Additional Comments : EC's PIG Draft, VR 0.1

§11-200-9

Page 27: (a) (4) Does the agency (proposing or accepting) need to explain/inform if it issues a FONSI?

Page 29: (1) Do we need to expand/define “consult with” in the context of “consult with ... citizen groups and individuals...”. What would satisfy this requirement, and how should it be reported? For example, would a simple list of groups and individuals contacted be sufficient, or would there need to be more information, such as dates of meetings, what was discussed, who participated, etc. Would one community meeting satisfy this requirement?

§11-200-10

Page 35: The initial sentence makes this appear to be applicable just to “proposing agency or approving agency” but not to applicants. Yet, (1) says “Identification of applicant or proposing agency.” Perhaps the first sentence should include “applicant.”

Page 35: (3) “Identification of agencies, citizen groups and individuals consulted in preparing the assessment.” Similar to comments above, is “identification” sufficient here? Shouldn’t there be more than a simple listing of names?

§11-200-11.1

Page 37: (b) Do we need to be more precise in terms of time limits: "The proposing agency or approving agency shall file the notice and supporting draft EA with the office as early as possible after the determination is made."

§11-200-11.2

Page 39: (2) Is “Reviewing any public and agency comments” sufficient, or should it require “reviewing and responding to” or in some way indicating that those comments were incorporated in the determination (especially if it's a FONSI?)

§11-200-14

Page 45: This assumes that the preparing agency is responsible for 1-7, but would it be helpful to include a statement of who is actually responsible for 1-7; e.g., “The EIS process shall involve at a minimum the preparing party” Or, does/can the accepting authority conduct the scoping meeting?

Page 45: (2) Requiring "no fewer than one" public scoping meeting is a good addition. Can we strengthen this without being too prescriptive? For example, is there a well-thought-out guide to these kinds of meetings for which we could footnote a link; is there a website that would be helpful? Are there minimum components for a public scoping meeting, such as making sure it is recorded, or that it's in the affected community? [So many “public” meetings for issues that directly impact Lana'i are held solely on Maui. For example, see DOBOR's recent public meeting schedule for review of its draft revised rules.]

§11-200-15

Page 46: (b) and (e) We need to find a way to honor and support the value of oral comments. Perhaps it's requiring a narrative that captures the nature of those oral comments, or acknowledges those oral comments that appear to reflect a consensus????

§11-200-18

Page 55: “The final EIS shall consist of:” Should we also require a narrative report on the (now required) Public Scoping meeting?

§11-200-XX

Report of the Environmental Council Permitted Interaction Group

Preliminary Draft of Proposed Revisions to Hawai'i Administrative Rules Title 11 Department of Health Chapter 200 Environmental Impact Statement Rules

1 Prepared for the July 27, 2017 Environmental Council Meeting

2 Prepared by the Environmental Council Permitted Interaction Group ("PIG") established on
3 February
4 23, 2016, with the support of the Office of Environmental Quality Control. The Permitted
5 Interaction Group members are: Scott Glenn, Onaona Thoene, Ron Terry, and Mahina Tuteur.
6 Deputy Attorney General Diane Agor advised the Permitted Interaction Group.

6 **Background**

7 The current Hawai'i Administrative Rules (HAR) Title 11 Department of Health (DOH) Chapter
8 200 Environmental Impact Statements ("HAR Chapter 11-200") were promulgated and compiled
9 in 1996. An amendment to add an exemption class for the acquisition of land for affordable
10 housing was added in 2007, although it has not been compiled ~~with into the rest of~~ the rules.

11 In 2011, the public formally petitioned the Environmental Council (Council) to update HAR
12 Chapter 11-200. The Council initiated consultation with state and county agencies for
13 recommendations on issues to address and language revisions. In 2012, the Council released a
14 preliminary draft of revisions to HAR Chapter 11-200 (referred to as "Version 1") that
15 incorporated proposed revisions from previous Council efforts and issues raised by agencies
16 and the public. The Council also distributed an Excel file called a "comment matrix" to receive
17 feedback on Version 1. Agencies and the public (including applicants, consultants, and nonprofit
18 organizations) submitted comments via the comment matrix. The Council organized the
19 feedback into a master comment matrix and tasked the Rules Committee with addressing the
20 feedback and making revisions to the language of HAR 11-200. The Rules Committee met
21 regularly over the
22 course of 2012-2014 to revise Version 1. However, due to various administrative challenges,
23 including maintaining quorum, the Council was not able to complete its work.

23 In February 2016, following Governor Ige's appointment of seven members to the Council, the
24 Council addressed these challenges and resumed moving forward on revisions to HAR
25 Chapter
26 11-200. As part of this effort, the Council wanted to recognize the extensive outreach and
27 drafting that the 2012 Council conducted.

27 At the February 23, 2016 Council meeting, the Council established a Permitted Interaction
28 Group (PIG) to draft revisions to HAR Chapter 11-200. The PIG was to investigate and consider

4 **Permitted Interaction Group Principles**

5 The PIG drafted language within the context of the principles established by the Council:

- 6 • Be consistent with the intent and language of Hawai'i Revised Statutes Chapter 343.
- 7 • Align statute, case law, and practice wherever feasible.
- 8 • Increase clarity for in the process and requirements.
- 9 • Use the National Environmental Policy Act for language and guidance where applicable.

10 **Permitted Interaction Group Process**

11 Following the Council's establishment of the PIG, the PIG set a monthly or biweekly meeting
12 schedule to review the previous Council's work. The PIG reviewed the 2012 draft rules language,
13 public comments in the comment matrix the 2012 Rules Committee produced, and responses to
14 the public comments that the Rules Committee developed over 2012-2014. The PIG
15 categorized the comment matrix into two groups: 1) comments resolved and direction provided;
16 and 2) outstanding comments still needing policy direction or draft language. For the former
17 group, the PIG integrated the language the resolved language into a draft it called Version 1.1.
18 For the second group, the PIG developed language in consultation with the Rules Committee
19 and the Office of Environmental Quality Control (OEQC). Further, the PIG developed language
20 in response to requests from the Rules Committee and OEQC for issues that arose since 2012.
21 At the July 11, 2017 meeting, the Council agreed that the PIG could present its report directly to
22 the Council at its, it's the Council's next meeting.

23 **Permitted Interaction Group Recommendations**

24 This report synthesizes Version 1.1 with 1) additional revisions the PIG made to address
25 unresolved comments from the 2012 Council; 2) direction the Rules Committee gave provided
26 comments or recent issues, and 3) current topics the OEQC raised.

27 26 The following revisions are the recommendations of the PIG to the Council as a baseline
28 27 starting point for discussion going forward. Among the themes addressed are:

- 29 28 • "Housekeeping" - revisions that modernize grammar and clarify language.
- 30 29 • Clarifying roles and responsibilities at various stages of environmental review.
- 31 30 • Modernizing submittals and deadlines to recognize electronic communication.
- 32 31 • Setting clearer thresholds for exemptions and the role of exemption lists.
- 33 32 • Clarifying when and how to proceed to directly preparing an EIS instead of an EA.
- 34 33 • Clarifying when and how to do programmatic EISs and supplemental EISs.
- 35 34 • Responding to comments in EAs and EISs.
- 36 35 • Conducting joint federal-state environmental review.

1 Subchapter 2 Definitions and Terminology

§11-200-2 Definitions and Terminology

2 As used in this chapter:

3 "Acceptance" means a formal determination of ~~acceptability~~³ that the document required to be
4 filed pursuant to ~~C~~chapter 343, HRS, fulfills the definitions and requirements of an environmental
5 impact statement (EIS),⁴ ~~adequately describes identifiable environmental impacts, and~~
6 ~~satisfactorily responds to comments received during the review of the statement as prescribed~~
7 ~~by section 11-200-23.~~⁵ Acceptance does not mean that the action is environmentally sound or
8 unsound, but only that the document complies with ~~C~~chapter 343, HRS, and this chapter. A
9 determination of acceptance is required prior to implementing or approving the proposed action.

10 "Accepting authority" means the ~~final~~⁶ official who⁷ or agency that ~~determines the acceptability of~~
11 ~~the EIS document makes the determination that a final EIS required to be filed pursuant to~~
12 ~~C~~chapter 343, HRS, fulfills the definitions and requirements of an EIS⁸.

13 "Action" means any program or project ~~to be initiated~~ proposed by an agency or applicant.

14 "Addendum" means an attachment to a draft EA ~~environmental assessment~~ or draft
15 ~~environmental~~
16 ~~impact statement EIS~~⁹, prepared at the discretion of the proposing agency or approving agency,
17 and distinct from a supplemental statement, for the purpose of disclosing and addressing
18 clerical errors such as inadvertent omissions, corrections, or clarifications to information already
19 contained in the draft ~~environmental assessment EA~~¹⁰ or the draft ~~environmental impact~~
20 ~~statement EIS~~ already filed with the office of environmental quality control.

21 "Agency" means any department, office, board, or commission of the state or county
22 government ~~which that~~ is part of the executive branch of that government.

22 ³ Housekeeping.

23 ⁴ Housekeeping.

24 ⁵ Removes redundant language containing a subset of the requirements for an EIS to reduce uncertainty
25 that other EIS sections may not apply because they are omitted in the definition.

26 ⁶ Removes "final" because it does not contribute additional meaning to the definition.

27 ⁷ Housekeeping.

28 ⁸ Clarifies that the accepting authority role is about the acceptability about a final EIS.

9 "Approving agency" means an agency that issues an approval prior to actual¹³ implementation
10 of an applicant's¹⁴ action, determines the need for an EA or EIS, and issues the exemption,
11 FONSI, or acceptance determination.¹⁵ The approving agency may be an accepting authority for
12 an applicant's final EIS.¹⁶

Commented [s4]: This is so confusing and sounds vaguely to be entirely self-serving. Perhaps a parenthetical i.e. would be useful.

13 "Concurrence" means the discretionary consent of the environmental council to an agency
exemption list.¹⁷

14 "Council" or "EC" means the environmental council.

