PREFACE

The 2010 Visitor Plant Inventory report was produced by Hospitality Advisors, LLC for the Hawai'i Tourism Authority (HTA).

As part of the Tourism Research program, HTA conducted a survey on statewide visitor accommodation in 2010. This report provides the results of this survey presenting statistics on the number of visitor units, island distribution, type of property and class of rooms. As in previous reports, island and district names were written in proper Hawaiian language orthography. However, individual property names were not written in the same manner unless the words were easily identifiable (ie. island names).

The Hawai'i Visitors and Convention Bureau (HVCB) first published the visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998. The Department of Business, Economic Development and Tourism (DBEDT) published the visitor plant inventory reports annually from 1999 through 2008.

The 2010 Visitor Plant Inventory report is posted on the HTA website:

www.hawaiitourismauthority.org/research

For further information, contact HTA at (808) 973-2255, www.hawaiitourismauthority.org.

OVERVIEW

State of Hawai'i

The total State of Hawai'i visitor plant inventory was fairly stable between 2009 and 2010, decreasing slightly by only 0.2 percent from 2009 to 75,048 visitor units [Figure 1]. While there was new inventory added to the market, including Trump International Waikiki and additional new-build timeshare units coming online, this was balanced by lower participation in condo hotel rental pools.

Despite only a slight decrease in statewide visitor units, the total number of lodging establishments in the state increased by 190 properties (11.8 percent) from the prior year. These additional properties were located on Hawai'i Island, Kaua'i, Maui, and Moloka'i but were not newly opened and were likely in operations in prior years.

Establishments removed from the 2010 supply largely consisted of individual vacation units ("IVU"s), reflecting Hawai'i's tough economic environment. Lāna'i was the only island reporting a decline in lodging properties (-16.7 percent) [Figure 2].

Just under half (45.4 percent) of the statewide visitor units in 2010 were located on O'ahu. The island of Maui continued to have the second largest share of visitor units, followed by Hawai'i Island and Kaua'i counties [Figure 1].

Hotels continued to comprise the majority (56.8 percent) of visitor units statewide. Condominium hotel properties accounted for the second largest share of visitor units at 19.4 percent. Timeshare units represented 13.2 percent of the total visitor units followed by IVUs with 9.0 percent. Bed & Breakfasts, apartment hotels, and hostels combined totaled less than 2.0 percent of the total visitor units [Figure 3].

Figure 1

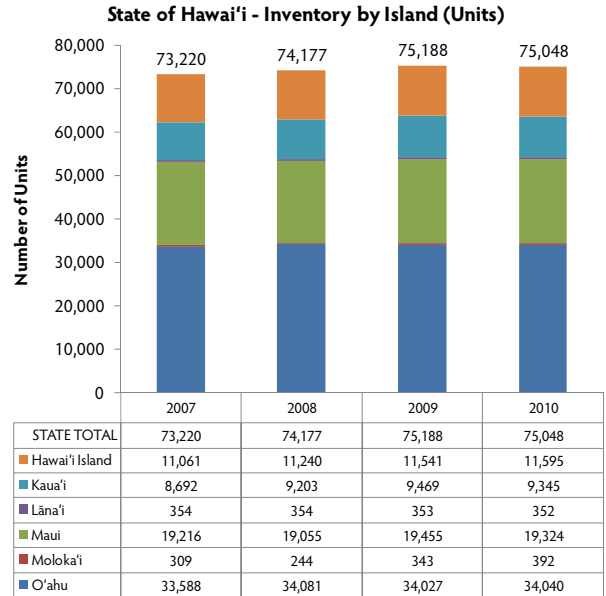

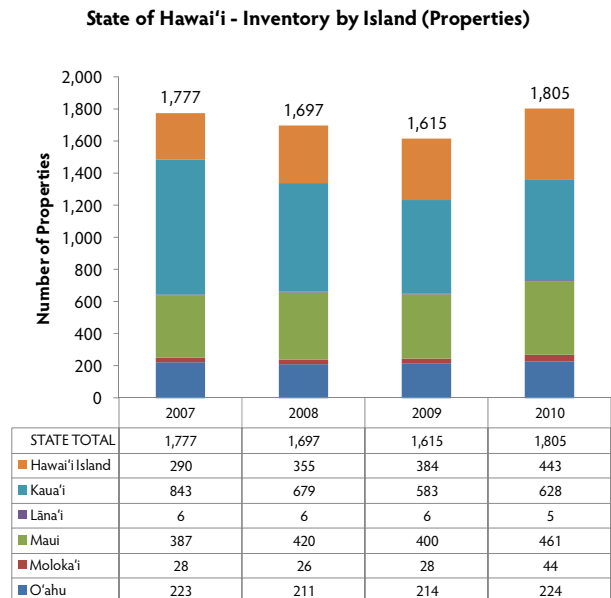

Figure 2

The State visitor supply continued to be concentrated in the Deluxe and Standard price classes for 2010. A lesser percentage of units were classified as Luxury in 2010 compared to 2009, but still remained higher than 2008 levels [Figure 5].

Figure 3

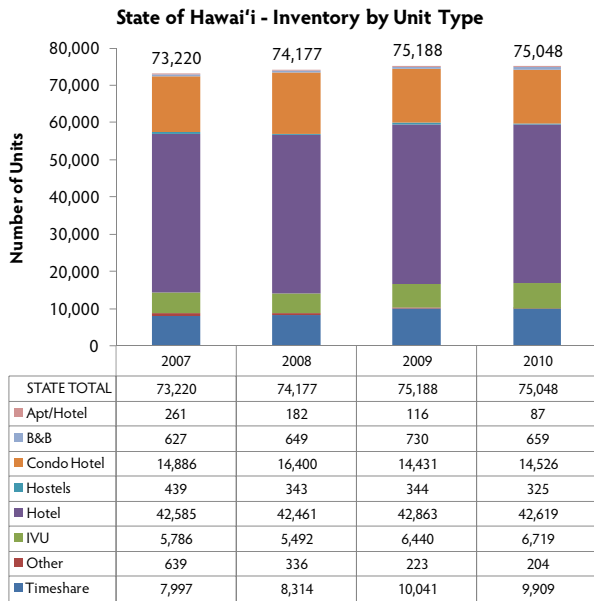

Figure 4

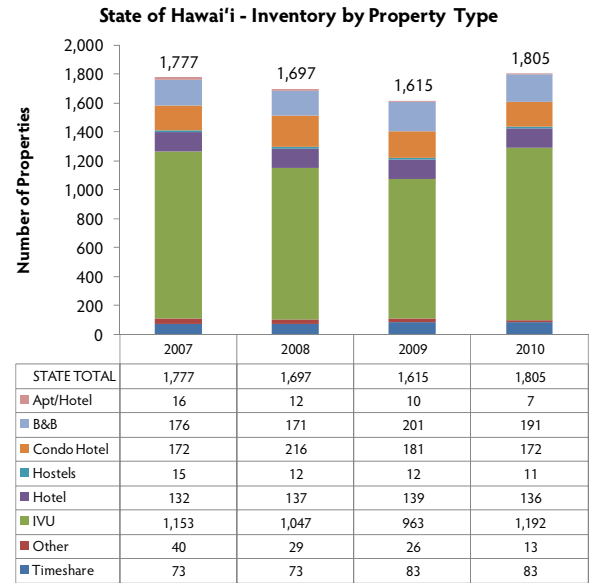

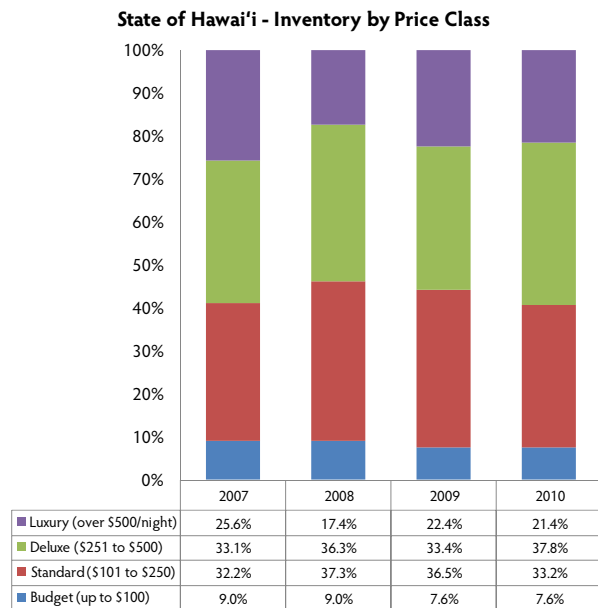

Figure 5

Inventory by Island

Hawai'i Island

Hotels continued to comprise the bulk of Hawai'i Island's visitor plant inventory (6,958 units) [Figure 9].

