

**IMPORTANT NOTICE REGARDING THE LANDSCAPE  
ARCHITECTURAL REGISTRATION EXAMINATION ("L.A.R.E.")**

This notice supersedes the information on the application form regarding applying for the Landscape Architectural Registration Examination ("L.A.R.E.").

Please be informed that the Council of Landscape Architectural Registration Boards ("CLARB") has instituted a new exam registration process for the computer-based exams. Besides filing an application for exam approval with the Board of Professional Engineers, Architects, Surveyors and Landscape Architects ("Board"), exam candidates will be required to start a CLARB Council Record in order to sit for the exams. Therefore, exam candidates may wish to establish a CLARB Council Record first with documentation of education and experience, then file an application with the Board. In that way, you may request that CLARB transmit the documentation to the Board (for free) so that you do not have to obtain two copies of the documentation required to establish a CLARB Council Record and apply for exam with the Board.

For more detailed information, please visit the CLARB's website at [www.clarb.org](http://www.clarb.org).