15 "Cumulative impact" means the impact on the environment ~~which that~~ results from the
16 incremental impact of the proposed action when added to other past, present, and reasonably
foreseeable
17 future actions regardless of what agency or person (s) has undertaken or undertakes such other
actions. Cumulative
18 impacts can result from individually minor but collectively significant actions taking place over a

3 "Draft environmental assessment" means the ~~environmental assessment~~ EA submitted by a
4 proposing agency or an approving agency for public review and comment when that agency
5 anticipates a ~~negative declaration finding of no significant impact (FONSI)~~¹⁹ determination.

6 "Effects" or "impacts" as used in this chapter are synonymous. Effects (or impacts) may include
7 ecological
8 effects (such as the effects on natural resources and on the components, structures, and
9 functioning of affected ecosystems), aesthetic effects, historic effects, cultural effects, economic
10 effects, social effects, or health effects, whether primary, secondary, or cumulative, immediate or
11 delayed²⁰. Effects (or impacts) may also include those effects resulting from actions which that
12 may have
13 both beneficial and detrimental effects, even if on balance the agency believes that the effect
14 will be beneficial.

15 "EIS public scoping meeting" means a meeting open to the public, held by the proposing agency
16 or applicant, or their representative, within the thirty-day public consultation period described in
17 section 11-200-15, that invites ~~inviting~~ the participation of those agencies, citizen groups, and
18 individuals
19 reasonably believed to be potentially affected by the proposed action (including those who might
20 not be in accord with the proposed action), to assist the preparing party in determining the range
21 of actions, alternatives, impacts, and proposed mitigation measures to be considered in the draft
22 EIS and the significant issues to be analyzed in depth in the draft EIS. Suggestions made at the
23 EIS public scoping meeting are considered to be advisory and not mandatory.

24 "Emergency action" means ~~an action to prevent or mitigate loss or damage to life, health,~~
25 ~~property, or essential public services in response to a sudden unexpected occurrence~~
26 ~~demanding such immediate action,~~ a project or program that normally would be subject to the
27 provisions and requirements of C
28 chapter 343, HRS, but is exempted~~not~~ because of a state of emergency declared by the
29 governor.²¹

30 "Environment" means humanity's surroundings, inclusive of all the physical, economic, cultural,
31 and social conditions that exist within the area affected by a proposed action, including land,
32 human and animal communities, air, water, minerals, flora, fauna, ambient noise, and objects of
33 historic, cultural,²² or aesthetic significance.

Potential Amendments to HAR Chapter 11-200, Environmental Impact Statements

1 "Environmental assessment" or "EA"²³ means a written evaluation to determine whether an
2 action may have a significant environmental effect that serves to provide sufficient evidence
3 and analysis to determine whether a proposed action may have a significant environmental
4 effect.²⁴ It
5 together with a FONSI, it satisfies Chapter 343, HRS, when no EIS is necessary, and facilitates
6 preparation of an EIS when one is necessary and the proposing agency or applicant, based on its
7 judgment
8 and experience, has not previously determined that it would proceed directly with the
9 preparation of an EISPN, or the agency, based on its judgment and experience, has not
10 previously authorized the applicant to choose to proceed directly with the preparation of an
11 EISPN.²⁵

12 "Environmental impact" means an effect of any kind, whether immediate or delayed, on any
13 component of the environment.²⁶

14 "Environmental impact statement," "statement," or "EIS" means an informational document
15 prepared in compliance with chapter 343, HRS, and this chapter and which fully complies with
16 subchapter 7 of this chapter.²⁷ The initial statement EIS²⁸ filed for public review shall be referred
17 to as the draft environmental impact statement EIS and shall be distinguished from the final
18 environmental impact statement EIS, which is the document that has incorporated the public's
19 comments and the applicant's or agency's [?] responses to those comments. The final
20 environmental impact statement
21 EIS is the document that shall be evaluated for acceptability by the respective²⁹ accepting
22 authority.

23 "Exempt classes of action" means exceptions from the requirements of chapter 343, HRS, to
24 prepare environmental assessments, for a class of actions, based on a determination by the
25 proposing agency or approving agency that the class of actions will probably have a minimal or
26 no significant effect on the environment.³⁰

27 "Exemption notice" means a brief notice kept on file by the proposing agency, in the case of a
28 public action, or the agency with the power of approval, in the case of a private action, when it
29 has determined that the proposed project action is an exempt or emergency project action.

²³ Adds common abbreviation for use throughout the rules.

²⁴ Adds to the statutory definition to emphasize that an EA needs to provide sufficient evidence to make a
significance determination rather than merely an assertion or lengthy analysis.

²⁵ Incorporates direct-to-EIS pathway into definition of an EA.

²⁶ Deletes because the definition is unnecessary. Combining the definitions of "effect" and "environment"
provides more clarity than this definition.

²⁷ Redundant because if it complies with chapter 343, HRS, then it necessarily complies with this chapter.

1 "Final environmental assessment" means either the ~~environmental assessment EA~~ submitted by
2 a proposing agency or an approving agency following the public review and comment period for
3 the draft ~~environmental assessment EA~~ and in support of either a FONSI (finding of no significant
4 impact) or a ~~preparation notice~~
5 an EISPN³¹ determination; or the environmental assessment submitted by a proposing agency
6 or an approving agency subject to a public consultation period when such an agency clearly
7 determines at the outset that the proposed action may have a significant effect and hence will
require the preparation of a statement.

8 "Finding of no significant impact" or "FONSI" means a determination by an agency based on an
9 EA that an action not otherwise exempt from Chapter 343, HRS does not have the potential for a
10 significant effect on the
11 environment and therefore does not require the preparation of an EIS. A FONSI is required prior
12 to implementing or approving the proposed action.³²

13 "Issue date" means the date imprinted on the periodic bulletin required by section 343-3, HRS.

14 "National Environmental Policy Act" or "NEPA"³³ means the National Environmental Policy Act of
1969, Public Law 91-190, 42 U.S.C. §4321-4347, as amended.

15 ~~"Negative declaration" or "finding of no significant impact" means a determination by an agency~~
16 ~~based on an environmental assessment that a given action not otherwise exempt does not have~~
17 ~~a significant effect on the environment and therefore does not require the preparation of an EIS.~~
18 ~~A negative declaration is required prior to implementing or approving the action.~~³⁴

19 "Office" means the office of environmental quality control.

20 "Periodic bulletin" means the document required by section 343-3, HRS, and published by the
21 office.

22 "Person" includes any individual, partnership, firm, association, trust, estate, private corporation,
23 or other legal entity, other than an agency.

24 "Power generating facility" means:

- 25 1. A new, fossil-fueled, electricity-generating facility, where the electrical output
26 rating of the new equipment exceeds 5.0 megawatts; or

11 "Primary impact," or "primary effect," or "direct impact,"⁴⁰ or "direct effect" means effects which
12 that ~~are~~ will be caused by the proposed action and occur at the same time and place.

13 A "programmatic EIS" or "PEIS" is an EIS that assesses the environmental impacts of: (1) a
14 number of separate actions in a given geographic area which, if considered singly, may have
15 minor impacts, but if considered together may have significant impacts; (2) a sequence of
16 actions contemplated by a single agency or applicant; (3) separate actions having generic or
17 common impacts; (4) an entire program or plan having wide application that could ~~or restricting~~
18 the range
19 of future alternative policies or projects, including new or significant changes to existing land use
20 plans, development plans, zoning regulations, or agency comprehensive resource management
21 plans; (5) implementation of a single project or multiple projects over a long timeframe; or (6)
22 implementation of a single project or program over a large geographic area.⁴¹

23 "Proposing agency" means any state or county agency that proposes an action under Chapter
24 343, HRS.⁴²

25 "Secondary impact," or "secondary effect," or "indirect impact,"⁴³ or "indirect effect" means
26 effects which ~~that~~ are caused by the proposed action and are later in time or farther removed in

§11-200-8 Exempt Classes of Action Exemption Notices¹⁰⁵

1 (a) Chapter 343, HRS, states that procedures whereby specific types of actions, because
2 they will probably have minimal or no significant effects on
3 the environment, either individually and-or cumulatively, or
4 the environment, can be declared exempt from the preparation of an EA.¹⁰⁶ a list of
5 classes of actions shall be drawn up which, because they will probably have minimal or
6 no significant effect on the environment, may be declared exempt by the proposing
7 agency or approving agency from the preparation of an environmental assessment
8 provided that agencies declaring an action exempt under this section shall obtain the
9 advice of other outside agencies or individuals having jurisdiction or expertise as to the
10 propriety of the exemption. Government activities that do not rise to the level of being a
11 project or program, or are ordinary functions that by their nature do not have the
12 potential to adversely affect the environment more than negligibly, which may include,
13 among other activities, routine repair, maintenance, purchase of supplies, and
14 administrative actions involving personnel only, shall not be considered projects or
15 programs for the purposes of Chapter 343, HRS.¹⁰⁷ Actions declared exempt from the
16 preparation of an EA environmental assessment under this section are not exempt from
17 complying with any other applicable statute or rule. The following types of projects or
18 programs are eligible for exemption¹⁰⁸ list represents exempt classes of action:
19 (1) Operations, repairs, or maintenance of existing structures, facilities, equipment,
20 or topographical features, involving negligible-minor¹⁰⁹ or no expansion or change
21 of use beyond that previously existing;
22 (2) Replacement or reconstruction of existing structures and facilities where the new
23 structure will be located generally on the same site and will have substantially the
24 same purpose, capacity, density, height, and dimensions as the structure
25 replaced;
26 (3) Construction and location of single, new, small facilities or structures and the
27 alteration and modification of the same and installation of new, small, equipment
28 and facilities and the alteration and modification of same, including, but not
29 limited to:

2928 ¹⁰⁵ Renames to shift focus from the "classes" (a term no longer used) to the notice.

3029 ¹⁰⁶ Incorporates language direction from chapter 343, HRS.