Although the Hilton's King's Land project in Waikoloa continues to add new units, Hawai'i Island's overall number of timeshare units decreased by 3.6 percent due to data corrections.¹

Hawai'i Island reported a significant decrease in condo hotel units (-9.9 percent) [Figure 6]

Over 40 percent of Hawai'i Island's lodging units fell within the Deluxe price class [Figure 8].

Figure 7

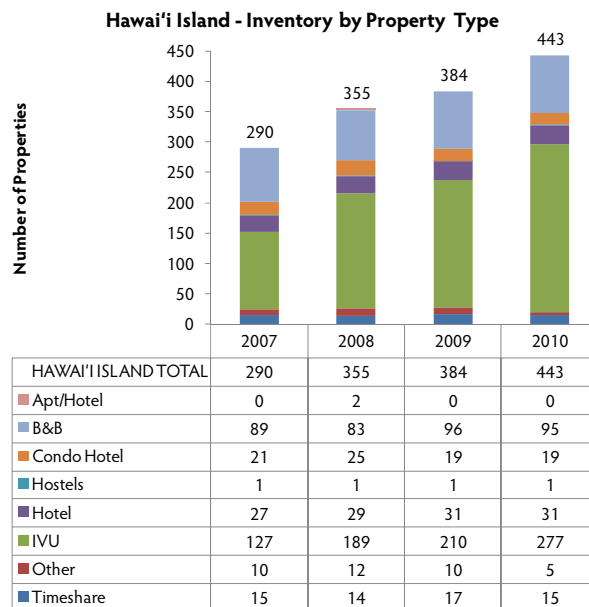

Figure 6

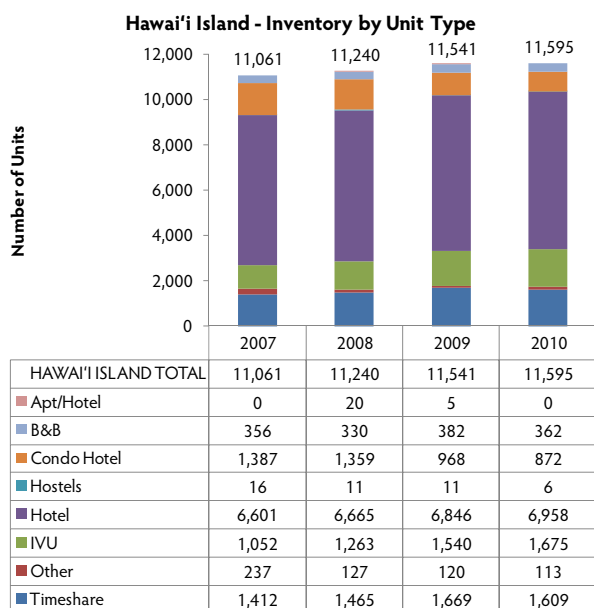

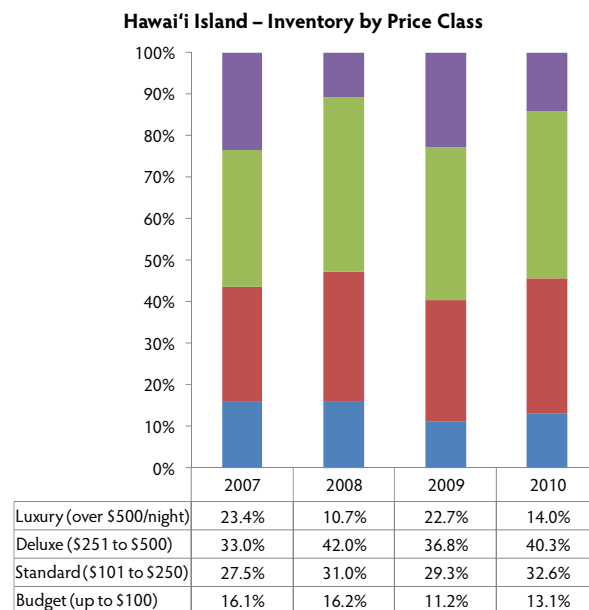

Figure 8

¹ There were several timeshare properties for which more than one operator submitted surveys for the same units.

