

Honolulu County, Hawaii

Selected Social Characteristics in the United States: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	303,794	+/-1,466	303,794	(X)
Family households (families)	214,569	+/-1,618	70.6%	+/-0.5
With own children under 18 years	90,825	+/-1,360	29.9%	+/-0.4
Married-couple family	160,673	+/-1,763	52.9%	+/-0.5
With own children under 18 years	68,954	+/-1,353	22.7%	+/-0.5
Male householder, no wife present, family	15,996	+/-898	5.3%	+/-0.3
With own children under 18 years	5,847	+/-556	1.9%	+/-0.2
Female householder, no husband present, family	37,900	+/-1,026	12.5%	+/-0.3
With own children under 18 years	16,024	+/-785	5.3%	+/-0.3
Nonfamily households	89,225	+/-1,520	29.4%	+/-0.5
Householder living alone	70,604	+/-1,555	23.2%	+/-0.5
65 years and over	22,169	+/-883	7.3%	+/-0.3
Households with one or more people under 18 years	109,570	+/-1,532	36.1%	+/-0.5
Households with one or more people 65 years and over	88,275	+/-923	29.1%	+/-0.3
Average household size	2.87	+/-0.01	(X)	(X)
Average family size	3.42	+/-0.02	(X)	(X)
RELATIONSHIP				
Population in households	873,059	+/-1,370	873,059	(X)
Householder	303,794	+/-1,466	34.8%	+/-0.2
Spouse	160,331	+/-1,845	18.4%	+/-0.2
Child	250,182	+/-2,862	28.7%	+/-0.3
Other relatives	108,721	+/-2,809	12.5%	+/-0.3
Nonrelatives	50,031	+/-2,179	5.7%	+/-0.2
Unmarried partner	16,316	+/-896	1.9%	+/-0.1
MARITAL STATUS				
Males 15 years and over	370,086	+/-813	370,086	(X)
Never married	135,227	+/-2,186	36.5%	+/-0.6
Now married, except separated	195,490	+/-2,218	52.8%	+/-0.6
Separated	4,318	+/-537	1.2%	+/-0.1
Widowed	7,844	+/-536	2.1%	+/-0.1
Divorced	27,207	+/-1,193	7.4%	+/-0.3
Females 15 years and over	364,533	+/-277	364,533	(X)
Never married	98,530	+/-1,518	27.0%	+/-0.4
Now married, except separated	187,469	+/-1,919	51.4%	+/-0.5
Separated	5,198	+/-483	1.4%	+/-0.1
Widowed	37,620	+/-1,006	10.3%	+/-0.3
Divorced	35,716	+/-1,169	9.8%	+/-0.3
FERTILITY				

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Number of women 15 to 50 years old who had a birth in the past 12 months	13,109	+/-913	13,109	(X)
Unmarried women (widowed, divorced, and never married)	3,412	+/-482	26.0%	+/-2.8
Per 1,000 unmarried women	32	+/-5	(X)	(X)
Per 1,000 women 15 to 50 years old	61	+/-4	(X)	(X)
Per 1,000 women 15 to 19 years old	21	+/-5	(X)	(X)
Per 1,000 women 20 to 34 years old	103	+/-8	(X)	(X)
Per 1,000 women 35 to 50 years old	31	+/-3	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	36,642	+/-1,370	36,642	(X)
Responsible for grandchildren	8,184	+/-769	22.3%	+/-1.7
Years responsible for grandchildren				
Less than 1 year	898	+/-192	2.5%	+/-0.5
1 or 2 years	1,389	+/-292	3.8%	+/-0.8
3 or 4 years	1,380	+/-248	3.8%	+/-0.7
5 or more years	4,517	+/-687	12.3%	+/-1.7
Number of grandparents responsible for own grandchildren under 18 years	8,184	+/-769	8,184	(X)
Who are female	4,698	+/-435	57.4%	+/-2.6
Who are married	6,519	+/-737	79.7%	+/-3.1
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	227,026	+/-2,188	227,026	(X)
Nursery school, preschool	14,359	+/-796	6.3%	+/-0.3
Kindergarten	10,861	+/-726	4.8%	+/-0.3
Elementary school (grades 1-8)	84,237	+/-990	37.1%	+/-0.4
High school (grades 9-12)	46,706	+/-987	20.6%	+/-0.5
College or graduate school	70,863	+/-2,082	31.2%	+/-0.7
EDUCATIONAL ATTAINMENT				
Population 25 years and over	607,989	+/-805	607,989	(X)
Less than 9th grade	30,376	+/-1,167	5.0%	+/-0.2
9th to 12th grade, no diploma	32,492	+/-1,392	5.3%	+/-0.2
High school graduate (includes equivalency)	172,103	+/-2,505	28.3%	+/-0.4
Some college, no degree	127,636	+/-2,129	21.0%	+/-0.3
Associate's degree	58,694	+/-1,613	9.7%	+/-0.3
Bachelor's degree	123,170	+/-2,072	20.3%	+/-0.3
Graduate or professional degree	63,518	+/-1,658	10.4%	+/-0.3
Percent high school graduate or higher	89.7%	+/-0.3	(X)	(X)
Percent bachelor's degree or higher	30.7%	+/-0.4	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	657,722	+/-1,306	657,722	(X)
Civilian veterans	85,482	+/-1,754	13.0%	+/-0.3
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
18 to 64 years	(X)	(X)	(X)	(X)