3130 ¹⁰⁷ Establishes a *de minimis* level of government activity for being considered eligible for environmental
3231 review. Chapter 343, HRS, does not define a project or program, so leaves it to agencies and the courts
3332 to decide whether a particular activity constitutes such.

3433 ¹⁰⁸ Replaces "classes" language with "types".

3534 ¹⁰⁹ Replaces "negligible" with "minor" because in some cases minor operations, repairs, or maintenance
3635 can have little or no significant impact.

17 ¹⁶⁶ Changes the deadline from 30 days after the close of the public comment period to 30 days after
18 receipt of the final EA.

19 ¹⁶⁷ Clarifies that the alternatives to be examined are done so in the environmental assessment, not
20 independent of it, and that the agency directs the applicant to analyze alternatives in an
21 applicant-prepared EA, as provided for in Act 172, (2012). Inserts the term reasonable to emphasize that
22 not all possible alternatives are required to be analyzed.

23 ¹⁶⁸ Incorporates language from Act 172 (2012) allowing agencies to bypass preparing the environmental
24 assessment and instead prepare an EIS beginning with the EISPN. Also allows agencies to authorize
25 applicants to bypass the environmental assessment, should the applicant desire, and instead prepare an

§11-200-10 Contents of an Environmental Assessment

- 1 The proposing agency (if agency action) or approving agency (if applicant or agency action) shall
2 prepare any draft or final environmental
3 assessment EA of each for any proposed action and determine whether the anticipated effects
4 constitute a significant effect in the context of Chapter 343, HRS, and section 11-200-12. The

- 6 (1) Identification of applicant or proposing agency;
 - 7 (2) Identification of approving agency, if applicable;
 - 8 (3) Identification of agencies, citizen groups, and individuals consulted in making
9 preparing¹⁸⁶ the assessment;
 - 10 (4) General description of the action's technical, economic, social, and
11 environmental characteristics;
 - 12 (5) Summary description of the affected environment, including suitable and
13 adequate regional, location and site maps such as Flood Insurance Rate Maps,
14 Floodway Boundary Maps, or United States Geological Survey topographic
15 maps;
 - 16 (6) Identification and summary analysis¹⁸⁷ of impacts and alternatives considered;
 - 17 (7) Proposed mitigation measures;
 - 18 (8) Agency determination or, for draft environmental assessments EAs only, an
19 anticipated determination;
 - 20 (9) Findings and reasons supporting the agency determination or anticipated
21 determination;
 - 22 (10) Agencies to be consulted in the preparation of the EIS, if an EIS is to be

28 ¹⁸⁶ Uses more accurate time consistent with language in the rules.

29 ¹⁸⁷ Focuses on analyzing instead of summarizing impacts. The use of this word should not be understood
30 to mean a lengthy discussion. It means that the impact discussion section should identify an impact and
31 provide a detailed discussion sufficient to support a conclusion. Summaries tend to be assertions of
32 impact and the degree of significance without presenting a supporting argument.

33 ¹⁸⁸ Housekeeping. Moves the word required from the end of the clause to before the word "permits".

34 ¹⁸⁹ Adds identification of approvals that are considered discretionary. This helps to inform why an

§11-200-13 Consideration of Previous Determinations and Accepted Statements

- 1 (a) Chapter 343, HRS, provides that whenever an agency proposes to implement an action

1 Subchapter 7 Preparation of Draft & Final Environmental Impact Statements

§11-200-14 General Provisions

2 Chapter 343, HRS, directs that in both agency and applicant actions where ~~statements-EISs~~ are
3 required, the preparing party shall prepare the EIS, submit it for review and comments, and
4 revise it, taking into account all critiques and responses. Consequently, the EIS process
5 involves more than the preparation of a document; it involves the entire process of research,
6 discussion, preparation of a statement, and review. The EIS process shall involve at a minimum:

- 7 (1)²⁴⁵ ~~identifying~~ Identifying environmental concerns,
- 8 (2) Conducting no fewer than one EIS public scoping meeting in the area or
community that will be impacted by the proposed action,²⁴⁶
- 9 (3) ~~obtaining~~ Obtaining various relevant data,
- 10 (4) ~~conducting~~ Conducting necessary studies,
- 11 (5) ~~receiving~~ Receiving public and agency input,
- 12 (6) ~~evaluating~~ Evaluating alternatives, and
- 13 (7) ~~proposing~~ Proposing measures for avoiding, minimizing, rectifying or reducing
14 adverse impacts.

15 An EIS is meaningless without the conscientious application of the EIS process as a whole, and
16 shall not be merely a self-serving recitation of benefits and a rationalization of the proposed
17 action. Agencies shall ensure that ~~statements-EISs~~ are prepared at the earliest opportunity in
18 the planning and decision-making process. This shall assure an early and open forum for
discussion,

19 of adverse effects and available alternatives, and that the decision-makers will be enlightened
regarding to

20 any environmental consequences of the proposed action prior to decision making²⁴⁷.

9 EIS requirements shall apply in these [?] cases in place of this chapter's
10 supplemental
11 EIS requirements.³⁶⁶

12 (5)³⁶⁷ When the responsibility of preparing an EIS is delegated to a state or county
13 agency, this chapter shall apply in addition to federal requirements under the
14 ~~National Environmental Policy Act NEPA~~³⁶⁸. The office and state or county
15 agencies shall cooperate with federal agencies to the fullest extent possible to
16 reduce duplication between federal and state requirements. This cooperation, to
17 the fullest extent possible, shall include joint ~~environmental impact statements-~~
18 ~~EISs~~ with concurrent public review and processing at both levels of government.
19 Where federal law has ~~environmental impact statement-EIS~~ requirements in
20 addition to ~~but not in conflict with~~ this chapter, the office and agencies shall
21 cooperate in fulfilling the requirements so that one document shall comply with all
22 applicable laws.

23 (36) In all actions where the use of state land or funds is proposed, the final ~~statement~~
24 EIS shall be submitted to the governor or an authorized representative. In all
25 actions when the use of county land or funds is proposed, the final ~~statement-EIS~~
26 shall be submitted to the mayor, or an authorized representative. The final
27 ~~statement-EIS~~ in these instances shall first be accepted by the governor or mayor
28 (or an authorized representative), prior to the submission of the same to the
29 ~~Environmental Protection Agency or~~³⁶⁹ responsible federal agency.

30 ³⁶⁴ Based on Massachusetts' language that federally-prepared EISs are sufficient for the purposes of
31 Chapter 343. The goal is to allow a federal EIS to meet this chapter's requirements provided it addresses
32 this chapter's content requirements. In this case, state and county agencies can provide the information
33 to the federal preparer for inclusion in its document rather than the state or county agency preparing a
34 second document.

35 ³⁶⁵ Adds a clause from Washington WAC to ensure that the federally-prepared statement meets federal
36 standards for quality.

37 ³⁶⁶ Clarifies that in the case of joint documents, the preparation of any supplemental documentation would
38 be due to federal requirements and that HEPA supplemental requirements would not apply.

39 ³⁶⁷ Separated the existing language into two paragraphs; one about when a federal agency prepares the
40 EIS and one about when a federal agency delegates the responsibility to a state or county agency.

13 specific design details, no further compliance with this chapter is required if a
14 subsequent proposed action will be carried out in conformance with the
15 conditions and thresholds established for such actions in the PEIS.
- 16 (2) Further ~~C~~chapter 343, HRS, environmental review must be prepared if a

Proposed §11-200-XX Content Requirements: Draft Programmatic Environmental Impact Statement³⁷²

- 1 (a) The content requirements for a PEIS shall be the same as those for an EIS set forth in
2 subchapter 7, with the understanding that the level of detail in a PEIS may be less than
3 that of a project-specific EIS. The level of detail in a PEIS must be sufficient to allow
4 informed
5 choice among planning-level alternatives and to develop broad mitigation strategies. A
6 PEIS should examine the interaction among proposed projects or plan elements, and
7 assess the cumulative effects. Like a project-level EIS, a PEIS must also include an
8 examination of alternatives.
- 9 (b) The PEIS may be broader and more general than a project-specific EIS and omit
10 evaluating
11 project-level issues that are not yet ready for decision at the planning level, or it may
12 evaluate project-level issues such as precise project footprints or specific design details.
- 13 (c) A PEIS should discuss the logic and rationale for the choices advanced. It may also
14 include an assessment of specific impacts if such details are available and specific
15 mitigation measures. It may be based on conceptual information in some cases. It may
16 discuss in general terms the constraints and sequences of events likely to result in a
narrowing of future
options. It may present and analyze in general terms hypothetical scenarios that are
likely to occur.

1 Subchapter 10 Supplemental Statements

§11-200-26 Supplemental EIS³⁷³ General Provisions

2 (a) ~~A statement~~ An EIS that is accepted with respect to a particular action is usually

8 ~~there is any change in any of these characteristics which may have a significant effect,~~
9 ~~the original statement that was changed shall no longer be valid because an essentially~~

21 (2) The information must be newly discovered. It cannot be information that could
22 have been included in ~~comments~~ filed in the original draft EIS or final EIS.
23 (3) The information must be important, indicating ~~probably~~ significant environmental
24 impacts.
25 (4) The information must not have been addressed in the prior EIS, or must have
26 been inadequately addressed.³⁷⁶

27 (c) As long as there is no change in a proposed action or ~~new~~ information indicating
28 significant

Aloha Council Members,

I'm writing to comment on your Permitted Interaction Group's proposed amendments to HAR chap. 11-200. Apologies for the last minute testimony.

These were my concerns upon a brief reading:

(1) removal of the inter-agency consultation requirement for exemptions. HAR 11-200-8. Particularly with land uses, it is important that DLNR or ADC be required to examine, for instance, health impacts of agricultural practices.

2) removal of "cultural resources" from significant impacts listed in 11-200-12(b)(1). The rationale is that the amendment coincides with the definition of significant effect under 11-200-2, but "significant effect" under 11-200-2 also includes adverse impacts on the cultural practices of the community and state. Addition of "cultural practices" in line with economic and social welfare may also under-emphasize the continuity between cultural and natural resources in actual protected practices.