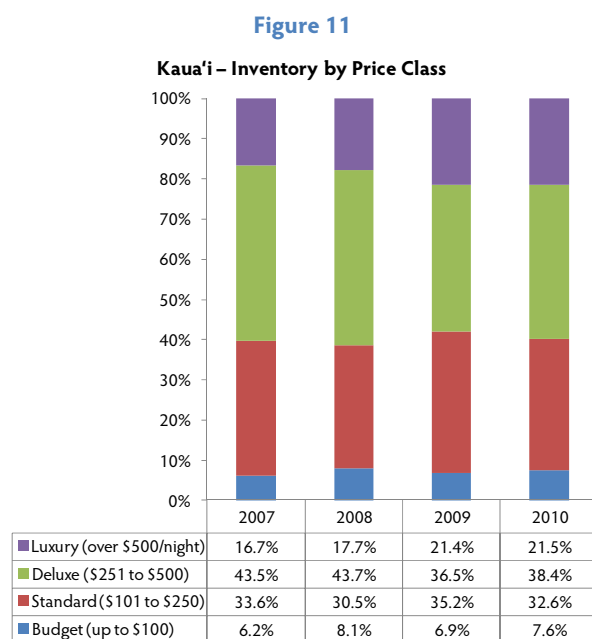

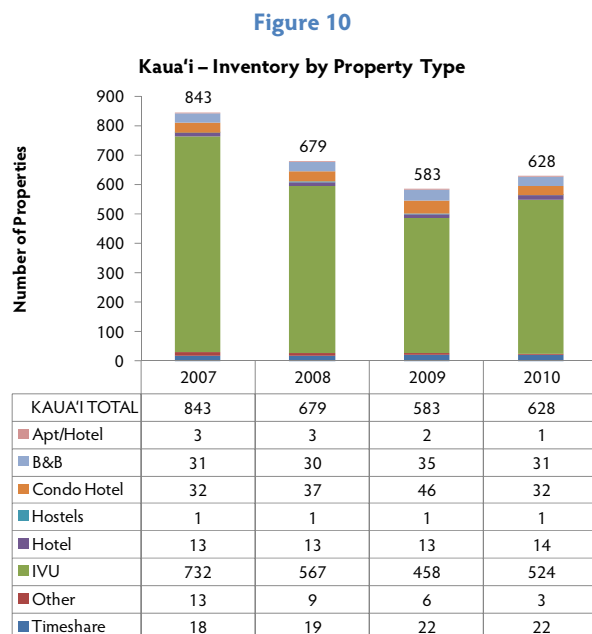

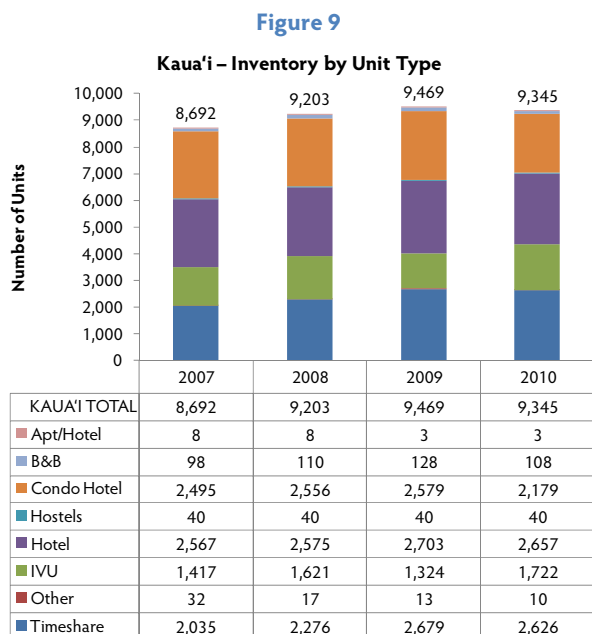

Kaua'i

Individual vacation units on Kaua'i rose by 30.1 percent and condo hotels decreased by 15.5 percent [Figure 9]. While in past years, similar changes have been reported due to reclassification of units from condo hotel to IVU, in 2010, the growth in IVUs was driven by the identification of units that had not participated in prior VPI surveys. The number of condo hotel units reported reflect smaller rental pools.

B&B and timeshare units on Kaua'i decreased by 15.6 percent and 2.0 percent, respectively, over 2009 [Figure 9].

On a unit basis, the majority of Kaua'i's visitor supply consisted of traditional lodging units such as hotel and condo hotel.

Kaua'i's 2010 timeshare unit count decreased due to data corrections.²

² The number of units at the Kapa'a Shore was significantly overstated in 2009 due to respondent error.

Maui

The overall number of lodging units on Maui declined by 0.7 percent over 2009, with reductions for most categories of properties [Figure 12].

Significant changes to Maui's visitor plant inventory include the closing of the Happy Valley Hale Maui hostel and the opening of Marriott's Maui Ocean Club Nāpili and Lahaina Towers. The Sands of Kahana reported a decrease of 76 timeshare units for 2010, and Aston Whaler on Kā'anapali reported 30 fewer condo hotel units in its rental pool.

The majority of Maui's visitor units were in the Luxury and Deluxe price classes due to the high-end properties in the luxury regions of Wailea and Lahaina - Kā'anapali - Nāpili - Kapalua.

Figure 12

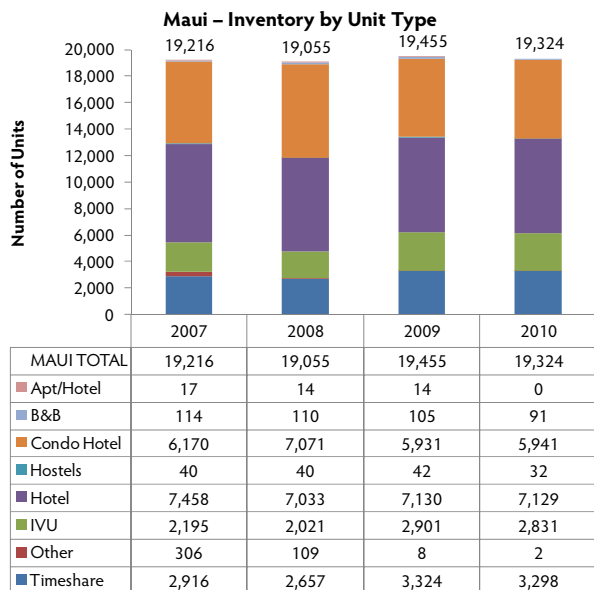

Figure 13

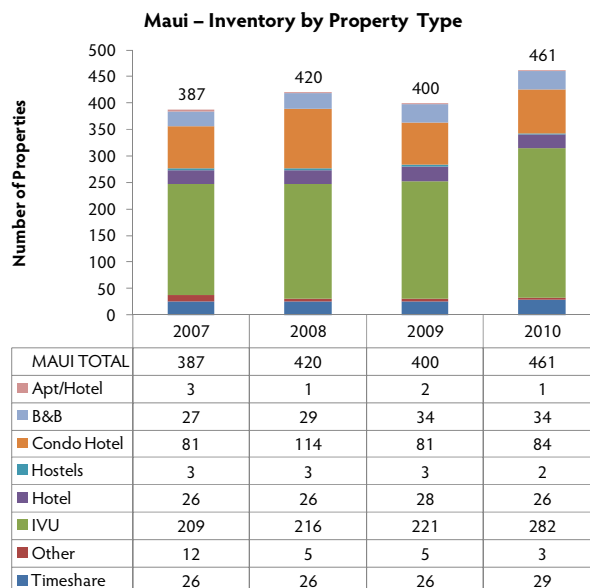

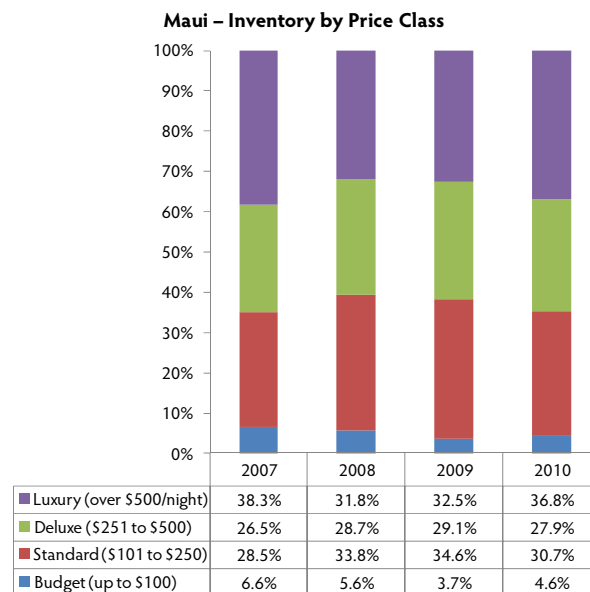

Figure 14

Moloka'i

The overall visitor unit count on Moloka'i went up by 14.3 percent over 2009 due to a significant increase in IVUs participating in the 2010 survey [Figure 15]. These units were likely in service in prior years.

The majority of units on Moloka'i fell within the Standard price class (65.8 percent) [Figure 17].

There were no apartment hotels or hostels on Moloka'i.

