

Working Session Goals

Discussion Outline

During our October CWG meeting we will be discussing the recently completed statewide Information Sharing Sessions. PBR Hawaii & Associates, Inc. will report to the Coordinated Working Group about outcomes from the meetings, responses to the online survey, and initial takeaways to inform the selection of focus areas for the 2020 ORMP.

PBR will also share the status of ongoing work to support the update process, including interviews with cultural practitioners to enhance the inclusion of Traditional Ecological Knowledge in the plan and the finalization of the plan’s graphic scheme. PBR will discuss next steps, particularly one-on-one interviews to share input and update plan metrics. Members and partners representing State agencies are requested to participate.

Finally, CWG members will review and discuss proposed vision statement and subtitle options for the plan.

Update Process Check-In

- Statewide ‘Information Sharing’: What did we learn?
- Where we stand: TEK and Graphics

Next Steps

- Update timeline
- Upcoming interviews
- Future joint meeting of CWG & Council on Ocean Resources

Revisiting Outstanding Decisions

- Vision Statement
- Proposed Subtitle
