AMERICAN FactFinder

PEPSR5H | Annual Estimates of the Resident Population by Sex, Race Alone or in Combination, and Hispanic Origin for the United States, States, and Counties: April 1, 2010 to July 1, 2015

2015 Population Estimates

Sex: Both Sexes
Year: April 1, 2010 Estimates Base
Hispanic Origin: Total

Geography	Race Alone or in Combination [1]				
	White	Black or African American	American Indian and Alaska Native	Asian	Native Hawaiian and Other Pacific Islander
Hawaii	576,038	39,824	34,923	785,488	358,951
Hawaii County, Hawaii	103,428	3,063	7,504	83,575	63,146
Honolulu County, Hawaii	357,585	33,628	21,261	593,977	235,520
Kalawao County, Hawaii	34	0	0	18	54
Kauai County, Hawaii	34,575	801	1,944	34,451	17,497
Maui County, Hawaii	80,416	2,332	4,214	73,467	42,734

[1] "In combination" means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race.

Notes:
The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race. Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this table versus those in the original 2010 Census data. For more information, see http://www.census.gov/popest/data/historical/files/MRSF-01-US1.pdf. For population estimates methodology statements, see http://www.census.gov/popest/methodology/index.html.
The 6,222 people in Bedford city, Virginia, which was an independent city as of the 2010 Census, are not included in the April 1, 2010 Census enumerated population presented in the county estimates. In July 2013, the legal status of Bedford changed from a city to a town and it became dependent within (or part of) Bedford County, Virginia. This population of Bedford town is now included in the April 1, 2010 estimates base and all July 1 estimates for Bedford County. Because it is no longer an independent city, Bedford town is not listed in this table. As a result, the sum of the April 1, 2010 census values for Virginia counties and independent cities does not equal the 2010 Census count for Virginia, and the sum of April 1, 2010 census values for all counties and independent cities in the United States does not equal the 2010 Census count for the United States. Substantial geographic changes to counties can be found on the Census Bureau website at http://www.census.gov/geo/reference/county-changes.html.

| PEPSR5H | Annual Estimates of the Resident Population by Sex, Race Alone or in Combination, and Hispanic Origin for the United States, States, and Counties: April 1, 2010 to July 1, 2015 |
| | 2015 Population Estimates |

Sex: Both Sexes
Year: July 1, 2015
Hispanic Origin: Total

Geography	Race Alone or in Combination [1]				
	White	Black or African American	American Indian and Alaska Native	Asian	Native Hawaiian and Other Pacific Islander
Hawaii	625,545	56,565	37,862	800,924	372,557
Hawaii County, Hawaii	110,775	5,039	9,583	87,954	67,974
Honolulu County, Hawaii	391,628	46,916	21,872	598,999	240,428
Kalawao County, Hawaii	38	3	3	12	47
Kauai County, Hawaii	37,210	1,362	1,999	36,431	18,389
Maui County, Hawaii	85,894	3,245	4,405	77,528	45,719

[1] "In combination" means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race.

Notes:
The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race. Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this table versus those in the original 2010 Census data. For more information, see http://www.census.gov/popest/data/historical/files/MRSF-01-US1.pdf. For population estimates methodology statements, see http://www.census.gov/popest/methodology/index.html.
The 6,222 people in Bedford city, Virginia, which was an independent city as of the 2010 Census, are not included in the April 1, 2010 Census enumerated population presented in the county estimates. In July 2013, the legal status of Bedford changed from a city to a town and it became dependent within (or part of) Bedford County, Virginia. This population of Bedford town is now included in the April 1, 2010 estimates base and all July 1 estimates for Bedford County. Because it is no longer an independent city, Bedford town is not listed in this table. As a result, the sum of the April 1, 2010 census values for Virginia counties and independent cities does not equal the 2010 Census count for Virginia, and the sum of April 1, 2010 census values for all counties and independent cities in the United States does not equal the 2010 Census count for the United States. Substantial geographic changes to counties can be found on the Census Bureau website at http://www.census.gov/geo/reference/county-changes.html.
