

Specifications
for the Class:

MECHANICAL REPAIR WORKER

Distinguishing Characteristics

This is the journey-level class in the Mechanical Repair series. The class is distinguished by its responsibility for independently repairing and overhauling a variety of mechanical equipment and tools.

Examples of Duties: *(Positions may not be assigned all of the duties listed, nor do the examples necessarily include all of the duties that may be assigned. The omission of specific statements does not preclude the assignment of such duties if they are a logical assignment for the position. The classification of a position should not be based solely on the examples of duties performed.)*

Services, overhauls, and repairs pumps, compressors, welding machines, jack hammers, electric motors, concrete mixers, pipe cutting machines and other small construction and maintenance equipment; services, overhauls and repairs small gasoline engines; makes periodic inspections of mechanical equipment; is responsible for tools and equipment, keeps records; may perform oxyacetylene and electric welding; may supervise the work of Mechanical Repair Helpers as required.

Minimum Qualification Requirements

Training and Experience: A combination of education and experience substantially equivalent to four (4) years of experience in repairing mechanical equipment representative of the class.

Knowledge of: Practices, tools, equipment and materials used in repairing mechanical equipment; the functions and operating principles of a wide variety of mechanical equipment, including electric motors and gasoline engines; hazards and safety precautions applicable to the work.

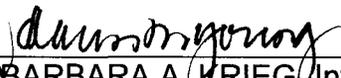

Ability to: Recognize defects in mechanical equipment and take corrective action, use and maintain hand and power tools used in the mechanical trades such as wrenches, soldering irons, cutting and welding equipment, hammers, files, grinders, buffers and drills; understand and follow oral and written instructions.

Physical and Medical Requirements

Applicants must be able to perform the essential duties and responsibilities of the position effectively and safely, with or without reasonable accommodation.

This is an amendment to the specifications for the class Mechanical Repair Worker, which were approved on December 15, 1967.
