

Visioning Appropriate Coastal Development & Management of Coastal Hazards:

Proposed Action Team Implementation Items

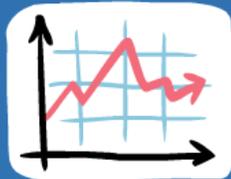

Ocean Resources Management Plan Working Group
January 9, 2014
Nathalie Morison

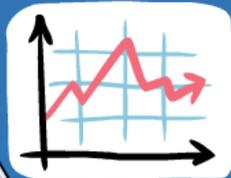

DATA

Identify data needed to plan for coastal inundation

Develop a data standard for inputs/methodology

Create scientific research agenda related to data needs

GUIDANCE

Develop step-by-step processes for integrating climate change/sea level rise considerations into state/county practices:

Increase in number of counties implementing planning practices that include adaptation strategies when planning for coastal areas

Increase in number of state agencies implementing capital improvement plan projects that include adaptation strategies for coastal areas

Increase in number of projects reviewed by DOH/OP during land use entitlement process that include coastal impact risk assessments

Increase in number of state departments completing coastal hazards risk analysis for their [existing] facilities

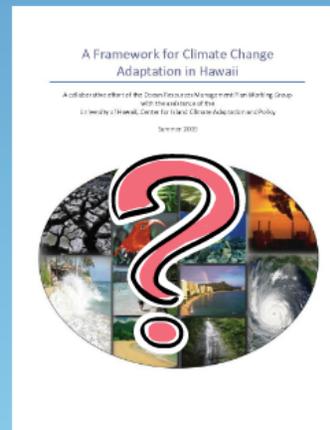

ANALYSIS

Vulnerability Assessments

"Policy" Analysis

A Framework for Climate Change Adaptation in Hawaii

A collaborative effort of the Ocean Resources Management Plan Working Group
with the assistance of the
University of Hawaii, Center for Island Climate Adaptation and Policy

Summer 2009

IMPLEMENTATION

**Select and execute
adaptation strategies:**

Protect

Accommodate

Retreat

ACTION TEAM

MANAGEMENT PRIORITY	LEAD STATE AGENCY	OTHER STATE & COUNTY AGENCIES	PARTNERS
1 – Appropriate Coastal Development	OP-CZM	County Planning Depts. DLNR-OCCL DOT DOH	FEMA/NFIP UH Sea Grant PacIOOS UH SOEST – Coastal Geology Group NOAA OCRM NOAA PSC
2 – Management of Coastal Hazards	OP-CZM	County Planning Depts. DLNR-OCCL State & County Civil Defense DOT DOH	FEMA/NFIP UH Sea Grant PacIOOS UH SOEST – Coastal Geology Group NOAA OCRM NOAA PSC PMNM
