Approved APRN-Rx for Controlled Substances

The EO explained that she has received requests for a "list" of APRNs with prescriptive authority to prescribe controlled substances from different pharmacists and pharmacies so she has compiled a list of APRN-Rx for controlled substances that have been approved by the Board of Nursing. She stated that the list is only as current as of April 10, 2012 and will be updated monthly after the Board of Nursing approves the list and will be posted on the Board of Pharmacy's web page. Laws and Rules Report on April 19, 2012 Meeting Committee Report: Mr. Inafuku reported that the Laws and Rules Committee met this morning to continue their discussion on proposed amendments to the definition of the "Practice of pharmacy". He reported that the Committee discussed and agreed on language for the definitions of "chart order" and "medical order" versus "valid prescription" and "pharmacist care". He further reported that at the next meeting, the Committee will be comparing the definition of "prescription" with the NABP Model Act definition and discussing the NABP Model Act definitions for "medication therapy management", "collaborative pharmacy practice", "primary care", "collaborative pharmacy practice agreement" and "devices". Mr. Inafuku also reported that the Committee will be considering language for a diversion or impaired practitioner program for pharmacists and also having discussions with the Board of Nursing on the APRN's scope of practice and specialties. Correspondence: National Association of Boards of Pharmacy ("NABP") NABP State News Roundup – March and April 2012 The Chair noted the following articles: Idaho – Idaho reported that the Idaho State Board of Pharmacy rule book was repealed by the Idaho Legislature and a new set of rules were promulgated which will take effect at the end of the 2012 legislative session. He noted that there were several changes that included Rule 116 allowing pharmacists, utilizing their best professional judgment, to fill up to the total amount for non-controlled substances, that includes dispensing quantity plus all refills; Rules 290 and 291 outlining regulation of automatic dispensing and storage systems, such as those in institutional setting, retail pharmacy or prescriber drug outlet that encompass access, stocking, security, reporting, pharmacist review as well as the return and wasting of drugs; Rule 320 which allows an Idaho licensed pharmacist to provide pharmaceutical care services and medication therapy management outside of a pharmacy or institutional facility, including across state lines, if certain conditions are met; and Rules 601 and 602 which reduces the requirements for pharmacy technical equipment, space and fixtures and requiring equipment as necessary by the pharmacy's scope of practice to ensure public safety and eliminating the long list of required technical equipment and any required drug stock and also requiring that the lavatory facility must be located within the pharmacy and not adjacent.

Dr. Ma also noted that Idaho Rule 036 requires that student pharmacists renew their registration annually, without a fee, while enrolled in a school or college of pharmacy and that graduates from an accredited school or college of pharmacy, excluding foreign graduates, will no longer be required to meet a minimum number of intern or extern hours for licensure.

Kansas - The Kansas Board of Pharmacy is drafting a policy, in conjunction with the Kansas Department of Health that would permit a pharmacy to accept unwanted noncontrolled drugs by ultimate users for drug disposal. The drug disposal program would help facilitate the collection and destruction of household medications that can easily be in the reach of children or teenagers and ensure that expired or unused medications can be destroyed safely and in an affordable way.

Minnesota – The Minnesota Board of Pharmacy adopted a definition of "limited service pharmacy" that means, "A pharmacy to which the board may assign a restricted licensed to perform a narrow range of the activities that constitute the practice of pharmacy."

South Dakota – A new law requires mandatory background checks for initial pharmacist registration and may also be required for those licensees under disciplinary investigation.

Pyxis – E-kit Restocking, Email from Jerry Berndt

The Board reviewed and discussed an email inquiry from Mr. Berndt in which he asks if a pharmacy provides pharmaceuticals to a correctional facility, if the facility is utilizing an e-kit or Pyxis type machine for emergency first dosing, can a non-pharmacy personnel such as a nurse, restock the medication into the e-kit or Pyxis?

The Vice Chair stated that based on that HAR 16-95-80(c)(2)(D) and (E), as it refers to the inventory and audit of a night cabinet, he believes it is the pharmacist's responsibility.

Mr. Lau stated that based on HAR 16-95-81(c), as it refers to the labeling of the emergency kit, he also believes it is the pharmacist's responsibility.

The Chair stated that based on HAR 16-95-81(e), as it refers to the pharmacist shall replace any expired, drugs, re-label and reseal the kit, it would appear that the pharmacist should be restocking the e-kit or Pyxis.

Dr. Ma stated that in some hospitals, pharmacy technicians are stocking the machines.

The Vice Chair stated that the pharmacy technician must be immediately supervised by a pharmacist.

Mr. Inafuku stated that he was concerned with applying 20 year old administrative rules to current practice.

Mr. Lau had concerns with restriction of trade since the pharmacy is an out-of-state entity.

The EO explained that the Board should apply their current laws and rules to all situations and entities, including in-state and out-of-state entities or pharmacies. Mr. Lau stated that he understands that this is a safety issue.

