Changes to 2007 Visitor Satisfaction Survey

In 2007, several changes had been made to the Visitor Satisfaction Survey form (see Section 9 for the list of changes). Response categories that were added to question 9 in entertainment, shopping and cultural activities caused visitor activity participation in these categories to be higher than previous years.

1. INTRODUCTION

INTRODUCTION

Background

The Visitor Satisfaction Survey was initiated by the Hawai'i Visitors and Convention Bureau (HVCB, formerly known as the Hawai'i Visitors Bureau) in the 1950s. The survey has been conducted intermittently since that time and reports were published by HVCB for 1961, 1969-1977, 1984-1992, 1996 and 1998, focusing on visitors from the U.S. and Japan. In January 1999 the Legislature transferred the responsibility for visitor-related research projects from HVCB to the Department of Business, Economic Development and Tourism (DBEDT). DBEDT began conducting the Visitor Satisfaction survey in 2001. In 2002, DBEDT expanded the study to include Canadian and European visitors.

The survey measures satisfaction levels for different components of the visitor experience (accommodations, attractions, dining, shopping, etc.) and also provides data on what activities visitors engaged in during their vacation. In this report, DBEDT presents results from the 2007 Visitor Satisfaction Survey. Results from this and past Visitor Satisfaction Surveys, as well as, other visitor research publications are available on the DBEDT website: <http://hawaii.gov/dbedt/info/visitor-stats>.

Objectives

There are three main objectives of this report. The first objective is to present measurements of survey respondents' satisfaction with Hawai'i as a visitor destination, specifically visitors from the top five major market areas, U.S. West, U.S. East, Japan, Canada and Europe. This report attempts to portray the visitor's overall evaluation of the vacation experience covering various aspects of their trip to the islands for the island that they stayed the longest. These visitors were queried about their experiences with Hawai'i's accommodations, restaurants, airports, parks, beaches and attractions, as well as their engagement in activities such as sightseeing, shopping, transportation, cultural, entertainment and sports and fitness. It is hoped that this feedback will help Hawai'i's businesses take proactive measures in promotion, maintenance and improvement in these essential areas. Sectors of industries may also use these data to assess their performance. The change to present detailed satisfaction information by island was made to improve feedback to Hawai'i's visitor industry.

The second objective is to provide some insight into the destination selection and trip planning process taken by these visitors. The data show that visitors employ a variety of sources to plan, select and book a trip to the Hawaiian Islands. In particular, the data allows a closer look at the impact of the Internet and travel agents on the selection process, as well as the timetable involved in trip planning and booking.

The final objective is to analyze demographic information on visitors who responded to the study. This level of detail is not available from the DBEDT annual and monthly visitor reports. Information is provided on the average visitor's income level, employment status and education level. Furthermore, visitors are classified into lifestyle or lifestage segments as well as first-time or repeat visitors to highlight the different types of travelers to the Hawaiian Islands. Information on their purpose of trip and their travel companions helps to complete the picture of the Hawai'i visitors.

Condition of Visitor Industry

In the twelve months of 2007, total visitor days by air and cruise visitors grew .3 percent to 70.1 million days. A total of 7,627,819 visitors arrived by air or by cruise ships, virtually unchanged from 2006. The combined length of stay by these visitors was 9.19 days, similar to 2006. Arrivals by air declined slightly (-.4%) to 7,496,820 visitors as strong growth from Canada (+18.7%) and Oceania (+20.9%) and modest increases from U.S. West (+.8%), Other Asia (+3%), Europe (+1.9%) and Latin America (+4.9%) were offset by decline in arrivals from U.S. East (-2.7%), Japan (-4.9%), and other markets (-7.5%).

2. OVERALL TRENDS

OVERALL TRENDS

Visitor Satisfaction Ratings

Visitor satisfaction is an important indicator of industry performance. This measure provides vital feedback on how well services are delivered and how well the industry meets expectations. High satisfaction is also a leading-indicator of customer retention and loyalty. Satisfying visitors’ needs and expectations encourages return trips to Hawai‘i. Satisfied customers also develop a fondness for the destination which results in a higher likelihood to recommend Hawai‘i to others.

Overall Rating of Most Recent Vacation to Hawai‘i

Visitors continued to give high marks for their overall experience in Hawai‘i. The majority of visitors rated their most recent trip to Hawai‘i as *excellent*. Interestingly, this indicator of visitor satisfaction demonstrated a seasonal pattern, with typically the first quarter reported the lowest rating for each year. In general, more than half of visitors from any MMA continued to rate their most recent trip to Hawai‘i as *excellent* (see Figure 1).

