

Updates to American FactFinder

March 2015

American Factfinder is now available at factfinder.census.gov

- During the transition from the previous version of American FactFinder that began in 2011, this site has used the web address factfinder2.census.gov. We have completed the transition, and have changed the web address for American FactFinder to factfinder.census.gov. The old [factfinder2](http://factfinder2.census.gov) URL, as well as any links and bookmarks that were created using [factfinder2](http://factfinder2.census.gov) will continue to work, but any new links into American FactFinder should be created using factfinder.census.gov.

Popular Table links on the Main Page

- Popular table links are now available from the American FactFinder Main Page.

Suggested Tables in Advanced Search

- Search results in Advanced Search now displays recommended or suggested tables at the top of the search results. These suggested tables are available for several popular search terms and topic selections such as “age” and “education”.

The screenshot shows the American FactFinder Advanced Search interface. The search results are filtered for 'Age' and show a list of suggested tables. A red box highlights the top five suggested results.

Sorting Search Results

- Click the column headers in the search results grid to sort your search results. Click once to sort in ascending order. Clicking again will sort the results in descending order. To restore the search results to the default sort order, click the "Reset Sort" button.

The screenshot shows a search results interface. At the top, it says "Search Results: 1-25 of 10,244 tables and other products match 'Your Selections'" and "per page: 25". Below this is a search refinement section with fields for "topic or table name" and "state, county or place (optional)", a "GO" button, and radio buttons for "topics", "race/ancestry", "industries", and "occupations". A toolbar contains "Selected:", "View", "Download", "Compare", "Clear All", and a "Reset Sort" button (highlighted with a red box). Below the toolbar are dropdowns for "Show results from: All available years" and "All available programs". The main content is a table with columns: "ID", "Table, File or Document Title", "Dataset", and "About". The "ID" column header is also highlighted with a red box. The table lists several search results, all from the "2010 American Samoa Demographic Profile" dataset.

Other Search Updates and Improvements

We have made several changes in the way search results are ranked in Advanced Search.

- Occurrence of certain keywords in a text search and selected product filters will make certain tables “super relevant”, and those tables are placed at the top of the search results.
- Past versions of American FactFinder prioritized certain table types (Data Profiles, Detailed Tables, etc.) in the search results. For example, Data Profiles were ranked higher than Subject Tables. For this release, we have modified the table type weighting to make search results more relevant to your query.
- When using table identifiers in text search, American FactFinder will now try to match variations of the table ID. For example, if you search for “DP1”, results for “DP-1” and “DPO1” will also display.

Load Search and Save Search

- Use “Save Search” from the “Your Selections” box in Advanced Search to save your search criteria to a file on your local drive. This option does not save the actual search results, but saves the search criteria contained in “Your Selections” used for the current search.
- To retrieve a saved search, use the “Load Search” button from the “Your Selections” box in Advanced Search, or use the “Load Search/Query” button from the American FactFinder Main Page.

The main content area is titled 'Advanced Search - Search all data in American FactFinder'. Below this, there are tabs for 'Advanced Search' and 'Table Viewer'. A search result is shown for 'S0101 AGE AND SEX 2008-2012'. An 'Add/Remove Geographies' overlay is open, featuring a search box, a 'GO' button, and instructions to add geographic areas. A dropdown menu is set to 'Select a geographic type: -- select a geographic type --'. To the right, the 'Your Geography Selections' box shows 'Springfield city, Ohio' selected. A 'SHOW TABLE' button is located at the bottom right of the overlay. The background shows a table with data for age groups: 65 to 69 years, 70 to 74 years, 75 to 79 years, and 80 to 84 years, with various percentage values.

- Note that the “Add/Remove Geographies” button is only active if you have selected a single table from the search results.

- Note that this feature provides links to tables for other years based on business rules. These rules use the table's program, dataset, ID, and name to try to find versions of the same table from other years. Results may not be complete. For example, if a table name is different between years, it might not be listed in the Year Selector.
