Layer Name: Oahu Street Centerlines
File Name: streets_oah
Layer Type: Line
Status: Complete
Geog. Extent: Island of Oahu
Projection: Universal Transverse Mercator, Zone 4 (Meters)
Datum: NAD 83 HARN

Please note - if you are using data in the State's web services or downloading from the State's geoportal, the data is served and exported in WGS84 coordinates, although it is stored internally in UTM coordinates.

Description: Streets for the island of Oahu only
Source: Honolulu Land Information System (HOLIS), C&C of Honolulu.
Projected data into UTM Zone 4, NAD83 HARN.
Deleted “Maintainer” field (this is an internal field for use by HOLIS staff to indicate who maintains the linework / feature in the GIS – i.e., CCH, DOD, etc.; deleted so as not to confuse users, who may think that field indicates which agency maintains the road)

NOTE: This layer is maintained by the C&C of Honolulu HOLIS. It is provided on the State of Hawaii GIS downloading site as a service to the public. Data is downloaded from the C&C website periodically or as data is updated. To obtain the latest version of the Oahu Street Centerline layer, users should visit the Honolulu Open Geospatial Data Portal - https://honolulu-cchnl.opendata.arcgis.com/. For information regarding attributes for this layer, please visit the HOLIS website.

For more information about the field definitions, see the Data Dictionary for this dataset at http://gis.hicentral.com/DataDictionary/PUBLIC_STREET_CENTERLINE.htm.