**Figure 1: Overall Rating of Trip
[Percentage of visitors who rated most recent trip “Excellent” by MMA]**

- The proportion of U.S. West and Canadian visitors who rated their most recent trip to Hawai'i as *excellent* in the first quarter of 2007 was higher than the first quarter of 2005 and 2006 (Figure 1).
- 2007 first quarter ratings were higher among U.S. East (+10 percentage points to 72.2%) and European (+16.4 percentage points to 70.2%) visitors than the first quarter of the previous year.
- 2007 second quarter ratings among U.S. West and Canadian visitors were moderately higher than 2005 and 2006 second quarter ratings.
- Canadians also gave higher ratings in the third quarter of 2007 (68.3%) than the same quarter of 2005 (66%) and 2006 (62.3%).
- Fourth quarter 2007 U.S. East, Japan and Europe visitor ratings were similar to the ratings of the same time last year.
- Half (50.4%) of Japanese visitors in the fourth quarter of 2007 rated their trip to Hawai'i as *excellent*. The Japanese rating has remained consistent compared to the fourth quarter of 2005 (50.8%) and 2006 (50.3%), with no significant change over the past four years. Japanese ratings continued to exhibit seasonal variations.
- U.S. West visitors rated the fourth quarter of 2007 (59.8%) lower than the previous year (66.7%).
- Ratings from Canadian visitors were lower in the fourth quarter of 2007 (58.5%) than in the fourth quarter of 2006 (69.8%).

Exceeded Expectations

The visitors' evaluation of the trip is influenced not only by the attributes and characteristics of the service but also by the needs, motivations and interests of the visitors. Therefore, it is important to measure how well the destination was able to provide the experience that was expected. Similar to the overall ratings, the ability to *exceed expectations* exhibits a seasonal pattern, with the first quarter lower than other times of the year. In 2007, less U.S. West, Canadian and European visitors felt that their trip *exceeded expectations* in fourth quarter compared the other quarters in the same year. However, in almost every MMA, except Japan, more visitors in the first quarter of 2007 felt that their trip *exceeded expectations* compared to the first quarter of 2005 and 2006. Overall, Hawai'i's ability to *exceed expectations* continues to be quite strong (see Figure 2).

Figure 2: Trip Exceeds Expectations
[Percentage of visitors who said this trip “Exceeded Expectations” by MMA]

- The proportion of Canadian (40%) and European (44.4%) visitors that felt that their trip *exceeded expectations* in the first quarter of 2007 improved from the same period in 2005 and 2006.
- There were moderate improvements from U.S. West ratings in the first quarter of 2007 (31.1%) compared to first quarter of 2005 (28.2%) and 2006 (27%).
- In the first quarter of 2007, two out of five U.S. East (39.9%) felt that Hawai‘i exceeded their expectations as a vacation destination. This was an increase over the first quarter of 2006, when only one-third (32.6%) gave Hawai‘i a high rating.
- Europe second quarter ratings in 2007(46.5%) were only moderately higher while Canada ratings (53.3%) were noticeably higher than the same quarter in 2005 and 2006.
- Third quarter 2007 ratings by U.S. West (38.7%) and Canadian (44.7%) visitors were higher than third quarter ratings in 2005 and 2006.
- Despite low fourth quarter ratings from U.S. West (28.6%), Canadian (32.6%) and European (41.6%) visitors in 2007, ratings from all five MMA reported similar marks for the fourth quarter of 2007 compared to the same period in 2005 and 2006.

Likelihood to Recommend Hawai'i

When visitors are highly satisfied with their trip they will be more likely to recommend the destination to friends and family. Many Hawai'i visitors reported to be *very likely to recommend* this destination to others. Word-of-mouth advertising is important in marketing Hawai'i. These referrals develop more first-time visitors to Hawai'i and encourage previous visitors to return.

Figure 3: Very Likely to Recommend Hawai'i to Friends and Relatives
[Percentage of visitors who are "Very Likely" to recommend Hawai'i as a vacation place by MMA]

- From the first through the fourth quarter of 2007, the majority of U.S. West, U.S. East and Canadian visitors were *very likely to recommend* Hawai'i as a vacation place to their friends and relatives.
- Ratings by U.S. East (90.6%, +5.7 percentage points), U.S. West (90.5%, +5.7 percentage points), Canadian (90%, +9.1 percentage points) and European (81.1%, +9.7 percentage points) visitors in the first quarter of 2007 were higher than the first quarter in the previous year.
- Second quarter 2007 ratings moderately improved from Canada (90.2%) and Europe (81.4%) compared to the same period in 2005 and 2006.
- Third quarter 2007 ratings across all five MMAs were similar to the same period in 2005 and 2006.
- The proportion of visitors from all five MMAs who were willing to recommend Hawai'i was fairly similar between the fourth quarter of 2007 and 2006.

Likelihood to Revisit Hawai'i

A visitor's decision to return to Hawai'i is influenced by positive experiences on the most recent trip and other factors such as curiosity for new experiences, available time, financial situation, and other commitments. Likelihood to revisit Hawai'i, as an indicator, helps to estimate future demand and changes in desires. Visitors appeared to be satisfied with their vacations and their sentiments toward returning in the near future seemed positive. The percentage of visitors who were *very likely to revisit to Hawai'i in the next five years* remained at a consistent level for most MMA, except Canada, and was not affected by seasonal variations (see Figure 4).

Figure 4: Very Likely to Revisit Hawai'i
[Percentage of visitors who are "Very Likely" to revisit Hawai'i in the next five years by MMA]

- U.S. West visitors continued to be the group most likely to return in the next five years.
- Typically, U.S. East visitors who came in the first quarter of each year were usually more likely to revisit than U.S. East visitors who came at other times. In 2007 (56.5%), the ratings improved from 2005 (51.1%) and 2006 (53.9%) first quarter ratings.
- Due to varied factors such as distance and the desire to take advantage of favorable exchange rates to explore new places, fewer Europeans were *very likely to revisit to Hawai'i in the next five years*.
- In the first quarter of 2007, U.S. West visitors (80.1%) were more likely to return compared to the same quarter a year ago (73.7%).