3) removal of documentation requirement from for exemptions that have OEQC concurrence and on exemption lists, HAR 11-200-8(e). The documentation requirement is often the only way the public can learn about the agency rationale for its exemption determinations.

4) request to clarify potential tension between HAR 11-200-8(a)(1), which provides for permits etc. for uses not beyond "previously existing" use, and HAR 11-200-8(b), which says exemption does not apply where the "cumulative impact of planned successive actions in the same place, over time, is significant[.]" This seems to be how some revocable permits get reissued for significant actions, despite having cumulative impacts.

Mahalo for the work you're doing.

Yrs,
Bianca

Report of the Environmental Council Permitted Interaction Group

Preliminary Draft of Proposed Revisions to Hawai'i Administrative Rules Title 11 Department of Health Chapter 200 Environmental Impact Statement Rules

Prepared for the July 27, 2017 Environmental Council Meeting

Prepared by the Environmental Council Permitted Interaction Group established on February 23, 2016, with the support of the Office of Environmental Quality Control. The Permitted Interaction Group members are: Scott Glenn, Onaona Thoene, Ron Terry, and Mahina Tuteur. Deputy Attorney General Diane Agor advised the Permitted Interaction Group.

Background

The current Hawai'i Administrative Rules (HAR) Title 11 Department of Health (DOH) Chapter 200 Environmental Impact Statements ("HAR Chapter 11-200") were promulgated and compiled in 1996. An amendment to add an exemption class for the acquisition of land for affordable housing was added in 2007, although it has not been compiled with the rest of the rules.

In 2011, the public formally petitioned the Environmental Council (Council) to update HAR Chapter 11-200. The Council initiated consultation with state and county agencies for recommendations on issues to address and language revisions. In 2012, the Council released a preliminary draft of revisions to HAR Chapter 11-200 (referred to as "Version 1") that incorporated proposed revisions from previous Council efforts and issues raised by agencies and the public. The Council also distributed an Excel file called a "comment matrix" to receive feedback on Version 1. Agencies and the public (including applicants, consultants, and nonprofit organizations) submitted comments via the comment matrix. The Council organized the feedback into a master comment matrix and tasked the Rules Committee with addressing the feedback and making revisions to the language. The Rules Committee met regularly over the course of 2012-2014 to revise Version 1. However, due to various administrative challenges, including maintaining quorum, the Council was not able to complete its work.

In February 2016, following Governor Ige's appointment of seven members to the Council, the Council addressed its challenges and resumed moving forward on revisions to HAR Chapter 11-200. As part of this effort, the Council wanted to recognize the extensive outreach and drafting that the 2012 Council conducted.

At the February 23, 2016 Council meeting, the Council established a Permitted Interaction Group (PIG) to draft revisions to HAR Chapter 11-200. The PIG was to investigate and consider specific language for inclusion in HAR Chapter 11-200, which would not be for the purpose of

decision making, but to be brought to the Rules Committee for its consideration and decision making to make recommendations to the EC.

Permitted Interaction Group Principles

The PIG drafted language within the principles established by the Council:

- Be consistent with the intent and language of Hawai'i Revised Statutes Chapter 343.
- Align statute, case law, and practice wherever feasible.
- Increase clarity for the process and requirements.
- Use the National Environmental Policy Act for language and guidance where applicable.

Permitted Interaction Group Process

Following the Council's establishment of the PIG, the PIG set a monthly or biweekly meeting schedule to review the previous Council work. The PIG reviewed the 2012 draft rules language, public comments in the comment matrix the 2012 Rules Committee produced, and responses to the public comments that the Rules Committee developed over 2012-2014. The PIG categorized the comment matrix into two groups: 1) comments resolved and direction provided and 2) outstanding comments still needing policy direction or draft language. For the former group, the PIG integrated the language the resolved language into a draft it called Version 1.1. For the second group, the PIG developed language in consultation with the Rules Committee and the Office of Environmental Quality Control (OEQC). Further, the PIG developed language in response to requests from the Rules Committee and OEQC for issues that arose since 2012. At the July 11, 2017 meeting, the Council agreed that the PIG could present its report directly to the Council at its next meeting.

Permitted Interaction Group Recommendations

This report synthesizes Version 1.1 with additional revisions the PIG made to address unresolved comments from the 2012 Council, direction the Rules Committee gave on conflicting comments or recent issues, and current topics the OEQC raised.

The following revisions are the recommendations of the PIG to the Council as a baseline starting point for discussion going forward. Among the themes addressed are:

- "Housekeeping" - revisions that modernize grammar and clarify language.
- Clarifying roles and responsibilities at various stages of environmental review.
- Modernizing submittals and deadlines to recognize electronic communication.
- Setting clearer thresholds for exemptions and the role of exemption lists.
- Clarifying when and how to proceed to directly preparing an EIS instead of an EA.
- Clarifying when and how to do programmatic EISs and supplemental EISs.
- Responding to comments in EAs and EISs.
- Conducting joint federal-state environmental review.

Subchapter 2 Definitions and Terminology

§11-200-2 Definitions and Terminology

As used in this chapter:

"Acceptance" means a formal determination ~~of acceptability~~³ that the document required to be filed pursuant to chapter 343, HRS, fulfills the definitions and requirements of an environmental impact statement (EIS),⁴ ~~adequately describes identifiable environmental impacts, and satisfactorily responds to comments received during the review of the statement as prescribed by section 11-200-23.~~⁵ Acceptance does not mean that the action is environmentally sound or unsound, but only that the document complies with chapter 343, HRS, and this chapter. A determination of acceptance is required prior to implementing or approving the action.

"Accepting authority" means the ~~final~~⁶ official ~~who~~⁷ or agency that ~~determines the acceptability of the EIS document~~ makes the determination that a final EIS required to be filed pursuant to chapter 343, HRS, fulfills the definitions and requirements of an EIS⁸.

"Action" means any program or project to be initiated by an agency or applicant.

"Addendum" means an attachment to a draft environmental assessment or draft ~~environmental impact statement~~ EIS⁹, prepared at the discretion of the proposing agency or approving agency, and distinct from a supplemental statement, for the purpose of disclosing and addressing clerical errors such as inadvertent omissions, corrections, or clarifications to information already contained in the draft ~~environmental assessment~~ EA¹⁰ or the draft ~~environmental impact statement~~ EIS already filed with the office.

"Agency" means any department, office, board, or commission of the state or county government ~~which~~ that is part of the executive branch of that government.

"Applicant" means any person who, pursuant to statute, ordinance, or rule, officially requests approval from an agency for a proposed action.

"Approval" means a discretionary consent required from an agency prior to ~~actual~~¹¹ implementation of an action. ~~Discretionary consent means a consent, sanction, or recommendation from an agency for which judgment and free will may be exercised by the issuing agency, as distinguished from a ministerial consent. Ministerial consent means a consent, sanction, or recommendation from an agency upon a given set of facts, as prescribed by law or rule without the use of judgment or discretion.~~¹²

"Approving agency" means an agency that issues an approval prior to ~~actual~~¹³ implementation of an ~~applicant~~¹⁴ action, determines the need for an EA or EIS, and issues the exemption, FONSI, or acceptance determination.¹⁵ The approving agency may be an accepting authority for an applicant final EIS.¹⁶

"Concurrence" means the discretionary consent of the council to an agency exemption list.¹⁷

"Council" or "EC" means the environmental council.

"Cumulative impact" means the impact on the environment ~~which that~~ results from the incremental impact of the action when added to other past, present, and reasonably foreseeable future actions regardless of what agency or person undertakes such other actions. Cumulative impacts can result from individually minor but collectively significant actions taking place over a period of time.

Discretionary consent means a consent, sanction, or recommendation from an agency for which judgment and free will may be exercised by the issuing agency, as distinguished from a ministerial consent. Ministerial consent means a consent, sanction, or recommendation from an agency upon a given set of facts, as prescribed by law or rule without the use of judgment or discretion.¹⁸

¹¹ Does not add meaning to sentence so removing the word.

¹² Removed "discretionary consent" from the definition and made it a standalone definition that mirrors the statute.

¹³ Does not add meaning to sentence so removing the word.

¹⁴ Approving agencies are only in the case of applicants.

¹⁵ The approving agency makes the decision about level of review and if the applicant has satisfied HRS Chapter 343.

¹⁶ In the case of applicants, the approving agency is also the accepting authority. This adds clarification to the definition.

¹⁷ Adds a definition for the council's concurrence of agency exemption lists. Concurrence is discretionary because it is up to the council to be satisfied with the agency exemption list. The discretionary consent is not an approval because it does not apply to a specific project.

¹⁸ Definition removed from "approval" and made standalone. Mirrors HRS § 343-2 language and expands on ministerial definition (which is existing language in HAR § 11-200-2).

"Draft environmental assessment" means the ~~environmental assessment~~ EA submitted by a proposing agency or an approving agency for public review and comment when that agency anticipates a ~~negative declaration~~ finding of no significant impact (FONSI)¹⁹ determination.

"Effects" or "impacts" as used in this chapter are synonymous. Effects may include ecological effects (such as the effects on natural resources and on the components, structures, and functioning of affected ecosystems), aesthetic effects, historic effects, cultural effects, economic effects, social effects, or health effects, whether primary, secondary, or cumulative, immediate or delayed²⁰. Effects may also include those effects resulting from actions ~~which~~ that may have both beneficial and detrimental effects, even if on balance the agency believes that the effect will be beneficial.

"EIS public scoping meeting" means a meeting open to the public held by the proposing agency or applicant, or their representative, within the thirty-day public consultation period described in section 11-200-15, inviting the participation of those agencies, citizen groups, and individuals reasonably believed to be potentially affected by the proposed action (including those who might not be in accord with the proposed action), to assist the preparing party in determining the range of actions, alternatives, impacts, and proposed mitigation measures to be considered in the draft EIS and the significant issues to be analyzed in depth in the draft EIS. Suggestions made at the EIS public scoping meeting are considered to be advisory and not mandatory.

