THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT & TOURISM

S T A T E O F H A W A I I

*Quarterly
Statistical &
Economic
Report*

2nd Quarter 2015

This *Quarterly Statistical and Economic Report* has been prepared by the staff of the Research and Economic Analysis Division of the State Department of Business, Economic Development & Tourism (DBEDT). The report provides concise statistical information and analyses on Labor, Income and Prices, Taxes, Tourism, Construction, and other indicators, as well as an overview of the State of Hawaii and the four counties.

Technical notes and source descriptions have been kept to a minimum. However, the staff of the Research and Economic Analysis Division would be happy to respond to any inquiries of a technical nature that readers may have (586-2466). The quarterly information contained in this report reflects data received by the Research Division on or before May 11, 2015.

On-line availability of *Quarterly Statistical and Economic Report*

Since 1988, the Hawaii Department of Business, Economic Development & Tourism has had the *State of Hawaii Data Book* available on-line to anyone with a personal computer and a modem. Since 1997, the *Quarterly Statistical and Economic Report*, *State of Hawaii Data Book* and other DBEDT publications and information have been made available via the Internet at <http://www.hawaii.gov/dbedt/>.

Printing of the *QSER* was discontinued in March 2000. The full version and a *QSER Executive Summary* will be available on-line at http://www.hawaii.gov/dbedt/info/economic/data_reports/qser/.

For further information about available data and sources, users should call the Research and Economic Analysis Division at (808) 586-2466.

This report has been catalogued as follows:

Hawaii. Dept. of Business, Economic Development and Tourism. Research and Economic Analysis Division.

Quarterly statistical and economic report-State of Hawaii. Honolulu: 1975-

STATE OF THE ECONOMY

Hawaii's major economic indicators were mostly positive in the first quarter of 2015. State general fund tax revenues, visitor arrivals, wage and salary jobs, personal income, government contracts awarded, and private building permits all increased. However, visitor expenditures decreased in the quarter as compared to the same quarter of 2014.

In the first quarter of 2015, the total number of visitors arriving by air to Hawaii increased 70,898 or 3.5 percent. Due to shorter lengths of stay, the daily visitor census increased 3.4 percent in the quarter. Since visitors spent less on a daily basis during the first quarter of 2015, the total spending by visitors arriving by air decreased 1.2 percent in the quarter. Historical data shows that after seventeen quarters of positive growth from the third quarter of 2009 to the third quarter of 2013, Hawaii's tourism sector experienced two quarters of negative growth from the fourth quarter of 2013 to the first quarter of 2014. Since the second quarter of 2014, however, Hawaii's tourism sector returned to positive growth compared with the same quarter in the previous year.

In construction, the government contracts awarded and the value of private building permits both increased. In the first quarter of 2015, government contracts awarded increased \$69.4 million, and the permit value for private construction increased \$539.2 million. The construction sector added 700 jobs compared with the same quarter of 2014. According to the most recent data available, current construction put-in-place based on contracting excise tax data increased \$156.6 million or 9.2 percent in the fourth quarter of 2014 compared with the same quarter of 2013.

In the first quarter of 2015, State general fund tax revenues were up \$145.0 million or 11.3 percent over the same period of 2014. As an indicator of current economic activity, state general excise tax revenue increased \$35.6 million or 4.8 percent in the first quarter of 2015 compared to the same quarter in 2014. In 2014, State general fund tax revenues increased \$85.1 million or 1.6 percent, and the state general excise tax revenue increased \$72.2 million or 2.5 percent, compared with the previous year.

Labor market conditions were positive. After ten consecutive quarterly decreases in jobs from the second quarter of 2008 to the third quarter of 2010, Hawaii's jobs increased for the 18th quarter. In the first quarter of 2015 Hawaii's civilian non-agricultural wage and salary jobs averaged 628,500 jobs, an increase of 5,200 jobs or 0.8 percent from the same quarter of 2014.

The job increase in the first quarter of 2015 was due to job increases in the private sector. In this quarter, the private sector added about 6,700 non-agricultural jobs compared to the first quarter of 2014. Jobs increased the most in Retail Trade, adding 1,900 jobs or 2.8 percent; followed by Professional & Business Services, adding 1,500 jobs or 2.8 percent, Health Care & Social Assistance, adding 1,500 jobs or 2.3 percent, Food Services and Drinking Places, adding 1,300 jobs or 2.1 percent, and Natural Resources, Mining & Construction, adding 700 jobs or 2.3 percent in the quarter. In this quarter, Other Services lost 500 jobs, Educational Services and Accommodation each lost 300 jobs, and Information lost 200 jobs compared to the same quarter of 2014. During the first quarter of 2015, the three levels of government lost 1,500 jobs or 1.2 percent compared to the same quarter of 2014. The Federal Government lost 500 jobs or 1.5 percent; the State Government lost 1,100 jobs or 1.5 percent, while the Local Government added 100 jobs or 0.5 percent compared to the same quarter of 2014.

The most recent data from the U.S. Bureau of Economic Analysis (BEA) shows that Hawaii's total nominal annualized personal income in the fourth quarter of 2014 increased \$2,626.8 million or 4.1 percent from the same quarter of 2013. This increase includes inflation so the growth of real personal income was smaller. The increase in nominal personal income during the fourth quarter of 2014 was due to increases in all major components of personal income. In dollar terms, the largest increases occurred in wage and salary disbursements, followed by personal current transfer receipts, dividends, interest, and rent, supplements to wage and salaries, which include retirement and unemployment insurance benefits, and proprietors' income. In 2014, total annualized personal income was \$65,861.3 million, an increase of 3.8 percent from the previous year.

Consumer prices in Honolulu increased 1.8 percent in the second half of 2014 compared with the same period of 2013, as measured by the Honolulu Consumer Price Index for Urban Consumers (CPI-U). In contrast, the U.S. CPI-U increased 1.5 percent in the second half of 2014. In 2014, the Honolulu CPI-U increased 1.4 percent from the previous year. In the second half of 2014, the Honolulu CPI-U increased the most in the price index of Other Goods and Services (4.0 percent), followed by Education and Communication (3.1 percent), Food & Beverages (3.0 percent), Medical Care (2.4 percent), Recreation (2.2 percent), Housing (1.8 percent), and Transportation (0.7 percent). The price of Apparel decreased 7.3 percent, compared to the second half of 2013.

OUTLOOK FOR THE ECONOMY

Based on the most recent developments in the national and global economies, the performance of Hawaii's tourism industry, labor market conditions, and the growth of personal income and tax revenues, Hawaii's economy is expected to continue positive growth for the rest of 2015 and into 2016. While projected job growth is still positive, the current DBEDT forecast is less optimistic compared with the previous forecast.

Hawaii's economy depends significantly on conditions in the U.S. economy and key international economies, especially Japan. According to the May 2015 *Blue Chip Economic Consensus Forecasts*, U.S. real GDP is expected to increase by 2.5 percent in 2015 as a whole, 0.7 of a percentage point lower than the 3.2 percent growth rate projected in the February 2015 forecast. For 2016 the consensus forecast now expects an overall 2.8 percent growth in U.S. real GDP.

According to the May 2015 *Blue Chip Economic Consensus Forecast*, real GDP growth for Japan is now expected to increase 1.0 percent in 2015, the same growth rate as projected in the February 2015 forecast. For 2016, the consensus forecast now expects an overall 1.5 percent growth rate for Japanese real GDP.

For the local economy, DBEDT expects most of the economic indicators will grow at slower rates than projected in the previous forecast.

Overall, Hawaii's economy, as measured by real GDP, is projected to show a 2.5 percent increase in 2015, 0.6 of a percentage point below the growth rate forecasted last quarter. Real GDP growth in 2016 is expected at 2.4 percent, 0.6 of a percentage point below the growth rate forecasted last quarter.

Hawaii's unemployment rate is projected to be 3.9 percent in 2015 and 3.6 percent in 2016, both are the same as the previous forecast.