West Indian (excluding Hispanic origin groups)	2,157	+/-737	0.2%	+/-0.1

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).
- The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008-2009 disability data and disability data collected in prior years, the Census Bureau is unable to combine the 5 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once five consecutive years of data are collected. For more information about the differences between the 2008 and prior years' disability questions, see [Review of Changes to the Measurement of Disability in the 2008 ACS](#).
- Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2005, 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 5 years of data are consistent in display and reflect the NAICS 2007 codes. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.
- Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Honolulu County, Hawaii

Selected Housing Characteristics: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Housing Characteristics	Estimate	Margin of Error	Percent	Margin of Error

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented

through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Caution should be used when comparing data for Number of Rooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).
- Caution should be used when comparing data for Number of Bedrooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "0 bedrooms" category. For more information please see [Errata Note #54](#).
- The 2005-2009 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.
- Caution should be used when comparing data for Telephone Service Availability between 2008 and 2009. A data collection error was identified for 2008 impacting the "no" category and underreporting those who did not have telephone service available. For more information please see [Errata Note #53](#).
- Caution should be used when comparing data for Occupants per Room between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).
- In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
- In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
- In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.
- The median gross rent excludes no cash renters.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Honolulu County, Hawaii

ACS Demographic and Housing Estimates: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

ACS Demographic and Housing Estimates	Estimate	Margin of Error	Percent	Margin of Error
SEX AND AGE				
Total population	902,564	*****	902,564	(X)
Male	457,109	+/-662	50.6%	+/-0.1
Female	445,455	+/-662	49.4%	+/-0.1
Under 5 years	61,904	+/-638	6.9%	+/-0.1
5 to 9 years	52,134	+/-1,237	5.8%	+/-0.1
10 to 14 years	53,907	+/-1,357	6.0%	+/-0.2
15 to 19 years	55,140	+/-515	6.1%	+/-0.1
20 to 24 years	71,490	+/-725	7.9%	+/-0.1
25 to 34 years	132,901	+/-763	14.7%	+/-0.1
35 to 44 years	126,434	+/-695	14.0%	+/-0.1
45 to 54 years	120,345	+/-389	13.3%	+/-0.1
55 to 59 years	52,388	+/-1,064	5.8%	+/-0.1
60 to 64 years	44,970	+/-1,064	5.0%	+/-0.1
65 to 74 years	60,749	+/-65	6.7%	+/-0.1
75 to 84 years	50,829	+/-859	5.6%	+/-0.1
85 years and over	19,373	+/-854	2.1%	+/-0.1
Median age (years)	36.9	+/-0.2	(X)	(X)
18 years and over	701,373	+/-795	77.7%	+/-0.1
21 years and over	665,229	+/-1,489	73.7%	+/-0.2
62 years and over	156,017	+/-903	17.3%	+/-0.1
65 years and over	130,951	*****	14.5%	*****
18 years and over	701,373	+/-795	701,373	(X)
Male	352,850	+/-794	50.3%	+/-0.1

American Indian and Alaska Native alone	1,814	+/-318	0.2%	+/-0.1
Asian alone	382,676	+/-2,947	42.4%	+/-0.3
Native Hawaiian and Other Pacific Islander alone	70,729	+/-1,609	7.8%	+/-0.2
Some other race alone	1,392	+/-336	0.2%	+/-0.1
Two or more races	155,641	+/-3,546	17.2%	+/-0.4
Two races including Some other race	1,682	+/-366	0.2%	+/-0.1
Two races excluding Some other race, and Three or more races	153,959	+/-3,579	17.1%	+/-0.4
Total housing units	334,469	+/-501	(X)	(X)

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

·For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

·The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

·While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
