Under “Committee Reports, 8. Applications Committee,” add
“Applications Committee Report, Brian J. Presley (Individual).”

Chapter 91, HRS,
Adjudicatory
Matters:

Chairperson Lau called for a recess from the Board’s meeting at 8:40
a.m. to discuss and deliberate on the following adjudicatory matters
pursuant to HRS chapter 91.

1. Settlement Agreements

- a. In the Matter of the Contractor’s License of Adon Construction
Inc.; CLB 2012-184-L

RICO alleges that Adon Construction Inc. (“Respondent”) offered
to perform and did perform roof coating and PV installation work,
which, if proven at an administrative hearing before the Board,
would be in violation of HAR section 16-77-33, out-of-scope
contracting.

The Board discussed the settlement agreement in which
Respondent does not admit to violating any law or rule, but agrees
to pay a fine in the amount of \$500.00.

After discussion, it was moved by Mr. Lee, seconded by
Mr. Kamai, and unanimously carried to approve the Settlement
Agreement Prior to Filing of Petition for Disciplinary Action and
Board’s Final Order in the above case.

- b. In the Matter of the Contractors’ Licenses of Pacific Islands
Group, LLC, also known as Pacific Islands Construction;
Kevin J. Kruszona; Dennis P. Swart; CLB 2012-287-L

RICO received a complaint alleging that Pacific Islands Group,
LLC, Kevin J. Kruszona, and Dennis P. Swart (“Respondents”)
failed to disclose bond and lien rights to the homeowner.

The Board discussed the settlement agreement in which
Respondents do not admit to violating any law or rule, but agree to
pay a fine in the amount of \$2,500.00.

After discussion, it was moved by Mr. Lee, seconded by
Mr. Kamai, and unanimously carried to approve the Settlement
Agreement Prior to Filing of Petition for Disciplinary Action and
Board’s Final Order in the above case.

2. Board's Final Orders

None.

Following the Board's review, deliberation and decisions in these matters, pursuant to HRS chapter 91, Chairperson Lau announced that the Board was reconvening to its open meeting at 8:41 a.m.

Executive Session:

At 8:42 a.m., it was moved by Mr. Lee, seconded by Mr. Mochida, and unanimously carried to enter into executive session to consult with Rodney J. Tam, deputy attorney general, on questions and issues pertaining to the Board's powers, duties, privileges, immunities, and liabilities pursuant to HRS section 92-5(a)(4).

At 9:37 a.m., it was moved by Mr. Suehiro, seconded by Mr. Yamada, and unanimously carried to move out of executive session and to reconvene to the Board's regular order of business.

Arnold Wong, on behalf of the Ironworkers Stabilization Fund, asked to tape the meeting, which Chairperson Lau consented to the request.

The agenda continued with the rest of the Committee Reports.

Committee Reports:

1. Examination Committee:
Guy Akasaki, Chairperson

The Contractors Examination Summary for July 2013 was distributed in the Board's packet.

2. Recovery/Education Fund Committee:

None.

3. Legislation Committee:
Peter Lee, Chairperson

None.

4. Rules Committee:
Randall B. C. Lau, Chairperson

Chairperson Lau informed everyone present that the last Rules Committee meeting regarding SCR No. 84 (2013) will be held at 1:00 p.m. today. Chairperson Lau stated that additional comments will be taken at that meeting, and requested that only one representative testify for each group. In order for the Board to complete their report by November 1, 2013, he appointed the following six members to serve on an Investigation Committee pursuant to HRS section 92-2.5: Gerald Yamada and himself (general contractors); Kent Matsuzaki and Guy Akasaki (specialty contractors); and William Kamai and Peter Lee (public members). The purpose of the Committee is to investigate and discuss the matters raised in the Resolution, and make recommendations to the Board at a future Board meeting.

It was moved by Mr. Suehiro, seconded by Mr. Konishi, and unanimously carried to approve the above members to serve on the Investigation Committee.

5. Investigation Committee:
John Polischeck, Jr., Chairperson

None.

