

Kaneohe CDP, Hawaii

Selected Social Characteristics in the United States: 2006-2008

Data Set: 2006-2008 American Community Survey 3-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	11,892	+/-683	11,892	(X)
Family households (families)	9,158	+/-568	77.0%	+/-3.4
With own children under 18 years	2,975	+/-474	25.0%	+/-3.8
Married-couple family	6,579	+/-505	55.3%	+/-3.9
With own children under 18 years	2,205	+/-422	18.5%	+/-3.4
Male householder, no wife present, family	708	+/-248	6.0%	+/-2.0
With own children under 18 years	67	+/-56	0.6%	+/-0.5
Female householder, no husband present, family	1,871	+/-383	15.7%	+/-3.1
With own children under 18 years	703	+/-267	5.9%	+/-2.3
Nonfamily households	2,734	+/-466	23.0%	+/-3.4
Householder living alone	2,399	+/-473	20.2%	+/-3.6
65 years and over	969	+/-223	8.1%	+/-1.9
Households with one or more people under 18 years	3,755	+/-518	31.6%	+/-3.9
Households with one or more people 65 years and over	4,138	+/-425	34.8%	+/-3.9
Average household size	2.88	+/-0.14	(X)	(X)
Average family size	3.28	+/-0.16	(X)	(X)
RELATIONSHIP				
Population in households	34,191	+/-2,319	34,191	(X)
Householder	11,892	+/-683	34.8%	+/-1.7
Spouse	6,574	+/-500	19.2%	+/-1.3
Child	9,688	+/-1,121	28.3%	+/-2.2
Other relatives	4,604	+/-947	13.5%	+/-2.3
Nonrelatives	1,433	+/-427	4.2%	+/-1.2
Unmarried partner	526	+/-246	1.5%	+/-0.7
MARITAL STATUS				
Males 15 years and over	13,971	+/-1,090	13,971	(X)
Never married	4,813	+/-715	34.4%	+/-3.4
Now married, except separated	7,796	+/-622	55.8%	+/-4.0
Separated	0	+/-158	0.0%	+/-0.4
Widowed	357	+/-181	2.6%	+/-1.3
Divorced	1,005	+/-279	7.2%	+/-1.9
Females 15 years and over	15,510	+/-1,193	15,510	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Never married	3,780	+/-714	24.4%	+/-3.5
Now married, except separated	7,588	+/-622	48.9%	+/-3.7
Separated	298	+/-186	1.9%	+/-1.2
Widowed	2,178	+/-429	14.0%	+/-2.7
Divorced	1,666	+/-386	10.7%	+/-2.3
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	402	+/-164	402	(X)
Unmarried women (widowed, divorced, and never married)	98	+/-76	24.4%	+/-16.9
Per 1,000 unmarried women	22	+/-18	(X)	(X)
Per 1,000 women 15 to 50 years old	48	+/-19	(X)	(X)
Per 1,000 women 15 to 19 years old	18	+/-30	(X)	(X)
Per 1,000 women 20 to 34 years old	83	+/-43	(X)	(X)
Per 1,000 women 35 to 50 years old	28	+/-17	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	N	N	N	(X)
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	(X)
Who are female	126	+/-94	49.8%	+/-20.5
Who are married	N	N	N	N
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	7,590	+/-976	7,590	(X)
Nursery school, preschool	420	+/-181	5.5%	+/-2.3
Kindergarten	405	+/-206	5.3%	+/-2.6
Elementary school (grades 1-8)	2,418	+/-588	31.9%	+/-5.6
High school (grades 9-12)	2,015	+/-484	26.5%	+/-5.7
College or graduate school	2,332	+/-517	30.7%	+/-6.2
EDUCATIONAL ATTAINMENT				
Population 25 years and over	24,728	+/-1,639	24,728	(X)
Less than 9th grade	416	+/-176	1.7%	+/-0.7
9th to 12th grade, no diploma	1,640	+/-418	6.6%	+/-1.6
High school graduate (includes equivalency)	7,636	+/-881	30.9%	+/-2.8
Some college, no degree	5,298	+/-757	21.4%	+/-2.6
Associate's degree	2,432	+/-479	9.8%	+/-1.9
Bachelor's degree	4,985	+/-645	20.2%	+/-2.4
Graduate or professional degree	2,321	+/-417	9.4%	+/-1.6
Percent high school graduate or higher	91.7%	+/-1.7	(X)	(X)
Percent bachelor's degree or higher	29.5%	+/-2.8	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	27,228	+/-1,868	27,228	(X)
Civilian veterans	3,865	+/-496	14.2%	+/-1.7
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
18 to 64 years	(X)	(X)	(X)	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
With a disability	(X)	(X)	(X)	(X)
65 years and over	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
RESIDENCE 1 YEAR AGO				
Population 1 year and over	34,110	+/-2,330	34,110	(X)
Same house	29,647	+/-1,995	86.9%	+/-3.5
Different house in the U.S.	4,238	+/-1,285	12.4%	+/-3.4
Same county	2,775	+/-966	8.1%	+/-2.7
Different county	1,463	+/-623	4.3%	+/-1.7
Same state	99	+/-118	0.3%	+/-0.3
Different state	1,364	+/-593	4.0%	+/-1.6
Abroad	225	+/-188	0.7%	+/-0.6
PLACE OF BIRTH				
Total population	34,452	+/-2,353	34,452	(X)
Native	32,198	+/-2,232	93.5%	+/-1.7
Born in United States	31,196	+/-2,169	90.5%	+/-2.2
State of residence	24,080	+/-2,013	69.9%	+/-3.3
Different state	7,116	+/-969	20.7%	+/-2.6
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	1,002	+/-312	2.9%	+/-0.9
Foreign born	2,254	+/-633	6.5%	+/-1.7
U.S. CITIZENSHIP STATUS				
Foreign-born population	2,254	+/-633	2,254	(X)
Naturalized U.S. citizen	1,502	+/-446	66.6%	+/-14.1
Not a U.S. citizen	752	+/-418	33.4%	+/-14.1
YEAR OF ENTRY				
Population born outside the United States	3,256	+/-799	3,256	(X)
Native	1,002	+/-312	1,002	(X)
Entered 2000 or later	170	+/-145	17.0%	+/-13.4
Entered before 2000	832	+/-292	83.0%	+/-13.4
Foreign born	2,254	+/-633	2,254	(X)
Entered 2000 or later	429	+/-295	19.0%	+/-10.8
Entered before 2000	1,825	+/-516	81.0%	+/-10.8
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	N	N	N	(X)
Europe	N	N	N	N
Asia	N	N	N	N
Africa	N	N	N	N
Oceania	N	N	N	N
Latin America	N	N	N	N
Northern America	N	N	N	N
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	N	N	N	(X)
English only	N	N	N	N
Language other than English	N	N	N	N
Speak English less than "very well"	N	N	N	N
Spanish	N	N	N	N
Speak English less than "very well"	N	N	N	N
Other Indo-European languages	N	N	N	N
Speak English less than "very well"	N	N	N	N
Asian and Pacific Islander languages	N	N	N	N
Speak English less than "very well"	N	N	N	N
Other languages	N	N	N	N
Speak English less than "very well"	N	N	N	N

