

Layer Name: Reserves

File Name: reserves

Layer Type: Polygon

Status: Complete

Geog. Extent: Islands of Kauai, Oahu, Maui, Molokai, Lanai, Hawaii, and Kure Atoll

Projection: Universal Transverse Mercator, Zone 4 (Meters)

Datum: NAD 83 HARN

Please note - if you download data from the State's geoportal (<https://geoportal.hawaii.gov/>), the data is exported in WGS84 coordinates, although it is stored internally (in the State's geodatabase), served in the State's web services (<https://geodata.hawaii.gov/arcgis/rest/services>) and made available in the State's legacy download site (<https://planning.hawaii.gov/qis/download-qis-data-expanded/>) in UTM / NAD 83 coordinates.

Description: Various reserves, preserves, parks, etc. as of **November 2023**.

Abstract: Various reserves, preserves, parks, etc. as of **November 2023**. Received from DLNR-DOFAW, November 1, 2023. Reserve boundaries are generally based on the County's tax map key (TMK) layers (Kauai County TMK 2012, Maui County TMK 2016, Honolulu and Hawaii Counties 2020). Since boundaries from other agencies are derived from different source scales, these boundaries are modified to match the TMK layer with exceptions. Note: Kaumahina State Recreation Area on Maui was digitized from USGS 7.5 minute topographic map.

Purpose: Centralized location of managed lands protecting natural and cultural resources of the Main Hawaiian Islands.

Source: Originally compiled 2002 by SOH, DLNR, DOFAW from various sources including the data provided by U.S. Fish and Wildlife Refuges, U.S. National Park Service, Division of State Parks, County parcel boundaries and The Nature Conservancy with input from State foresters and others familiar with the reserve boundaries. The boundaries in this layer are not final; they are updated frequently.

Use Limitations: This dataset was compiled from various data sources and is updated frequently. No warranty is made that the GIS data or any subsequent update will be error free, and no warranty is made regarding the positional or thematic accuracy of the GIS data. The features are graphic representation of managed areas for planning purposes and do not represent or confer any legal rights, privileges, benefits, boundaries, or claims of any kind. DOFAW encourages GIS data users to verify the suitability of the data before use. Please report any discrepancies or errors to the point of contact.

Note: In some cases, differences in the acreage calculated by the GIS and the acreage listed in county real property records may exist. This can be especially evident in large parcels in remote areas, and is often a result of the difficulty in surveying the steep, overgrown terrain found in these natural areas.

For more information about this dataset, including inventory of updates and changes to the layer, please refer to [full metadata](#).

Attributes:	Polygons:	
	OBJECTID	Polygon ID (for ArcGIS use)
	TYPE	Abbreviation for Type of Reserve
	Type_Defin	Type of Reserve, e.g. Bird Sanctuary, Forest Reserve, etc.
	NAME	Name of Reserve in Upper Case only
	MANAGEDBY	Agency or Agencies that manage Reserve
	ISLAND	Island Reserve is located on
	GIS_Acre	Area of the reserve in acres as calculated by the software
	LinkToWebP	Internet link to web page of the feature
	LinkToAdmi	First Administrative Rules internet link relating to feature
	LinkTo_Ad_1	Second Administrative Rules internet link relating to feature
	LinkTo_Ad_2	Third Administrative Rules internet link relating to feature
	LinkTo_Ad_3	Fourth Administrative Rules internet link relating to feature
	Xname	Proper Name of Reserve in Upper and Lower Case
	Tlabel	Proper Name of Reserve in Upper and Lower case with diacritical characters for display
	UID	Unique ID used by DOFAW to assist in linking to AGOL layers
	Shape_Length	Length of the perimeter of the reserve in meters as calculated by software
	Shape_Area	Area of the reserve in square meters as calculated by the software
