HAWAII, THE ALOHA STATE
Discovered by Polynesians between the 3rd and 7th centuries A.D. and later by British Captain James Cook in 1778. Hawaii became the 50th state on August 21, 1959.

Honolulu, the State Capital is located on the Island of Oahu.

HAWAII'S EIGHT MAJOR ISLANDS
Described by Mark Twain as "the loveliest fleet of islands that lies anchored in any ocean", Hawaii is a string of 137 islands encompassing a land area of 6,423 square miles in the north central Pacific Ocean about 2,400 miles from the west coast of the continental United States.

Stretching from northwest to southeast, the major islands are: Niihau, Kauai, Oahu, Molokai, Lanai, Kahoolawe, Maui, and Hawaii.

State Flower: Yellow hibiscus (*pua ma’o hau hele; Hibiscus brackenridgei*)

EDUCATION

Hawaii is America's most multicultural state, located at the crossroads of East and West in a string of islands renowned for their natural beauty.

For more than two centuries, the islands of Hawaii have welcomed international visitors with the spirit of ‘Aloha.’ Some have come as students to take advantage of our outstanding education and training opportunities. Many who have studied in Hawaii have returned to be leaders back home - they have entered government service, became doctors, teachers, business people, acted as positive change agents for their own countries.

The University of Hawaii system had 51,674 students enrolled in 2017. It awarded 4,735 bachelor's degrees, 1,040 master's degrees and 482 doctoral and professional degrees in 2017.

In 2017, Hawaii's statewide public school system had an enrollment of 179,255 students in grades K-12. There were also 142 private schools as of the 2015-16 school year. Enrollment in private schools was 41,703 in 2015-16.

Institutions with an international focus are the East-West Center, the Asia-Pacific Center for Security Studies, the Japan-America Institute of Management Science, Hawaii Pacific University, Chaminade University, and the University of Hawaii.
The University of Hawaii fosters research in all aspects of science and technology with international recognition in areas such as astronomy, ocean sciences, geology and biomedical research.

Notably, astronomy plays a key role in Hawaii's commitment to scientific research. The exceptionally clear skies at the summits of Hawaii Island's Maunakea and Maui Island's Haleakala offer optimum conditions for astronomical observations. There were thirteen observatories on Maunakea and three observatories on Haleakala in operation in 2018.

The 'Imiloa Astronomy Center explores the connections between Hawaiian cultural traditions and the science of astronomy.
For practical purposes, the City and County of Honolulu is the Island of Oahu. Known as the "Gathering Place", Oahu has a land area of 600.7 square miles.

It is the center of business and government for the State of Hawaii. Downtown Honolulu is Hawaii's financial center while Waikiki, the world famous tourist destination, is only a few miles away.

Smallest of the four counties in geographical size, it has 69% of the State's population.

Legally it includes most Northwestern Hawaiian Islands to Kure Atoll which is 1,367 miles from Honolulu.

Oahu's flower is the 'ilima which may have yellow or orange blossoms.

Average temperatures range from 71° to 84° F.

Rainfall at the coast averages 22 inches per year and the humidity 68%.