- For the second quarter of 2007, the proportion of U.S. West (72.9%), U.S. East (45.8%), Japanese (46.2%) and European (32%) visitors who were *very likely to revisit Hawai'i in the next five years* was lower, though not significantly, than the same period in 2006 (see Figure 4).
- Fewer U.S. West (71.8%), Japanese (49%), and European (31.8%) visitors in the third quarter of 2007 were *very likely to revisit* than in the same period in 2006.
- Typically, the likelihood of Canadian visitors revisiting Hawai'i exhibits a seasonal trend where the third quarter of each year yields lower ratings than the rest of the year. However, 2007 third quarter ratings (46.6%) were higher than the same period in 2005 (41.3%) and 2006 (41.4%).
- The likelihood of Japanese (43.2%) and Canadian (53.1%) visitors revisiting Hawai'i in the next five years in the fourth quarter of 2007 was fairly down from the same period in 2006.
- Fourth quarter ratings from U.S. East visitors (48.8%) increased compared to fourth quarter ratings of 2006 (44.9%).

Not Likely to Revisit Hawai'i

The percentage of respondents who answered that they were *“Not too likely” or “Not at all likely” to visit Hawai'i in the next five years* is fairly low among U.S. West, and Japan visitors and slightly higher for U.S. East and Canadian visitors. European respondents have the highest percentage of those who will not revisit the islands in the next five years (see Figure 5).

4. EXPERIENCE AND WILLINGNESS
TO RECOMMEND OR REVISIT

Overall Rating of Most Recent Vacation to Hawai'i (Tables 4.1 to 4.2)

Visitors continued to give high marks for their overall experience in Hawai'i. The majority of visitors rated their most recent trip to Hawai'i as *excellent* and there has been very little fluctuation year-over-year.

- In 2007, more than two-thirds (68.3%) of U.S visitors found their most recent trip *excellent*. The rating improved slightly (+1.7 percentage points) compared to the previous year and is comparable to 2004 rating (68.2%).
- U.S. West visitors (66.7%) tended to rate Hawai'i lower than their U.S. East counterparts (71%). In 2007, U.S. West visitors' overall rating increased by 2.1 percentage points from 2006.
- Half (50.9%) of Japanese visitors found Hawai'i *excellent* in 2007. This rating has remained fairly consistent over the past five years.
- The proportion of Canadian visitors who rated their most recent trip *excellent*, reached its highest rating of 67.3 percent.
- Seven out of ten (69.7%) European visitors rated Hawai'i *excellent* in 2007. This rating was 3.7 percentage points higher than the previous year and similar to 2005 ratings.

**Figure 8: Overall Rating of Trip
[Percentage of visitors who rated most recent trip "Excellent" by MMA]**

Expectations (Tables 4.5 to 4.6)

Few visitors (less than six percent) felt Hawai'i did not meet their expectations at all. Overall, this indicator showed that Hawai'i's ability to *exceed expectations* is quite strong. Even though the satisfaction ratings may be good, expectations were also set high because many visitors had been to Hawai'i before and know what to expect. Therefore another indicator of a high quality experience would be how well Hawai'i exceeded visitor expectations.

- U.S. East (41.9%) and European (43.5%) visitors rated Hawai'i the highest for exceeding their expectations. Ratings had increased from forty percent in 2006, but it is still within the survey's margin of error.
- Approximately a third of Japanese continued to find their experiences exceed their expectations.
- Canadian visitor ratings jumped 6.5 percentage points to a high of 40.6 percent in 2007.
- Over the past few years, Hawai'i found it easy to satisfy but difficult to exceed the expectations of U.S. West visitors (33.5%).

Figure 9: Trip Exceeds Expectations
[Percentage of visitors who said this trip "Exceeded Expectations" by MMA]

Overall Satisfaction/Dissatisfaction

Taking into account all the facets of satisfaction helps to give us a better picture of the overall opinions of our visitors. This index of overall satisfaction is the average ratings of *excellent* for overall vacation, *exceeded* for trip expectations, *very likely* for likelihood to recommend Hawai'i and *very likely* for likelihood to revisit, detailed in later sections.

- After the slight decline of 3.2 percentage points in overall satisfaction from 2002 to 2005, ratings from U.S. visitors improved one percentage point from 2006 ratings.
- Although overall satisfaction from the Japan decreased 1.6 percentage points from 2006, it was within the survey's margin of error.
- Canadian visitors' overall satisfaction showed gain (+4 percentage points) in 2007 after stable ratings over the previous five years.
- European visitors' overall satisfaction increased 2.6 percentage points from 2006.

Figure 10: Overall Satisfaction [Percentage of Visitors by MMA]

The percentages of visitors dissatisfied with the islands remained quite low. This index of overall dissatisfaction is the average ratings of *below average* and *poor* for overall vacation, *did not meet* for trip expectations, *not too likely* and *not at all likely* for likelihood to recommend Hawai'i and *not too likely* and *not at all likely* for likelihood to revisit.

- European visitors showed another year of higher overall dissatisfaction than other markets, mainly due to not being likely to return in the near future (see Figure 16, page 88). Overall dissatisfaction from U.S. West, U.S. East and Canadian respondents were relatively similar to previous years.

