Selected Social Characteristics in the United States: 2005

Data Set: 2005 American Community Survey Survey: 2005 American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Selected Social Characteristics in the United States: 2005	Estimate	Margin of Erro
SCHOOL ENROLLMENT		
Population 3 years and over enrolled in school	47,612	+/-1,950
Nursery school, preschool	3,470	+/-966
Kindergarten	2,357	+/-694
Elementary school (grades 1-8)	20,846	+/-974
High school (grades 9-12)	12,012	+/-1,041
College or graduate school	8,927	+/-1,471
EDUCATIONAL ATTAINMENT		
Population 25 years and over	134,859	+/-1,314
Less than 9th grade	8,374	+/-1,568
9th to 12th grade, no diploma	8,886	+/-1,72
High school graduate (includes equivalency)	44,507	+/-2,892
Some college, no degree	26,657	+/-2,412
Associate's degree	14,442	+/-2,058
Bachelor's degree	23,148	+/-2,097
Graduate or professional degree	8,845	+/-1,328
Ordinate of professional degree	0,040	17 1,020
Percent high school graduate or higher	87.2%	+/-1.8
Percent bachelor's degree or higher	23.7%	+/-1.0
MARITAL STATUS		
Males 15 years and over	79,893	+/-583
Never married		
	26,382	+/-1,522
Now married, except separated	44,026	+/-1,793
Separated	683	+/-400 +/-74
Widowed	1,969	
Divorced	6,833	+/-1,249
Females 15 years and over	80,364	+/-72
Never married	20,108	+/-1,813
Now married, except separated	44,143	+/-1,941
Separated	937	+/-430
Widowed	7,498	+/-1,063
Divorced	7,678	+/-1,311
FERTILITY		
Number of women 15 to 50 years old who had a birth in the past 12 months	2,689	+/-839
Unmarried women (widowed, divorced, and never married)	560	+/-347
Per 1,000 unmarried women	24	+/-15
Per 1,000 women 15 to 50 years old	55	+/-17
Per 1,000 women 15 to 19 years old	23	+/-28
Per 1,000 women 20 to 34 years old	107	+/-47
Per 1,000 women 35 to 50 years old	28	+/-16
CDANIDDADENTS		
GRANDPARENTS Number of grandparents living with own grandchildren under 18 years in households	7,364	+/-1,528
Responsible for grandchildren	2,260	+/-903
reopendiale for grandeniaren	2,200	7/-3

Selected Social Characteristics in the United States: 2005 Less than 1 year	Estimate 558	Margin of Error
1 or 2 years	159	+/-14
3 or 4 years	436	+/-37
5 or more years	1,107	+/-692
Characteristics of grandparents responsible for own grandchildren under 18 years		
Who are female	49.8%	+/-11.0
Who are married	70.2%	+/-17.7
VETERAN STATUS		
Civilian population 18 years and over	151,245	+/-639
Civilian veterans	12,348	+/-1,142
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION		
Population 5 years and over	186,804	+/-514
With a disability	20,654	+/-2,213
Population 5 to 15 years	20.226	+/-94
Population 5 to 15 years With a disability	30,336 561	+/-322
·		
Population 16 to 64 years	132,038	+/-995
With a disability	10,569	+/-1,780
Population 65 years and over	24,430	+/-313
With a disability	9,524	+/-972
RESIDENCE 1 YEAR AGO		
Population 1 year and over	197,656	+/-722
Same house	167,893	+/-4,784
Different house in the U.S.	26,572	+/-4,32
Same county	18,178	+/-4,109
Different county	8,394	+/-2,074
Same state	3,487	+/-1,74
Different state	4,907	+/-1,506
Abroad	3,191	+/-1,725
PLACE OF BIRTH		
Total population	200,544	****
Native	167,794	+/-3,868
Born in United States	165,669	+/-4,088
State of residence	110,125	+/-4,905 +/-2,682
Different state Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	55,544 2,125	+/-2,682
Foreign born	32,750	+/-912
U.S. CITIZENSHIP STATUS Foreign-born population	32,750	+/-3,868
Naturalized U.S. citizen	15,867	+/-2,592
Not a U.S. citizen	16,883	+/-2,710
YEAR OF ENTRY		
Population born outside the United States	34,875	+/-4,088
Nativo	2 425	./.044
Native Entered 2000 or later	2,125 325	+/-912 +/-317
Entered before 2000	1,800	+/-865

Source: U.S. Census Bureau, 2005 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

•The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from
2003 or later with data from prior years are not recommended for the relevant questions. For more information, see the ACS Subject Definitions for Disability.
•Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the
U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Explanation of Symbols:

- 1. An '*' entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- 2. An *** entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
- 4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- 5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 6. An '*** entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- 7. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

8. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

9. An '(X)' means that the estimate is not applicable or not available.
