

.....

Minimum Qualification Specifications
for the Class:

TREE TRIMMER

Experience and Training Requirement

One (1) year of work experience in the care of grounds or other landscaped areas which involved trimming and pruning trees, shrubs, and hedges utilizing power saws and other tree trimming tools and equipment, climbing trees with or without the aid of climbing spikes and which demonstrated knowledge of proper safety precautions necessary in working at heights, and operating and maintaining trucks having a factory-rated capacity of over 1-1/2 tons; or any equivalent combination of experience and training.

Quality of Experience

Possession of the required number of years of experience will not in itself be accepted as proof of qualification for a position. The applicant's overall experience must have been of such scope and level of responsibility as to conclusively demonstrate that he/she has the ability to perform the duties of the position for which he/she is being considered.

Licensed Required

Possession of a valid State of Hawaii motor vehicle operator's license Type 3, 4 or appropriate Commercial Driver's License with proper endorsements, as applicable.

Selective Certification

Specialized knowledge, skills and abilities may be required to perform the duties of some positions. For such positions, Selective Certification Requirements may be established and certification may be restricted to eligibles who possess the pertinent experience and/or training required to perform the duties of the position.

Agencies requesting selective certification must show the connection between the kind of training and/or experience on which they wish to base selective certification and the duties of the position to be filled.

Tests

Applicants may be required to qualify on an appropriate examination.

Physical and Medical Requirements

Applicants must be able to perform the essential functions of the position effectively and safely, with or without reasonable accommodation.

This is an amendment to the minimum qualification specifications for the class TREE TRIMMER, which were approved on April 25, 1991.

Date Approved: 11/4/15

for JAMES K. NISHIMOTO, Director