Figure 11: Overall Dissatisfaction [Percentage of Visitors by MMA]

Likelihood to Recommend Hawai'i (Tables 4.7 to 4.8)

- The likelihood to recommend Hawai'i to others has remained relatively stable over the past six years among the top five visitor markets.
- Even though slightly lower than other marketing areas, at least two-thirds of Japanese visitors were consistently *very likely to recommend Hawai'i* over the past six years.
- In 2007, more Canadian visitors (+4.1 percentage points) were *very likely to recommend Hawai'i* than previous years.

Figure 12: Very Likely to Recommend Hawai'i to Friends and Relatives
 [Percentage of visitors who are "Very Likely" to recommend Hawai'i as a vacation place by MMA]

Likelihood to Revisit Hawai'i (Tables 4.9 to 4.10)

- Visitors appear to be satisfied with their vacations and their sentiments toward returning in the near future appear stable. Figure 13, shows that the percentage of visitors who were *very likely to return to Hawai'i in the next five years* has been similar to previous years. The majority of U.S. West visitors were *very likely to visit Hawai'i in the next five years* but a rating of 74.9 percent was lower than the high of 79.5 percent in 2002.
- Similar to the previous year, half (49.9%) of U.S. East visitors were *very likely to return*.
- The proportion of Japanese visitors who were *very likely to return* was at a low 46.1 percent compared to previous years since 2002.
- Canada, like U.S. East, showed no significant change from the year before.

Figure 13: Very Likely to Revisit Hawai'i
 [Percentage of visitors who are "Very Likely" to revisit Hawai'i in the next five years by MMA]

Since likelihood to revisit is also highly correlated with visitation status (first-time or repeat visitor) and the ratio of first-time to repeat visitors varies across MMA, a fitting representation is to analyze the first-time and repeat visitors separately.

- More than one-third (35.3%) of first-time visitors from U.S. East but less than a quarter (24.4%) from Japan were *very likely to return in the next five years* compared to over half of U.S. West visitors.
- 2007 saw a moderate increase (+2.7 percentage points from 2006) of first-time visitors from the U.S. West who were *very likely to revisit Hawai'i* than in previous years. This was the first increase in the ratings in 2002 through 2006.
- The intention of Canadian first-time visitors to return to Hawai'i fell significantly from 42.2 percent in 2005 to 32.7 percent in 2007.

Figure 14: First-Time Very Likely to Revisit Hawai'i
 [Percentage of first-time visitors who are "Very Likely" to revisit Hawai'i in the next five years by MMA]

- Repeat visitors from U.S. West and U.S. East were equally *very likely* to revisit compared to 2006.
- Japanese and European repeat visitors decreased (-2.7 and -3.6 percentage points) over the previous year but the ratings were within the survey’s margin of error.
- Canadian repeat visitors, though only slightly higher than 2006, showed significant increases (+8.3 percentage points) from 2005.

Figure 15: Repeat Very Likely to Revisit Hawai‘i
 [Percentage of repeat visitors who are “Very Likely” to revisit Hawai‘i in the next five years by MMA]

Figure 16, shows that the percentage of respondents who answered that they were *not at all likely or not too likely to return to Hawai'i in the next five years* was fairly low among U.S. West, and Japan visitors and slightly higher for U.S. East and Canadian visitors. European respondents had the highest percentage of those who will not revisit the islands in the next five years.

Figure 16: Not Likely to Revisit Hawai'i
[Percentage of visitors who are "Not too likely" or "Not at all likely" to visit Hawai'i in the next five years" by MMA]

Reasons for Not Revisiting Hawai'i (Tables 4.13 to 4.15)

Many of the visitors not planning to return in the next five years tell us that it is because they want to go someplace else, see Figures 17 and 18.

- Over the past three years nearly half of U.S. visitors who do not plan to return, would rather visit a new destination. In 2007, the percentage has reached a high of 52.4 percent (or 1.2% of all U.S. visitors) compared to 2002 through 2006 (Figure 17).
- A quarter (24.9% or .6% of all U.S. visitors) of U.S. visitors also thought Hawai'i did not offer enough value for the price.
- More than half of Japanese visitors felt they needed to go someplace else (58.5% or 1.1% of all Japanese visitors in 2007) (see Figure 18).
- In contrast, although few Japan visitors considered their Hawai'i trip to be unreasonable in value (11% or .2% of all Japanese visitors), more felt that Hawai'i was not enough value compared to two years ago (6.9% or .1% of all Japanese visitors).

Individual Island Experience (Tables 4.3 to 4.4)

In general the majority of visitors felt that the islands they visited were *excellent*. However, the sentiment towards each island does vary by major market area.

- For 2007, Kaua'i was the favored destination of all MMA except Japan.
- Among U.S. visitors, a visit to Maui and Kaua'i is more likely to result in an *excellent* experience than O'ahu and Hawai'i Island.
- Maui's *excellent* ratings of 68.1 percent in 2007 was one percentage point lower than in 2006.
- *Excellent* ratings by U.S. visitors increased substantially for Hawai'i Island (+9.2 percentage points) and Kaua'i (+5.5 percentage points) compared to 2006 while O'ahu (+2.7 percentage points) showed moderate improvements.

