SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2009-2011 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Mililani Town CDP, Hawaii			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	9,516	+/-504	9,516	(X)
Family households (families)	8,035	+/-522	84.4%	+/-2.4
With own children under 18 years	3,051	+/-459	32.1%	+/-4.1
Married-couple family	6,278	+/-446	66.0%	+/-3.3
With own children under 18 years	2,218	+/-380	23.3%	+/-3.7
Male householder, no wife present, family	644	+/-234	6.8%	+/-2.3
With own children under 18 years	276	+/-172	2.9%	+/-1.8
Female householder, no husband present, family	1,113	+/-270	11.7%	+/-2.8
With own children under 18 years	557	+/-220	5.9%	+/-2.3
Nonfamily households	1,481	+/-222	15.6%	+/-2.4
Householder living alone	1,247	+/-230	13.1%	+/-2.5
65 years and over	396	+/-120	4.2%	+/-1.3
Households with one or more people under 18 years	3,669	+/-457	38.6%	+/-4.0
Households with one or more people 65 years and over	2,988	+/-386	31.4%	+/-4.1
Average household size	3.14	+/-0.15	(X)	(X)
Average family size	3.41	+/-0.16	(X)	(X)
RELATIONSHIP				
Population in households	29,879	+/-2,147	29,879	(X)
Householder	9,516	+/-504	31.8%	+/-1.5
Spouse	6,251	+/-432	20.9%	+/-1.2
Child	10,118	+/-1,184	33.9%	+/-2.2
Other relatives	3,002	+/-778	10.0%	+/-2.4
Nonrelatives	992	+/-303	3.3%	+/-0.9
Unmarried partner	455	+/-196	1.5%	+/-0.6
MARITAL STATUS				
Males 15 years and over	12,153	+/-858	12,153	(X)
Never married	4,020	+/-530	33.1%	+/-3.2
Now married, except separated	7,005	+/-500	57.6%	+/-3.4
Separated	135	+/-112	1.1%	+/-0.9
Widowed	318	+/-164	2.6%	+/-1.3
Divorced	675	+/-206	5.6%	+/-1.6
Females 15 years and over	12,470	+/-925	12,470	(X)
Never married	3,090	+/-521	24.8%	+/-2.9

Subject	Mililani Town CDP, Hawaii			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Now married, except separated	7,158	+/-471	57.4%	+/-3.6
Separated	108	+/-79	0.9%	+/-0.6
Widowed	902	+/-223	7.2%	+/-1.7
Divorced	1,212	+/-325	9.7%	+/-2.4
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	290	+/-136	290	(X)
Unmarried women (widowed, divorced, and never married)	45	+/-34	15.5%	+/-12.4
Per 1,000 unmarried women	13	+/-10	(X)	(X)
Per 1,000 women 15 to 50 years old	44	+/-20	(X)	(X)
Per 1,000 women 15 to 19 years old	14	+/-23	(X)	(X)
Per 1,000 women 20 to 34 years old	48	+/-31	(X)	(X)
Per 1,000 women 35 to 50 years old	50	+/-33	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	N	N	N	(X)
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	(X)
Who are female	115	+/-64	46.6%	+/-9.5
Who are married	216	+/-125	87.4%	+/-13.6
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	7,674	+/-949	7,674	(X)
Nursery school, preschool	331	+/-204	4.3%	+/-2.6
Kindergarten	293	+/-147	3.8%	+/-1.9
Elementary school (grades 1-8)	3,076	+/-520	40.1%	+/-4.3
High school (grades 9-12)	1,780	+/-398	23.2%	+/-4.4
College or graduate school	2,194	+/-438	28.6%	+/-4.7
EDUCATIONAL ATTAINMENT				
Population 25 years and over	20,636	+/-1,254	20,636	(X)
Less than 9th grade	648	+/-272	3.1%	+/-1.3
9th to 12th grade, no diploma	377	+/-168	1.8%	+/-0.8
High school graduate (includes equivalency)	5,141	+/-772	24.9%	+/-3.1
Some college, no degree	4,563	+/-661	22.1%	+/-2.7
Associate's degree	2,742	+/-542	13.3%	+/-2.4
Bachelor's degree	5,299	+/-653	25.7%	+/-3.2
Graduate or professional degree	1,866	+/-290	9.0%	+/-1.5

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Starting in 2008, the Scotch-Irish category does not include Irish-Scotch. People who reported Irish-Scotch ancestry are classified under "Other groups," whereas in 2007 and earlier they were classified as Scotch-Irish.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-|' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '|+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

