

S0201: Selected Population Profile in the United States  
 Data Set: 2008 American Community Survey 1-Year Estimates  
 Survey: American Community Survey  
 Geographic Area: Hawaii  
 Population Group: Two or more races

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Subject	Total population	Margin of Error (+/-)	Two or more races	Margin of Error (+/-)
<b>TOTAL NUMBER OF RACES REPORTED</b>				
<b>Total population</b>	<b>1,288,198</b>	<b>*****</b>	<b>275,694</b>	<b>11,060</b>
One race	78.6%	0.9	(X)	(X)
Two races	14.4%	0.7	67.1%	2.1
Three races	6.3%	0.5	29.4%	1.8
Four or more races	0.8%	0.2	3.5%	1
<b>SEX AND AGE</b>				
<b>Total population</b>	<b>1,288,198</b>	<b>*****</b>	<b>275,694</b>	<b>11,060</b>
Male	50.4%	0.2	49.8%	1.3

<b>Owner-occupied housing units</b>	<b>258,365</b>	<b>5,142</b>	<b>33,771</b>	<b>2,729</b>
Median value (dollars)	560,200	8,158	532,300	31,351
Median selected monthly owner costs with a mortgage (dollars)	2,265	45	2,298	138
Median selected monthly owner costs without a mortgage (dollars)	455	12	461	31

<b>GROSS RENT AS A PERCENTAGE OF</b>				
<b>Occupied units paying rent (excluding units where GRAPI cannot be computed)</b>	<b>162,337</b>	<b>5,452</b>	<b>26,138</b>	<b>2,859</b>
Less than 30 percent	44.6%	2	44.4%	5.6
30 percent or more	55.4%	2	55.6%	5.6
<b>GROSS RENT</b>				
<b>Occupied units paying rent</b>	<b>165,076</b>	<b>5,486</b>	<b>26,428</b>	<b>2,896</b>
Median gross rent (dollars)	1,298	38	1,237	65

Source: U.S. Census Bureau, 2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

-The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

-The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at [http://www.census.gov/acs/www/AdvMeth/content\\_test/P6a\\_Employment\\_Status.pdf](http://www.census.gov/acs/www/AdvMeth/content_test/P6a_Employment_Status.pdf), and the "Evaluation Report Covering Weeks Worked" at [http://www.census.gov/acs/www/AdvMeth/content\\_test/P6b\\_Weeks\\_Worked\\_Final\\_Report.pdf](http://www.census.gov/acs/www/AdvMeth/content_test/P6b_Weeks_Worked_Final_Report.pdf). Additional information can also be found at <http://www.census.gov/hhes/www/laborfor/laborforce.html>.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-Caution should be used when comparing data for Occupants per Room between 2007 and 2008. Changes made to the Rooms question involving the wording as well as the response option resulted in an inconsistency in the data. It is most noticeable as an increase in "1 room" category and as a decrease in the "2 rooms" to 6 rooms categories. For more detailed information about these changes, see the Rooms section of the Subject Definitions at: [http://www.census.gov/acs/www/Downloads/2008/usedata/Subject\\_Definitions.pdf#page=21](http://www.census.gov/acs/www/Downloads/2008/usedata/Subject_Definitions.pdf#page=21).

-Caution should be used when comparing data for Telephone Service Availability between 2007 and 2008. Changes made to the Telephone Service Availability question involving the structure of the question as well as including an instruction to include cell phones resulted in an inconsistency in the data. It is most noticeable as an increase in respondents answering "yes" to the question. For more detailed information about these changes, see the Telephone Service Available section of the Subject Definitions at: [http://www.census.gov/acs/www/Downloads/2008/usedata/Subject\\_Definitions.pdf#page=24](http://www.census.gov/acs/www/Downloads/2008/usedata/Subject_Definitions.pdf#page=24).

-See the Glossary for more information on the definition of the following population groups: Arab, Arab/Arabic, European, Sub-Saharan African, African, American, and All Other Hispanic or Latino.

-While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