Figure 19: Island Experience Rated as Excellent – U.S. [Percentage of visitors by Island]

- Overall, the Japan market did not rate Kaua'i as highly as the other islands. However, a higher percentage of Japanese visitors rated Kaua'i as *excellent* in 2007 (48%) compared to 2006 (42%).
- O'ahu slightly decreased its standing to 51.1 percent while Maui (54%) experienced slight increases in *excellent* ratings.
- Japanese visitors' experience on Hawai'i Island (56.6%) improved 7.5 percentage points compared to 2006.
- From 2003 through 2007, Japanese visitors ratings for O'ahu exhibited a decline of four percentage points.
- Hawai'i Island had improved its *excellent* ratings 10 percentage points since the large drop in 2005 (46.6%).

Figure 20: Island Experience Rated as Excellent – Japan [Percentage of visitors by Island]

- Canadian visitors found that Kaua'i (69.7%) and Maui (62.4%) were more likely to offer an *excellent* experience (see Figure 21).
- After three consecutive years (2003 to 2006) of declines in O'ahu and Kaua'i *excellent* ratings, both islands significantly improved in their ratings in 2007 (+6 and +6.7 percentage points respectively).
- In addition, the proportion of Canadian visitors who rated their experience *excellent* on Hawai'i Island substantially increased 12.5 percentage points compared to 2006.
- On the other hand, Maui has decreased 6.6 percentage points since 2004.

Figure 21: Island Experience Rated as Excellent – Canada
 [Percentage of visitors by Island]

- Ratings among European visitors moderately improved on O'ahu, Maui and Kaua'i in 2007 compared to the previous year while Hawai'i Island showed significant improvements (Figure 22).
- Kaua'i showed a steady decline in *excellent* ratings from 2004 through 2006 but increased by 4.6 percentage points in 2007 (72.3%).

5. ACTIVITY PARTICIPATION

ACTIVITY PARTICIPATION

This measure provides vital feedback on the frequency and popularity of an activity across the islands by MMA and lifestyle/lifestage. Visitors from the top five MMAs were more likely to participate in *entertainment* and *shopping* activities across the state. The many visitors across every MMA who made *sightseeing* a part of their trip were more likely to be *self-guided*. Those who participated in *recreation* activities were likely to participate in *swimming/sunbathing/beach* activities. Almost every MMA, except Japan, were likely to visit a *family restaurant/diner, local shops/artisans* and utilize a *rental car* on every island.

Activity Participation by Island

- Visitors from every MMA to O‘ahu were generally more active than visitors who visited other islands. On the island of O‘ahu, visitors were more likely to participate in an *entertainment* activity. It was more common on O‘ahu for visitors to be at *night clubs/dancing/bars/karaoke* and *family restaurant/diners* compared to other islands. In addition, O‘ahu visitors were more likely to be involved in a *culture* activity, especially in a *Polynesian show/li‘au/hula* and *festival*. O‘ahu was also known for their *department stores, hotel stores, swap meets, discount/outlet stores, convenience stores and duty free shops*. Visitors also utilized O‘ahu’s *public buses* and *taxi/limousines* more often than visitors on other islands.
- Compared to the other islands, visitors from the U.S. East, Japan and Canada were more likely to shop in Maui’s *local shops/artisans*. Among the U.S. West, U.S. East and European visitors, Maui was the place to shop at *supermarkets*.
- U.S. West, U.S. East, Canadian and European visitors to Kaua‘i were more likely to take a *helicopter or plane tour* and or take part in *backpacking/biking/camping* than on other islands.
- Compared to activities at other destinations, Kona’s *historic sites* was very popular while Hilo visitors were more likely to be on *tour bus excursions*.

U.S. West (Tables 5.1 to 5.2)

U.S. West visitors were highly engaged in a variety of activities even though many U.S. West visitors (79.1 % of the total 2007 U.S. West arrivals to the state) were Repeat visitors. U.S. West visitors tended to be more independent travelers with high *rental car* (76.7%) and *self-guided tour* (77.8%) participation across all islands. U.S. West visitors tended to *shop* (93.9%) at *supermarkets* (65.8%) more than U.S. East and Japanese visitors. U.S. West visitors also shopped heavily at *local shop/artisans* (72.3%), particularly on Kaua‘i (72.4%) and Maui (70.1%) and less so on O‘ahu (58.7%), Hilo (44.1%) or Lāna‘i (28.6%). In addition, U.S. West visitors were more likely to go *surfing/bodyboarding* (24.8%) and *prepare their own meal* (52.5%). Three out of four took in a *family restaurant/diner* (74.6%).

6. TRIP PLANNING

TRIP PLANNING

Trip Planning and Booking Timetable

Information on how visitors plan their trips and when they make reservations can greatly enhance preparation of effective marketing and promotion plans. Trip planning behavior differs across the major market areas. Japanese visitors tend to keep a short planning window while U.S. East, Europeans and some Canadians, tend to plan much farther in advance.

U.S. West (Table 6.2)

- The majority of U.S. West visitors decided to take a vacation (68.9%) and decided to visit Hawai'i (67%) four months or more before their actual arrival dates.
- U.S. West visitors tend to decide on the islands they want to visit (62.8%) approximately the same time as they are deciding to visit Hawai'i.
- The bulk of visitors booked airlines (38.2%), purchased tickets (38.3%) and reserved accommodations (33.9%) around one to three months out. By that time about eight out of ten visitors had completed their transactions.
- Much of the rental car reservations (40.3%) were also done around one to three months out but 27.2 percent wait until less than one month of arriving.
- The purchasing of tour and attraction packages (65.5%) was typically done less than one month out or even while on the vacation.

