Note that this layer does not have a population field, because the smallest geography reported by the American Community Survey is block **groups**.

The **American Community Survey** (ACS) is an ongoing **survey** that provides data every **year** -- giving communities the current information they need to plan investments and services. ... The **5-year** estimates from the ACS are "period" estimates that represent data collected over a period of time from 2011 to 2015. For more information, please visit <https://www.census.gov/programs-surveys/acs/>.
