The meeting was taken out of order and continued with "Committee Reports, 6. Scope of Activity Committee".

Committee Reports: 6. Scope of Activity Committee:  
Gerald Yamada, Chairperson

**DAGS**

At the Board's November 18, 2011 meeting, the Board was asked to consider whether the C-35 Pile driving, pile and caisson drilling, and foundation contractor may install drilled piers for the Keaau Middle School new classroom building project. Work involves excavating the shaft to the required depth, placing the reinforcing steel cage into the shaft, and pouring concrete. The Board determined that the C-35 contractor could excavate the shaft, the C-41

Reinforcing steel classification was required to install the steel cage, and the "A" General Engineering, "B" General Building, C-31 Masonry, C-31a Cement concrete, or C-35 classification could pour the concrete.

The Board is being asked to reconsider its determination based on information from Brad Espedal of Honolulu Builders, which states that it is usual and customary for C-41 contractors to fabricate the cage; however, placement is done by the foundation contractor. He states that there is nothing to attach the rear cage to until after the pile cap is poured and that the hoisting of the cage into the hole is incidental work.

He provided quotes from rebar subcontractors who bid on this project, all of which excluded the hoisting work, and quotes from drilled pier subcontractors, all of which included placement of the rebar cages. He also provided letters from Associated Steel Workers, Ltd. and South Pacific Steel Corp., which confirm that the placement of rebar cages is not performed by the C-41 contractor.

Recommendation: The C-35 contractor may hoist (lift and drop) the rebar cages, but any modifications to the cage must be done by the C-41 contractor.

### **Harbor Work**

A December 7, 2011 article in the West Hawaii Today reported on a DLNR project to remove a partially collapsed dock at the Honokohau Small Boat Harbor. West Hawaii Today had contacted Executive Officer Tamanaha at that time to check whether a license was required for this project, to which she had replied that if the scope entailed dismantling all or a portion of a structure, a C-24 Building, moving and wrecking license is required, but if only removing debris from the water was involved, then a license would not be required.

The Board briefly discussed this matter and confirmed that the C-24 license is required to dismantle and remove a dock.

### **Ivan Mochida Contracting, Inc.**

Ivan Mochida Contracting, Inc. requests a determination on whether they may install insulation for the Honoka'a Gymnasium Roofing Repairs project. They hold the following classifications: "B" General Building, C-33 Painting and decorating, C-41 Reinforcing steel, C-42 Roofing, C-48a Steel door, and C-68MI Prefabricated metal buildings.

Recommendation: The installation of the insulation may be performed under the C-68MI classification as incidental and supplemental to the pre-engineered roofing repair work. However, if the contract was for the installation of the insulation only, and not in conjunction with C-68MI work, then it would not fall within the scope of the C-68MI license.

### **Bob Bouillon**

Mr. Bouillon requests a determination on whether a license is required to install commercial phone systems. Work involves connecting a computer to a

telephone using existing outlets and jacks. Wire is not run through multiple floors or fire walls, but may be run through conduit provided by a licensed electrician.

Recommendation: The C-15 Electronic systems or C-15b Telecommunications contractor license is required to perform the above work because of the conduit work involved.

### **K&S Welding**

K&S Welding requests a determination on whether the C-48 Structural steel classification includes miscellaneous metal work such as metal fabrication, railings, guardrails, steel support beams, etc. The metal fabrication work described in the project specifications included steel pipe handrails, stair nosings, and a metal gate.

Recommendation: The metal work described above may be performed under the C-48 Structural steel license classification.

After discussion, it was moved by Mr. Suehiro, seconded by Mr. Dill, and carried (with Mr. Mochida recusing himself) to approve the above scope recommendations.

1. Examination Committee:  
Guy Akasaki, Chairperson

The Examination Summary for November and December 2011 were distributed in the Board's packet.

3. Legislation Committee:  
Denny Sadowski, Chairperson

Mr. Sadowski and Executive Officer Oda reported on the following bills:

- a. H.B. No. 1897 which amends HRS section 444-8 to limit incidental and supplemental work to no more than one-half percent of the total monetary value of the entire contract.
- b. H.B. No. 1898 which amends section 444-3 by changing the composition of the Board to three general contractors, three specialty contractors, three exclusive representatives of collective bargaining units, and four non-contractors.
- c. H.B. No. 1969 creates a new section in HRS Chapter 444 requiring contractors to obtain performance bonds equal to the contract price or retainage may be withheld. It also overhauls section 444-25 allowing for 5% retainage, interest of one and one-half percent per month on the final payment, and other payment issues. This also amends Chapters 103 (procurement) and 507 (liens).

After brief discussion, it was moved by Mr. Sadowski, seconded by Mr. Yamada, and unanimously carried to testify in opposition to H.B. Nos. 1897 and 1898. Executive Officer Oda requested that the Board members review H.B. No. 1969 and submit their comments.

5. Investigation Committee:  
Neal Arita, Chairperson

None.

The agenda was taken out of order and continued with the adjudicatory matters.