Visitor arrivals are expected to increase 2.5 percent in 2015, 0.4 of a percentage point higher than the previous forecast. The forecast for visitor days in 2015 increased 0.4 of a percentage point to 2.7 percent. The forecast for visitor expenditure in 2015 was revised downward to 2.0 percent, from 3.4 percent growth projected in the previous forecast. For 2016, the growth rate of visitor arrivals, visitor days, and visitor expenditures are now expected to be 1.8 percent, 1.7 percent, and 4.6 percent, respectively.

The projection for the non-agricultural wage and salary job growth rate in 2015 is 1.1 percent, 0.4 of a percentage point below the previous forecast. In 2016, jobs are projected to increase 1.2 percent, 0.2 of a percentage point below previous forecast.

The Honolulu Consumer Price Index (CPI) is now expected to increase 1.5 percent in 2015, 0.3 of a percentage point below the previous forecast. In 2016, the CPI is projected to increase 2.2 percent, the same as the previous forecast.

Personal income in current dollars is now expected to increase 4.3 percent in 2015, 0.2 of a percentage point below the previous forecast. Real personal income is currently projected to grow 2.5 percent in 2015, 0.3 of a percentage point below the previous forecast. In 2016, current-dollar personal income and real personal income are expected to increase 4.6 percent and 2.6 percent, respectively.

Beyond 2016, the economy will be on an expansion path, with job growth expected to be 1.0 percent in 2017 and 1.1 percent in 2018. Visitor arrivals are expected to increase 1.7 percent in 2017 and 2018. Visitor expenditures are expected to increase 4.1 percent in 2017 and 2018. Real personal income is projected to increase 2.7 percent in 2017 and 2.3 percent in 2018. Hawaii's real GDP growth is expected to increase 2.2 percent in 2017 and 2.3 percent in 2018. The unemployment rate is expected to decrease to 3.4 percent in 2017 and 3.3 percent in 2018.

**ACTUAL AND FORECAST KEY ECONOMIC INDICATORS FOR HAWAII:

1/ Visitors who came to Hawaii by air or by cruise ship. Expenditures includes supplementary expenditures estimated by HTA for 2013 and DBEDT thereafter.

2/ Using personal income deflator developed by the U.S. Bureau of Economic Analysis and estimated by DBEDT.

3/ 2014 and later years are estimated by DBEDT, data for earlier years from U.S. Bureau of Economic Analysis.

4/ Absolute change from previous year.

Source: Hawaii State Department of Business, Economic Development & Tourism, May 7, 2015.

COUNTY ECONOMIC CONDITIONS

Overall economic conditions were mostly positive across the counties in the first quarter of 2015. The unemployment rate decreased in all counties. Total visitor arrivals by air, visitor days, and the value of private building permits increased in all counties. Total non-agricultural wage and salary jobs increased in Honolulu and Maui, but decreased in Hawaii County and Kauai.

In the first quarter of 2015, the unemployment rate in all counties decreased. The unemployment rate in Honolulu decreased 0.3 of a percentage point from 4.2 percent to 3.9 percent; the unemployment rate in Maui County decreased 0.7 of a percentage point from 5.0 percent to 4.3 percent; the unemployment rate in Hawaii County decreased 0.8 of a percentage point from 5.9 percent to 5.1 percent; and the unemployment rate in Kauai County decreased 0.5 of a percentage point from 5.3 percent to 4.8 percent.

In the first quarter of 2015, Honolulu gained 4,550 or 1.0 percent of non-agricultural wage and salary jobs over the same quarter of 2014. Health Care & Social Assistance added the most jobs in the quarter (1,500 jobs), followed by Natural Resources, Mining, and Construction (1,350 jobs), Food Services and Drinking Places (1,300 jobs), Retail Trade (950 jobs), and Professional and Business Services (550 jobs). The Government sector lost 1,450 jobs. The largest private sector job losses occurred in Educational Services (500 jobs lost), followed by Other Services (100 jobs lost).

In the first quarter of 2015, Hawaii County lost 1,000 non-agricultural wage and salary jobs or 1.6 percent over the same quarter of 2014. Professional and Business Services added the most jobs in the quarter (400 jobs), followed by Retail Trade (250 jobs), and Educational Services (200 jobs). The largest private sector job losses occurred in Natural Resources, Mining, and Construction (650 jobs lost), followed by Arts, Entertainment & Recreation (400 jobs lost), Financial Activities (300 jobs lost), and Other Services (250 jobs lost). In the first quarter of 2015, Government jobs was unchanged over the same quarter of 2014.

Maui County saw a net gain of 1,700 jobs or a 2.4 percent increase in the first quarter of 2015 over the same quarter of 2014. Job gains in Arts, Entertainment & Recreation (750 jobs), Retail Trade (400 jobs), Natural Resources, Mining, and Construction (200 jobs), and Professional and Business Services (200 jobs) exceeded job losses in Accommodation (250 jobs lost). Government added only 50 jobs in the quarter.

In the first quarter of 2015, Kauai County lost 700 wage and salary jobs or 2.4 percent from the same quarter of 2014. Only Retail Trade added 200 jobs and Educational Services added 50 jobs in the quarter. The largest private sector job losses occurred in Natural Resources, Mining, and Construction (250 jobs lost), followed by Arts, Entertainment & Recreation (150 jobs lost), and Other Services (150 jobs lost). The public sector also decreased, with government losing 50 jobs.

In the first quarter of 2015, both visitor arrivals by air and visitor days increased in all counties. Visitor arrivals by air increased 1.6 percent in Honolulu, 3.1 percent in Hawaii County, 6.3 percent in Maui, and 7.0 percent in Kauai. Visitor days increased 2.7 percent in Honolulu, 3.3 percent in Hawaii County, 4.1 percent in Maui, and 4.4 percent in Kauai, compared to the same quarter of 2014. In the fourth quarter of 2014, the most recent quarterly data available, hotel occupancy rate increased in all counties. The hotel occupancy rate was the highest in Honolulu (at 84.4 percent for an increase of 0.6 percentage point), followed by Maui (at 72.0 percent and an increase of 0.3 of a percentage point), Kauai (at 70.0 percent an increase of 1.1 percentage points), and Hawaii County (at 61.5 percent an increase of 0.5 percentage point in the quarter).

In the first quarter of 2015, the growth rate of the respective values of total private building permits were positive in all counties. In this quarter, Honolulu private building permits increased \$236.8 million or 49.9 percent, Hawaii County increased \$39.6 million or 40.0 percent, Maui increased \$259.6 million or 153.3 percent, and Kauai (residential only available) increased \$3.2 million or 20.9 percent from the same quarter of the previous year.

5/11/2015

A. LABOR FORCE AND JOBS

Hawaii's labor market conditions continued to improve in the first quarter of 2015. Since the civilian labor force increased less than the civilian employment, the civilian unemployment rate decreased 0.5 of a percentage point in the quarter. For the 18th consecutive quarter, civilian non-agricultural wage and salary jobs increased.

In the first quarter of 2015, the civilian labor force averaged 674,400 people, an increase of 10,400 people or 1.6 percent from the same quarter of 2014 (Table A-1). In 2014, the civilian labor force increased 17,100 people or 2.6 percent from the previous year.

Civilian employment totaled 646,750 people in the first quarter of 2015, an increase of 13,200 people or 2.1 percent compared to the same quarter of 2014 (Table A-2). This is the tenth quarterly increase following four consecutive quarterly decreases from the fourth quarter of 2011 to the third quarter of 2012. In 2014, average civilian employment increased 19,450 people or 3.1 percent from the previous year.

In the first quarter of 2015, the number of civilian unemployed averaged 27,700, a decrease of 2,750 people or 9.0 percent from the same quarter of 2014 (Table A-3). In 2014, the number of unemployed decreased 2,400 people or 7.6 percent from the previous year.

The unemployment rate (not seasonally adjusted) decreased from 4.6 percent in the first quarter of 2014 to 4.1 percent in the first quarter of 2015 (Table A-4). In 2014, the unemployment rate decreased 0.4 of a percentage point from the previous year.

