DECISION AND ORDER

By this Decision and Order, the commission grants FOXX TRANSPORTATION & EQUIPMENT RENTAL LLC ("Applicant") a certificate of public convenience and necessity ("Certificate") to operate as a common carrier of property by motor vehicle over irregular routes on the islands of Oahu and Maui in the general commodities and dump truck classifications, subject to certain conditions, as described herein.

I.

Application for Common Carrier Authority

By application filed on December 23, 2008, and amended on January 14, 2009, Applicant requests a Certificate to operate as a common carrier of property by motor vehicle over irregular routes on the islands of Oahu and Maui in the general commodities, dump truck, and specific commodities classifications. The application was filed pursuant to Hawaii Revised Statutes ("HRS") § 271-12.

Applicant served copies of the application on the Hawaii Transportation Association, which consists of carriers that may be affected by Applicant's proposed service, and on the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs ("Consumer Advocate"). The Consumer Advocate did not participate in this proceeding, and no persons moved to intervene in this docket.

II.

Findings and Conclusions

Based upon our review of the record, the commission finds that Applicant is fit, willing, and able to properly perform the proposed services, and to conform to HRS Chapter 271 and the requirements and rules of the commission. The commission also finds that the proposed services are required by the present and future public convenience and necessity. Accordingly, the commission concludes that Applicant's request for operating authority in the general commodities and dump truck classifications should be granted.

With respect to Applicant's request to operate as a common carrier of property in the specific commodities classification, the commission notes that the transportation of specific commodities is allowed under Applicant's general commodities authority when granted. The commission, thus, finds that Applicant's request to operate in the specific commodities classification is unnecessary and should be dismissed.

III.
