NA Not available.

1/ In houses or apartments, either on-base or in the civilian community.

2/ Estimated.

3/ As of May 2012. In housing units, in barracks and dependent figures are estimated.

4/ The total number of navy military personnel does not sum to the total of personnel living in housing units, in barracks and aboard ship. This is because navy personnel assigned to ships or listed as living in barracks on a specified date may also have another place to live elsewhere in Hawaii. Therefore, these military personnel may be counted more than once in the type of residence columns. The "total navy personnel" figure, however, counted each military personnel only once.

5/ Number of dependents in Hawaii are estimated. Receiving housing entitlements, but some may be living in another state.
