

Layer Name: Dams in Hawaii (Regulated and Non-Regulated) as of November, 2018

File Name: dams_nid

Layer Type: point

Status: Complete

Geog. Extent: Islands of Hawaii, Kauai, Maui, Molokai and Oahu

Projection: UTM Zone 4, Meters, NAD 83 HARN

Please note - if you are using data in the [State's web services](#) or downloading from the [State's geoportal](#), the data is served and exported in WGS84 coordinates, although it is stored internally in UTM coordinates.

Source: National Inventory of Dams

History: Downloaded by Hawaii Statewide GIS Program Staff from the National Inventory of Dams website ([https://nid-test.sec.usace.army.mil/ords/f?p=105:1:::~](https://nid-test.sec.usace.army.mil/ords/f?p=105:1:::)), February 7, 2019.

Per the NID Website:

All charts, queries and maps reflect the most current 2018 National Inventory of Dams (NID) database. State and federal dam regulators provided their data from May to November 2018 for inclusion in the 2018 database. Please be aware that inspection and EAP dates reflect 2018 data, so any inspections or updates since then will not be reflected in the current NID. Please contact the respective state or federal regulatory authority for the most up-to-date information.