In the first quarter of 2015, Hawaii's civilian non-agricultural wage and salary jobs averaged 628,500 jobs, an increase of 5,200 jobs or 0.8 percent from the same quarter of 2014 (Table A-6). This is the 18th consecutive quarterly increase in non-agricultural wage and salary jobs

after ten consecutive quarterly decreases in jobs since the second quarter of 2008. In 2014, average non-agricultural wage and salary jobs increased 1.1 percent or 6,700 jobs from the previous year.

The job increase in the first quarter of 2015 was due to job increases in the private sector. In this quarter, the private sector added about 6,700 non-agricultural jobs compared to the first quarter of 2014. Jobs increased the most in Retail Trade, adding 1,900 jobs or 2.8 percent (Table A-10). This was followed by Professional & Business Services, adding 1,500 jobs or 2.8 percent (Table A-14), Health Care & Social Assistance, adding 1,500 jobs or 2.3 percent (Table A-16), Food Services and Drinking Places, adding 1,300 jobs or 2.1 percent (Table A-19), and Natural Resources, Mining & Construction, adding 700 jobs or 2.3 percent (Table A-7) in the quarter.

In the private sector, in the first quarter of 2015, Other Services lost 500 jobs (Table A-20), Educational Services (Table A-15) and Accommodation (Table A-18) each lost 300 jobs, and Information lost 200 jobs (Table A-12) compared to the same quarter of 2014.

The three levels of government lost 1,500 jobs or 1.2 percent (Table A-21) in the first quarter of 2015 compared to the same quarter of 2014. The Federal Government lost 500 jobs or 1.5 percent (Table A-22); the State Government lost 1,100 jobs or 1.5 percent (Table A-23), while the Local Government added 100 jobs or 0.5 percent (Table A-24) compared to the first quarter of 2014.

The initial liable claims for unemployment, which measures the number of people who lost jobs in Hawaii and moved to other states, increased 1.8 percent in the first quarter of 2015 compared to the same quarter of 2014 (Table A-27). In 2014, the initial liable claims for unemployment increased 4.0 percent from the previous year.

1/ Jobs data for 2011 had been benchmarked by DLIR in March 2013 for Non-Agricultural Wage and Salary Jobs (A-6) and Agriculture jobs (A-25). The estimates for monthly 2011 Agriculture jobs were withdrawn by DLIR as of the March 2014 benchmark.

2/ Non-agricultural jobs for 2012 to 2014 were benchmarked by DLIR in March 2015 and beginning with 2011 Q1, Agriculture jobs estimates are U.S. Department of Agriculture National Agricultural Statistics Service (NASS) quarterly survey data. 2015 Q1 data are expected to be released with the 2015 Q2 in June.

B. INCOME AND PRICES

Hawaii's total personal income increased during the fourth quarter of 2014 over the same quarter of 2013, all major components of personal income increased in the quarter. In dollar terms, the largest increases occurred in wage and salary disbursements, followed by personal current transfer receipts, dividends, interest, and rent, supplements to wage and salaries, which include retirement and unemployment insurance benefits, and proprietors' income (Table B-1).

In the fourth quarter of 2014, total nominal annualized personal income (i.e., not adjusted for inflation) increased \$2,626.8 million or 4.1 percent from the fourth quarter of 2013 (Table B-2). In 2014, total annualized personal income was \$65,861.3 million, an increase of 3.8 percent from the previous year.

In the fourth quarter of 2014, wage and salary disbursements increased \$1,300.5 million or 4.1 percent from the fourth quarter of 2013. This was the 18th quarterly year-over-year increase since the third quarter of 2010. In 2014, wage and salary disbursements increased 3.5 percent from the previous year (Table B-3).

Supplements to wages and salaries, consisting of employer payments to retirement plans, private group health insurance plans, private workers compensation plans, and other such benefits, increased \$276.7 million or 2.9 percent in the fourth quarter of 2014 from the same quarter of 2013 (Table B-4). In 2014, supplements to wages and salaries increased 3.1 percent from the previous year.

Proprietors' income increased \$208.6 million or 4.3 percent in the fourth quarter of 2014 over that of 2013 (Table B-5). In 2014, proprietors' income was up 3.1 percent from the previous year.

Dividends, interest, and rent increased \$454.0 million or 3.3 percent in the fourth quarter of 2014 from the same quarter of 2013. In 2014, income in this category was up 3.4 percent from the previous year (Table B-6).

The annualized personal current transfer receipts grew by \$629.3 million or 6.3 percent in the fourth quarter of 2014 from the same quarter of 2013 (Table B-7). In 2014, personal current transfer receipts increased 6.3 percent over the previous year.

Contributions to government social insurance, which is subtracted from total personal income, increased \$242.4 million or 4.4 percent in the fourth quarter of 2014, compared to the fourth quarter of 2013. In 2014, contributions to government social insurance increased 4.4 percent from the previous year (Table B-8).

In the fourth quarter of 2014, total non-farm private sector annualized earnings increased \$1,362.5 million or 4.3 percent from the fourth quarter of 2013. In dollar terms, the largest increase occurred in accommodation and food services, followed by health care and social assistance, administrative and waste services, construction, and wholesale trade. During the fourth quarter of 2014, total government earnings increased \$443.5 million or 3.1 percent from the same quarter of 2013. Earnings from the federal government increased \$119.7 million or 1.5 percent in the fourth quarter of 2014. Earnings from the state and local governments increased \$323.8 million or 5.4 percent in the quarter.

In the second half of 2014, Honolulu's Consumer Price Index for Urban Consumers (CPI-U) increased 1.8 percent from the same period in 2013, higher than the U.S. average CPI-U increase of 1.5 percent for the same period (Table B-9). In 2014, the Honolulu CPI-U increased 1.4 percent from the previous year. In the second half of 2014, the Honolulu CPI-U increased the most in Other Goods and Services (4.0 percent), followed by Education and Communication (3.1 percent), Food & Beverages (3.0 percent), Medical Care (2.4 percent), Recreation (2.2 percent), Housing (1.8 percent), and Transportation (0.7 percent). The price of Apparel decreased 7.3 percent, compared to the second half of 2013.

C. TAX REVENUES

The State general fund tax revenues increased in the first quarter of 2015 compared to the same quarter of 2014.¹ The net Individual Income Tax revenues increased the most, followed by the GET, the Net Corporate Income Tax, and the Transient Accommodations Tax (TAT).

In the first quarter of 2015, total tax collections distributed to the State general fund totaled \$1,432.0 million, an increase of \$145.0 million or 11.3 percent over the same quarter of 2014 (Tables C-1 and C-2). In 2014, State general fund tax revenues were up \$85.1 million or 1.6 percent over the previous year.

During the first quarter of 2015, GET revenues (excluding the Honolulu County Surcharge) totaled \$782.3 million, an increase of \$35.6 million or 4.8 percent over the same quarter of 2014 (Table C-3). In 2014, GET revenues increased \$72.2 million or 2.5 percent from the previous year.

Compared to the first quarter of 2014, Net Individual Income Tax revenues increased \$117.3 million or 33.8 percent to \$464.2 million in the first quarter of 2015 (Table C-4). In the first quarter of 2015, Declaration of Estimated Taxes increased \$11.6 million or 11.4 percent (Table C-5), Payments with Returns increased \$3.8 million or 23.7 percent (Table C-6), Revenues from Withholding Tax on Wages increased \$10.2 million or 2.4 percent (Table C-7), and Refunds decreased \$91.7 million or 46.7 percent (Table C-8). In 2014, Net Individual Income Tax collections increased \$75.1 million or 4.3 percent from the previous year.

Net Corporate Income Tax revenues, which tend to be volatile in nature, increased \$20.9 million in the first quarter of 2015 compared to the same quarter of 2014 (Table C-9). In the first quarter of 2015, the Declaration of Estimated Taxes decreased \$7.1 million or 26.1 percent (Table C-10), the Payment with Returns decreased \$0.5 million or 6.0 percent (Table C-11), and the Refunds decreased \$28.5 million or 60.8 percent (Table C-12), compared with the same quarter of 2014. In 2014, Net Corporate Income Tax revenues decreased \$69.6 million or 51.4 percent from the previous year.

