## II.

Based upon our review of the record, we find that Applicant is fit, willing, and able to properly perform the proposed service, and to conform to Hawaii Revised Statutes chapter 271 and the requirements and rules of the commission. We also find that the proposed service is required by the present and future public convenience and necessity. Accordingly, we conclude that Applicant's request to amend his authority by adding the 8-to-25 passenger classification should be granted.

Furthermore, pursuant to HRS § 271-19, a certificate of public convenience and necessity may be terminated upon application of the holder. The commission finds good cause to grant Applicant's request to terminate his authority in the 1-to-7 passenger vehicle classification.

## III.

### THE COMMISSION ORDERS:

1. Applicant is authorized to operate as a common carrier of passengers by motor vehicle over irregular routes on the island of Oahu in the 8-to-25 passenger classification. Applicant's authority in the 1-to-7 passenger classification shall terminate upon written notification from the commission that all requirements for the amended operating authority have been met.

2. Applicant shall surrender Certificate No. 1100-C, and an amended certificate reflecting the operating authority granted by this decision and order shall be issued.

3. Applicant shall comply with all of the commission's requirements for common carriers by motor vehicle including, but not limited to, filing a lawful tariff and complying with the safety requirements of the Motor Vehicle Safety Office, Department of Transportation, State of Hawaii.

4. Applicant shall comply with the foregoing requirements within 120 days after service of this decision and order. Failure to comply within the time specified constitutes cause for this commission to void this decision and order.

5. Applicant shall not commence operations under this decision and order until he has received written confirmation from the commission that all requirements have been met.