U.S. East (Table 6.3)

- A higher percentage of U.S. East visitors start earlier than their U.S. West counterparts in deciding on a vacation and deciding to visit Hawai'i. Half of all U.S. East visitors decided on a vacation (50.3%) and decided to visit Hawai'i (49.4%) at least seven months before arrival as compared to four months before arrival for U.S. West visitors.
- At least half of visitors set dates, booked airlines and accommodations, and purchased tickets by the time four months were left.
- Similar to U.S. West visitors, most U.S. East visitors made car reservations (64.7%) no earlier than three months before arrival and purchased tours and attractions (60.4%) less than one month before arrival.

Japan (Table 6.4)

- Japanese visitors were much later to act than other MMAs. They also maintained a very narrow booking window. Most of the decision making occurred within just one to three months before the actual vacation date.
- During that one to three month window, half of the visitors decided on which islands to visit (47.4%), set the date for the trip (54.3%), made airline reservations (59.6%), purchased the tickets (59.1%), and made accommodation reservations (58.7%).
- Half (49.9%) of all rental car reservations and three-fifths (63.9%) of all purchases of tour and attraction packages were done within one month before arrival

Canada (Table 6.5)

- Canadian visitors start planning very similarly to the U.S. West visitors. Approximately two-thirds of visitors decided to take a vacation (70.3%) and decided to visit Hawai'i (67.1%) four months or more before their actual arrival dates.
- They tend to decide on the islands they want to visit approximately the same time as they are deciding to visit Hawai'i.
- The bulk of visitors booked airlines (39.2%), purchased tickets (39%), and reserved accommodations (35.2%) around one to three months out. By that time more than eight out of ten visitors had completed their transactions.
- Some of the rental car reservations (37.5%) were done around one to three months out but more (38.6%) waited until less than one month of arrival.
- The bulk of tour and attraction package purchases were done (70.4%) less than one month out or even while on the vacation.

Europe (Table 6.6)

- European visitors will start early like their U.S. East counterparts. About half decided to take a vacation (52.4%) and decided to visit Hawai'i (49.6%) about seven or more months before arrival.
- European visitors made the decision on the islands they want to visit a little bit later than when they decided to visit Hawai'i. It took until four months before the trip for a majority (66.8%) of visitors to select the islands visited.
- More than half of visitors set dates, booked airlines and accommodations, and made purchases no later than four months out.
- Two out of five (41.7%) European visitors made car reservations and 72.8 percent purchased tours and attraction packages near to vacation time or during the vacation.

Island Visitation Decision Timetable (Table 6.7)

Before arriving in Hawai'i, most visitors to Hawai'i in 2007 had already made a decision of exactly which islands they intended to visit. The larger destinations of O'ahu, Maui, Kaua'i, and Kona were definitely predetermined.

- More than nine out of every ten visitors had decided before they arrived in Hawai'i to visit O'ahu, Maui, Kaua'i and Kona. The only exception was Japanese visitors to Kaua'i. A slightly smaller amount (87%) of Japanese visitors decided to visit Kaua'i before they had landed in Hawai'i.
- To a lesser extent Hilo was also a prearranged trip, with about four out of five visitors decided before hand to visit.
- The other destinations of Moloka'i and Lāna'i were also visited by many who decided to visit before their arrival in Hawai'i. More than half of U.S. West, U.S. East, Canadian and European visitors added their trip to Moloka'i and Lāna'i before their arrival in Hawai'i. On the other hand, more than half Japanese visitors decided to visit only after they arrived in Hawai'i.

Sources of Information Used to Plan Trip (Tables 6.8 to 6.14)

The value of the Internet as a trip-planning tool is high among U.S., Canadian and European visitors (8 out of 10 visitors). However, only half (55.9%) of Japanese visitors used the Internet to plan and seek out information in 2007. Assistance from travel agents for trip-planning continued to be low in the U.S. market (27.5%), while higher usage has decreased in Japan (76.7%, -14.5 percentage points), similarly European (56.8%, -14.8 percentage points) markets from 2006. Information from airlines and hotels/resorts were popular with U.S. visitors while Japanese visitors utilized magazines and books.

- More than four out of five (84.5%) U.S. Visitors used the Internet to help plan their trip.
- The percentage of U.S. visitors that used the Internet was about three times the number who relied on travel agents (27.5%) for trip-planning information.
- Since many U.S. West visitors had been to Hawai'i before, they relied on personal experiences to help them plan their trips (44%).
- U.S. West was the least likely to rely on guide books (17%) compared to all other MMAs.
- Japanese visitors continued to put heavy reliance on personal experience (34.7%), travel magazines (38.3%) and travel books (34.9%) for information.
- Few Japanese used airlines as a source of information (9.3%), while a fifth of U.S. (21.2%) and Canadian (20.4%) visitors do gather information from airlines.
- U.S. Wedding/Honeymoon visitors were more reliant on travel agents (40.3%) and magazines (13.7%) than other segments.
- U.S. First-timers relied heavily on the advice of friends/relatives, travel agents and guide books.
- Magazine use was high among all Japanese lifestyle stage segments except Seniors.

