S1603: Characteristics of People by Language Spoken at Hom Data Set: 2006 American Community Survey Survey: 2006 American Community Survey Geographic Area: Hawa

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

			Development		Percent distribution of people who speak a language other than English at home			
Subject	Total	Margin of Error	People who speak only English at home	Margin of Error	Total	Margin of Error	Spanish or Spanish Creole	Margin of Error
Total population 5 years and over	1,198,319	+/-360	917,085	+/-10,069	281,234	+/-10,016	17,442	+/-2,408
AGE								
5 to 17 years	17.5%	+/-0.1	19.1%	+/-0.3	12.3%	+/-1.0	13.1%	+/-3.6
18 to 64 years	67.5%	+/-0.1	67.7%	+/-0.4	67.1%	+/-1.3	79.1%	+/-3.9
65 years and over	14.9%	+/-0.1	13.2%	+/-0.4	20.6%	+/-1.2	7.9%	+/-3.0
CITIZENSHIP STATUS								
Native population 5 years and over	82.7%	+/-0.8	96.0%	+/-0.5	39.3%	+/-1.9	68.9%	+/-7.2
Foreign-born population 5 years and over	17.3%	+/-0.8	4.0%	+/-0.5	60.7%	+/-1.9	31.1%	+/-7.2
Naturalized U.S. citizen	10.0%	+/-0.5	2.4%	+/-0.3	34.7%	+/-1.6	17.6%	+/-5.7
Not a U.S. citizen	7.3%	+/-0.7	1.6%	+/-0.4	26.0%	+/-1.9	13.5%	+/-4.3
POVERTY STATUS IN THE PAST 12 MONTHS								
Population 5 years and over for whom poverty status is determined	1,166,282	+/-1,879	891,677	+/-10,184	274,605	+/-9,991	15,877	+/-2,360
Below poverty level	9.1%	+/-0.7	8.4%	+/-0.8	11.6%	+/-1.7	11.2%	+/-4.7
At or above poverty level	90.9%	+/-0.7	91.6%	+/-0.8	88.4%	+/-1.7	88.8%	+/-4.7
EDUCATIONAL ATTAINMENT								
Population 25 years and over	863,019	+/-1,296	639,632	+/-7,526	223,387	+/-7,552	12,512	+/-1,773
Less than high school graduate	11.0%	+/-0.6	7.4%	+/-0.5	21.1%	+/-1.4	12.1%	+/-4.7
High school graduate (includes equivalency)	29.5%	+/-0.9	29.8%	+/-1.0	28.5%	+/-1.9	25.9%	+/-6.9
Some college or associate's degree	29.9%	+/-0.8	31.0%	+/-1.0	26.5%	+/-1.5	31.3%	+/-6.6
Bachelor's degree or higher	29.7%	+/-0.8	31.7%	+/-0.9	23.9%	+/-1.4	30.7%	+/-6.0
PERCENT IMPUTED								
Language status	2.1%	(X)	(X)	(X)	(X)	(X)	(X)	(X)
Language status (speak a language other than English)	2.5%	(X)	(X)	(X)	(X)	(X)	(X)	(X)

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

•While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.
