

Layer Name: Large Landowners

Layer Type: Polygon

Status: Complete

Geog. Extent: Main Hawaiian Islands

Projection: Universal Trans Mercator, Zone 4 (Meters)

Datum: NAD83 HARN

Description: Large Landownership in the State of Hawaii. Updated Aug 2013.

Source: C&C of Honolulu (July 2013), Kauai County (January 2012), Maui County (July 2013), Hawaii County (June 2013).

History: This dataset was created using the TMK Parcel shapefiles from the counties of Honolulu, Kauai, Maui and Hawaii. All public (Federal, State, County) lands are included in this dataset. All private land owners with a minimum of 1,000 acres statewide are included in this dataset.

Note that the GIS\_Acres field was used for calculating the minimum 1,000 acre threshold. The Tax\_Acres field was not used in the calculation because there were many records with blank or erroneous values.

May, 2017: Added ObjectID field  
 June, 2017: Split multi-part polygons into individual parcels  
 June 2017: Added county\_acres, state\_acres fields.

Attributes: Polygons:

Type	"Private" or "Public" Ownership
MajorOwner	Name of Major Landowner
Island	Island
GIS_Acres	Acreage of the parcel calculated by GIS
County_Acres	Total acreage of this landowner in applicable county
State_Acres	Total acreage of this landowner statewide