Internet Use (Table 6.15)

Among those visitors who did use the Internet (84.5% of U.S. visitors and 55.9% of Japanese visitors), the way in which the Internet was used for planning and booking of trips differed between the U.S. and Japan markets. Note that the statistic reported for each internet use is the percentage of those who used the internet.

- The number one use for the Internet by U.S. visitors was online airline reservations. This use has increased steadily from 40.8 percent (or 23.6% of all U.S. visitors) in 2002 to 78.6 percent (or 66.4% of all U.S. visitors) in 2007 (Figure 28).
- Use of the Internet for rental car reservation has also increased to over half of U.S. visitors (or 47.2% of all U.S. visitors in 2007) (Figure 28). In particular, 58.1 percent of U.S. West (or 49.5% of all U.S. West visitors) and 52.1 of U.S. East (or 43.4% of all U.S. East visitors) made their rental car reservations through the Internet.
- Making hotel reservations has been increasingly more common with U.S. visitors (50.3% or 42.5% of all U.S. visitors in 2007 vs. 40.2% or 24.8% of all U.S. visitors in 2002) (Figure 28).
- Many (61.3%) of U.S. East visitors (or 51.1% of all U.S. East visitors) used the Internet to find things to do. More than half of U.S. West (53.4% or 45.5% of all U.S. West visitors) and U.S. East (53.8% or 44.8% of all U.S. East visitors) visitors used the Internet to estimate costs.

Figure 28: Internet Use - U.S. [Percentage of visitors who used the Internet]

* Make hotel reservations and rental car reservations were added starting in 2003.

- Two out of three (66.6%) Canadians (or 57.3% of all Canadian visitors) used the Internet to make airlines reservations in 2007. Canadians also used the Internet to estimate costs (59% or 50.7% of all Canadian visitors), find an accommodation (58.1% or 50% of all Canadian visitors), find things to do (56.7% or 48.8% of all Canadian visitors) and make hotel reservations (55.8% or 48% of all Canadian visitors).
- Europeans used the Internet to find hotel or place to stay (60.7% or 47% of all European visitors) and to find things to do (55.6% or 43.1% of all European visitors).
- Use of the Internet among Japanese has not changed much over the past four years compared to the U.S. market, where there has been a surge of online reservations. Among Japanese Internet users, the Internet was mainly used to find a hotel or place to stay (69% or 38.6% of all Japanese visitors). Locating shopping places (39.8% or 22.2% of all Japanese visitors) or sightseeing places (39.2% or 21.9% of all Japanese visitors) remained a popular use (see Figure 29). Few Japanese used the Internet for airline (22% or 12.3% of all Japanese visitors), hotel (23.6% or 13.2% of all Japanese visitors) or car (13.4% or 7.5% of all Japanese visitors) reservations. Also, very few used it to estimate costs (17.4% or 9.7% of all Japanese visitors).

Figure 29: Internet Use - Japan [Percentage of visitors who used the Internet]

Use of Travel Agent (Table 6.16)

Visitors used travel agents mostly for assistance in making airline reservations and hotel arrangements. Agents were also utilized to assist in choosing an airline. As mentioned earlier, Japanese travelers had the heaviest reliance on travel agents (76.7%), followed by Europeans (56.8%), Canadians (41.9%) and U.S. (27.5%). Note that the statistic reported for each travel agent use is the percentage of those who used a travel agent.

- Travel Agents were used mainly by Japanese to make hotel arrangements (82.4% or 63.2% of all Japanese visitors) and airline reservations (78.5% or 60.2% of all Japanese visitors). Many Japanese (34.6% or 26.5% of all Japanese visitors) were likely to use agents to help them plan activities. More than a third of Japanese visitors used an agent to purchase packages (38.9% or 29.8% of all Japanese visitors). Very few Japanese visitors used an agent to make rental car reservations (6.1% or 4.7% of all Japanese visitors).
- For U.S. visitors who used travel agents, 66.1 percent (or 18.2% of all U.S. visitors) used travel agents to make hotel arrangements and 76.8 percent (or 21.1% of all U.S. visitors) to make airline reservations. U.S. East visitors were very reliant on agents for airline reservations (76.6% or 24.5% of all U.S. East visitors), so too were Canadians (78.8% or 33% of all Canadian visitors) and Europeans (87% or 49.4% of all European visitors).
- Canadians (25.9% or 10.9% of all Canadian visitors) and Europeans (26.3% or 14.9% of all European visitors) had less reliance on agents for rental car reservations compared to U.S. West (54.2% or 13.5% of all U.S. West visitors) and U.S. East (46.6% or 14.9% of all U.S. East visitors). However European visitors relied heavily on agents to make hotel arrangements (68.5% or 38.9% of all European visitors).

7. SAFETY ISSUES AND OTHER NUISANCES

SAFETY ISSUES AND OTHER NUISANCES

The safety of Hawai'i's visitors is very important to the State of Hawai'i and industry partners. Therefore, the 2007 Visitor Satisfaction Survey questionnaire also asked visitors if they had experienced any adversity or safety issues while in Hawai'i. Overall, more than four out of five visitors experienced no problems while in Hawai'i. Also, there was no significant difference between lifestyle/stages or visitation status due to low issue and nuisance incidence.

