U.S. Census Bureau
American FactFinder

State House District 46, Hawaii
Selected Social Characteristics in the United States: 2005-2009
Data Set: **2005-2009 American Community Survey 5-Year Estimates**
Survey: **American Community Survey**

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

West Indian (excluding Hispanic origin groups)	192	+/-174	0.5%	+/-0.4

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:
·Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).
·The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008-2009 disability data and disability data collected in prior years, the Census Bureau is unable to combine the 5 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once five consecutive years of data are collected. For more information about the differences between the 2008 and prior years' disability questions, see Review of Changes to the Measurement of Disability in the 2008 ACS.
·Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.
·While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:
1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol indicate a document is in the Portable Document Format (PDF). To view the file you will need the Adobe® Acrobat® Reader, which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:
·Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.
·Workers include members of the Armed Forces and civilians who were at work last week.
·Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
·Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2005, 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 5 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
·Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the ACS User Notes for details.
·Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details.
·While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:
1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '******' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of

sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol ![pdf] indicate a document is in the Portable Document Format (PDF). To view the file you will need the Adobe® Acrobat® Reader, which is available for **free** from the Adobe web site.

Selected Housing Characteristics	Estimate	Margin of Error	Percent	Margin of Error
Not computed	1,580	+/-285	(X)	(X)

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:
·Caution should be used when comparing data for Number of Rooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see Errata Note #54.
·Caution should be used when comparing data for Number of Bedrooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "0 bedrooms" category. For more information please see Errata Note #54.
·The 2005-2009 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.
·Caution should be used when comparing data for Telephone Service Availability between 2008 and 2009. A data collection error was identified for 2008 impacting the "no" category and underreporting those who did not have telephone service available. For more information please see Errata Note #53.
·Caution should be used when comparing data for Occupants per Room between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see Errata Note #54.
·In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
·In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
·In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.
·The median gross rent excludes no cash renters.
·While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:
1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

ACS Demographic and Housing Estimates	Estimate	Margin of Error	Percent	Margin of Error
SEX AND AGE				
Total population	**40,548**	**+/-2,557**	**40,548**	**(X)**
Male	21,649	+/-1,949	53.4%	+/-2.1
Female	18,899	+/-1,068	46.6%	+/-2.1
Under 5 years	4,382	+/-524	10.8%	+/-1.1
5 to 9 years	3,583	+/-376	8.8%	+/-1.0
10 to 14 years	2,931	+/-380	7.2%	+/-1.0
15 to 19 years	2,911	+/-778	7.2%	+/-1.6
20 to 24 years	5,577	+/-1,090	13.8%	+/-2.2
25 to 34 years	8,092	+/-814	20.0%	+/-1.7
35 to 44 years	4,570	+/-517	11.3%	+/-1.3
45 to 54 years	3,568	+/-422	8.8%	+/-1.0
55 to 59 years	1,298	+/-231	3.2%	+/-0.5
60 to 64 years	988	+/-213	2.4%	+/-0.5
65 to 74 years	1,361	+/-208	3.4%	+/-0.6
75 to 84 years	986	+/-207	2.4%	+/-0.6
85 years and over	301	+/-97	0.7%	+/-0.2
Median age (years)	25.7	+/-0.8	(X)	(X)
18 years and over	28,390	+/-2,188	70.0%	+/-1.8
21 years and over	25,486	+/-1,497	62.9%	+/-1.9
62 years and over	3,227	+/-358	8.0%	+/-1.0
65 years and over	2,648	+/-354	6.5%	+/-1.0
18 years and over	**28,390**	**+/-2,188**	**28,390**	**(X)**
Male	15,096	+/-1,712	53.2%	+/-2.7
Female	13,294	+/-863	46.8%	+/-2.7
65 years and over	**2,648**	**+/-354**	**2,648**	**(X)**
Male	1,232	+/-196	46.5%	+/-4.5
Female	1,416	+/-232	53.5%	+/-4.5
RACE				
Total population	**40,548**	**+/-2,557**	**40,548**	**(X)**
One race	33,283	+/-2,456	82.1%	+/-2.0
Two or more races	7,265	+/-823	17.9%	+/-2.0
One race	33,283	+/-2,456	82.1%	+/-2.0
White	19,562	+/-1,781	48.2%	+/-2.9
Black or African American	2,869	+/-778	7.1%	+/-1.8
American Indian and Alaska Native	261	+/-135	0.6%	+/-0.3
Cherokee tribal grouping	22	+/-16	0.1%	+/-0.1
Chippewa tribal grouping	16	+/-29	0.0%	+/-0.1

