

Layer Name: 2010 Census Designated Places
File Name: cdplc10
Layer Type: Polygon
Status: Complete
Geog. Extent: Main Hawaiian Islands
Projection: Universal Trans Mercator, Zone 4 (Meters), NAD 83 HARN
Description: 2010 Census Designated Places
Source: U.S. Census Bureau (February, 2011).
History: Projected from decimal degrees to UTM Zone 4 NAD83 HARN using ArcToolbox. Removed extraneous fields (e.g., State Code). The census blocks layer was clipped to the State GIS coastline, which resulted in 2 census blocks being deleted, so those blocks were added back into the layer – therefore, the coastline for the census layers is slightly different than the State GIS coastline. Specifically:

- Block number 150030001122002, population = 95 (Kuapa Isle, Hawaii Kai, Oahu)
- Block number 150039814001002, population = 15 (islet just west of Sand Island, Oahu).

This revised coastline was then used to clip the remaining 2010 census layers - block groups, census county divisions, census designated places and census tracts.

Attributes: Polygons:

GEOID10	7-digit (State – 2 dig, Place – 5 dig)
NAME10	Census Designated Place Name
NAMELSAD10	2010 Census name and the translated legal/statistical area description for place

County Codes:

001:	Hawaii
003:	Honolulu
005:	Kalawao (Kalaupapa)
007:	Kauai
009:	Maui

Note: The official City and County of Honolulu census geography includes the Northwestern Hawaiian Islands, which we have not included in this layer.