- In general, the most common issue was visitors experiencing severe weather/natural calamities (approximately 1 out of 20).
- Japanese visitors were the least likely to experience a problem on their trip (9.3% of visitors). Beyond weather problems were encounters with drug dealers (1.4%) and wallets being stolen (1.3%).
- U.S. East (2.1%), Canadian (2.9%) and European (2.2%) visitors were most prone to encounters with drug dealers.

9. DEFINITIONS AND SURVEY METHODOLOGY

DEFINITION AND SURVEY METHODOLOGY

Definitions

Visitor: Out-of-state traveler who stayed in Hawai'i for a period of time between one night but less than one year.

Major Market Areas (MMAs): Visitors are classified by their place of residence into the following geographical areas that were defined by the Hawai'i Tourism Authority for marketing purposes to make the State more globally competitive:

1. U.S. West – Pacific (Alaska, California, Oregon, Washington) and Mountain (Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah and Wyoming) states.
2. U.S. East – Other states in the Continental U.S.
3. Japan
4. Canada
5. Europe – United Kingdom, Germany, France, Italy, and Switzerland
6. Oceania – Australia and New Zealand
7. Other Asia – China, Hong Kong, Korea, Singapore and Taiwan
8. Latin America – Argentina, Brazil and Mexico
9. Other – All countries and districts not listed in MMA 1 to 8 above, including Guam, Puerto Rico, U.S. Virgin Islands, and other U.S. territories

Visitor Lifestyle and Life-Stage:

- Wedding/Honeymoon visitors: Visitors whose primary and secondary purpose of trip are to get married or honeymoon.
- Family: Visitors traveling with children under 18 years of age and are not in the above life stage.
- Young: Visitors between 18 and 34 years of age and are not in the above life stages.
- Middle Age: Visitors between 35 and 54 years of age and are not in the above life stages.
- Seniors: Visitors 55 years of age or over and are not in the above life stages.

Survey Methodology

The Visitor Satisfaction Survey was a mail survey conducted among U.S., Japanese, Canadian, and European visitors to Hawai'i. The survey was designed to measure the satisfaction levels with the state of Hawai'i as a vacation destination, and to obtain information on their trip planning, activity patterns, overall trip experiences, and profile.

Survey questionnaires were mailed to selected U.S., Japanese, Canadian and European visitors after they had returned home from their trip to Hawai'i. The U.S. samples were drawn from the completed Domestic In-Flight Survey forms. The Japanese, Canadian, and European samples were drawn from the completed Departure Survey forms.

There are two versions of the Visitor Satisfaction Survey form, one in English and the other in Japanese. The 2007 survey has 8 pages and 33 questions. Surveys forms were printed in a booklet form and in two-color print. The English survey instrument is presented in Section 10 of this report.

Table 9.1 Response Rate

Area	Mail out	Received	Return Rate
U.S.	19,750	5,218	26%
Japan	11,558	3,611	31%
Canada/Europe	12,250	3,601	29%

The general level of accuracy at the 95%-confidence level for responses by MMA is listed in Table 9.2 (e.g., we are 95 percent confident that the true percentage of U.S. West visitors is within 1.8 percent greater than or less than the figures listed in this report).

Table 9.2 Sample Size

MMA	Sample Size	Visitors to Hawai'i	Confidence Interval
U.S. West	2,942	3,244,707	+/- 1.8%
U.S. East	2,276	1,901,502	+/- 2.1%
Japan	3,611	1,296,421	+/- 1.6%
Canada	1,680	333,397	+/- 2.4%
Europe	2,185	108,022	+/- 2.1%

The collected data was weighted to adjust for differences with the actual visitor characteristics measured in the Basic Data Series caused by sampling and non-responses. The data was weighted during analysis to reflect the actual visitor ratio of first-timers to repeat visitors and the proportion of O'ahu only and Neighbor island visitors.

Due to the low number of samples achieved, data for Lāna'i and Moloka'i were not presented in most of the data tables in this report.

Visitors' satisfaction and rating of their experiences were reported on a destination by destination basis instead of an aggregated statewide measure. The data collection methodology was changed to better reflect the specificity and uniqueness of each island. Respondents were asked to select only one island to rate based on the location where they stayed the most nights. This resulted in responses unevenly distributed between islands; mainly concentrated on O'ahu, Maui and Kaua'i. Therefore, data limitations hamper us from reporting fully on Lāna'i, Moloka'i, and to a lesser extent, Kona and Hilo.

Changes to 2007 Visitor Satisfaction Survey

In 2007, several changes had been made to the Visitor Satisfaction Survey form. Response categories that were added to question 9 in entertainment, shopping and cultural activities caused visitor activity participation in these categories to be higher than previous years.

- In questions 4b, 5a, 5b, 8, 9, 17, 24 and 32, response categories were added from most frequent 2006 responses and additional comments from respondents.
- In questions 6a and 6b, "Big Island of Hawai'i" was split into "Hilo" and "Kona."
- Questions 14, 17, 18, 18a, 19, 19a, and 19b were rephrased and response categories were revised.
- In question 18, "500 miles or longer in the past 3 years" was changed from "more than 1,000 miles from your home in the past 3 years," in 2006.