Source: U.S. Census Bureau, 2006-2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

·Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

·The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008 disability data and disability data collected in the previous two years, the Census Bureau is unable to combine the 3 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once three consecutive years of data are collected. For more information about the differences between the 2008 and prior year's disability questions, and the evaluation of these questions in the 2006 ACS Content Test, see the [Evaluation Report Covering Disability](#).

·Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

·While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to

compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Unrelated individuals 15 years and over	16.3%	+/-7.8	(X)	(X)

Source: U.S. Census Bureau, 2006-2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

.Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available. Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.

Kaneohe CDP, Hawaii

Selected Housing Characteristics: 2006-2008

Data Set: 2006-2008 American Community Survey 3-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOCAPI and household income are valid values.
- In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOCAPI and household income are valid values.
- In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.
- Due to the use of value categories rather than specific amounts collected for each individual housing unit in 2006 and 2007, property value on the 3-year file cannot be inflation adjusted. Any table providing data on property values is reported in current dollars. This is in contrast to the other monetary data on the 3-year file, which are inflated to 2008 dollars.
- The estimate for mortgage status and selected monthly owner costs, median mortgage status and selected monthly owner costs, gross rent, and median gross rent for previous years is adjusted for inflation to the current year.
- The median gross rent excludes no cash renters.
- While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Two races excluding Some other race, and Three or more races	9,248	+/-1,634	26.8%	+/-3.9
Total housing units	12,468	+/-674	(X)	(X)

Source: U.S. Census Bureau, 2006-2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)
- While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.
