

.....

Minimum Qualification Specifications
for the Class:

AUTOMOTIVE TECHNICIAN II

Prerequisite Knowledge and Abilities Required:

Knowledge of: Practices, tools, materials, and computerized equipment used in the automotive trade (e.g., scanning instrument, oscilloscope, digital voltmeter, etc.); occupational hazards and safety measures applicable to the trade; principles of automotive electricity and electronics (e.g., OHM's law, series circuits, parallel circuits, and the theory and operation of semiconductors, capacitors, resistors, diodes, and thermistors, etc.); automotive microprocessor systems (i.e., how the systems work, how various values of sensors respond, and how they are interrelated); principles of internal combustion engines and automotive systems and parts and how they are interrelated; and procedures for analyzing and diagnosing defects.

Ability to: Diagnose vehicle problems utilizing computerized diagnostic equipment and a knowledge of the limitations of the diagnostic equipment; estimate materials, parts and labor necessary to perform any major overhaul; operate various machines and equipment; estimate materials, parts and labor necessary to perform any major overhaul; operate various machines and equipment used in adjusting, maintaining and repairing vehicles; locate, adjust, replace and repair components for microprocessor-based systems (e.g., anti-lock brakes, motor vehicles, etc.); understand oral and written instructions; read and comprehend vehicle repair manuals and electrical and electronic circuits and schematics relating to engine management systems; operate a motor vehicle; plan, assign, review and evaluate the work of others; and keep records and prepare simple reports.

Experience Requirements:

Applicants must have had progressively responsible experience of the kind and quality described in the statements below and in the amounts shown below, or any equivalent combination of training and experience.

Specialized Experience: Two (2) years of journey level automotive repair work which involved the independent performance of the full range of mechanical and electrical maintenance, troubleshooting, and repair work on motor vehicles. The work must have involved utilizing computerized equipment to test, analyze, diagnose, and complete repairs of microprocessor-based systems and components on motor vehicles (e.g., engine/fuel management systems, anti-lock brakes, etc.).

Supervisory Aptitude: Applicants must possess supervisory aptitude.

Supervisory aptitude is the demonstration of aptitude or potential for the performance of supervisory duties through successful completion of regular or special assignments which involve some supervisory responsibilities or aspects; by serving as a group or team leader, or in similar work in which opportunities for demonstrating supervisory capabilities exist; by completion of training courses in supervision accompanied by application of supervisory skills in work assignments; or by favorable appraisals by a supervisor indicating the possession of supervisory potential.

Quality of Experience:

Possession of the required number of years of experience will not in itself be accepted as proof of qualification for a position. The applicant's overall experience must have been of such scope and level of responsibility as to conclusively demonstrate that he/she has the ability to perform the duties of the position for which he/she is being considered.

License Required:

Applicants must possess a valid license to drive in the State of Hawaii.

Selective Certification:

Specialized knowledge, skills and abilities may be required to perform the duties of some positions. For such positions, Selective Certification Requirements may be established and certification may be restricted to eligibles who possess the pertinent experience and/or training required to perform the duties of the position.

Agencies requesting selective certification must show the connection between the kind of training and/or experience on which they wish to base selective certification and the duties of the position to be filled.

Tests:

Applicants may be required to qualify on an appropriate examination.

Physical and Medical Requirements:

Applicants must be able to perform the essential duties and responsibilities of the position effectively and safely, with or without reasonable accommodation. The essential duties and responsibilities require the ability to stand, stoop, bend, and work in cramped spaces for extended periods of time, distinguish colors; and lift and carry up to fifty (50) pounds.

This is an amendment to the minimum qualification specification for the class,
AUTOMOTIVE TECHNICIAN II, which was approved on April 27, 2001.
