OPTIONAL ATTACHMENTS (ENCOURAGED)

- Site photos (maximum of 10)
- Letters of support from property owners, surrounding property owners and/or other stakeholders
- Bibliography of past research, data or reports documenting candidate site's resources
- Other materials that document the candidate site's conformance with the site selection criteria

INSTRUCTIONS FOR CANDIDATE SITE NARRATIVE DESCRIPTION: Provide one (1) hard copy and one (1) electronic copy of a narrative that describes the candidate site, its core area and buffer zone. The narrative should address the SITE SELECTION CRITERIA by describing the candidate site's:

- Ecosystem/ecological characteristics; *and*
- Value of the site for research, monitoring and resource protection; *and*
- Suitability of the site for training, education and interpretation; *and*
- Extent of publicly owned core lands, acquisition and management considerations; *and*
- Suitability for climate change impact research.

Note: SITE SELECTION CRITERIA and scoresheets are available at: <http://planning.hawaii.gov/czm/>

INSTRUCTIONS FOR CORE AREA AND BUFFER ZONE MAP: Provide one (1) hard copy and one (1) electronic copy of a scaled map that depicts the candidate site's CORE AREA and BUFFER ZONE. Required paper maps SHOULD BE PRINTED TO A REPRODUCIBLE GRAPHIC RESOLUTION AND SHOULD NOT EXCEED 11" BY 17" paper size. The required electronic map should include GIS files or Google Maps or Google Earth files that define the proposed boundaries of the core area and the buffer zone. GIS files should be compatible with ArcGIS version 10.1 or earlier. Or, if composed in Google Maps or Google Earth, a .kml or .kmz file(s) should be provided.

Note: instructions for creating a Google Map can be found on-line at:
