

Layer Name: Hotels

Layer Type: Point

Status: Complete

Geog. Extent: Main Hawaiian Islands

Projection: Universal Trans Mercator, Zone 4 (Meters)

Datum: NAD 83 HARN

Description: Locations of hotels in the State of Hawaii.

Source: List of hotels from Hospitality Advisors LLC, 2006.  
Revised October 2012.

History: This dataset was created from a table in Excel format from Hospitality Advisors, LLC. The address field was used to initially locate the hotels by geocoding using ArcMap. Further rectification was done using various sources including TMK Parcels, aerial and satellite photos, etc.

December, 2010: At the request of Hospitality Advisors, price field was removed because some categories had changed since 2006.

December, 2010: Hospitality Advisors provided updated names for various hotels.

October, 2012: Hospitality Advisors provided a new list of additional hotels including smaller hotels. Data received March 2012. Hotels with less than 10 units were not included.

Attributes: Points:

ISLAND	Island
Area	Geographic Area
NAME	Hotel Name
ADDRESS	Hotel Address
ZIPCODE	Zip Code
TYPE	Type of Accomodation
UNITS	Number of Units
Year_OPEN	Year Opened