In the first quarter of 2015, Transient Accommodations Tax (TAT) revenues increased \$5.3 million or 4.9 percent compared to the same quarter of 2014 (Table C-13). In 2014, TAT revenues increased \$23.4 million or 6.1 percent from the previous year.

According to the most recent data available, in the fourth quarter of 2014, the Retailing tax base increased 0.1 percent or \$10.7 million (Table C-14), the Services tax base increased 3.0 percent or \$99.5 million (Table C-15), the Contracting tax base increased 9.2 percent or \$156.6 million (Table C-16), and the Hotel Rentals tax base increased 7.3 percent or \$65.8 million (Table C-17), compared to the same quarter of 2013. In 2014, only the Contracting tax base decreased 4.2 percent; the Retailing tax base, the Services tax base, and the Hotel Rentals tax base increased 3.7 percent, 1.4 percent, and 6.0 percent, respectively, from the previous year.

¹ When interpreting tax figures in conjunction with other quarterly data in this report, it should be kept in mind that the tax data represent collections during the quarter. The transactions on which the taxes were paid did not necessarily take place during the quarter.

D. TOURISM

After seventeen quarters of positive growth from the third quarter of 2009 to the third quarter of 2013, with especially strong growth in 2012, Hawaii's visitor arrivals experienced two consecutive quarters of negative growth in the fourth quarter of 2013 and the first quarter of 2014. However, since the second quarter of 2014, Hawaii's tourism sector returned to positive growth compared with the same quarter in the previous year. Both domestic and international visitor arrivals increased in the first quarter. Due to shorter lengths of stay, the daily visitor census increased slightly less than the increase of visitor arrivals in the quarter. Since visitors spent less on a daily basis during the first quarter of 2015, total visitor spending increased less than the growth of the average total daily visitor census in the quarter.

The total number of visitors arriving by air to Hawaii increased 70,898 or 3.5 percent in the first quarter of 2015, compared to the same quarter of 2014 (Tables D-1 and D-2). The total average daily census was up 7,360 or 3.4 percent in the quarter. In 2014, total visitor arrivals by air increased 156,135 or 2.0 percent, while the average daily census increased 2,168 or 1.1 percent from the previous year.

In the first quarter of 2015, total visitor arrivals on domestic flights increased 53,185 or 4.0 percent compared to the same quarter of 2014 (Table D-3). In 2014, domestic arrivals were up 66,886 or 1.2 percent from the previous year.

Arrivals on international flights increased 17,713 or 2.5 percent in the first quarter of 2015 compared to the first quarter of 2014 (Table D-4). In 2014, international arrivals were up 89,249 or 3.4 percent from the previous year.

In terms of major market areas, from the first quarter of 2014 to the same period of 2015, arrivals from the U.S. West increased 64,346 or 8.9 percent (Table D-5), arrivals from the U.S. East increased 635 or 0.1 percent (Table D-6), and arrivals from Japan decreased 17,778 or 4.7 percent (Table D-7). In 2014, arrivals from U.S. West were up 45,199 or 1.4 percent; arrivals from the U.S. East were up 17,947 or 1.1 percent; and Japanese arrivals were down 7,579 or 0.5 percent from the previous year.

Due to shorter lengths of stay, the average total daily visitor census increased less than the growth of visitor arrivals in the quarter. The total average daily visitor census was up 3.4 percent or 7,360 visitors per day in the first quarter of 2015 over the same quarter of 2014 (Table D-8). The domestic average daily census increased 2.3 percent or 3,607 visitors per day (Table D-9), while the international average daily census increased 6.1 percent or 3,753 visitors per day (Table D-10). In 2014, the domestic average daily census increased 1,041 or 0.7 percent; and the international average daily census increased 1,127 or 2.1 percent from the previous year.

Nominal visitor expenditures by air totaled \$3,832.0 million in the first quarter of 2015, down 1.2 percent or \$46.8 million from the same quarter of 2014 (Table D-11). In 2014, visitor expenditures increased \$353.3 million or 2.5 percent compared with the previous year.

Total airline capacity, as measured by the number of available seats flown to Hawaii, increased 5.7 percent or 158,058 seats (Table D-12) in the first quarter of 2015, domestic seats increased 9.0 percent or 161,806 seats (Table D-13); international seats decreased 0.4 percent or 3,748 seats (Table D-14), compared to the same quarter of 2014. In 2014, the number of total available seats increased 3.4 percent or 366,128 seats from the previous year.

According to the most recent data available, in the fourth quarter of 2014, the statewide hotel occupancy rate averaged 75.0 percent, 2.7 percentage points higher than that of the same quarter of 2013 (Table D-15). In 2014, the statewide hotel occupancy rate averaged 77.0 percent, 0.5 of a percentage point lower than that of the previous year.

Readers interested in visitor statistics on a monthly basis can find them on the DBEDT website: <http://www.hawaii.gov/dbedt/info/visitor-stats/tourism/> and those interested in daily passenger arrival data at: <http://dbedt.hawaii.gov/visitor/daily-passenger-counts/>.

E. CONSTRUCTION

The indicators of Hawaii's construction industry were mostly positive in the first quarter of 2015. The value of private building authorizations, construction jobs, and government contracts awarded all increased, but state government capital improvement project (CIP) expenditures decreased in the quarter.

Construction has been one of the major contributors to job growth in Hawaii over the past few years. In the first quarter of 2015, the construction sector added 700 jobs or 2.3 percent compared with the same quarter of 2014. In 2014, the construction sector added 600 jobs or 1.9 percent (Table A-7) from the previous year. Before the recession, specifically the period from 2002 to 2007, construction job growth averaged 8.0 percent per year. In the fourth quarter of 2007, the average number of construction jobs reached a peak of 40,000 jobs. Since the second quarter of 2008, however, the quarter-over-quarter growth rate of construction jobs has been negative in all quarters until the third quarter of 2011.

In the first quarter of 2015, the private building authorizations in the state increased \$539.2 million or 71.1 percent, compared with the first quarter of 2014 (Table E-8). In 2014, private building authorizations for the state increased \$594.6 million or 21.9 percent compared with the previous year.

In the first quarter of 2015, private building authorizations in Honolulu increased \$236.8 million or 49.9 percent, compared with the first quarter of 2014 (Table E-8). In 2014, private building authorizations in Honolulu increased \$205.9 million or 11.0 percent compared with the previous year.

In the first quarter of 2015, private building authorizations in Hawaii County increased \$39.6 million or 40.0 percent, compared with the first quarter of 2014 (Table E-8). In 2014, private building authorizations in Hawaii County increased \$253.3 million or 57.1 percent compared with the previous year.

In the first quarter of 2015, private building authorizations in Maui increased \$259.6 million or 153.3 percent, compared with the first quarter of 2014 (Table E-8). In 2014, private building

authorizations in Maui increased \$118.6 million or 36.5 percent compared with the previous year.

In the first quarter of 2015, private building authorizations in Kauai increased \$3.2 million or 20.9 percent, compared with the first quarter of 2014 (Table E-8). In 2014, private building authorizations in Kauai increased \$16.8 million or 19.6 percent compared with the previous year.

Government contracts awarded increased \$69.4 million or 44.5 percent in the first quarter of 2015 compared to the same quarter of 2014. In 2014, government contracts awarded decreased \$97.7 million or 8.2 percent compared with the previous year (Table E-1). State government CIP expenditures decreased \$79.5 million or 23.2 percent in the first quarter of 2015 (Table E-2). In 2014, CIP expenditures increased \$127.7 million or 11.1 percent from the previous year.

According to the most recent data available, the Honolulu Construction Cost Index increased 7.4 percent for Single Family Residence (Table E-6) and 7.4 percent for High-Rise Building (Table E-7) in the fourth quarter of 2014 over that of 2013.

