

2013 American Community Survey 1-Year Estimates

Highlights for the State of Hawaii

The U.S. Census Bureau released income, poverty, health insurance, computer, internet access and other data from its American Community Survey (ACS) for 2013 on September 18, 2014.

New in the 2013 ACS

This 1-year ACS data now contains information for the new Metropolitan and Micropolitan Statistical Areas. The Kahului-Wailuku-Lahaina Metropolitan Statistical Area in our State of Hawaii appears for the first time in the ACS data, with a population of 160,292.

Data for computer ownership and Internet use also made its debuts this year.