Figure 15

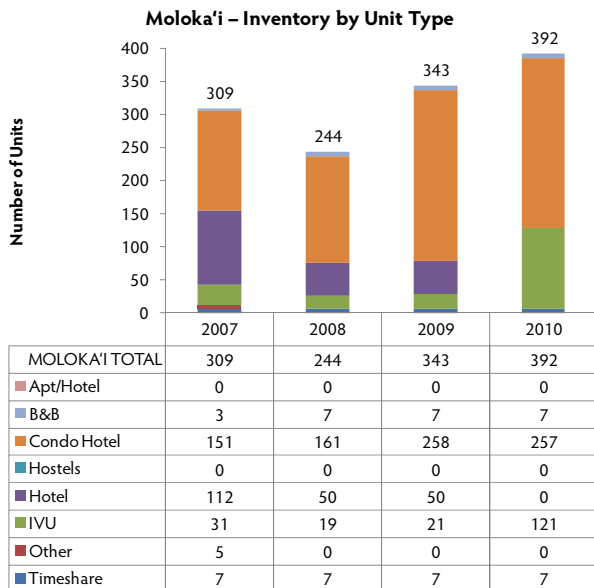

Figure 16

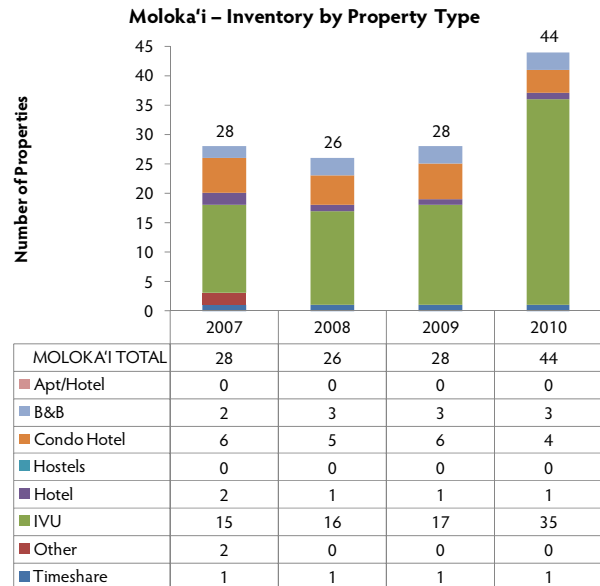

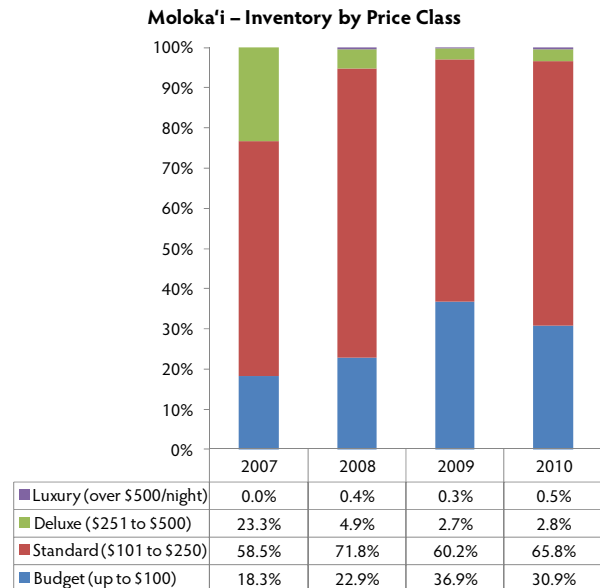

Figure 17

Lānaʻi

Lānaʻi's visitor unit count decreased slightly due to the closing of the Hale O Lānaʻi [Figure 18]. Hotels comprised the majority of Lānaʻi's lodging supply. All other property types totaled only 4 units. Lānaʻi was the only island where no timeshare units were reported. Nearly all of Lānaʻi's units fell within the Luxury and Deluxe price classes (96.0 percent) [Figure 20].

Figure 18

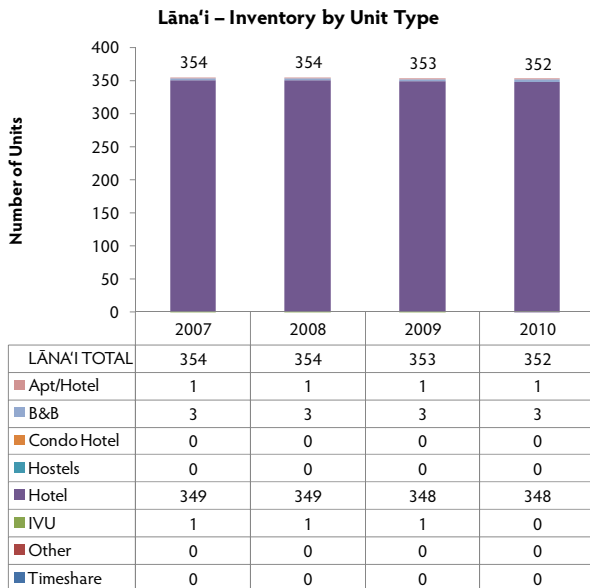

Figure 19

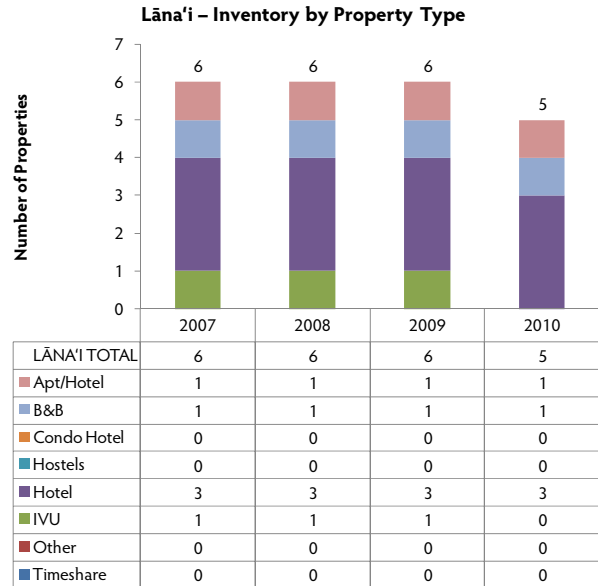

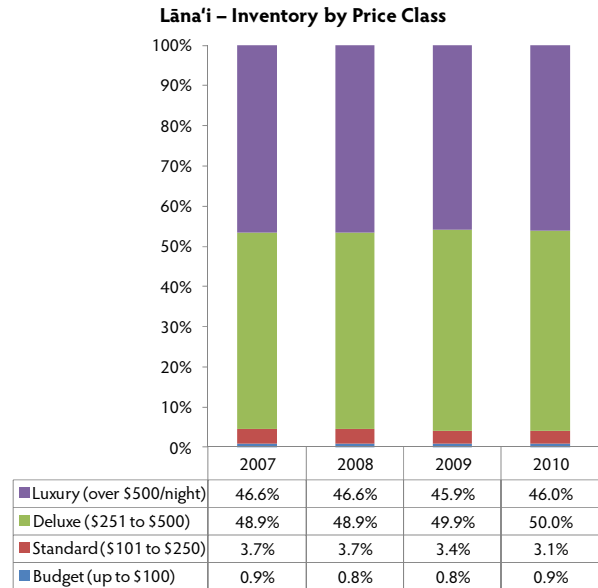

Figure 20

O'ahu

The number of properties on the island of O'ahu increased between 2009 and 2010, but O'ahu's visitor unit inventory was relatively unchanged in 2010 [Figure 21].

Significant changes to O'ahu's visitor supply include the addition of 462-room Trump International Waikiki, which opened in late 2009 and the closing of the 80-unit Celebrity Resorts White Sands and the 93-room Hawaiiana Hotel in fall 2009. Additionally, The Hawaiian Monarch reported a reduction of over 200 condo hotel rooms in its visitor pool as units were converted to long-term rentals. Aston Waikiki Sunset and Waikiki Marina Hotel also reported a 39-unit reduction and 42-unit reduction, respectively, from their rental pools.

The majority of O'ahu's lodging units were in the Standard and Deluxe price ranges [Figure 23].