After further discussion, upon a motion by the Vice Chair, seconded by the Chair, it was voted on with the Vice Chair, Chair, Mr. Lau and Dr. Oliveira Gray voting yes and Mr. Inafuku and Dr. Ma abstaining to inform Mr. Berndt that based on HAR §§ 16-95-80 and 81, the pharmacist must stock the e-kit or Pyxis. The motion carried.

FDA Opens Dialogue of Incorporating Technology, Pharmacy into Switch Paradigm

The Vice Chair submitted an article for the Board members for their information.

The article was in regards to the Food and Drug Administration's director of the Center for Drug Evaluation and Research, Janet Woodcock, identifying three tools the agency wants to use in potentially increasing access to appropriate medicines. She refers to these "pathways" to improve access including the use of improved communication technology that could enhance the Drug Facts Label, such as making available instructional videos for public consumption, a codified mechanism that would incorporate a pharmacist consultation or diagnosis before a medicine was made available and a model where pharmacists would serve as physician extenders for medicines treating chronic conditions.

Discussion on Issuing of a Pharmacy Permit Number Prior to the Pharmacy Submitting a Complete Application

The Vice Chair submitted an email for the Board's consideration regarding the issuance of a pharmacy permit number to an applicant who "intends" to open a pharmacy so that other permits and registrations may be obtained, e.g. NCPDP number, so that the pharmacy may open for business in a shorter time period.

He stated that currently it takes approximately 4 - 6 months to get a pharmacy up and running with the required licenses and permits.

The EO stated that based on the scenario, it doesn't appear that the issuance of a pharmacy permit before a pharmacy is "ready" would speed up the process if the Department of Public Safety, Narcotics Enforcement Division ("DPS-NED") would conduct an on-site inspection. If the pharmacy is not built or ready to open, would the DPS-NED schedule an inspection?

The Vice Chair stated that he understands it is not the issuance of the pharmacy permit number that is the issue, but rather the lengthy process and other entities involved.

The EO stated that a pharmacy permit can be pre-assigned, however, once it is issued, her concern was that technically, the pharmacy may not meet the requirements to be issued the pharmacy permit.

Mr. Edwards stated that HRS Chapter 328 does not specify who prescription wholesale distributors ("PWD") can distribute to, only indicates who they cannot "dispense" to, e.g. the patient or end user, so his concern was that if the Board issues a pharmacy permit to an individual or entity, there is nothing prohibiting the PWD from selling or distributing prescriptions drugs to the individual or entity.

	After further discussion, the EO asked the Vice Chair to find the contact information for the entity that issues the NCPDP and NPI numbers so that she can contact them, the DPS-NED and DEA to determine the process and a time-frame it takes for a pharmacy to obtain the necessary licenses/permits in order to dispense drugs.						
Old Business:	HAR Title 16, Chapter 95 – Status Report						
	The EO reported that she is working on the justification and prior to the next meeting, the draft will be sent to the Licensing Administrator, the Director and then to the DAG.						
<u>Open Forum:</u>	Mr. Edwards stated that he wanted to comment on the Laws and Rules Committee report regarding the proposed definitions of "chart order". By clarifying the difference between a "prescription" and "chart order", based on the language in HRS Chapter 328, a "chart order" may not be considered a valid prescription if it does not meet the requirements in HRS 328 for "valid prescriptions" and therefore may not be electronically transmitted.						
Applications:	Ratification List						
	Upon a motion by the Vice Chair, seconded by Dr. Ma, it was voted on and unanimously carried to approve the attached ratification list.						
	<u>Miscellaneous Permit</u> Upon a motion by Vice Chair, seconded by Mr. Inafuku, it was voted on and unanimously carried to approve the following application for miscellaneous permit as an out-of-state pharmacy:						
	Vets First Choice						
Chapter 91, Hawaii Revised Statutes,	At 10:20 a.m., the Chair called for a recess from the Board's meeting to discuss and deliberate on the following adjudicatory matters, pursuant to Chapter 91, HRS:						
Adjudicatory Matters:	In the Matter of the Pharmacist License of Dennis R. Birk, PHA 2008-38-L, Hearings Officer's Findings of Fact, Conclusions of Law and Recommended Order, Board's Final Order, Errata						
	The Chair recused himself.						
	Upon a motion by Vice Chair, seconded by Mr. Inafuku, it was voted on and unanimous carried to approve the Board's Final Order.						
	In the Matter of the Pharmacist License of Huong Nguyen Tran, PHA 2010-28-L, Board's Final Order						
	Upon a motion by the Vice Chair, seconded by Mr. Inafuku, it was voted on and unanimously carried to accept the Board's Final Order.						
	Following the Board's review, deliberation and decision on these matters, pursuant to Chapter 91, HRS, the Chair announced that the Board was reconvening its scheduled						

meeting at 10:54 a.m.