"Emergency action" means ~~an action to prevent or mitigate loss or damage to life, health, property, or essential public services in response to a sudden unexpected occurrence demanding such immediate action.~~ a project or program that normally would be subject to chapter 343, HRS, but is not because of a state of emergency declared by the governor.²¹

"Environment" means humanity's surroundings, inclusive of all the physical, economic, cultural, and social conditions that exist within the area affected by a proposed action, including land, human and animal communities, air, water, minerals, flora, fauna, ambient noise, and objects of historic, cultural,²² or aesthetic significance.

"Environmental assessment" or "EA"²³ means a written evaluation ~~to determine whether an action may have a significant environmental effect.~~ that serves to provide sufficient evidence and analysis to determine whether an action may have a significant environmental effect.²⁴ It, together with a FONSI, satisfies chapter 343, HRS, when no EIS is necessary, and facilitates

~~"Environmental impact" means an effect of any kind, whether immediate or delayed, on any component of the environment.~~²⁶

~~"Environmental impact statement," "statement," or "EIS" means an informational document prepared in compliance with chapter 343, HRS, and this chapter and which fully complies with subchapter 7 of this chapter.~~²⁷ The initial statement EIS²⁸ filed for public review shall be referred to as the draft ~~environmental impact statement~~ EIS and shall be distinguished from the final ~~environmental impact statement~~ EIS, which is the document that has incorporated the public's comments and the responses to those comments. The final ~~environmental impact statement~~ EIS is the document that shall be evaluated for acceptability by the respective²⁹ accepting authority.

~~"Exempt classes of action" means exceptions from the requirements of chapter 343, HRS, to prepare environmental assessments, for a class of actions, based on a determination by the proposing agency or approving agency that the class of actions will probably have a minimal or no significant effect on the environment.~~³⁰

"Exemption notice" means a brief notice kept on file by the proposing agency, in the case of a public action, or the agency with the power of approval, in the case of a private action, when it has determined that the proposed project is an exempt or emergency project.

"Final environmental assessment" means either the ~~environmental assessment~~ EA submitted by a proposing agency or an approving agency following the public review and comment period for the draft ~~environmental assessment~~ EA and in support of either a FONSI or a ~~preparation notice~~ EISPN³¹ determination; ~~or the environmental assessment submitted by a proposing agency or an approving agency subject to a public consultation period when such an agency clearly determines at the outset that the proposed action may have a significant effect and hence will require the preparation of a statement.~~

²⁵ Incorporates direct-to-EIS pathway into definition of an EA.

"Finding of no significant impact" or "FONSI" means a determination by an agency based on an EA that an action not otherwise exempt does not have the potential for a significant effect on the environment and therefore does not require the preparation of an EIS. A FONSI is required prior to implementing or approving the action.³²

"Issue date" means the date imprinted on the periodic bulletin required by section 343-3, HRS.

"National Environmental Policy Act" or "NEPA"³³ means the National Environmental Policy Act of 1969, Public Law 91-190, 42 U.S.C. §4321-4347, as amended.

A negative declaration is required prior to implementing or approving the action.~~³⁴

"Office" means the office of environmental quality control.

"Periodic bulletin" means the document required by section 343-3, HRS, and published by the office.

"Person" includes any individual, partnership, firm, association, trust, estate, private corporation, or other legal entity other than an agency.

"Power generating facility" means:

1. A new, fossil-fueled, electricity-generating facility, where the electrical output rating of the new equipment exceeds 5.0 megawatts; or

"Primary impact," or "primary effect," or "direct impact,"⁴⁰ or "direct effect" means effects ~~which~~ that are caused by the action and occur at the same time and place.

A "programmatic EIS" or "PEIS" is an EIS that assesses the environmental impacts of: (1) a number of separate actions in a given geographic area which, if considered singly, may have minor impacts, but if considered together may have significant impacts; (2) a sequence of actions contemplated by a single agency or applicant; (3) separate actions having generic or common impacts; (4) an entire program or plan having wide application or restricting the range of future alternative policies or projects, including new or significant changes to existing land use plans, development plans, zoning regulations, or agency comprehensive resource management plans; (5) implementation of a single project or multiple projects over a long timeframe; or (6) implementation of a single project or program over a large geographic area.⁴¹

"Proposing agency" means any state or county agency that proposes an action under chapter 343, HRS.⁴²

"Secondary impact," or "secondary effect," or "indirect impact,"⁴³ or "indirect effect" means effects which that are caused by the action and are later in time or farther removed in distance, but are still reasonably foreseeable. Indirect effects may include growth inducing effects and other effects related to induced changes in the pattern of land use, population density or growth rate, and related effects on air, and water,⁴⁴ and other natural systems, including ecosystems.

Commented [RT2]: As these all mean the same thing.....I think it would be better if we said effects....or if we say "means an effect that is..."

"Significant effect" or "significant impact" means the sum of effects on the quality of the environment, including actions that irrevocably commit a natural resource, curtail the range of beneficial uses of the environment, are contrary to the state's State's⁴⁵ environmental policies or long-term environmental goals and guidelines as established by law, or⁴⁶ adversely affect the economic or social welfare, cultural practices of the community and State,⁴⁷ or are otherwise set forth in section 11-200-12 of this chapter⁴⁸.

§11-200-8 Exempt Classes of Action Exemption Notices¹⁰⁵

- (a) Chapter 343, HRS, states that procedures whereby specific types of actions, because they will probably have minimal or no significant effects, individually and cumulatively, on the environment, can be declared exempt from the preparation of an EA.¹⁰⁶ ~~a list of classes of actions shall be drawn up which, because they will probably have minimal or no significant effect on the environment, may be declared exempt by the proposing agency or approving agency from the preparation of an environmental assessment provided that agencies declaring an action exempt under this section shall obtain the advice of other outside agencies or individuals having jurisdiction or expertise as to the propriety of the exemption. Government activities that do not rise to the level of being a project or program, or are ordinary functions that by their nature do not have the potential to adversely affect the environment more than negligibly, which may include, among other activities, routine repair, maintenance, purchase of supplies, and administrative actions involving personnel only, shall not be considered projects or programs for the purposes of Chapter 343, HRS.~~¹⁰⁷ Actions declared exempt from the preparation of an environmental assessment under this section are not exempt from complying with any other applicable statute or rule. The following types of projects or programs are eligible for exemption¹⁰⁸ ~~list represents exempt classes of action:~~
- (1) Operations, repairs, or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible minor¹⁰⁹ or no expansion or change of use beyond that previously existing;
 - (2) Replacement or reconstruction of existing structures and facilities where the new structure will be located generally on the same site and will have substantially the same purpose, capacity, density, height, and dimensions as the structure replaced;
 - (3) Construction and location of single, new, small facilities or structures and the alteration and modification of the same and installation of new, small, equipment and facilities and the alteration and modification of same, including, but not limited to:

¹⁰⁵ Renames to shift focus from the "classes" (a term no longer used) to the notice.

¹⁰⁶ Incorporates language direction from chapter 343, HRS.

¹⁰⁷ Establishes a *de minimis* level of government activity for being considered eligible for environmental review. Chapter 343, HRS, does not define a project or program, so leaves it to agencies and the courts to decide whether a particular activity constitutes such.

¹⁰⁸ Replaces "classes" language with "types".

¹⁰⁹ Replaces "negligible" with "minor" because in some cases minor operations, repairs, or maintenance can have little or no significant impact.

merits exemption consistent with one or several of the types listed in paragraph (a).¹²⁶
For such actions, the agency shall obtain the advice of outside agencies or individuals having jurisdiction or expertise as to the propriety of the exemption. An action may not be segmented per section 11-200-7 so as to appear to be consistent with several types listed in paragraph (a).¹²⁷

(eg) Each agency shall maintain records of such¹²⁸ actions, called exemption notices,¹²⁹ which it has found to be exempt from the requirements for preparation of an environmental assessment EA in chapter 343, HRS, and each agency shall produce the records for review upon request. The agency shall provide a means to notify and accept input from the public in a timely manner after the exemption declaration is made. An agency may request the office to publish the exemption notice in the periodic bulletin. The public's right to judicial proceeding on the lack of an assessment under chapter 343, HRS shall commence from the date the public is notified of the exemption through the agency's means or publication in the bulletin, whichever of the two is earliest.¹³⁰

(fh) In the event the governor declares a state of emergency pursuant to chapter 127A, HRS,¹³¹ the governor may exempt any affected program or action from complying with this chapter. has authority to suspend laws, including chapter 343, HRS. In such an event, no exemption declaration is required and the proposing agency or approving agency shall file an exemption notice in its records that the emergency action was undertaken pursuant to a specific emergency proclamation.¹³²

Commented [RT10]: Agree about the segmentation but puzzled as to the reference to several types of exemptions. You shouldn't segment even if the set of related actions is consistent with only one type; a legitimate exemption may be consistent with several types.

Commented [RT11]: Should we add "per 11-200-8-f", to reinforce idea that no documentation is needed on 11-200-8-e-type actions?

Commented [RT12]: But the action may not qualify for an exemption, it could need an EA or even an EIS. Is "exemption" really relevant here? Interesting use of the word.

¹²⁶ Requires agencies to do consultation for exemptions that are borderline cases or for lists that have not received council concurrence within the past five years. The five years concurrence threshold is an incentive for agencies to regularly refresh their exemption lists with the council, but allows for consultation so that agencies can continue to use the list but with a higher burden of due diligence.

¹²⁷ Reminds agencies that an action may not be broken up into smaller pieces to fit within several exemption types.

¹²⁸ Housekeeping.

¹²⁹ Connects to the exemption notice definition and emphasizes that an agency has duty to maintain these as a record.