Figure 21

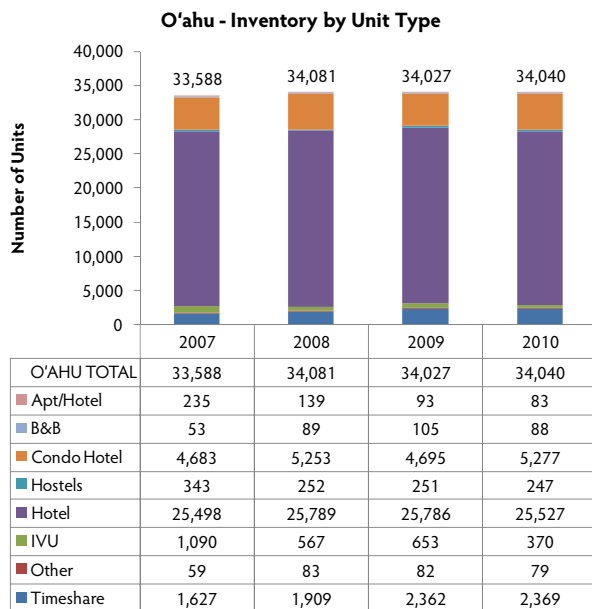

Figure 22

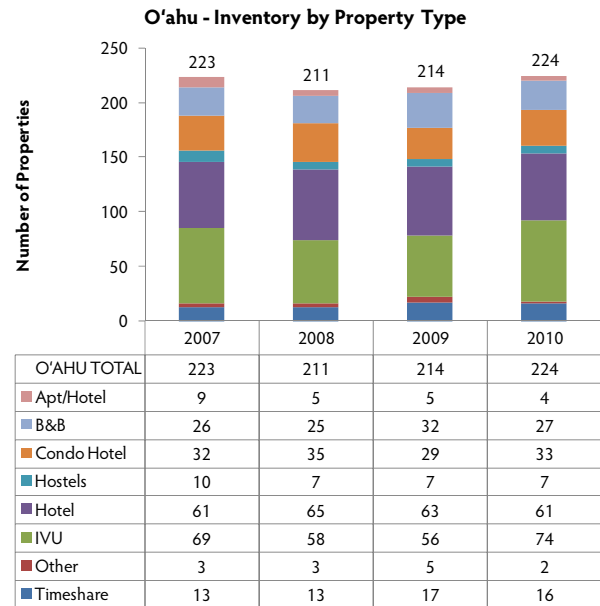

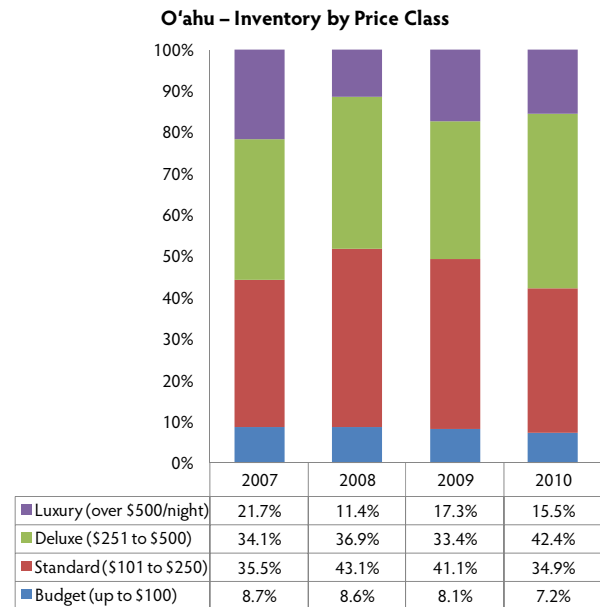

Figure 23

Inventory by Type

Hotels

The hotel room supply in the state has remained very stable over the past four years. In 2010, the unit inventory for hotels declined by only 0.6 percent statewide due to the transition of the Westin Princeville Ocean Resort and the Kaua'i Coast Resort at the Beachboy from a mix of timeshare and hotel units to timeshare-only properties. O'ahu has the majority of Hawai'i's hotel units (59.9 percent) [Figure 24].

Figure 24

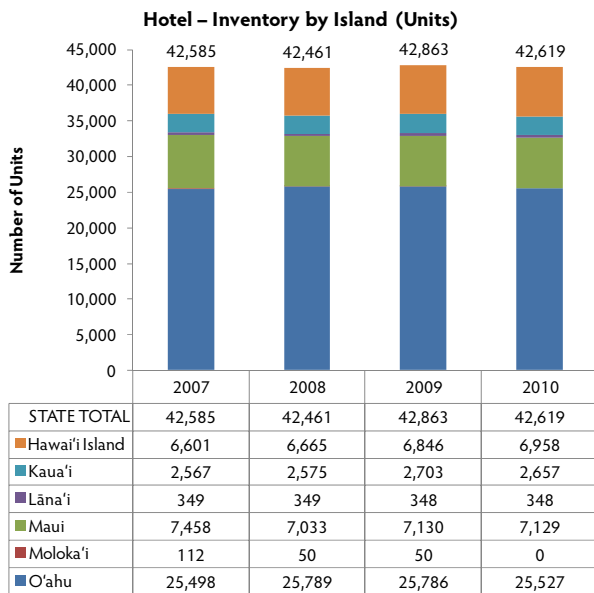

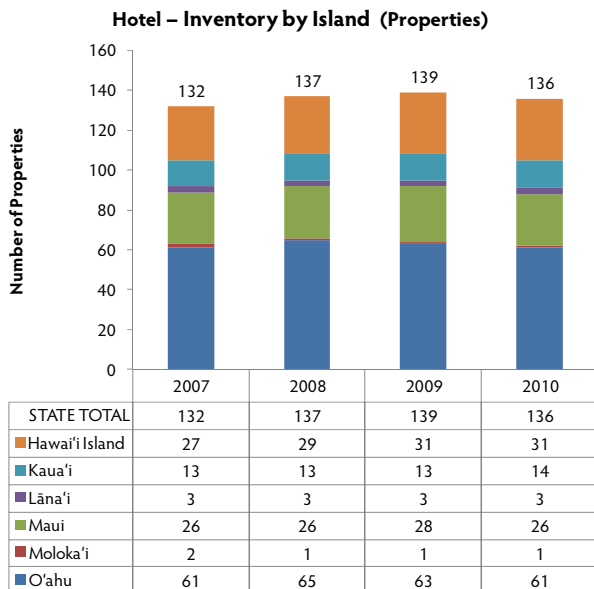

Figure 25

Condominium Hotels

In previous years, Hawai'i's condo hotel room supply has fluctuated [Figure 26], with variances largely attributable to unit reclassifications to IVU [see Methods and Procedures]. The majority of the state's condo hotel units were located on Maui (40.9 percent) [Figure 26].

