

Kaneohe CDP, Hawaii

Selected Social Characteristics in the United States: 2005-2007

Data Set: 2005-2007 American Community Survey 3-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	11,406	+/-592	100%	(X)
Family households (families)	9,196	+/-482	80.6%	+/-3.0
With own children under 18 years	3,418	+/-526	30.0%	+/-4.2
Married-couple family	6,557	+/-478	57.5%	+/-3.7
With own children under 18 years	2,360	+/-430	20.7%	+/-3.5
Male householder, no wife present, family	633	+/-232	5.5%	+/-2.0
With own children under 18 years	53	+/-62	0.5%	+/-0.5
Female householder, no husband present, family	2,006	+/-364	17.6%	+/-3.2
With own children under 18 years	1,005	+/-308	8.8%	+/-2.7
Nonfamily households	2,210	+/-392	19.4%	+/-3.0
Householder living alone	1,870	+/-346	16.4%	+/-2.7
65 years and over	825	+/-189	7.2%	+/-1.6
Households with one or more people under 18 years	4,240	+/-503	37.2%	+/-3.9
Households with one or more people 65 years and over	3,841	+/-373	33.7%	+/-3.5
Average household size	3.09	+/-0.17	(X)	(X)
Average family size	3.43	+/-0.18	(X)	(X)
RELATIONSHIP				
Population in households	35,243	+/-2,511	100%	(X)
Householder	11,406	+/-592	32.4%	+/-1.8
Spouse	6,540	+/-469	18.6%	+/-1.3
Child	10,954	+/-1,377	31.1%	+/-2.5
Other relatives	4,886	+/-1,019	13.9%	+/-2.5
Nonrelatives	1,457	+/-489	4.1%	+/-1.3
Unmarried partner	700	+/-272	2.0%	+/-0.8
MARITAL STATUS				
Males 15 years and over	14,014	+/-998	100%	(X)
Never married	4,817	+/-653	34.4%	+/-3.4
Now married, except separated	7,847	+/-595	56.0%	+/-2.9
Separated	0	+/-154	0.0%	+/-0.4
Widowed	253	+/-151	1.8%	+/-1.1
Divorced	1,097	+/-266	7.8%	+/-1.8
Females 15 years and over	15,596	+/-1,061	100%	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Never married	4,059	+/-767	26.0%	+/-3.7
Now married, except separated	7,588	+/-576	48.7%	+/-3.5
Separated	231	+/-133	1.5%	+/-0.8
Widowed	1,889	+/-412	12.1%	+/-2.5
Divorced	1,829	+/-389	11.7%	+/-2.5
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	378	+/-159	100%	(X)
Unmarried women (widowed, divorced, and never married)	154	+/-99	40.7%	+/-21.9
Per 1,000 unmarried women	31	+/-20	(X)	(X)
Per 1,000 women 15 to 50 years old	42	+/-17	(X)	(X)
Per 1,000 women 15 to 19 years old	46	+/-46	(X)	(X)
Per 1,000 women 20 to 34 years old	61	+/-33	(X)	(X)
Per 1,000 women 35 to 50 years old	27	+/-17	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	1,731	+/-458	100%	(X)
Responsible for grandchildren	299	+/-158	17.3%	+/-8.4
Years responsible for grandchildren				
Less than 1 year	93	+/-81	5.4%	+/-4.5
1 or 2 years	30	+/-50	1.7%	+/-2.9
3 or 4 years	48	+/-57	2.8%	+/-3.4
5 or more years	128	+/-117	7.4%	+/-6.4
Characteristics of grandparents responsible for own grandchildren under 18 years				
Who are female	66.9%	+/-18.7	(X)	(X)
Who are married	54.5%	+/-30.8	(X)	(X)
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	8,607	+/-1,104	100%	(X)
Nursery school, preschool	369	+/-183	4.3%	+/-1.9
Kindergarten	390	+/-173	4.5%	+/-1.8
Elementary school (grades 1-8)	3,287	+/-643	38.2%	+/-4.8
High school (grades 9-12)	2,307	+/-516	26.8%	+/-5.3
College or graduate school	2,254	+/-511	26.2%	+/-5.6
EDUCATIONAL ATTAINMENT				
Population 25 years and over	24,724	+/-1,466	100%	(X)
Less than 9th grade	612	+/-225	2.5%	+/-0.9
9th to 12th grade, no diploma	1,658	+/-524	6.7%	+/-2.0
High school graduate (includes equivalency)	7,915	+/-951	32.0%	+/-3.1
Some college, no degree	5,253	+/-820	21.2%	+/-2.9
Associate's degree	2,517	+/-446	10.2%	+/-1.8
Bachelor's degree	4,577	+/-716	18.5%	+/-2.7