¹³⁰ Requires agencies to make exemption notices publicly available either through the periodic bulletin or through their own means. Some agencies already do this by posting them to their website in a spreadsheet or in meeting minutes. This helps to close the gap between when an agency makes a determination and how the public is supposed to know, so that everyone has a clear date for when legal challenge begins and ends, without making the disclosure process overly burdensome to agencies or OEQC.

¹³¹ States the name of the statute for emergency proclamations.

¹³² Removes unnecessary language because the governor can exempt any program by statute. Adds that the agency has a responsibility to record that the action occurred during a specific emergency proclamation in case a question arises about the lack of an assessment.

¹⁷⁹ Because the responses are included in the final EA, it is not necessary to send an individual response letter to each person who comments. The requirement to send a response to every individual person commenting can be burdensome without a benefit that cannot be satisfied by notifying the person via publication of the final EA. This language is drawn from the CEQ 40 questions, #29a and aligns with NEPA practice, which allows grouping of identical or similar comments and providing one response that covers the issues raised in the identical or similar comments. Because individual responses would no longer be sent, the requirement for OEQC to receive a copy of the response is no longer relevant.

¹⁸⁰ The applicant prepares the document so has the responsibility to incorporate the comments and responses into the document.

¹⁸¹ Clarifies that the comments are incorporated into the final EA.

¹⁸² Housekeeping.

¹⁸³ Because the responses are included in the final EA, it is not necessary to send an individual response letter to each person who comments. The requirement to send a response to every individual person commenting can be burdensome without a benefit that cannot be satisfied by notifying the person via publication of the final EA. This language is drawn from the CEQ 40 questions, #29a and aligns with NEPA practice, which allows grouping of identical or similar comments and providing one response that covers the issues raised in the identical or similar comments.

¹⁸⁴ Because individual responses would no longer be sent, the requirement for OEQC to receive a copy of the response is no longer relevant.

¹⁸⁵ Under Act 192 (2012), applicants prepare their own documents, so the timely preparation requirement is no longer applicable.

§11-200-10 Contents of an Environmental Assessment

The proposing agency or approving agency shall prepare any draft or final ~~environmental assessment~~ EA of each proposed action and determine whether the anticipated effects constitute a significant effect in the context of chapter 343, HRS, and section 11-200-12. The ~~environmental assessment~~ EA shall contain, but not be limited to, the following information:

- (1) Identification of applicant or proposing agency;
- (2) Identification of approving agency, if applicable;
- (3) Identification of agencies, citizen groups, and individuals consulted in ~~making~~ preparing¹⁸⁶ the assessment;
- (4) General description of the action's technical, economic, social, and environmental characteristics;
- (5) Summary description of the affected environment, including suitable and adequate regional, location and site maps such as Flood Insurance Rate Maps, Floodway Boundary Maps, or United States Geological Survey topographic maps;
- (6) Identification and summary analysis¹⁸⁷ of impacts and alternatives considered;
- (7) Proposed mitigation measures;
- (8) Agency determination or, for draft ~~environmental assessments~~ EAs only, an anticipated determination;
- (9) Findings and reasons supporting the agency determination or anticipated determination;
- (10) Agencies to be consulted in the preparation of the EIS, if an EIS is to be prepared;
- (11) List of all required¹⁸⁸ permits and approvals (State, federal, county) required and identification of which are considered to be discretionary¹⁸⁹, and
- (12) Written comments and responses to the comments ~~under~~ received pursuant to¹⁹⁰ the early consultation provisions of sections 11-200-9(a)(1), 11-200-9(b)(1), or 11-200-15, and statutorily prescribed public review periods.

Commented [RT20]: For footnote 187, maybe say "a discussion detailed enough to support a conclusion"?

¹⁸⁶ Uses more accurate time consistent with language in the rules..

¹⁸⁷ Focuses on analyzing instead of summarizing impacts. The use of this word should not be understood to mean a lengthy discussion. It means that the impact discussion section should identify an impact and provide a detailed discussion sufficient to support a conclusion. Summaries tend to be assertions of impact and the degree of significance without presenting a supporting argument.

¹⁸⁸ Housekeeping. Moves the word required from the end of the clause to before the word "permits".

¹⁸⁹ Adds identification of approvals that are considered discretionary. This helps to inform why an applicant is undergoing chapter 343, HRS, and when a proposed action has reached "substantial commencement" for the purposes of a supplemental EIS.

§11-200-12 Significance Criteria

- (a) In considering the significance of potential environmental effects, agencies shall consider the sum of effects on the quality of the environment;²³⁹ and shall evaluate the overall and cumulative effects of an action.
- (b) In determining whether an action may have a significant effect on the environment, the agency shall consider every phase of a proposed action, the expected consequences, both primary and secondary, and the cumulative as well as the short-term and long-term effects of the action. In most instances, an action shall be determined to have a significant effect on the environment if it:
- (1) ~~Involves an irrevocable commitment to loss or destruction of any natural or cultural resource~~ Irrevocably commits a natural resource²⁴⁰;
 - (2) Curtails the range of beneficial uses of the environment;
 - (3) Conflicts with the state's ~~long-term~~ long-term environmental policies or long-term environmental²⁴¹ goals and guidelines as expressed in chapter 344, HRS, or other laws,²⁴² and any revisions thereof and amendments thereto, court decisions, or executive orders;

 - (5) Substantially affects public health;
 - (6) Involves substantial secondary impacts, such as population changes or effects on public facilities;
 - (7) Involves a substantial degradation of environmental quality;
 - (8) Is individually limited but cumulatively has considerable effect upon the environment or involves a commitment for larger actions;
 - (9) Substantially affects a rare, threatened, or endangered species, or its habitat;
 - (10) Detrimentially affects air or water quality or ambient noise levels;
 - (11) Affects or is likely to suffer damage by being located in an environmentally sensitive area such as a flood plain, tsunami zone, beach, erosion-prone area, geologically hazardous land, estuary, fresh water, or coastal waters;
 - (12) Substantially affects scenic vistas and viewplanes identified in county or state plans or studies; or,

Commented [RT22]: That definition, however ingrained in the statute, is problematic. This is probably why the section in the Rules was written this way. Whereas the Oxford online dictionary defines adverse as "preventing success or development; harmful; unfavorable", i.e., implying significance, Webster-Merriam includes among its definitions "opposed to one's interests". So if you have \$100 in your wallet and I take a dollar out, it can certainly be argued that it is an adverse impact. In EIA practice, this is often how it is used. You can have negligible, minor or significant adverse impacts. In fact, it is used in that sense in both the existing and proposed revised Rules. But with this change, an adverse economic, social or cultural practice impact will be by definition significant. If fact, IF WE ADOPT THIS, WE NEED TO DEFINE ADVERSE IN THE OXFORD WAY.

Subchapter 7 Preparation of Draft & Final Environmental Impact Statements

§11-200-14 General Provisions

Chapter 343, HRS, directs that in both agency and applicant actions where ~~statements~~ EISs are required, the preparing party shall prepare the EIS, submit it for review and comments, and revise it, taking into account all critiques and responses. Consequently, the EIS process involves more than the preparation of a document; it involves the entire process of research, discussion, preparation of a statement, and review. The EIS process shall involve at a minimum:

- (1)²⁴⁵ ~~identifying~~ Identifying environmental concerns,
- (2) ~~Conducting~~ no fewer than one EIS public scoping meeting.²⁴⁶
- (3) ~~obtaining~~ Obtaining various relevant data,
- (4) ~~conducting~~ Conducting necessary studies,
- (5) ~~receiving~~ Receiving public and agency input,
- (6) ~~evaluating~~ Evaluating alternatives, and
- (7) ~~proposing~~ Proposing measures for avoiding, minimizing, rectifying or reducing adverse impacts.

An EIS is meaningless without the conscientious application of the EIS process as a whole, and shall not be merely a self-serving recitation of benefits and a rationalization of the proposed action. Agencies shall ensure that ~~statements~~ EISs are prepared at the earliest opportunity in the planning and decision-making process. This shall assure an early open forum for discussion of adverse effects and available alternatives, and that the decision-makers will be enlightened to any environmental consequences of the proposed action prior to decision making²⁴⁷.

- (6) Summary technical data, diagrams, and other information necessary to permit an evaluation of potential environmental impact by commenting agencies and the public; and
- (7) Historic perspective.

(f) The draft EIS shall describe in a separate and distinct section reasonable²⁶⁶ alternatives ~~which that~~ could attain the objectives of the action, ~~regardless of cost, in sufficient detail to explain why they were rejected~~ and for alternatives that were eliminated from detailed study, briefly discuss the reasons for eliminating them²⁶⁷. The section shall include a rigorous exploration and objective evaluation of the environmental impacts of all such alternative actions. Particular attention shall be given to alternatives that might enhance environmental quality or avoid, reduce, or minimize some or all of the adverse environmental effects, costs, and risks. Examples of alternatives include:

- (1) The alternative of no action;
- (2) Alternatives requiring actions of a significantly different nature ~~which that~~ would provide similar benefits with different environmental impacts;
- (3) Alternatives related to different designs or details of the proposed actions ~~which that~~ would present different environmental impacts;
- (4) The alternative of postponing action pending further study; and,
- (5) Alternative locations for the proposed project.

In each case, the analysis shall be sufficiently detailed to allow the comparative evaluation of the environmental benefits, costs, and risks of the proposed action and each reasonable alternative. For any agency actions, the discussion of alternatives shall include, where relevant, those alternatives not within the existing authority of the agency.

(g) The draft EIS shall include a description of the environmental setting, including a description of the environment in the vicinity of the action, as it exists before commencement of the action, from both a local and regional perspective. Special emphasis shall be placed on environmental resources that are rare or unique to the region and the project site (including natural or human-made resources of historic, cultural,²⁶⁸ archaeological, or aesthetic significance); specific reference to related projects, public and private, existent or planned in the region shall also be included for purposes of examining the possible overall cumulative impacts of such actions. Proposing agencies and applicants shall also identify, where appropriate, population and growth characteristics of the affected area, ~~and~~ any population and growth assumptions

The draft EIS shall also contain a list of necessary approvals, required for the action, from governmental agencies, boards, or commissions or other similar groups having jurisdiction. The status of each identified approval shall also be described.