Figure 26

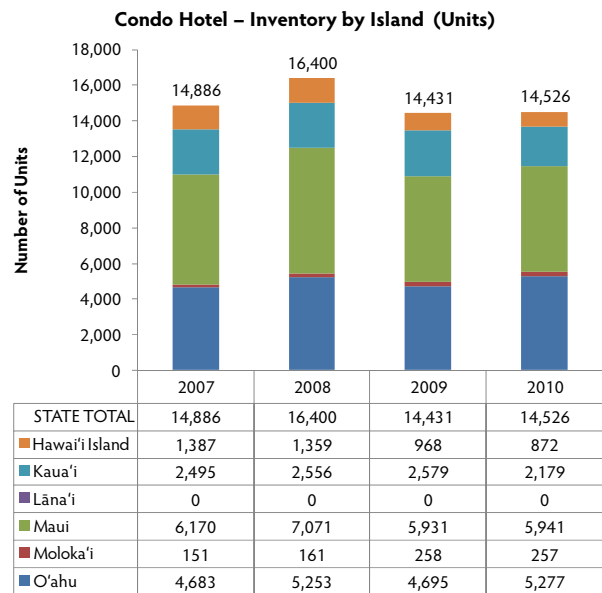

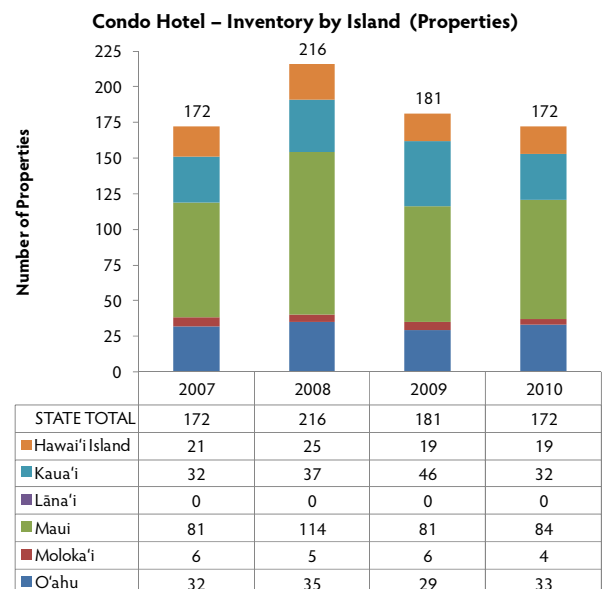

Figure 27

Timeshares

Marriott's Maui Ocean Club Nāpili was the one new timeshare property for the 2010 survey, and additional units were reported by Lahaina Towers and Hilton's King's Land. However, the overall number of statewide timeshare units has decreased by 1.3 percent since the 2009 survey due to data corrections.³ The island of Maui has the most timeshare units, and there are still no timeshare units on Lāna'i [Figure 28].

Figure 28

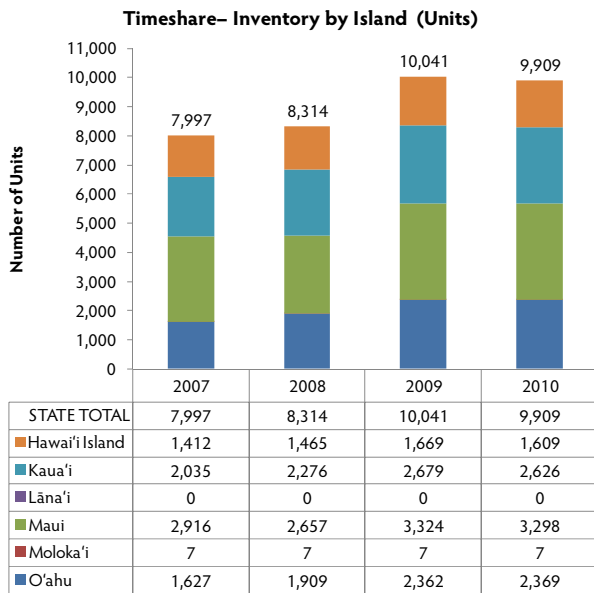

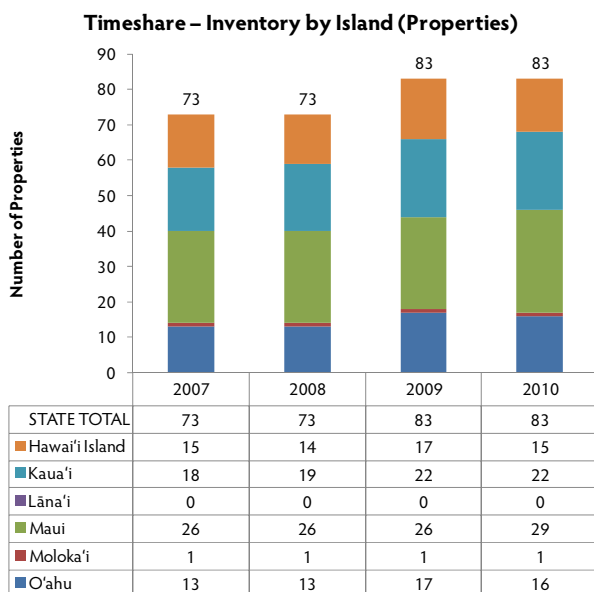

Figure 29

Individual Vacation Units

IVUs were once again the most prevalent property type throughout the state and IVUs often consisted of establishments with unit counts in the single digits. Overall, the number of IVUs continued to grow as more units were advertised over the internet and units previously classified as condo hotel were reclassified as IVU [Figure 30]. Kaua'i continues to have the most IVU properties [Figure 31].

Figure 30

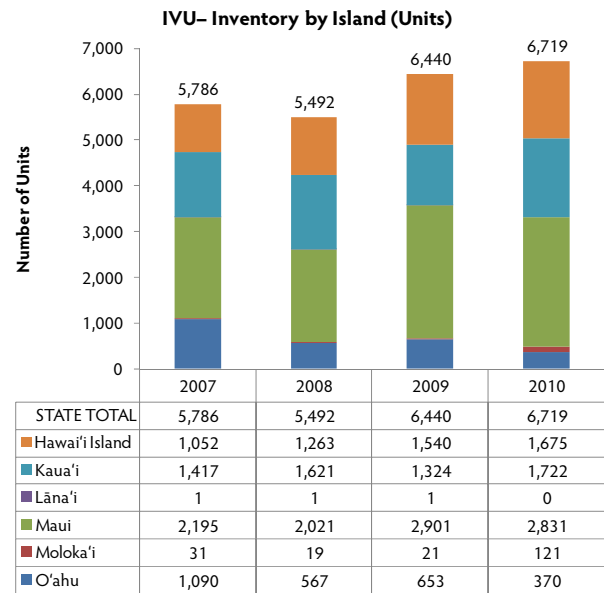

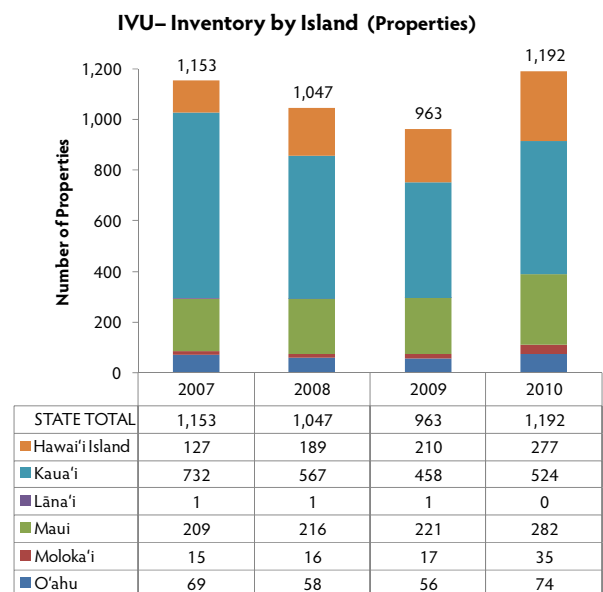

Figure 31

³ There were several timeshare properties for which more than one operator submitted surveys for the same units.

Bed & Breakfasts

While increasing in previous years, the number of bed & breakfast (“B&B”) units and properties recorded for 2010 slightly decreased (-9.7 percent and -5.0 percent, respectively), partly due to the enforcement of county licensing regulations and a slow recovery from the recent recession, which forced some B&B properties to close [Figure 32 and 33].