In the first quarter of 2015, Honolulu's median price for single family resales was \$676,000, an increase of \$21,000 or 3.2 percent from the same period last year (Table E-9). The median price for condominium units was \$363,750, an increase of \$18,750 or 5.4 percent from the same quarter last year (Table E-10). In the first quarter of 2015, the number of single-family unit resales was down 4.0 percent, and the number of condominium unit resales was down 1.4 percent compared with the first quarter of 2014 (Tables E-11 and E-12). In 2014, the number of single-family unit resales was down 1.7 percent, and the number of condominium unit resales was up 0.2 percent compared with the previous year.

In the first quarter of 2015, single-family median price \$599,000, an increase of 2.4 percent over first quarter 2014 as resales increased 12.3 percent. Condominium unit median price was \$440,000 for an 8.3 percent increase over first quarter 2014 as resales decreased 3.2 percent in Maui County (Tables E-15 to E-18).

First Hawaiian Bank has discontinued compiling Government Contracts Awarded. Hawaii State Department of Business, Economic Development & Tourism has compiled preliminary estimates beginning with the fourth quarter 1997 based on data in Building Industry.

1/ Formerly, this category was "Value of Construction Completed", subject to revision by Hawaii State Department of Taxation.

2/ Includes hotels.

3/ Kauai data for November consist of residential data only.

4/ Beginning with 2002 Kauai Private Building Authorizations data available for residential only.

Source: Hawaii State Department of Taxation; county building departments; U.S. Census Bureau; First Hawaiian Bank; Building Industry.

This table is not directly comparable to Contracts Awarded data in Table E-1.
 1/ Consists of general obligation bonds and reimbursable general obligation bonds.
 2/ Consists of revenue bonds and special purpose revenue bonds.
 3/ Includes special federal aid: interstate, primary, secondary; and federal funds.

This table is not directly comparable to Contracts Awarded data in Table E-1.

1/ Consists of general obligation bonds and reimbursable general obligation bonds.

2/ Consists of revenue bonds and special purpose revenue bonds.

3/ Includes special federal aid: interstate, primary, secondary; and federal funds.

4/ Percentage change not meaningful.

F. OTHER INDICATORS

The total number of bankruptcy filings in Hawaii decreased 7.4 percent or by 33 cases for the first quarter of 2015 from the same quarter of 2014. This was the 17th quarter-over-quarter decrease since the first quarter of 2011. In 2014, total filings decreased 17.3 percent or 362 cases from the previous year.

The number of Chapter 7 filings, the largest category, had a decrease of 8.2 percent or 26 cases in the first quarter of 2015. Chapter 7 filings are intended to liquidate assets and discharge debt. In 2014, Chapter 7 filings were down 21.5 percent or 333 cases from the previous year.

Chapter 11 filings increased from 2 cases in the first quarter of 2014 to 7 cases in the first quarter of 2015. In 2014, Chapter 11 filings decreased to 10 cases from 20 cases in the

previous year. Chapter 11 filings involve the structuring of repayment plans for companies.

Chapter 13 filings in the first quarter of 2015 decreased 9.7 percent or 12 cases from the first quarter of 2014. In 2014, Chapter 13 filings decreased 3.4 percent or 18 cases from the previous year. Chapter 13 bankruptcy allows debtors to work out repayment arrangements with creditors.

III. TERMS AND DEFINITIONS

Accommodation Jobs – This industry provides lodging or short-term accommodations for travelers, vacationers, and others. Some provide lodging only; while others provide meals, laundry, and recreational facilities, as well as lodging. There are three industry groups: (1) traveler accommodation includes establishments that primarily provide traditional types of lodging services. This group includes hotels, motels, and bed and breakfast inns. (2) recreational accommodation includes establishments that operate lodging facilities primarily designed to accommodate outdoor enthusiasts. Included are travel trailer campsites, recreation vehicle parks, and outdoor adventure retreats; and (3) rooming and boarding houses includes establishments providing temporary or longer-term accommodations that for the period of occupancy may serve as a principal residence. Board (i.e., meals) may be provided but is not essential.

Agriculture Wage and Salary Jobs – Full- and part-time jobs for which payment was made by the employer in the survey week containing the 12th of the month. Includes farm jobs and machinery operators. Closely related management and services jobs are included for sugar and pineapple but are excluded for other types of agriculture.

Airline Seat – Total number of available seats from all direct flights to Hawaii, including scheduled and chartered flights.

Arts, Entertainment & Recreation Jobs – This industry includes a wide range of establishments that operate facilities or provide services to meet varied cultural, entertainment, and recreational interests of their patrons. This sector comprises (1) establishments that are involved in producing, promoting, or participating in live performances, events, or exhibits intended for public viewing; (2) establishments that preserve and exhibit objects and sites of historical, cultural, or educational interest; and (3) establishments that operate facilities or provide services that enable patrons to participate in recreational activities or pursue amusement, hobby, and leisure-time interests. Excluded from this sector are: (1) establishments that provide both accommodations and recreational facilities, such as hunting and fishing camps and resort and casino hotels; (2) restaurants and night clubs that provide live entertainment in addition to the sale of food and beverages, (3) motion picture theaters, libraries and archives, and publishers of newspapers, magazines, books, periodicals, and computer software; and (4) establishments using transportation equipment

to provide recreational and entertainment services, such as those operating sightseeing buses, dinner cruises, or helicopter rides.

Average Daily Visitor Census- By Air – Average number of visitors present daily in the state. Figures are computed monthly by the Research & Economic Analysis Division, DBEDT based on arrival and departure dates from ground and in-flight surveys.

Average Length of Stay- By Air – Number of days visitors are in the State including the day of arrival and of departure.

Bankruptcy Filings –

Chapter 7 – Is available to both individuals and business debtors. Its purpose is to achieve a fair distribution to creditors of whatever non-exempt property the debtor has and to give the individual debtor a fresh start through the discharge in bankruptcy.

Chapter 11 – Is available for both consumer and business debtors. Its purpose is to rehabilitate a business as a going concern or reorganize an individual's finances through a court-approved reorganization plan.

Chapter 12 – Is designed to give special debt relief to a family farmer with regular income from farming.

Chapter 13 – Is available for an individual with regular income whose debts do not exceed specific amounts, typically used to budget some of the debtor's future earnings under a plan through which creditors are paid in whole or in part.

Additional information may be found at the American Bankruptcy Institute "Bankruptcy Chapters" website <http://www.abiworld.org/media/chapters.html>

Chained (1996) dollar Gross Domestic Product by State (GDP) [Note: formerly called 'Gross State Product'] series are calculated (using national chain-type implicit price deflators) as the product of the chain-type quantity index and the 1996 current-dollar value of the corresponding series, divided by 100. Because the formula for the chain-type quantity indexes uses weights of more than one period, the corresponding chained-dollar estimates are usually not additive; that is, state totals usually do not add to regional totals or to U.S. totals, and regional totals usually do not add to U.S. totals.

Civilian Employment – Persons 16 years of age or older who, during the survey week containing the 12th of the month, were either at work for pay or profit, or

worked without pay for 15 hours or more on a family farm or business, or were with a job but not at work. Both permanent and temporary employees and those who are working either full- or part-time are included.

Civilian Labor Force – Total of employed and unemployed persons, excluding those in the armed forces and 16 years of age or under. U.S. Census Bureau does surveys for the U.S. Bureau of Labor Statistics.

Civilian Unemployment – Persons 16 years of age or older who (1) did not work at all during the survey week but were actively seeking work and were available for work; or (2) did not work at all, were available for work, and were waiting to be called back from layoff or were waiting to report to a new wage or salary job within 30 days.

Condominium Resales: Consists of resales of condominium, duplexes and townhomes that are entered in the Multiple Listing Service. It does not include apartments.