- (i) The draft EIS shall include ~~a statement~~ an analysis²⁷⁵ of the probable impact of the proposed action on the environment, and impacts of the natural or human environment on the project, which shall include consideration of all phases of the action and consideration of all consequences on the environment, including direct and indirect effects ~~shall be included~~²⁷⁶. These secondary effects may be equally important as, or more important than, primary effects, and shall be thoroughly discussed to fully describe the probable impact of the proposed action on the environment. §11-200-22 ~~Public Review of Environmental Impact Statements and Addenda to Draft Environmental Impact Statements~~ Public Review and Response Requirements for Draft EISs and Addenda³⁰⁷

- (a) Public review shall not substitute for early and open discussion with interested persons and agencies,³⁰⁸ concerning the environmental impacts of a proposed action. when the applicant's or proposing agency's position is at variance with recommendations and objections raised in the comments shall be addressed in detail, giving reasons why specific comments and suggestions were not accepted, and factors of overriding importance warranting an override of the suggestions. If a number of comments are identical or very similar, the proposing agency or applicant may group the comments and prepare a single standard response for each group. The comments must be attached to the final EIS regardless of whether the agency or applicant believes they merit individual discussion in the body of the final EIS.³¹⁵

- (d) An addendum ~~document~~³¹⁶ to a draft ~~environmental impact statement~~ EIS shall reference the original draft ~~environmental impact statement~~ EIS to which³¹⁷ it attaches ~~to~~³¹⁸ and comply with all applicable filing, public review, and comment requirements set forth in subchapter 7, beginning with section 11-200-14³¹⁹.

The requirement to send a response to every individual person commenting can be burdensome without a benefit that cannot be satisfied by notifying the person via publication of the final EA. This language is drawn from the CEQ 40 questions, #29a and aligns with NEPA practice, which allows grouping of identical or similar comments and providing one response that covers the issues raised in the identical or similar comments. Because individual responses would no longer be sent, the requirement for OEQC to receive a copy of the response is no longer relevant.

³⁴⁹ Clarifies that the document is a final EIS.

³⁵⁰ Clarifies the agency issuing the non-acceptance and ties it to the acceptability criteria in section 23

³⁵¹ "Choose to appeal" emphasizes that this appeal pathway is optional, not mandatory.

³⁵² Because the Council regularly meets monthly, obtaining quorum and executing all responsibilities under HAR Chapter 11-201 is extremely difficult to accomplish within 30 days.

³⁵³ Clarifies the Council's determination.

³⁵⁴ Connects receipt of the notice to appeal with the timing of the next EC meeting.

³⁵⁵ Clarifies that applicants may still pursue judicial remedies by directly going to court at any time, even while appealing in front of the council. This provision is in case the council is unable to obtain quorum after an applicant appeals to the council.

Subchapter 9 National Environmental Policy Act

§11-200-25 National Environmental Policy Act Actions: Applicability to Chapter 343, HRS

When ~~the situation occurs where~~³⁵⁶ a certain action will be subject both to the National Environmental Policy Act of 1969 (Public Law 91-190, as amended by Public Law 94-52 and Public Law 94-83; 42 U.S.C. §4321-4347) and chapter 343, HRS, the following shall occur:

- (1) The applicant or agency, upon discovery of its proposed action being subject to both chapter 343, HRS, and the ~~National Environmental Policy Act~~ NEPA³⁵⁷, shall notify the responsible federal agency, the office, and any agency with a definite interest in the action (as prescribed by chapter 343, HRS) ~~of the situation.~~³⁵⁸
- (2) Where a federal agency determines that the proposed action is exempt from review under the NEPA, the determination does not automatically constitute an exemption for the purposes of this chapter. In such cases, state and county agencies remain responsible for compliance with this chapter. However, the federal exemption may be considered in the state or county agency determination.³⁵⁹
- (3) Where a federal agency issues a FONSI and concludes that a statement is not required under the NEPA, the determination does not automatically constitute compliance with this chapter. In such cases, state and county agencies remain responsible for compliance with this chapter. However, the federal FONSI may be considered in the state or county agency determination.³⁶⁰
- (24) ~~The National Environmental Policy Act~~ NEPA³⁶¹ requires that ~~draft~~³⁶² ~~statements~~ EISs³⁶³ be prepared by the responsible federal agency. ³⁵⁹ States that federal categorical exemptions do not automatically result in HEPA exemptions. State and county agencies must still make a determination that the action is exempt, requires an EA, or may proceed directly to preparing an EIS.

³⁶⁰ Clarifies that a federal agency may issue a FONSI for its purposes, but a state or county agency may still require an EA or EIS for its purposes, or issue an exemption based on the federal FONSI so long as the state or county agency has considered HEPA-specific content requirements, either through the federal FONSI or through its own judgment and experience.

comply with this chapter,³⁶⁴ so long as the federal EIS satisfies the EIS content requirements of this chapter and is not found to be inadequate under the NEPA by a court; by the council on environmental quality (CEQ) (or is at issue in predecision referral to CEQ) under the NEPA regulations; or by the administrator of the United States Environmental Protection Agency under section 309 of the Clean Air Act, 41 U.S.C. 1857,³⁶⁵ The responsible federal agency's supplemental EIS requirements shall apply in the cases in place of this chapter's supplemental EIS requirements.³⁶⁶

Commented [RT25]: I am unclear as the rationale for this.

- (5)³⁶⁷ When the responsibility of preparing an EIS is delegated to a state or county agency, this chapter shall apply in addition to federal requirements under the ~~National Environmental Policy Act NEPA~~³⁶⁸. The office and agencies shall cooperate with federal agencies to the fullest extent possible to reduce duplication between federal and state requirements. This cooperation, to the fullest extent possible, shall include joint ~~environmental impact statements EISs~~ with concurrent public review and processing at both levels of government. Where federal law has ~~environmental impact statement EIS~~ requirements in addition to but not in conflict with this chapter, the office and agencies shall cooperate in fulfilling the requirements so that one document shall comply with all applicable laws.
- (36) In all actions where the use of state land or funds is proposed, the final ~~statement EIS~~ shall be submitted to the governor or an authorized representative. In all actions when the use of county land or funds is proposed, the final ~~statement EIS~~ shall be submitted to the mayor, or an authorized representative. The final ~~statement EIS~~ in these instances shall first be accepted by the governor or mayor (or an authorized representative), prior to the submission of the same to the ~~Environmental Protection Agency or~~³⁶⁹ responsible federal agency.

³⁶⁴ Based on Massachusetts' language that federally-prepared EISs are sufficient for the purposes of Chapter 343. The goal is to allow a federal EIS to meet this chapter's requirements provided it addresses this chapter's content requirements. In this case, state and county agencies can provide the information to the federal preparer for inclusion in its document rather than the state or county agency preparing a second document.

³⁶⁵ Adds a clause from Washington WAC to ensure that the federally-prepared statement meets federal standards for quality.

³⁶⁶ Clarifies that in the case of joint documents, the preparation of any supplemental documentation would be due to federal requirements and that HEPA supplemental requirements would not apply.

³⁶⁷ Separated the existing language into two paragraphs; one about when a federal agency prepares the EIS and one about when a federal agency delegates the responsibility to a state or county agency.

³⁶⁸ Housekeeping.

³⁶⁹ Clarifies that it is the responsible federal agency issuing the acceptance to reduce confusion about the role of the Environmental Protection Agency in these circumstances.

Proposed New Subchapter X Programmatic EISs

Proposed §11-200-XX Programmatic Environmental Impact Statements³⁷¹

- (a) Proposing agencies may prepare a PEIS on the adoption of a comprehensive plan prepared in accordance with relevant laws. Impacts of individual actions proposed to be carried out in conformance with these adopted plans and regulations and the thresholds or conditions identified in the PEIS may require no or limited further review.

- (b) Approving agencies may allow applicants to prepare a PEIS on the adoption of a comprehensive plan prepared in accordance with relevant laws. Impacts of individual actions proposed to be carried out in conformance with these adopted plans and regulations and the thresholds or conditions identified in the PEIS may require no or limited further review.

- (c) Upon acceptance of a final programmatic EIS:
 - (1) If a PEIS evaluates project-level issues such as precise project footprints or specific design details, no further compliance with this chapter is required if a subsequent proposed action will be carried out in conformance with the conditions and thresholds established for such actions in the PEIS.
 - (2) Further chapter 343, HRS, environmental review must be prepared if a subsequent proposed action was not addressed in the PEIS or the subsequent proposed action exceeds the thresholds evaluated in the PEIS, and the subsequent action may have a significant impact on the environmental. Further review may be in the form of an EIS, EA, or exemption, for specific components of the proposal.

Commented [26]: Can there be a supplemental programmatic EIS? (SPEIS?)

Commented [RT27R26]: Should we just say (or presume) that in all other respects, a PEIS is exactly the same as an EIS?

³⁷¹ Provides directions on when environmental review covers a program type of action. Focus is on EISs and when analysis is sufficient versus further, project-level review is warranted.

Proposed §11-200-XX Content Requirements; Draft Programmatic Environmental Impact Statement³⁷²

(a) The content requirements for a PEIS shall be the same as those for an EIS set forth in subchapter 7, with the understanding that the level of detail in a PEIS may be less than that of a project EIS. The level of detail in a PEIS must be sufficient to allow informed choice among planning-level alternatives and to develop broad mitigation strategies. A PEIS should examine the interaction among proposed projects or plan elements, and assess the cumulative effects. Like a project-level EIS, a PEIS also includes an examination of alternatives.

(b) The PEIS may be broader and more general than a project EIS and omit evaluating project-level issues that are not yet ready for decision at the planning level, or it may evaluate project-level issues such as precise project footprints or specific design details.