Figure 32

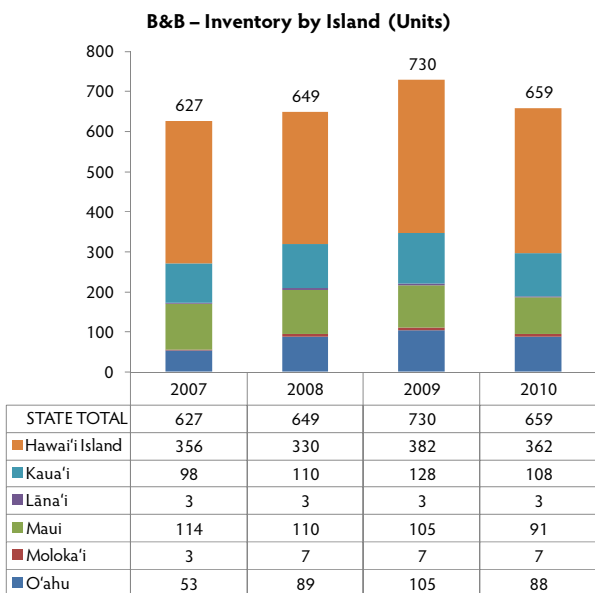

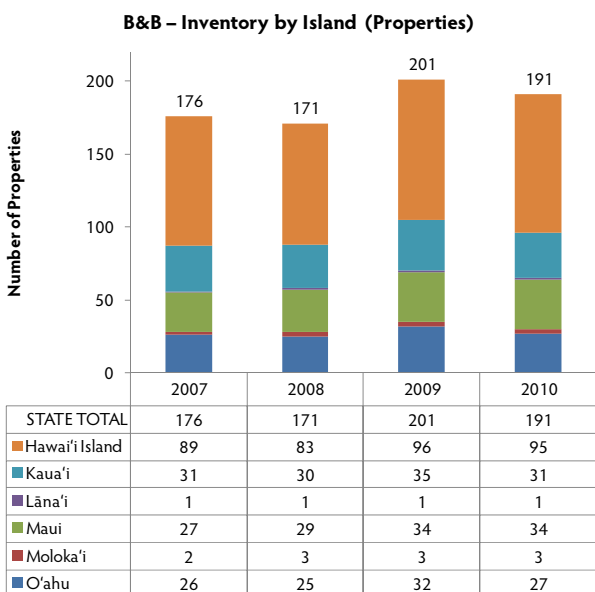

Figure 33

Apartment/Hotels

The overall number of apartment/hotel lodging units continued to decline, primarily due to reclassification of units to other category types such as IVU and an increasing number of units no longer available for transient rental [Figure 34]. Hawai'i Island and Maui saw the biggest changes in apartment/hotel inventory.

Figure 34

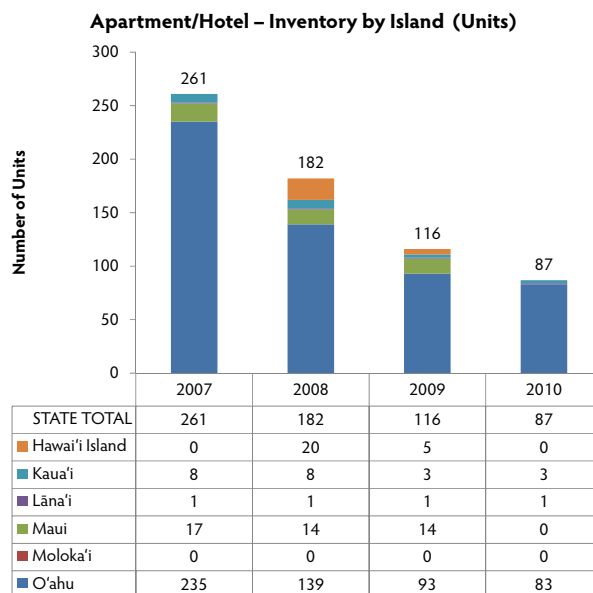

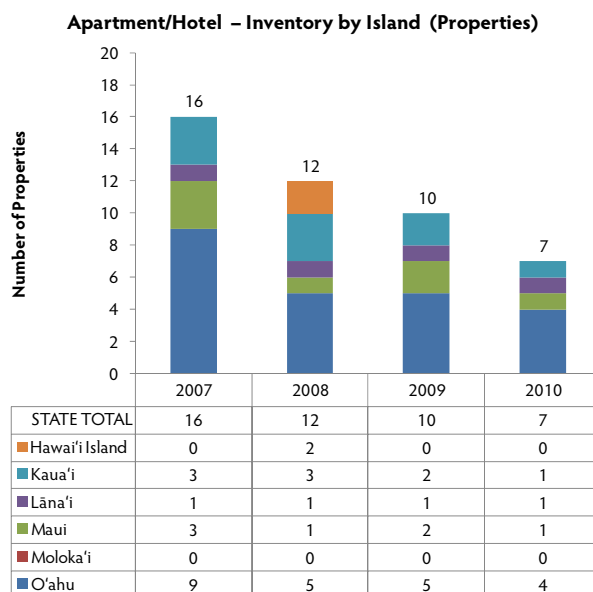

Figure 35

Hostels

In 2010, there were fewer than a dozen hostel properties in the state. One hostel closed on Maui, but the hostel supply has remained flat on other islands [Figure 37]. There were no hostel properties on Moloka'i and Lāna'i.

Figure 36

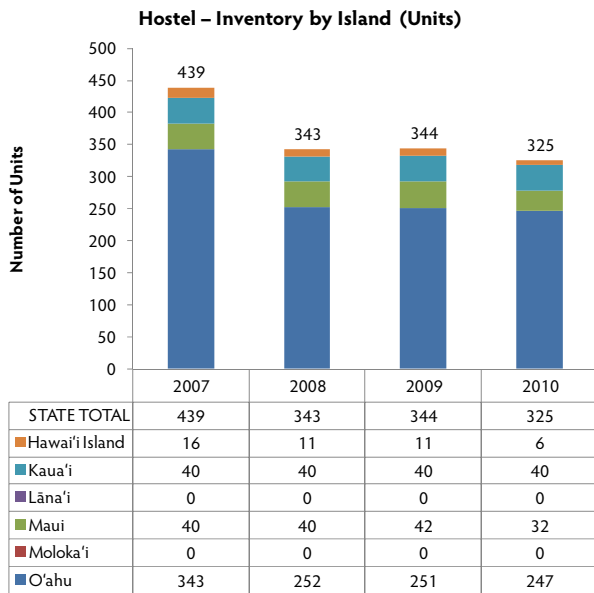

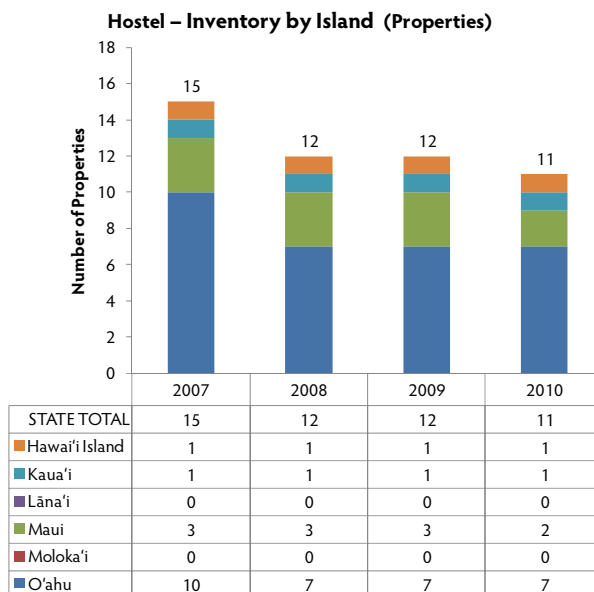

Figure 37

Other

The overall number of Other lodging units dropped by 8.5 percent in 2010 [Figure 38].

	Steps to the Beach Guesthouse	IVU	1	No longer a vacation rental.
The Tradewinds Estate	IVU	1	Temporarily closed. Plans to reopen.	