Graduate or professional degree	2,192	+/-435	8.9%	+/-1.8
Percent high school graduate or higher	90.8%	+/-2.2	(X)	(X)
Percent bachelor's degree or higher	27.4%	+/-3.2	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	27,337	+/-1,690	100%	(X)
Civilian veterans	3,861	+/-436	100%	(X)
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Population 5 years and over	33,176	+/-2,267	100%	(X)
With a disability	4,563	+/-620	13.8%	+/-1.8
Population 5 to 15 years	4,659	+/-850	100%	(X)
With a disability	336	+/-185	7.2%	+/-3.7
Population 16 to 64 years	22,626	+/-1,775	100%	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
With a disability	2,117	+/-410	9.4%	+/-1.7
Population 65 years and over	5,891	+/-632	100%	(X)
With a disability	2,110	+/-409	35.8%	+/-5.3
RESIDENCE 1 YEAR AGO				
Population 1 year and over	35,258	+/-2,398	100%	(X)
Same house	30,966	+/-2,236	87.8%	+/-3.2
Different house in the U.S.	4,063	+/-1,171	11.5%	+/-3.1
Same county	2,923	+/-1,065	8.3%	+/-2.9
Different county	1,140	+/-382	3.2%	+/-1.0
Same state	139	+/-132	0.4%	+/-0.4
Different state	1,001	+/-372	2.8%	+/-1.0
Abroad	229	+/-201	0.6%	+/-0.6
PLACE OF BIRTH				
Total population	35,712	+/-2,502	100%	(X)
Native	33,693	+/-2,414	94.3%	+/-1.6
Born in United States	32,672	+/-2,350	91.5%	+/-1.9
State of residence	25,524	+/-2,323	71.5%	+/-3.5
Different state	7,148	+/-1,095	20.0%	+/-3.0
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	1,021	+/-381	2.9%	+/-1.0
Foreign born	2,019	+/-586	5.7%	+/-1.6
U.S. CITIZENSHIP STATUS				
Foreign-born population	2,019	+/-586	100%	(X)
Naturalized U.S. citizen	1,348	+/-462	66.8%	+/-11.7
Not a U.S. citizen	671	+/-306	33.2%	+/-11.7
YEAR OF ENTRY				
Population born outside the United States	3,040	+/-704	100%	(X)
Native	1,021	+/-381	100%	(X)
Entered 2000 or later	180	+/-166	17.6%	+/-14.4
Entered before 2000	841	+/-333	82.4%	+/-14.4
Foreign born	2,019	+/-586	100%	(X)
Entered 2000 or later	289	+/-210	14.3%	+/-8.8
Entered before 2000	1,730	+/-487	85.7%	+/-8.8
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	N	N	N	(X)
Europe	N	N	N	N
Asia	N	N	N	N
Africa	N	N	N	N
Oceania	N	N	N	N
Latin America	N	N	N	N
Northern America	N	N	N	N
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	N	N	N	(X)
English only	N	N	N	N
Language other than English	N	N	N	N
Speak English less than "very well"	N	N	N	N
Spanish	N	N	N	N
Speak English less than "very well"	N	N	N	N

Source: U.S. Census Bureau, 2005-2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

·Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

·The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -- go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from 2003 or later with data from prior years are not recommended for the relevant questions. For more information, see the [ACS Subject Definitions](#) for Disability.

·Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

·While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002. However, the Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the

ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2005-2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- The median gross rent excludes no cash renters.
- The estimate for median value, mortgage status and selected monthly owner costs, median mortgage status and selected monthly owner costs, gross rent, and median gross rent for previous years is adjusted for inflation to the current year.
- While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)
- While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.
