

Table 21.14-- TIMESHARE PROPERTIES AND UNITS, BY ISLAND: 2010

Subject	State total	Oahu	Hawaii	Kauai	Maui	Molokai
Properties 1/	91	15	18	25	32	1
Registered units 2/	9,092	1,993	1,479	2,394	3,219	7
Operated units 3/	10,297	2,350	1,538	2,794	3,608	7

1/ Includes any property which contains one or more timeshare units.

2/ The number of units registered included those that were available for sale in a timeshare program (as well as those already sold in such a program).

3/ There was a change in the reporting procedure from the 2009 data and onward. The number of units operated represented the units that were in use. Certain timeshares properties have the ability to split a given registered timeshare unit into more than one operated visitor unit (i.e. it may be possible for a two-bedroom unit to be rented as two keys: one studio unit and one 1-bedroom unit). Operated units were defined as number of salable keys that were operated for visitor use. In some cases, the number of operating units exceed the number of registered units for a given timeshare property. This change in reporting procedure resulted in a higher inventory count for certain timeshare properties, but did not necessarily reflect a change in the physical plant.