2010 VISITOR PLANT INVENTORY: LIST OF PROPERTIES

Explanation of Categories

- Island = Island on which the property is located
- Area = Area of the island where the property is located
- Name = Name of property
- Type = Unit Type
- Available Units = Number of units available for visitor use
- Change from 2009 = Difference in available units between 2010 and 2009 for entire property.
- Opened = Year property first opened

Class

- B Number of visitor units classified as Budget (Up to \$100 per night)
- S Number of visitor units classified as Standard (\$101 to \$250 per night)
- D Number of visitor units classified as Deluxe (\$251 to \$500 per night)
- L Number of visitor units classified as Luxury (Over \$500 per night)
- N/A Not available

Last Response

- 2010 Survey form received in 2010
- 2009 No response received in 2010, information received in 2009
- 2008 No response received in 2010, information received in 2008
- 2007 No response received in 2010, information received in 2007

Notes

- A - Visitor unit count estimated by AOA (for units managed by others)
- B - Visitor unit count estimated by Resident Manager/Property Manager (for units managed by others)
- C - Visitor unit count estimated by Operator (for units managed by others)
- D - Visitor unit count estimated by Owner (for units owned by other Owners)
- E - Visitor unit count estimated by county tax departments
- F - Visitor unit count is for beds, not rooms, for Hostel property
- G - The property's reporting method changed from 2009
- H - Selected units closed for renovation (balance of the property open for business)
- I - Units reopened after renovation
- J - Added units (new construction)
- K - Survey responses indicate additional units available for transient rental
- L - Survey responses indicate units no longer available for transient rental

METHODS AND PROCEDURES

The 2010 Visitor Plant Inventory presents the results of HTA's enumeration of visitor accommodations in Hawai'i. Existing visitor accommodations as of May 1, 2010 as well as planned developments and additions to existing developments were catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations was gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report.

Survey forms were distributed to all properties that participated in the prior year's survey and additional properties identified through the association survey (below) and internet research. Over 1,600 properties were identified as part of a detailed web search using pertinent key word phrases, such as "Vacation Units In Hawaii," "Hawaii B&B," "Hawaii Hostels," etc. Information for hotel and condominium hotel properties that participate in Smith Travel Research's monthly survey were also cross-verified against Smith Travel Research's property database. Survey forms were distributed via mail, email, and fax.

If no response was received, follow-up telephone calls, emails, and/or faxes were made to the property to remind them to complete and return the form. Subsequently, if no response was received after the follow-ups, an Internet search was conducted to determine if the property was still in business and telephone calls were made to verify unit counts and types. If no response was received or no data was found on the Internet, but information was available from prior years (2007, 2008, and

2009), that information was included and so noted. If no response was received from a property and information was available from the association survey, such information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

Association Survey: Continued in 2010, this survey's purpose was to gather contact information of associations whose members were transient visitor accommodations in the State of Hawai'i. Letters were sent to these associations to request member accommodation contact information, from which the mailing list was updated and new accommodations were contacted via mailing as described above.

Timeshare Properties: Information on timeshare properties were gathered through the survey questionnaire, which asked for information on the number of units *registered* as timeshare and units *operated* as timeshare. The number of units registered included those that were available for sale in a timeshare program (as well as those already sold in such a program). The number of units operated represented the units that were in use. Certain timeshare properties have the ability to split a given registered timeshare unit into more than one operated visitor unit (i.e. it may be possible for a two-bedroom unit to be rented as two keys: one studio unit and one 1-bedroom unit).

For 2010, the listing of timeshare inventory presented in Table 8 has been re-stated with registered units representing the number of units that were available to be sold as part of a timeshare program and operated units were defined as number of salable keys that were operated for visitor use. In some cases, the number of operating units exceed the number

of registered units for a given timeshare property.

The available timeshare units listed in Tables 3 and 5 and their related charts were the total number of operated units. The number of timeshare properties listed in Tables 2 and 4 were the properties with the majority of units classified as timeshare. However, the number of available units listed with the timeshare category included those units that were cross-listed under the other property types. The 2010 Current Visitor Plant Inventory details the unit types available at each property.

For 2010, certain timeshare operators reported their inventory counts in terms of individual guest rooms (keys) rather than timeshare units previously reported. For example, a two-bedroom timeshare unit may, depending configuration, be rented separately as two guest rooms: a one-bedroom unit and as a studio unit. This change in reporting procedure resulted in a higher inventory count for certain timeshare properties, but did not necessarily reflect a change in the physical plant.

Cross Verification of Data: Responses from selected hotels, condominium hotels, and timeshare properties were cross verified against Smith Travel Research's property database and data from the American Resort Development Association.

Unit Type Classification: Each unit reported in the survey was assigned a unit type based on HTA's type definitions [page 83]. For the purposes of classification, a given property may include more than one unit type. Historically, type classifications were self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions. In such cases, the unit type was corrected for the 2010 VPI report.

Notably, many respondents classified their units as condominium hotel due to the units' location within a condominium building, but did not have the services or amenities included in HTA's definition for a condominium hotel. These units were reclassified as individual vacation units.

Property Type Classification: Classification of property type (Tables 2 & 4) for properties with more than one unit type was determined by the majority of units on that property. Historically property type was self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions [page 83].

Planned New Developments: Information about planned new developments was gathered with assistance from the four county Planning Offices. The information was reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That was to say, these developments were a step beyond the preliminary stages of development and have some "official" standing as planned developments.

DEFINITIONS

Type of Units

An individual property may include more than one type of unit. If a property has more than one unit type, the majority unit type was used to determine the property type for the purposes of this report. Units were categorized as follows:

Apartment / Hotel (Apt/Hotel): Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.

Bed & Breakfast (B&B): A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns, or family homes.

Condominium Hotel (Condo Hotel): A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.

Hotel: A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.

Hostels: An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.

Individual Vacation Unit (IVU): An individual vacation unit can be classified as an IVU-condominium unit (not in a hotel rental operation), and IVU-house, villa, or cottage with very limited service, often with only basic cleaning supplies provided, or an IVU-cabin unit. They can also be reported as unclassified and are listed as an individual vacation unit.

Timeshare: A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, bed and breakfast, individual vacation home etc. for a specific period of time on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).

The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.

Other: Includes residential condominium units, timeshare units, motels, lodges, inns, or any other form of property not included in the above definitions.

Class of Units

The Visitor Plant Inventory survey also included questions about the class of units at each property. The subsequent tables show the percent of each class of units available by island. Units were classified as follows:

Class	Price Range (Rack Rate)
Budget	Up to \$100 per night
Standard	\$101 to \$250 per night
Deluxe	\$251 to \$500 per night
Luxury	Over \$500 per night

APPENDIX: SURVEY FORMS

New Participant Survey Form

The Hawai'i Tourism Authority is updating the State of Hawai'i annual Visitor Plant Inventory, the official census of visitor accommodations in the state. All information should be correct as of **May 1, 2010**. Definitions for each property type are listed on the Property Type Definition Sheet. Please sign the form and return it to Hospitality Advisors LLC by fax to (808) 550-8655 or email to survey@hospitalityadvisors.com. For further information or clarification, please contact Hospitality Advisors at (808) 550-8955. *Mahalo for your cooperation.*

Definition Sheet

VISITOR PLANT INVENTORY SURVEY DEFINITION SHEET

<i>Apartment / Hotel</i>	Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed & Breakfast (B&B)</i>	A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostel</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Timeshare</i>	<p>A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, apartment/hotel, bed and breakfast, individual vacation home etc. for a specific period of time and on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).</p> <p>The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.</p>
<i>Other</i>	Includes motels, lodges, inns, or any other form of property not included in the above definitions.
<i>Owner-Occupied</i>	Units not available for transient visitor use (30 days or less).