Consumer Price Index: Honolulu or U.S. – Measure of the average change in prices over time for a fixed market basket of goods and services. It is compiled by the U.S. Bureau of Labor Statistics. The index measures changes from a reference date, i.e., 1982-84, which is designated as 100.0. For example, a Honolulu CPI-U (where U refers to All Urban Consumers), All Items, of 171.5 as the annual average for 1998 indicates the average prices of that group's basket was 71.5 percent higher than the weighted average of those same goods and services in 1982-84. Data are published monthly for the U.S. and semi-annually for Honolulu. As of January 1998, BLS changed the reference basket based on 1982-84 consumer expenditures to a 1993-95 basket, but the base remains 1982-84 = 100.0. The BLS Internet site has more information about the CPI at <http://www.bls.gov/cpi/home.htm>.

Contracting Tax Base – The total receipts of businesses engaged in contracting to erect, construct, repair, or improve buildings or structures of any kind or description, or to make any installation therein. Attributed to any business engaging in the practice of architecture, engineering, land surveying, landscape architecture, and the practice of pest control or fumigation.

Contributions for government social insurance - New category as part of the 'BEA Comprehensive Revision of the National Income & Product Accounts released

in December 1999. Replaces 'Personal contributions for social insurance'. These contributions, which are subtracted in the calculation of personal income, consist of the contributions, or payments, by employees, by the self-employed, and by other individuals who participate in the following government programs: Old-age, survivors, and disability insurance (social security); hospital insurance; supplementary medical insurance; unemployment insurance; railroad retirement; veterans life insurance; and temporary disability insurance. These contributions are excluded from personal income by definition, but the components of personal income upon which these contributions are based—mainly wage and salary disbursements and proprietors' income—are presented gross of these contributions.

Dividends, Interest, and Rent – U.S. Bureau of Economic Analysis presents the State Personal Income estimates of these components together. It consists of income received by individuals and on behalf of individuals by private and government employee retirement plans and by quasi-individuals, including non-profit institutions and private trust funds administered by fiduciaries. Personal dividend income is payments in cash or other assets by corporations in the U.S. or abroad to noncorporate stockholders who are Hawaii residents. Personal interest income is the interest income (monetary and imputed) from all sources that is received by individuals, by private and government employee retirement plans, by nonprofit institutions, and by estates and trusts. Rental income of persons with capital consumption adjustment is the net current-production income of persons from the rental of real property except for the income of persons primarily engaged in the real estate business; the imputed net rental income received by owner-occupants of farm-dwellings; and the royalties received by persons from patents, copyrights, and rights to natural resources. The estimates include BEA adjustments for uninsured losses to real estate caused by disasters, such as hurricanes (e.g. Iniki in 1992) and floods. See [Personal Income](#).

Earnings – This BEA aggregate is the sum of three components of personal income: wages and salary disbursements, other labor income, and proprietors' income. BEA presents earnings because it can be used in analyses of regional economies as a proxy for the income generated from participation in current production. See [Personal Income](#).

Educational Services Jobs – This industry comprises establishments that provide instruction and training by specialized establishments, such as schools, colleges,

universities, and training centers. These establishments may be privately owned and operated for profit or not for profit, or they may be publicly owned and operated. They may also offer food and accommodation services to their students. Educational services are usually delivered by teachers or instructors that explain, tell, demonstrate, supervise, and direct learning, in diverse settings, such as educational institutions, the workplace, or the home through correspondence, television, or other means.

Employer Contributions to Social Insurance - New category as part of the 'BEA Comprehensive Revision of the National Income & Product Accounts released in December 1999. Replaces 'Other labor income'. This component of personal income consists of employer contributions for employee pension and insurance funds and of employer contributions for government social insurance. See [Personal Income](#).

Federal Government Jobs – Includes those in the civilian agencies, i.e. Department of Defense, Agriculture, United States Postal Service and the various armed services exchange systems.

Financial Activities Jobs – Establishments primarily engaged in financial transactions, i.e. those transactions involving the creation, liquidation, or change in ownership of financial assets, and/or in facilitating financial transactions. Three principal types of activities are identified: (1) raising funds by taking deposits and/or issuing securities and, in the process, incurring liabilities; (2) pooling of risk by underwriting insurance and annuities, (3) providing specialized services facilitating or supporting financial intermediation, insurance, and employee benefit programs. In addition, monetary authorities charged with monetary control are included in this sector. This also includes real estate and the rental and leasing sector which is comprised of establishments primarily engaged in renting, leasing, or otherwise allowing the use of tangible or intangible assets, and establishments providing related services. The major portion of this sector comprises establishments that rent, lease, or otherwise allow the use of their own assets by others. The assets may be tangible, as is the case of real estate and equipment, or intangible, as is the case with patents and trademarks. Excluded from this sector are real estate investment trusts (REITS) and establishments primarily engaged in renting or leasing equipment with operators. In many cases, such as the rental of heavy construction equipment, the operator is essential to operate the equipment.

Food Services & Drinking Places Jobs – These industries prepare meals, snacks, and beverages to

customer order for immediate on-premises and off-premises consumption. Some provide food and drink only; while others provide various combinations of seating space, waiter/waitress services and incidental amenities, such as limited entertainment. The industries are grouped based on the type and level of services provided, i.e. full-service restaurants; limited-service eating places; and special food services including caterers and mobile food services. Food services and drink activities at hotels and motels; amusement parks, theaters, casinos, country clubs, and similar recreational facilities; and civic and social organizations are included here only if these services are provided by a separate establishment primarily engaged in providing food and beverage services. Excluded are establishments operating dinner cruises which are classified as scenic and sightseeing transportation because those establishments utilize transportation equipment to provide scenic recreational entertainment.

General Excise (Gross Income) Tax – Tax charged to businesses on gross sales or gross income. The tax rate is 0.5 percent on wholesaling and intermediary services, blind vendors, producing, manufacturing, sugar processing and pineapple canning; all other activities (retailing, business and professional services, contracting, theater, amusement, radio, interest, commissions, rentals) are taxed at 4.0 percent, except insurance commissions to general agents, subagents and solicitors, who are taxed at 0.15 percent.

General Excise and Use Tax Base – The value of all goods and services sold, including the value of tangible personal property imported into Hawaii for own use or consumption. One of the most comprehensive measures of business activity in the state.

General Fund Tax Revenues – Receipts of the general excise and use tax, net individual and corporate income taxes comprise over 85 percent of the General Fund tax receipts. The general government fund used to account for all financial resources except those required to be accounted for in another fund, such as the highway, airport or capital improvement fund.

Gross Domestic Product by State (GDP) [Note: formerly called 'Gross State Product'] – GDP is the value added in production by the labor and property located in a state. GDP for a state is derived as the sum of the GDP originating in all industries in the state. The estimates of real GDP are derived by applying national implicit price deflators by detailed industry to the current-dollar GDP estimates by

detailed industry. Then, in order to capture the differences across states that reflect the relative differences in the mix of goods and services that the states produce, the same chain-type index formula used in the national accounts is used to calculate the estimates of total real GDP and real GDP by major industry.

Health Care & Social Assistance Jobs – This industry includes establishments that provide both health care and social assistance for individuals. Both are included as it is sometimes difficult to distinguish between the boundaries of these two activities starting with those establishments providing medical care exclusively, continuing with those providing health care and social assistance, and finally finishing with those providing only social assistance. These services are delivered by trained professionals and the industries are defined based on the educational degree held by its practitioners. Excluded are aerobic classes and nonmedical diet and weight reducing centers. Although these can be viewed as health services, these services are not typically delivered by health practitioners.

Honolulu Construction Cost Indexes: High-Rise or Single Family – As compiled, by First Hawaiian Bank, and currently by DBEDT, these indexes measure changes in contractors' costs for building materials and labor. For discussion of Methodology, see [Hawaii's Economy May 2000](http://www.hawaii.gov/dbedt/hecon/he5-00/index.html) at <http://www.hawaii.gov/dbedt/hecon/he5-00/index.html>.

Hotel Occupancy Rate – The percentage of occupied rooms in a hotel. Hotel occupancy rates depend not only on the number of visitors and their length of stay, but also on the hotel room inventory, e.g., a large increase in new hotel units results in a drop in occupancy rates, until such time as visitor traffic builds up enough to fill them. Rates are obtained from a sample survey conducted on a monthly basis.

