

Minimum Qualification Specifications
for the Class:

MOTORIZED EQUIPMENT SUPERINTENDENT & SAFETY COORDINATOR
(MOTOR EQUIP SUPT & SAF COORD)

Experience Requirement

Applicants must have had progressively responsible experience of the kind, quality and quantity described in the following paragraph, or any equivalent combination of training and experience:

Supervisory Experience: Three (3) years of supervisory experience in the area of repair and maintenance of motorized passenger vehicles and/or construction equipment. Such experience must have included the following activities: (1) overall planning of the operation; (2) formulation and implementation of operational procedures and policies; (3) conduct of feasibility and operational cost studies; (4) assign and direct the work of subordinates; and (5) train and develop new employees.

Quality of Experience

Possession of the required number of years of experience will not in itself be accepted as proof of qualification for a position. The applicant's overall experience must have been of such scope and level of responsibility as to conclusively demonstrate that he/she has the ability to perform the duties of the position for which he/she is being considered.

Selective Certification

Specialized knowledge, skills and abilities may be required to perform the duties of some positions. For such positions, Selective Certification Requirements may be established and certification may be restricted to eligibles who possess the pertinent experience and/or training required to perform the duties of the position.

Agencies requesting selective certification must show the connection between the kind of training and/or experience on which they wish to base selective certification and the duties of the position to be filled.

Tests

Applicants may be required to qualify on an appropriate examination.

Physical and Medical Requirements

Applicants must be able to perform the essential functions of the position effectively and safely, with or without reasonable accommodation.

This is an amendment to the minimum qualification specifications for the class MOTORIZED EQUIPMENT SUPERINTENDENT & SAFETY COORDINATOR (MOTOR EQUIP SUPT & SAF COORD), which were approved on October 23, 1967.

Date Approved: 2/3/17