6. Scope of Activity Committee:
Gerald Yamada, Chairperson

Advanced Overhead Storage of Hawaii, LLC

Frank Cooney, co-owner of Advanced Overhead Storage of Hawaii, LLC, requests a determination that a contractor's license is not required to install storage racks to the ceilings of garages and carports using either lag bolts or self-tapping screws. Mr. Cooney feels that this falls under the exemption of section 444-2(3) for the installation of finished products that are not fabricated into or become a permanent fixed part of the structure, as the racks are easily removed.

Mr. Cooney stated that he does not do any modifications to the ceilings or rafters. The work involves installing storage racks to the ceilings of garages and carports using either lag bolts or self-tapping screws.

Recommendation: The C-25 Institutional and commercial equipment license classification is required to install ceiling hung storage racks.

Ka'eo Gouveia

Mr. Gouveia requested a determination on whether "outside plant telecommunication work" may be performed under the C-15b Telecommunications classification. The work involves the placement and removal of telecommunication cables and their supporting structures, including the installation, maintenance and removal of poles, cross arms, anchors, down guys, and aerial or underground OSP telecommunication cables; and also placing access point cabinets, fiber distribution hubs, and other equipment; OSP copper and fiber optic splicing; line conditioning; grooming; and cable loading.

The Board deferred Mr. Gouveia's inquiry at the July 19, 2013 meeting for additional information on the supporting structures. Mr. Gouveia provided drawings, and stated that they will remove/install associated manufacturer designed supports to secure telecommunication cables, including the following support structures: steel messengers, suspension clamps, down guys, anchors, cross arms, telecommunication cabinets/terminals and associated hardware, and stansion/racks. They will not be doing any conduit or electrical cabinet work.

Recommendation: The telecommunication cabling work may be performed under the C-15b Telecommunications classification; pole and guy work may be performed under the C-62 Pole and line classification; trenching work for underground cabling may be performed under the "A"

General Engineering or C-17 Excavating, grading and trenching classification; and the installation of steel supports may require the C-48 Structural steel classification.

City and County of Honolulu

The City and County of Honolulu requests determination on license classification required to install steel channel shelf extensions for the seismic retrofit project to Paakea Road Bridge No. 809. Triton Marine Construction Corp. indicated that these are stand-alone items and typically installed during the course of the concrete construction, similar to steel nosing for expansion joints, weld plates for handrail attachments, and armor edging for corners.

Joseph O'Donnell of the Iron Workers Local 625 testified that it appears that they are structural and load bearing items, and therefore felt the C-48 Structural steel license is required.

After brief discussion, the Board felt additional information was required, such as the plans and specifications, in order to make a determination.

Johanson Contracting, Inc.

Johanson Contracting, Inc. requests determination on whether the removal of trees blocking the fence line for the Kamehameha Schools Pu'u Kali'u fencing projects may be performed under their "A" General Engineering license.

After brief discussion, the Board felt additional information was required, such as copies of plans, specs, and/or drawings of the project, and specifics on what tree removal/trimming techniques will be utilized, including necessary equipment, and the project cost estimates, including a breakdown for the tree removal work, if available.

After discussion, it was moved by Mr. Suehiro, seconded by Mr. Lee, and unanimously carried to defer the City and County of Honolulu and Johanson Contracting, Inc.'s requests pending additional information, and approve the scope recommendations for Advanced Overhead Storage of Hawaii, LLC and Ka'eo Gouveia.

The agenda was taken out of order and continued with "Applications Committee Report."

Mr. Suehiro presented the remainder of the items under Applications Committee Report:

It was moved by Mr. Suehiro, seconded by Mr. Yamada, and unanimously carried to accept the recommendations made by the Applications Committee on items E-1 through E-121.

Sandra Roberts, as a condo owner, informed the Board about problems they were having with unlicensed contractors who allegedly took money for work they did not start or finish. Therefore, she had requested that the applications be open for the public to review and was glad that an Investigation Committee was formed for this.

Chairperson Lau explained that the Investigation Committee was formed to gather information for the Board's report on SCR 84 due to the Legislative Reference Bureau by November 1, 2013. It was also explained to Ms. Roberts that the Board reviews applications based on the experience information, notarized documents, and financial information presented to them, some of which are considered confidential information. Complaints on contractors and unlicensed activity should be filed with the Regulated Industries Complaints Office.
