

Layer Name: State DOT Commercial Harbors as of February, 2019

File Name harbors_commercial

Layer Type: Polygon

Status: Complete

Geog. Extent: Main Hawaiian Islands

Projection: Universal Transverse Mercator, Zone 4

Datum: NAD 83 HARN

Please note - if you are using data in the [State's web services](#) or downloading from the [State's geoportal](#), the data is served and exported in WGS84 coordinates, although it is stored internally in UTM coordinates.

Description: Boundaries of state commercial harbors under the jurisdiction of DOT Harbors.

Source: Hawaii State Dept. of Transportation, Harbors Division.

History: Received from DOT Harbors Division, February 26, 2019.

Note: Per DOT Harbors staff, 3/4/19 – although Hana Harbor was transferred to DOT Harbors' jurisdiction, they do not have the corresponding EO in their records. Field values (berth length, etc.) are not available in the DOT Harbors database, which is why the fields are blank in the GIS database.

Attributes: Polygons:

Berth_length:	Length of berth, in feet
Yard_area:	Area of yard, in acres
Shed_area:	Area of shed, in square feet
Channel_depth:	Depth of channel, in feet
Harbor_name:	Name of harbor
Turn_basin:	Depth of turn basin, in feet
