1/ Dependent figure as of September 30.

2/ Estimated.

3/ The total number of navy military personnel does not sum to the total of personnel living in housing units, in barracks and aboard ship. This is because navy personnel assigned to ships on a specified date may also have another place to live elsewhere in Hawaii. Therefore, they may be counted more than once in the type of residence columns. Total navy military personnel figure was obtained by adding the Department of Defense military personnel figure as of June 30 to the number of personnel living aboard ship which is from the DBEDT survey. Figures do not include personnel living in marine housing units.
