

S1903

MEDIAN INCOME IN THE PAST 12 MONTHS (IN 2010 INFLATION-ADJUSTED DOLLARS)

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Hawaii			
	Total		Median income (dollars)	
	Estimate	Margin of Error	Estimate	Margin of Error
Households	445,812	+/-4,223	63,030	+/-1,556
One race--				
White	34.0%	+/-0.9	63,458	+/-3,273
Black or African American	1.6%	+/-0.2	56,793	+/-6,835
American Indian and Alaska Native	N	N	54,715	+/-15,937
Asian	40.0%	+/-0.9	65,938	+/-2,548
Native Hawaiian and Other Pacific Islander	7.1%	+/-0.4	58,119	+/-8,221
Some other race	1.0%	+/-0.2	44,407	+/-14,497
Two or more races	15.8%	+/-0.8	60,536	+/-3,052
Hispanic or Latino origin (of any race)	7.1%	+/-0.5	46,977	+/-4,165
White alone, not Hispanic or Latino	31.6%	+/-0.8	65,364	+/-3,084
HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
15 to 24 years	3.7%	+/-0.4	30,599	+/-4,395
25 to 44 years	30.1%	+/-0.9	68,592	+/-3,057
45 to 64 years	41.8%	+/-0.9	70,418	+/-2,441
65 years and over	24.4%	+/-0.6	51,293	+/-2,870
FAMILIES				
Families	303,075	+/-5,409	76,134	+/-1,551
With own children under 18 years	39.6%	+/-1.2	73,095	+/-2,493
With no own children under 18 years	60.4%	+/-1.2	77,444	+/-2,334
Married-couple families	74.0%	+/-1.3	84,510	+/-2,298
Female householder, no husband present	18.0%	+/-0.9	44,253	+/-2,550
Male householder, no wife present	8.0%	+/-1.0	65,860	+/-6,860
NONFAMILY HOUSEHOLDS				
Nonfamily households	142,737	+/-5,203	38,060	+/-2,355
Female householder	52.0%	+/-1.9	34,153	+/-3,099
Living alone	40.9%	+/-2.0	28,751	+/-2,257
Not living alone	11.1%	+/-1.3	69,444	+/-7,361
Male householder	48.0%	+/-1.9	41,920	+/-1,436
Living alone	35.4%	+/-1.8	37,071	+/-4,587
Not living alone	12.6%	+/-1.5	72,161	+/-10,112
PERCENT IMPUTED				
Household income in the past 12 months	31.7%	(X)	(X)	(X)
Family income in the past 12 months	32.4%	(X)	(X)	(X)
Nonfamily income in the past 12 months	27.8%	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
