Introduction of

Director, DCCA:

Jo Ann Uchida Takeuchi, Deputy Director, appeared on behalf of Keali'i S. Lopez, Director, DCCA. The Deputy Director extended the Department's appreciation to the members for their work and dedication to public service.

She went on to say that the Department would like to provide Board members with tools to do their job. Last year, an orientation for Board Chairs featured speakers from agencies such as the Attorney General's Office, Office of Administrative Hearings, Regulated Industries Complaints Office ("RICO"), Office of Information Practices, and the Ethics Commission. This year, a similar orientation will be held for any board member interested in attending. In addition to providing information that would help members carry out their regulatory responsibilities, the orientation would give them an idea about the resources available to Boards. Sessions topics include ethics, sunshine law and the Uniform Information Practices Act, complaints and disciplinary actions, contested case hearings, administrative rulemaking, and the role of Board/Commission members.

The members thanked the Deputy Director for the opportunity to attend the orientation.

New Business: a. Legislation

Act 136

This Act requires informed consent in certain circumstances before performing pelvic examinations on female patients.

Act 186

This Act is relating to Physician Workforce Assessment. It requires John A. Burns School of Medicine to submit a report of findings and recommendations detailing its assessment of the physician workforce to the legislature, the state health planning and development agency, and the Hawaii Medical Board.

Act 247

This Act permits licensure by endorsement or licensure by reciprocity in certain situations for a nonresident military spouse. It establishes procedures for a nonresident military spouse to receive a license by endorsement or license by reciprocity.

Act 248

This act requires professional and vocational licensing boards to consider relevant military education, training, and service as part of the evaluation process toward the qualification of a license.

The Board discussed this Act and determined that the applicant would still need to demonstrate "substantial equivalency" to Hawaii's standards and therefore, there should not be a problem with implementation as the Board would review the application to make this determination.
