THE ORMP UPDATE  
*Coordinated  
 Working Group  
 Session*

**Working Session Goals**

In April 2018 the Coordinated Working Group began to discuss elements of the ORMP Update. Since then, our update process has officially kicked-off! During our Coordinated Working Group meeting this July we will be discussing new items as well as revisiting several topics that we touched upon last year. Our meeting goal is to make decisions about fundamental plan contents, including criteria for future focus area selection, streamlining terminology, and our vision statement.

Attendees of this meeting, including designated agency representatives for the ORMP Update and CWG members and partners, will be requested to share their thoughts on a number of defining plan elements. Additionally, PBR Hawaii & Associates, Inc. will be reporting to the Coordinated Working Group to share the status of their ongoing work to support the update process.

Thank you for your invaluable input!

**Discussion Outline**

**ORMP Framework**

- Criteria for Focus Area Selection/Action Team Creation
- Exploring Action Team Outcomes

**Foundational Plan Elements**

- Terminology
- ORMP Vision Statement
- Crafting our Subtitle

**Update Process Check-In**

- Statewide ‘Information Sharing’
- Update Timeline, CWG Needs and Expectations, Future Meetings

**Statutory Mandate**

HRS §205A-62 calls for the lead agency to ‘Review and periodically update the Hawaii Ocean Resources Management Plan’.

The 2019-2020 planning cycle will create the fifth version of the ORMP, with updates historically occurring about every 5 years. (1985, 1991, 1998 [Plan Review], 2006, 2013)
