975	220,197	327,107	73,141
With any disability	9.6	10.4	7.6	11.9
No disability	90.4	89.6	92.4	88.1
Civilian population 65 years and over	174,972	41,133	107,656	9,156
With any disability	38.2	38.1	36.4	47.1
RESIDENCE 1 YEAR AGO				
Population 1 year and over	1,268,771	334,378	508,960	110,506
Same house	84.2	75.7	90.4	86.7
Different house in the U.S.	14.5	22.4	8.4	11.5
Same county	9.3	10.4	6.7	9.6
Different county	5.2	12.0	1.7	1.8
Same state	0.4	0.2	0.4	0.9
Different state	4.8	11.8	1.4	0.9
Abroad	1.3	1.9	1.1	1.9

	Total Population	White alone	Asian alone	Native Hawaiian and Other Pacific Islander alone
PLACE OF BIRTH, CITIZENSHIP STATUS AND YEAR OF ENTRY				
Total population	1,285,498	337,507	512,995	111,488
Native	1,075,336	315,687	347,033	99,071

GROSS RENT				
Median gross rent (dollars)	1116	1376	949	922

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

·Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Hawaii

Asian race groups alone

[Estimated value. Margin of errors for these estimates are found in the individual selected population profile tables from the U.S. Census Bureau]

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

·Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Hawaii

Native Hawaiian and Other Pacific Islander race groups alone

[Estimated value. Margin of errors for these estimates are found in the individual selected population profile tables from the U.S. Census Bureau]

Median gross rent (dollars)	1116	922	897	876

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Subsaharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Hawaii

NHOPI race alone or in combination with one or more other races

[Estimated value. Margin of errors for these estimates are found in the individual selected population profile tables from the U.S. Census Bureau]

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Hawaii

Built 1940 to 1959	15.6	17.9	17.4
Built 1939 or earlier	5.0	6.3	7.1
VEHICLES AVAILABLE			
None	8.9	8.8	8.6
1 or more	91.1	91.2	91.4
HOUSE HEATING FUEL			
Gas	4.2	4.3	3.4
Electricity	36.5	35.3	42.3
All other fuels	1.8	1.1	1.6
No fuel used	57.5	59.3	52.7
SELECTED CHARACTERISTICS			
No telephone service available	4.3	5.3	7.4
1.01 or more occupants per room	9.1	14.5	10.6
Owner-occupied housing units	257,599	32,523	9,130
SELECTED MONTHLY OWNER COSTS AS A PERCENTAGE OF HOUSEHOLD INCOME IN THE PAST 12 MONTHS			
Less than 30 percent	65.3	58.3	52.9
30 percent or more	34.7	41.7	47.1
OWNER CHARACTERISTICS			
Median value (dollars)	529,700	490,500	534,300
Median selected monthly owner costs with a mortgage (dollars)	1,959	1,925	2,031
Median selected monthly owner costs without a mortgage (dollars)	388	401	371
Renter-occupied housing units	175,033	28,405	6,806
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME IN THE PAST 12 MONTHS			
Less than 30 percent	54.3	57.1	51.3
30 percent or more	45.7	42.9	48.7

	Total Population	Two or more races	Three or more races
GROSS RENT			
Median gross rent (dollars)	1116	973	1045

Source: U.S. Census Bureau, 2006 American Community Survey; compiled by the Hawaii State Department of Business, Economic Development & Tourism.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Subsaharan African, African, United States or American, and All Other Hispanic or Latino.

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