(c) A PEIS should discuss the logic and rationale for the choices advanced. It may also include an assessment of specific impacts if such details are available and specific mitigation measures. It may be based on conceptual information in some cases. It may discuss in general terms the constraints and sequences of any narrowing of future options. It may present and analyze in general terms hypothetical scenarios that are likely to occur.

³⁷² Adds direction on content for a programmatic EIS. Acknowledges that a programmatic EIS may not have the same level of detail as a project-specific EIS.

§11-200-26 Supplemental EIS³⁷³ General Provisions

- (a) ~~A statement An EIS~~ that is accepted with respect to a particular action is usually qualified by the size, scope, location, intensity, use, and timing of the action, among other things. ~~A statement An EIS~~ that is accepted with respect to a particular action shall satisfy the requirements of this chapter and no ~~other supplemental statement EIS~~ for that proposed action shall be required, ~~to the extent that the action has not changed substantively in size, scope, intensity, use, location or timing, among other things. If there is any change in any of these characteristics which may have a significant effect, the original statement that was changed shall no longer be valid because an essentially different action would be under consideration and a supplemental statement shall be prepared and reviewed as provided by this chapter. unless:~~
- (1) ~~The project has changed substantively in the following characteristics: size, scope, use, location or timing, among other things, which may have a significant effect; or~~³⁷⁴
 - (2) ~~New information indicating significant effects, which was not known and could not have been known at the time the EIS was accepted as complete, becomes available.~~³⁷⁵
- (b) ~~In the case of newly discovered information, the decision to require preparation of a supplemental EIS must be based on the following criteria:~~
- (1) ~~The information can be from any source.~~
 - (2) ~~The information must be newly discovered. It cannot be information that could have been included in comments filed in the original draft EIS or final EIS.~~
 - (3) ~~The information must be important, indicating probably significant environmental impacts.~~
 - (4) ~~The information must not have been addressed in the prior EIS, or must have been inadequately addressed.~~³⁷⁶
- (c) As long as there is no change in a proposed action or information indicating significant effects resulting in individual or cumulative impacts not originally disclosed, the ~~statement EIS~~ associated with that action shall be deemed to comply with this chapter.

§11-200-27 Supplemental EIS³⁷⁷ Determination of Applicability

The accepting authority or approving agency in coordination with the original accepting authority shall be responsible for determining whether a supplemental ~~statement~~ EIS is required. If a period of five years has elapsed since the acceptance of the final EIS, and the project or program has not substantially commenced, the accepting authority or approving agency shall formally re-evaluate the need for a supplemental statement and make a determination of whether a supplemental statement is required. A written summary of this evaluation and the³⁷⁸ ~~This~~ determination will be submitted to the office for publication in the periodic bulletin. Proposing agencies or applicants shall prepare for public review supplemental ~~statements~~ EISs whenever the proposed action for which a ~~statement~~ EIS was accepted has been modified to the extent that new or different environmental impacts are anticipated. A supplemental ~~statement~~ EIS shall be warranted when the scope of an action has been substantially increased, when the intensity of environmental impacts will be increased, when the mitigating measures originally planned are not to be implemented, or where new circumstances or evidence have brought to light different or likely increased environmental impacts not previously dealt with.

[Eff 12/6/85; am and comp AUG 31 1996] (Auth: HRS §343-5, 343-6) (Imp: HRS §343-5, 343-6)

³⁷⁷ Clarifies in the title that this is about supplemental EISs (to distinguish from regular EISs and programmatic EISs).

³⁷⁸ Sets a default five-year period for agencies to take a look at whether a supplemental EIS may or may not be required, but also puts a boundary on when that period is no longer relevant but setting substantial commencement as a point where supplemental EISs may no longer be required. A definition for substantial commencement is proposed in section 11-200-2.

1 "Applicant" means any person who, pursuant to statute, ordinance, or rule, officially requests
2 approval from an agency for a proposed action.

3 "Approval" means a discretionary consent required from an agency prior to actual¹¹
4 implementation of an action. Discretionary consent means a consent, sanction, or
5 recommendation from an agency for which judgment and free will may be exercised by the
6 issuing agency, as distinguished from a ministerial consent. Ministerial consent means a
7 consent, sanction, or recommendation from an agency upon a given set of facts, as prescribed
8 by law or rule without the use of judgment or discretion.¹²

9 "Approving agency" means an agency that issues an approval prior to actual¹³ implementation
10 of an applicant¹⁴ action, determines the need for an EA or EIS, and issues the exemption,
11 FONSI, or acceptance determination.¹⁵ The approving agency may be an accepting authority for
12 an applicant final EIS.¹⁶

13 "Concurrence" means the discretionary consent of the council to an agency exemption list.¹⁷

14 "Council" or "EC" means the environmental council.

15 "Cumulative impact" means the impact on the environment which that results from the
16 incremental impact of the action when added to other past, present, and reasonably foreseeable
17 future actions regardless of what agency or person undertakes such other actions. Cumulative
18 impacts can result from individually minor but collectively significant actions taking place over a
19 period of time.

20 Discretionary consent means a consent, sanction, or recommendation from an agency for which
21 judgment and free will may be exercised by the issuing agency, as distinguished from a
22 ministerial consent. Ministerial consent means a consent, sanction, or recommendation from an

Definition of these two terms not that clear. For example, traffic control plans require approval based on judgement and discretion, but does not mean an EA IS required.

23 ¹¹ Does not add meaning to sentence so removing the word.

24 ¹² Removed "discretionary consent" from the definition and made it a standalone definition that mirrors the
25 statute.

26 ¹³ Does not add meaning to sentence so removing the word.

27 ¹⁴ Approving agencies are only in the case of applicants.

28 ¹⁵ The approving agency makes the decision about level of review and if the applicant has satisfied HRS
29 Chapter 343.

30 ¹⁶ In the case of applicants, the approving agency is also the accepting authority. This adds clarification to
31 the definition.

32 ¹⁷ Adds a definition for the council's concurrence of agency exemption lists. Concurrence is discretionary
33 because it is up to the council to be satisfied with the agency exemption list. The discretionary consent is
34 not an approval because it does not apply to a specific project.

13 records for review upon request. The agency shall provide a means to notify and accept
14 input from the public in a timely manner after the exemption declaration is made. An
15 agency may request the office to publish the exemption notice in the periodic bulletin.
16 The public's right to judicial proceeding on the lack of an assessment under chapter 343,
17 HRS shall commence from the date the public is notified of the exemption through the

This is qualitative. Why not specify number of days?

23 ¹²⁶ Requires agencies to do consultation for exemptions that are borderline cases or for lists that have not
24 received council concurrence within the past five years. The five years concurrence threshold is an
25 incentive for agencies to regularly refresh their exemption lists with the council, but allows for consultation
26 so that agencies can continue to use the list but with a higher burden of due diligence.

27 ¹²⁷ Reminds agencies that an action may not be broken up into smaller pieces to fit within several
28 exemption types.

29 ¹²⁸ Housekeeping.

30 ¹²⁹ Connects to the exemption notice definition and emphasizes that an agency has duty to maintain these
31 as a record.

32 ¹³⁰ Requires agencies to make exemption notices publicly available either through the periodic bulletin or
33 through their own means. Some agencies already do this by posting them to their website in a
34 spreadsheet or in meeting minutes. This helps to close the gap between when an agency makes a
35 determination and how the public is supposed to know, so that everyone has a clear date for when legal
36 challenge begins and ends, without making the disclosure process overly burdensome to agencies or
37 OEQC.

38 ¹³¹ States the name of the statute for emergency proclamations.

Confusing. Seems to be saying the same thing.

30 ¹⁴⁸ Narrows the language to focus on the EA on the content requirements.

31 ¹⁴⁹ Shifts the focus of preparation to the applicant per Act 172 (2012).

32 ¹⁵⁰ Removes the thirty-day requirement for an approving agency to prepare, review, and issue an
33 anticipated FONSI or EISPN. Instead, makes the agency tell the applicant within 30 days of receipt of a
34 request for approval which course of environmental review the applicant is to take.

35 ¹⁵¹ Inserts a new paragraph for the agency to decide whether an anticipated FONSI or EISPN is
36 appropriate. Subsequent paragraphs are renumbered.

37 ¹⁵² Makes this step explicit; it was not stated before but it the step that occurs between the draft EA stage
38 and filing an anticipated FONSI.

would "support" be a better word?

¹⁵⁵ Adds language to ensure that other sections are fulfilled as well.

¹⁵⁶ Replaces the term "distribute" because that term is the section heading of §11-200-21, thus giving the term a particular role in HAR chapter 11-200, so the verb "circulate" is proposed instead.

¹⁵⁸ Emphasizes that a printed, paper hard copy is to be deposited at the nearest state library so that the people nearest the proposed action without electronic access are able to review the document.

¹⁵⁹ Adds a request from the State Library that only two hard copies be submitted to the state library system, one for the local library near the proposed action as an environmental/social justice concern and one at the document center for archival records. Ideally, these are the only two hard copies produced of a draft EA.

¹⁶⁰ Breaks up the paragraph so that the three requirements for the applicant are easier to read.

¹⁶¹ Housekeeping.

¹⁶² Emphasizes that the final EA content should still meet the EA content requirements as set for in section 10.

¹⁶³ Emphasizes that the point of revisions to the final EA is to move toward a decision on a FONSI or EISPN based on the content and draft EA comments.

17 ¹⁶⁶ Changes the deadline from 30 days after the close of the public comment period to 30 days after
18 receipt of the final EA.

19 ¹⁶⁷ Clarifies that the alternatives to be examined are done so in the environmental assessment, not
20 independent of it, and that the agency directs the applicant to analyze alternatives in an

22 not all possible alternatives are required to be analyzed.

23 ¹⁶⁸ Incorporates language from Act 172 (2012) allowing agencies to bypass preparing the environmental
24 assessment and instead prepare an EIS beginning with the EISPN. Also allows agencies to authorize
25 applicants to bypass the environmental assessment, should the applicant desire, and instead prepare an
26 EIS beginning with the EISPN.