Hotel Rental Tax Base – is the economic base from which all hotel business activity is taxed. It includes the furnishing of temporary accommodations in a hotel, or other place in which lodgings are regularly furnished to transients for compensation.

Implicit Price Deflator – The implicit price deflator is calculated as the ratio of the current-dollar value to the corresponding chained-dollar value multiplied by 100. **OR** Implicit price deflators are weighted averages of the detailed price indexes used to prepare each aggregate and component and are calculated as the

ratio of current- to chained-dollar output multiplied by 100.

Information Jobs – Are in establishments engaged in the following processes: (a) producing and distributing information and cultural products, (b) providing the means to transmit or distribute these products as well as data or communications, and (c) processing data. Included are publishing industries, including software publishing, and both traditional publishing and publishing exclusively on the Internet; the motion picture and sound recording industries; the broadcasting industries, including traditional broadcasting and those broadcasting exclusively over the Internet; the telecommunications industries; the industries known as Internet service providers and web search portals, data processing industries, and the information services industries. For the purpose of developing NAICS, it is the transformation of information into a commodity that is produced and distributed by a number of growing industries that is at issue. The Information sector groups three types of establishments: (1) those engaged in producing and distributing information and cultural products; (2) those that provide the means to transmit or distribute these products as well as data or communications; and (3) those that process data. Many of the industries in the NAICS Information sector are engaged in producing products protected by copyright law, or in distributing them (other than distribution by traditional wholesale and retail methods). Examples are traditional publishing industries, software and directory and mailing list publishing industries, and film and sound industries. Broadcasting and telecommunications industries and information providers and processors are also included in the Information sector, because their technologies are so closely linked to other industries in the Information sector.

Initial Agent Claims – Notices of unemployment filed against another state by its workers who have moved to Hawaii.

Initial Liable Claims – Notices of unemployment filed against Hawaii by Hawaii workers who have moved to another state.

Local Government Jobs – Includes those in the county governments.

Manufacturing Jobs – Are in establishments engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. The assembling of component parts of manufactured products is considered manufacturing,

except in cases where the activity is appropriately classified as construction. Included in manufacturing are plants, factories, or mills and characteristically use power-driven machines and materials-handling equipment. However, establishments that transform materials or substances into new products by hand or in the worker's home and those engaged in selling to the general public products made on the same premises from which they are sold, such as bakeries, candy stores, and custom tailors, may also be included in this sector. Manufacturing establishments may process materials or may contract with other establishments to process their materials for them. Both types of establishments are included in manufacturing. The following activities are considered manufacturing in NAICS: milk or water bottling and pasteurizing; fresh fish packaging; printing and related activities; ready-mixed concrete production; ship repair and renovation; machine shops; and tire retreading. Conversely, there are activities that NAICS classifies as non-manufacturing, i.e. agriculture, forestry, fishing and hunting; the construction of structures and fabricating operations performed at the site of construction by contractors, establishments engaged in breaking of bulk and redistribution in smaller lots, including packaging, repackaging, or bottling products, customized assembly of computers, etc

NAICS – The North American Industry Classification System (NAICS) has replaced the U.S. Standard Industrial Classification (SIC) system. NAICS was developed jointly by the U.S., Canada, and Mexico to provide new comparability in statistics about business activity across North America. Estimates of Personal Income earnings, wage and salary disbursements, and employment by NAICS subsector are available starting with 2001. For descriptions of NAICS industries, please see <http://www.census.gov/epcd/www/naics.html> at the Census Bureau.

Natural Resources, Mining & Construction Jobs – In Hawaii, 99 percent of the jobs in this category are in Construction and the remaining 1 percent in Mining. Included are those establishments that extract naturally occurring mineral solids, such as coal and ores; liquid minerals, such as crude petroleum; and gases, such as natural gas. There are two activities: mine operation and mining support activities. The construction sector comprises establishments primarily engaged in the construction of buildings or engineering projects (e.g., highways and utility systems), additions, alterations, or maintenance and repairs. Establishments primarily engaged in the preparation of sites for new construction and establishments primarily engaged in

subdividing land for sale as building sites also are included in this sector.

Net Earnings – BEA also calculates this measure as Earnings less Personal Contributions for Social Insurance. Net earnings is used in the presentation of State and local area personal income as the sum of net earnings, transfer payments, and personal dividend income, personal interest income, and rental income of persons. It can be used as a proxy for income before taxes. See [Personal Income](#).

Net Individual or Corporation Income Tax Revenue – For individuals, it is calculated as declaration of estimated taxes plus payments with returns plus withholding tax on wages less refunds. Net corporate income tax revenue is calculated as declarations of estimated taxes plus payments with returns less refunds.

Non-Agriculture Wage and Salary Jobs – Derived monthly from a sample survey of employers reporting the number of persons who received pay for any part of the pay period containing the 12th of the month. Includes all full- and part-time non-agricultural workers, permanent and temporary workers, and workers on paid sick leave and paid vacation.

Other Goods and Services – Honolulu Consumer Price Index component detail. Prior to the CPI 1998 Revision, it measured the change in average prices of tobacco products, personal care goods and services, and personal and educational expenditures. Beginning with January 1998 data, this category includes tobacco, personal care, and miscellaneous goods and services. Other components, for example, schoolbooks and tuition, moved to the new “Education and Communication” and recreational reading to “Recreation”. BLS’ *Monthly Labor Review* (December 1996), and BLS’ Internet site have more information about the CPI at <http://www.bls.gov/cpi/>.

Other Labor Income – See [Employer Contributions to Social Insurance](#)’.

Other Services (except public administration) Jobs – Are in establishments engaged in providing services not specifically provided for elsewhere in the classification system., such as equipment and machinery repairing, promoting or administering religious activities, grantmaking, advocacy, and providing drycleaning and laundry services, personal care services, death care services, pet care services, photofinishing services, temporary parking services, and dating services. Private households that engage in employing workers on or about the premises in

activities primarily concerned with the operation of the household are included in this sector. Excluded from this sector are establishments primarily engaged in retailing new equipment and also performing repairs and general maintenance on equipment

Personal Contributions for Social Insurance – See [‘Contributions for government social insurance’](#).

Personal current transfer receipts – Modified category as part of the ‘BEA Comprehensive Revision of the National Income & Product Accounts’ released in December 1999. Formerly ‘Transfer Payments’. This component of personal income is payments to persons for which no current services are performed. It consists of payments to individuals and to nonprofit institutions by Federal, state, and local governments and by businesses. Government payments to individuals includes retirement and disability insurance benefits, medical payments (mainly Medicare and Medicaid), income maintenance benefits, unemployment insurance benefits, veterans benefits, and Federal grants and loans to students. Government payments to nonprofit institutions excludes payments by the Federal Government for work under research and development contracts. Business payments to persons consists primarily of liability payments for personal injury and of corporate gifts to nonprofit institutions.

Personal Income – Income received by persons for participation in production, from government and business transfer payments, and from government interest. It is calculated as the sum of wage & salary disbursements, supplements to wages and salaries, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and personal current transfer receipts, less contributions for government social insurance. For additional information see <http://www.bea.doc.gov/bea/regional/spi/>

Professional & Business Services Jobs – Are in establishments that specialize in performing professional, scientific, and technical activities for others and require a high degree of expertise and training. These activities include: legal advice and representation; accounting, bookkeeping, and payroll services; architectural, engineering, and specialized design services; computer services; consulting services; research services; advertising services; photographic services; translation and interpretation services; veterinary services; and other professional, scientific, and technical services to business and sometimes to households, but excludes establishments

primarily engaged in providing a range of day-to-day office administrative services, such as financial planning, billing and recordkeeping, personnel, and physical distribution and logistics. The management sector comprises establishments that hold the securities of companies and enterprises for the purpose of owning a controlling interest or influencing management decisions or establishments that administer, oversee, and manage establishments of the company or enterprise and that normally undertake the strategic or organizational planning and decisionmaking role of the company or enterprise. Establishments in this sector perform essential activities that are often undertaken, in-house, by establishments in many sectors of the economy but by consolidating the performance of these activities, economies of scale are achieved. Also included are establishments that perform routine support activities, such as office administration, hiring and placing of personnel, document preparation and similar clerical services, solicitation, collection, security and surveillance services, cleaning, and waste disposal services on a contract or fee basis.

