

Layer Name: 2010 Census Designated Places

Shapefile: cdplc10.shp

Layer Type: Polygon

Status: Complete

Geog. Extent: Main Hawaiian Islands

Projection: Universal Trans Mercator, Zone 4 (Meters), NAD 83

Description: 2010 Census Designated Places

Source: U.S. Census Bureau (February, 2011).

History: Projected from decimal degrees to UTM Zone 4 NAD83 using ArcToolbox. Removed extraneous fields (e.g., State Code).

Clipped to Census Blocks coastline.

Notice: Sept. 9, 2011: Several census layers have been revised due to two census blocks being inadvertently deleted as a result of clipping with the State GIS coastline layer:

- Block number 150030001122002, population = 95 (Kuapa Isle, Hawaii Kai, Oahu)
- Block number 150039814001002, population = 15 (islet just west of Sand Island, Oahu).

Population calculations would have only been affected for analysis done at the census block level. For consistency, the following layers were revised with the coastline from the 2010 census blocks layer: blocks, block groups, census county divisions, census designated places and tracts.

We regret any inconvenience this error may have caused.

Attributes: Polygons:

GEOID10	7-digit (State – 2 dig, Place – 5 dig)
NAME10	Census Designated Place Name

County Codes:

001:	Hawaii
003:	Honolulu
005:	Kalawao (Kalaupapa)
007:	Kauai
009:	Maui

Note: The official City and County of Honolulu census geography includes the Northwestern Hawaiian Islands, which we have not included in this layer.
