2/ Includes expenditures for veterans' compensation for service-connected disability; dependency and indemnity compensation for service-connected deaths; veterans' pension for nonservice-connected disabilities; and, in 2006 and 2007, for pension to veterans' surviving spouse and children; but in 2008, for burial and other benefits to veterans and their survivors.

3/ Includes medical services, medical administration, facility maintenance, educational support, research support, and other overhead items. Medical Care does not include construction or other non-medical support expenditures. In 2008, the new medical care figures were based on where patients live instead of where care was delivered.