Proprietors' Income – This component of BEA Personal income is the current-production income (including income in kind) of sole proprietorships, partnerships and cooperatives. Corporate directors' fees and the imputed net rental income of owner-occupants of farm dwellings is included in proprietors' income but the imputed net rental income of owner-occupants of nonfarm dwellings is included in rental income of persons. Proprietors' income excludes dividends and monetary interest received by nonfinancial business and rental incomes by persons not primarily engaged in the real estate business; these incomes are included in dividends, net interest, and rental income of personas, respectively. See [Personal Income](#).

Retail Tax Base – includes the general excise tax base on retailing. Retail sales include sales for consumption or use by the purchaser and not for resale. The general excise tax at the retail level (4%) is sometimes loosely called a sales tax. However, it differs from a typical sales tax in two respects: (1) it is a tax on the gross income of the seller rather than a tax on the purchase price of the buyer; (2) the retail excise tax in Hawaii applies to all retail sales (both goods and services) whereas most Mainland sales taxes exempt some commodities such as food and services.

Retail Trade Jobs – Are in establishments engaged in retailing merchandise, generally without transformation, and rendering services incidental to the sale of merchandise. The retailing process is the final step in the distribution of merchandise; retailers

are, therefore, organized to sell merchandise in small quantities to the general public. This sector comprises two main types of retailers: store and nonstore retailers. Store retailers operate fixed point-of-sale locations, located and designed to attract a high volume of walk-in customers where they have extensive displays of merchandise and use mass-media advertising to attract customers from the general public for personal or household consumption, but some also serve business and institutional clients. These include establishments such as office supply stores, computer and software stores, building materials dealers, plumbing supply stores, and electrical supply stores. Catalog showrooms, gasoline services stations, automotive dealers, and mobile home dealers are treated as store retailers. Generally, establishments engaged in retailing merchandise and providing after-sales services are classified in this sector. Nonstore retailers are also organized to serve the general public, but they reach customers and market merchandise with methods, such as the broadcasting of "infomercials," the broadcasting and publishing of direct-response advertising, the publishing of paper and electronic catalogs, door-to-door solicitation, in-home demonstration, selling from portable stalls (street vendors, except food), and distribution through vending machines.

Services Tax Base – includes tax base data on establishments primarily engaged in providing a wide variety of services for individuals, business and government establishments, and other organizations; hotels and other lodging places; establishments providing personal, business, repair, and amusement services; health, legal, engineering, and other professional services; educational institutions; membership organizations and other miscellaneous services.

Single Family Home Resales: Consists of resales of single family homes that are entered in the Multiple Listing Service.

State Government Jobs – Education includes all employees under the Department of Education (DOE) and the University of Hawaii System. This includes public library personnel, substitute teachers who received pay during the pay period including the 12th of the month, and support personnel such as cafeteria workers, classroom cleaners, and school security attendants. Also included are part-time employees in special programs such as the A+ After School.

State Government Jobs – Non-Education - Includes all other executive branch departments (i.e. Agriculture, Transportation, etc.), the legislative and judicial

branches, and the Research Corporation of the University of Hawaii (RCUH).

Total Wage and Salary Jobs – includes nonagricultural wage and salary workers and agriculture wage and salary workers. Persons on the payroll of more than one establishment during the pay period are counted in each establishment that reports them.

Transfer Payments – See [Personal current transfer receipts](#).

Transient Accommodations Tax – Tax levied on resort time-share vacation units and the furnishing of a room, apartment, suite which is customarily occupied by a person or group for fewer than 180 consecutive days by a hotel, apartment, motel, or cooperative apartment, rooming house, or other place in which lodgings are generally furnished to transients. The tax as of January 1, 1999 is imposed at the rate of 7.25 percent and the tax base includes time-share units.

Transportation, Warehousing, & Utilities Jobs – Are in industries providing transportation of passengers and cargo, warehousing and storage for goods, scenic and sightseeing transportation, and support activities related to modes of transportation - air, rail, water, road, and pipeline. The sector distinguishes subsectors for each mode of transportation, a subsector for warehousing and storage, and a subsector for establishments providing support activities for transportation. In addition, there are subsectors for establishments that provide passenger transportation for scenic and sightseeing purposes, postal services, and courier services. Warehousing establishments in this sector are distinguished from merchant wholesaling in that the warehouse establishments do not sell the goods. Excluded are establishments primarily engaged in providing travel agent services that support transportation and other establishments, such as hotels, businesses, and government agencies. The Utilities sector comprises establishments engaged in the provision of the following utility services: electric power, natural gas, steam supply, water supply, and sewage removal. Within this sector, the specific activities associated with the utility services provided vary by utility: electric power includes generation, transmission, and distribution; natural gas includes distribution; steam supply includes provision and/or distribution; water supply includes treatment and distribution; and sewage removal includes collection, treatment, and disposal of waste through sewer systems and sewage treatment facilities. Excluded from this sector are establishments primarily engaged in waste

management services that do not use sewer systems or sewage treatment facilities.

Unallocated General Excise & Use Tax Revenues – General excise and use tax revenues that could not be allocated to specific activities of the general excise & use tax. It also includes collections from penalty and interest, assessments and corrections, delinquent collections, refunds, protested payments, settlements, etc.

Unemployment Rate – Ratio of unemployed persons to the civilian labor force expressed as a percentage.

Use Tax – Excise tax levied on tangible personal property that is imported or purchased from an unlicensed seller for use in the state. The tax is based upon the purchase price or value of the tangible personal property purchased or imported, whichever is applicable. Rates: 0.5 percent, if for resale at retail; 4.0 percent, if for use or consumption.

Visitor Arrivals- By Air, Total – All persons who stayed in Hawaii for a period between one night and one year.

Domestic Visitor Arrivals – Visitors who stayed in Hawaii for at least one night but less than one year, arriving on flights from Mainland U.S. A foreign resident arriving in Hawaii on a flight directly from the U.S. Mainland is counted as a domestic visitor.

International Visitor Arrivals – Visitors who stayed in Hawaii for at least one night but less than one year arriving on flights from foreign countries. An U.S. resident arriving in Hawaii on a flight directly from a foreign country is counted as an international visitor.

Visitor Days – Measures the number of days visitors stay in the State and are the most comprehensive measurement of visitations. Visitor days take into account both the number of visitors and their length of stay and is the main indicator used by most of the tourism-related businesses to plan their activities.

Wages and Salary Disbursements– This component of Personal Income consists of the monetary remuneration of employees, including the compensation of corporate officers; commissions, tips, and bonuses; and receipts in kind, or pay-in-kind, such as the meals furnished to the employees of restaurants. It reflects the amount of wages and salaries disbursed, but not necessarily, earned during the year. See [Personal Income](#).

Wholesale Trade Jobs – Are in establishments engaged in wholesaling merchandise, generally without transformation, and rendering services incidental to the sale of merchandise and includes the outputs of agriculture, mining, manufacturing, and certain information industries, such as publishing. It is an intermediate step in the distribution of merchandise. Wholesalers are organized to sell or arrange the purchase or sale of goods for resale, capital or durable nonconsumer goods, and raw and intermediate materials and supplies used in production. Wholesalers sell merchandise to other businesses and normally operate from a warehouse or office that have little or no display of merchandise and do not solicit walk-in traffic. Transactions are often conducted between wholesalers and clients that have long-standing business relationships. There are two main types: merchant wholesalers that sell goods on their own account and business to business electronic markets, agents, and brokers that arrange sales and purchases for others generally for a commission or fee.