Chapter 91, HRS,  
Adjudicatory  
Matters:

Chairperson Arita called for a recess from the Board's meeting at 8:55 a.m. to discuss and deliberate on the following adjudicatory matters pursuant to HRS chapter 91.

1. Settlement Agreements

a. In the Matter of the Contractors Licenses of The Hatch Group, Inc. and Scott L. Ebrahimi; CLB 2011-123-L

RICO received a complaint alleging that The Hatch Group, Inc. and Scott L. Ebrahimi, RME, ("Respondents") were engaging in unlicensed contracting activity. RICO alleges that Respondents violated the licensing laws by not having an RME in residence during the period a project was under construction.

Respondents do not admit to violating any law or rule, but agree to pay, jointly and severally, a fine of \$2,500.00.

After discussion, it was moved by Mr. Lee, seconded by Mr. Yamada, and unanimously carried to approve the Settlement Agreement Prior to Filing of Petition for Disciplinary Action and Board's Final Order in the above case.

b. In the Matter of the Contractors' Licenses of Hawaii Vertical Transportation, Inc.; Michael K. Tomihara; CLB 2010-366-L

In November 2011, RICO filed a Petition for Disciplinary Action alleging that Michael K. Tomihara, RME ("Respondent") of Hawaii Vertical Transportation, Inc. ("HVTI") violated HRS and HAR sections concerning abandonment of any construction project without reasonable or legal excuse, and the responsibility of the RME for acts and omissions of the contracting entity.

Respondent alleges that: (1) he did not have any personal gain from the contract with the Apartment Owners of Windward Passage ("AOAO"); (2) the financial aspect of HVTI was handled by Brenda Low; (3) HVTI had financial problems because of using union workers; and (4) he tried his best to perform under the contract with AOAO.

Respondent does not admit to violating any law or rule but agrees to the voluntary revocation of his license, and understands that he cannot apply for a new license until the expiration of at least five years after the effective date of the revocation.

After discussion, it was moved by Mr. Yamada, seconded by Mr. Mochida, and unanimously carried to approve the Settlement Agreement After Filing of Petition for Disciplinary Action and Board's Final Order in the above case.

2. Board's Final Orders

a. In the Matter of the Application for a Contractor's License of Earl W. Schlosser; CLB-LIC-2010-3

Earl Schlosser requested an administrative hearing to contest the Board's denial of his application for a C-5 Cabinet, millwork, and carpentry remodeling and repairs license. Mr. Schlosser failed to appear at the hearing, and therefore, the Hearings Officer recommended that the Board reaffirm its denial of his application for the C-5 license.

After discussion, it was moved by Mr. Sadowski, seconded by Mr. Lee, and unanimously carried to adopt the Hearings Officer's recommended decision on its Final Order.

Following the Board's review, deliberation and decisions in these matters, pursuant to HRS chapter 91, Chairperson Arita announced that the Board was reconvening to its open meeting at 9:00 a.m.

Appearances  
Before the  
Board:

- a. William C. Fritzlan (Individual) (Additional classification)  
"B" General Building

Executive  
Session:

At 9:01 a.m., it was moved by Mr. Yamada, seconded by Mr. Lee, and unanimously carried to enter into Executive Session pursuant to HRS section 92-5(a)(1) to consider and evaluate personal information relating to individuals applying for professional or vocational licenses cited in HRS section 26-9, and to consult with Rodney J. Tam, deputy attorney general, on questions and issues pertaining to the Board's powers, duties, privileges, immunities, and liabilities pursuant to HRS section 92-5(a)(4).

At 9:05 a.m., it was moved by Mr. Yamada, seconded by Mr. Mochida, and unanimously carried to move out of executive session and to reconvene to the Board's regular order of business.

After discussion, it was moved by Mr. Sadowski, seconded by Mr. Suehiro, and unanimously carried to defer Mr. Fritzlan for the "B" license pending submittal of additional projects verifying "ground-up" experience.

Jo Ann Uchida, Complaints and Enforcement Officer of RICO, requested to appear before the Board to give a brief summary on the Unlicensed Contractor Law Enforcement Task Force in accordance with House Concurrent Resolution 286, House Draft 1 (2011). The report was given to the Governor in December and the proposed bill was introduced to the legislature yesterday.

The DCCA, Dept. of the Attorney General, Dept. of Labor and Industrial Relations, Dept. of Taxation, and the Dept. of the Prosecuting Attorney of each county worked together to address unlicensed contracting in the State. The Report recommends (1) stronger collaboration between the departments; (2) adding new sections to the penal code on criminal prosecution for unlicensed activity, and amending HRS chapter 436B to be consistent with the penal code; and (3) using the media for consumer education on the dangers of using unlicensed contractors. Ms. Uchida mentioned the possibility of tapping the Contractors Education Fund to produce announcements or getting air time in the media to educate the public.

After discussing various enforcement issues, the Board thanked Ms. Uchida for her informative presentation and delivery of the Report.

- b. Kip T. Woodrum, RME