ACS Demographic and Housing Estimates	Estimate	Margin of Error	Percent	Margin of Error
Navajo tribal grouping	25	+/-33	0.1%	+/-0.1
Sioux tribal grouping	94	+/-91	0.2%	+/-0.2
Asian	5,685	+/-815	14.0%	+/-1.9
Asian Indian	0	+/-119	0.0%	+/-0.1
Chinese	298	+/-154	0.7%	+/-0.4
Filipino	3,666	+/-680	9.0%	+/-1.6
Japanese	1,180	+/-307	2.9%	+/-0.7
Korean	80	+/-59	0.2%	+/-0.1
Vietnamese	107	+/-94	0.3%	+/-0.2
Other Asian	354	+/-93	0.9%	+/-0.2
Native Hawaiian and Other Pacific Islander	3,726	+/-754	9.2%	+/-1.8
Native Hawaiian	1,909	+/-435	4.7%	+/-1.1
Guamanian or Chamorro	14	+/-17	0.0%	+/-0.1
Samoan	978	+/-558	2.4%	+/-1.3
Other Pacific Islander	825	+/-239	2.0%	+/-0.6
Some other race	1,180	+/-430	2.9%	+/-1.0
Two or more races	7,265	+/-823	17.9%	+/-2.0
White and Black or African American	271	+/-167	0.7%	+/-0.4
White and American Indian and Alaska Native	568	+/-204	1.4%	+/-0.5
White and Asian	1,592	+/-387	3.9%	+/-1.0
Black or African American and American Indian and Alaska Native	185	+/-182	0.5%	+/-0.5
Race alone or in combination with one or more other races				
Total population	**40,548**	**+/-2,557**	**40,548**	**(X)**
White	24,924	+/-2,048	61.5%	+/-3.1
Black or African American	3,653	+/-857	9.0%	+/-2.0
American Indian and Alaska Native	1,293	+/-335	3.2%	+/-0.8
Asian	10,343	+/-1,053	25.5%	+/-2.4
Native Hawaiian and Other Pacific Islander	7,952	+/-961	19.6%	+/-2.2
Some other race	1,568	+/-458	3.9%	+/-1.1
HISPANIC OR LATINO AND RACE				
Total population	**40,548**	**+/-2,557**	**40,548**	**(X)**
Hispanic or Latino (of any race)	6,034	+/-971	14.9%	+/-2.2
Mexican	1,874	+/-472	4.6%	+/-1.1
Puerto Rican	2,145	+/-636	5.3%	+/-1.6
Cuban	230	+/-353	0.6%	+/-0.9
Other Hispanic or Latino	1,785	+/-531	4.4%	+/-1.3
Not Hispanic or Latino	34,514	+/-2,322	85.1%	+/-2.2
White alone	16,957	+/-1,696	41.8%	+/-3.1
Black or African American alone	2,690	+/-763	6.6%	+/-1.8
American Indian and Alaska Native alone	187	+/-112	0.5%	+/-0.3
Asian alone	5,175	+/-697	12.8%	+/-1.7
Native Hawaiian and Other Pacific Islander alone	3,448	+/-724	8.5%	+/-1.7
Some other race alone	178	+/-173	0.4%	+/-0.4
Two or more races	5,879	+/-727	14.5%	+/-1.7
Two races including Some other race	26	+/-26	0.1%	+/-0.1
Two races excluding Some other race, and Three or more races	5,853	+/-728	14.4%	+/-1.7
Total housing units	**13,436**	**+/-386**	**(X)**	**(X)**

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:
·For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, Overview of Race and Hispanic Origin, issued March 2001. (pdf format)
·The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see http://www.census.gov/population/www/socdemo/hispanic/reports.html.
·While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
·Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol indicate a document is in the Portable Document Format (PDF). To view the file you will need the Adobe® Acrobat® Reader, which is available for **free** from the Adobe web site.