	Estimate	Margin of Error	Percent	Percent Margin of Error
65 years and over	(X)	(X)	1.6%	+/-1.9
People in families	(X)	(X)	2.3%	+/-1.3
Unrelated individuals 15 years and over	(X)	(X)	8.3%	+/-3.7

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Census occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2010 and later years are based on the 2010 revision of the SOC. To allow for the creation of 2007-2011 and 2009-2011 tables, occupation data in the multiyear files (2007-2011 and 2009-2011) were recoded to 2011 Census occupation codes. We recommend using caution when comparing data coded using 2011 Census occupation codes with data coded using Census occupation codes prior to 2010. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/ioindex/>.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				

Subject	Miliiani Town CDP, Hawaii			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Occupied units paying rent (excluding units where GRAPI cannot be computed)	1,927	+/-386	1,927	(X)
Less than 15.0 percent	135	+/-89	7.0%	+/-4.4
15.0 to 19.9 percent	270	+/-166	14.0%	+/-8.0
20.0 to 24.9 percent	188	+/-101	9.8%	+/-5.2
25.0 to 29.9 percent	191	+/-99	9.9%	+/-5.3
30.0 to 34.9 percent	266	+/-147	13.8%	+/-6.8
35.0 percent or more	877	+/-263	45.5%	+/-10.2
Not computed	44	+/-41	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2009, 2010, and 2011 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

American Indian and Alaska Native	29	+/-34	0.1%	+/-0.1
Cherokee tribal grouping	N	N	N	N
Chippewa tribal grouping	N	N	N	N
Navajo tribal grouping	N	N	N	N
Sioux tribal grouping	N	N	N	N
Asian	13,404	+/-1,361	44.9%	+/-3.9
Asian Indian	138	+/-138	0.5%	+/-0.5
Chinese	779	+/-253	2.6%	+/-0.8
Filipino	3,602	+/-1,048	12.1%	+/-3.2
Japanese	6,830	+/-878	22.9%	+/-3.2
Korean	470	+/-203	1.6%	+/-0.7
Vietnamese	0	+/-115	0.0%	+/-0.2
Other Asian	1,585	+/-351	5.3%	+/-1.2
Native Hawaiian and Other Pacific Islander	1,405	+/-558	4.7%	+/-1.8
Native Hawaiian	N	N	N	N
Guamanian or Chamorro	N	N	N	N
Samoan	N	N	N	N
Other Pacific Islander	N	N	N	N
Some other race	153	+/-120	0.5%	+/-0.4
Two or more races	9,126	+/-1,281	30.5%	+/-3.4
White and Black or African American	224	+/-216	0.7%	+/-0.7
White and American Indian and Alaska Native	77	+/-84	0.3%	+/-0.3
White and Asian	2,639	+/-805	8.8%	+/-2.5
Black or African American and American Indian and Alaska Native	0	+/-115	0.0%	+/-0.2
Race alone or in combination with one or more other races				
Total population	29,883	+/-2,147	29,883	(X)
White	12,048	+/-1,480	40.3%	+/-3.8
Black or African American	1,393	+/-607	4.7%	+/-2.0
American Indian and Alaska Native	643	+/-389	2.2%	+/-1.3
Asian	21,279	+/-1,734	71.2%	+/-3.2
Native Hawaiian and Other Pacific Islander	6,779	+/-1,173	22.7%	+/-3.6
Some other race	610	+/-330	2.0%	+/-1.1
HISPANIC OR LATINO AND RACE				
Total population	29,883	+/-2,147	29,883	(X)
Hispanic or Latino (of any race)	2,324	+/-793	7.8%	+/-2.5
Mexican	1,003	+/-637	3.4%	+/-2.1
Puerto Rican	524	+/-275	1.8%	+/-0.9
Cuban	0	+/-115	0.0%	+/-0.2
Other Hispanic or Latino	797	+/-325	2.7%	+/-1.1
Not Hispanic or Latino	27,559	+/-2,027	92.2%	+/-2.5
White alone	4,397	+/-702	14.7%	+/-2.2
Black or African American alone	565	+/-294	1.9%	+/-0.9
American Indian and Alaska Native alone	16	+/-27	0.1%	+/-0.1
Asian alone	13,209	+/-1,347	44.2%	+/-3.9
Native Hawaiian and Other Pacific Islander alone	1,340	+/-557	4.5%	+/-1.8
Some other race alone	0	+/-115	0.0%	+/-0.2
Two or more races	8,032	+/-1,303	26.9%	+/-3.6
Two races including Some other race	0	+/-115	0.0%	+/-0.2
Two races excluding Some other race, and Three or more races	8,032	+/-1,303	26.9%	+/-3.6
Total housing units	9,604	+/-519	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
